BY ROBINSON & LOCKE.

PLYMOUTH, O., FRIDAY MORNING, OCTOBER 27, 1854.

VOLUME II. NO.

The Disasters of Jan Nadeltreiber.

They see a house as dark as an oven, they are sure nobody is in it; they go and steal,

are sure nobody is in it; they go and so of places on this were heard of since it that never would beyond their own beyond their own we, except in those where a light! "There is something in that," sai we not unreasonable, so he delta.

There is something in that, "and Jan. He was not unreasonable, so the determination of the control of the contr

of things in your absence."

Jan stood correctel; for, as I have said he was soon touched to the quick; and when his anger was a little abated, he thought there was reason in what they said, to always the property of the property of the property of the property of the way and the property of the way and the property of the property

will soon get plenty more with those nime the fingers of yours; you want only some looky to help your to keep them. You must get a wife! Journeymen were thirve from the free temperature of the property of t

y fifty dollars and the mayorathy—the jnight wait till doomsday. Well, that it good," thought Jan, as he took a littl
di good," thought Jan, as he took a littl
di more breath, "they first connecled me to
get a light—then went house and all-sin
jbonfare; next, I must get a journeyma
di—then went the money; and now the
would have me bring upon me mone
plagues than Moses brought upon Egyp

A. New, nay," thought Jan, "you'll no."

Nay, nay," thought Jan, "

catch me there no ther."

Jan all this time was seated on the shop

board, attiching away at an amazing rate

had fed their flocks and their herds on t hills for three generations, it was deat poison! pestilence! Neverthhless, as J and the damsel were agreed, every thi else was nothing—they were married. Jan, it must be confessed, was exceeding

Jan, it must be confessed, was exceeding by exaporated that the future mayor o Rapps should be thus estimated and treat d., and determined to show a little spirit. As his fiddle entered into all his sedemas he resolved to have music at his wedding and, no scenar did he and his bride issue from the church-door, than out broke th harmony which he had provided. This fiddle played merrily, "you'll repent, re

hiddle played merrily, "you'll repent, repent, repent—you'll repent, you'll repent —you'll repent, repent, repent; and the bassoon replied, in surly chones, "ansoon, and soon." Thus they played til they reached the inn, where they dined and then set off for Range.

It is true there was little happiness it this affair to any one. The old people were full of anger, curses, and threats o discomment; Jam's pride was picked an operforated till he was as sore as if he had been as the late of the control of the co

Again the saving scheme began to haun Jan; but he had one luckless notion, which was destrined to cost him no little vexation that he had inherited from his father, togethe with his stock in trade, a stock of old max that a woman cannot keep a secret. Act ing on this creed, he not only never tolk his wise of his project of becoming mayo of Rapps, but he did not even give he reason to suppose that he had hald up, shilling; and that she might not happe to stumble upon his money, he took car to carry it always about him. It also his to carry it always about him. It also for its he came along a retired lane from or is he came along a retired lane from

to carry it always about him. It as is to delight, who he got into a quiet form or is he came alone age a retired lane for its errands, to take it out, and count: this errands, to take it out, and count: this sum' and to that, and when the proset, sum would really be his own. You it happened one day that having be a good deal absorbed in these speculation he had loitered a precious piece of it way; and, suddenly coming to himse way; and, suddenly coming to himse casy trot; in which his small, light for lawy; and, suddenly coming to himse say trot; in which his small, light for any the say of the same behind him, he cut one of the me extraordinary figures in the world; as checking his pace as he enteren the tow he involuntarily clapped his, hend on I be it to his slipped away through a hole is it. were. In the willness and histerness

pocket, and, behold I his money was gone, it has altipped away through a hole it had were. In the wildness and bitterness of his loss he unreal leach, hearity carsing the hole of the hol

him, as well as she could, for want of breath, that he must come that instant for the Ritter of Flachenflaps had brough the Ritter of Flachenflaps had brough threatened, if he did not see Jan in five minutes, to carry the work over to the oth evident of the stress. Here was perplexity were found in the presence of his wife, he were found in the presence of his wife, he may be a see that the stress of the stress of the stress had been a see that the stress of the stress of the stress had been a see that the stress of the stress of the stress had been a see that the stress of the stress of the stress of the stress had been a see that the stress of the str

were found in the presence of his wife, her cogneded it as no better than lost; but found it was not, and he was forced to tell a lie into the bargain, being caught in the act of searching for something, and say he worse, he was in danger of losing a good job, and all the Ritter's work for ever as a consequence. Away he ran then, grousing inwardly, at full speed; and arriving out of breath, saw the Ritter's carriage drawn up before his opponent's door. y was lost I his best customer was lost, and thrown into the hands of his detested censary. There he beheld him and his man in a prime bustle, from day to day, while his or an above the Ritter went, of course; his adversary was fourishing out of all bounds; he had got a horse to ride out and take orders, and was likely to beome mayor the years before Jan had fen dollar of his quite emperature; he saw down to the very depths of despair; his fiddle had lost its music; he could not habite to bear it; he sat modey and discon-

come to the core couples of despit; the dide had lost its music; he could not bide to hear it; he sat moody and discondate, with a beard an inch long. His rife, for some time, hoped that it would off; but, seeing it come to this, she gogan to console and advise, to rouse his courses and his spirite. She told-dain if some to the course so that spirite. She told-dain if sage to his neighbor. While he were ranging on foot, wearing himself, and earliers, and spatch stress, and specific some force in the country of the country of

the way; it would look as though he do business in the country; it would ok as if his time was precious; is would to well, and do his health good into the regain. Jan liked her counsed; it sound: constingly the country is constingly the country in the country of the country in the country i

The ass, however, was got out rode Jan-looked amazingly hurried, and being half crazed with care, people fancied

he was half crazed with stress of business; work-came in-things went flowingly on again; Jan blessed his stars; and as he specially a stars; and as he specially a stars; and as he was a star in the core of the special stars; and as he was a star in the crown of his cap. No more pots—no more hiding holes—no more breech-ey pockets for him; he put it under the guardinaship of his own strong thread and dextrous needle; it went on exceedingly well. Accidents, however, will occur, it because the control of the star in the control of the control o

principle, running suceways, wincome, per. What in the name of all Balaam's, could possess the animal, he could not for some of the suceways o

Fortune now seemed to speak as plain yas alse could speak—"Jan, confide is your wife. You see all your schemes with out her fail. Open your heart to her deal fairly—generously—and you will rea the sweets of it." It was all in vain; is had not yet count to his sences. But, good solved to mount was his shop-boad; thu pore him well, and brought him contin lang good, could be only contrive to kee

His wife was from the mointains the therefore likely the sight of trees. Now in Jan's back yard there was neither tree morturif; es be got some tushs, and it them she placed a variety of fir-crees, which make a pleasant appearance, and gave to the mative seems. In one of these this jan conceived the singular idea of depositing his treasure. "Nobody will metalle with the tush," he thought; so accordingly, from week to week, he con had you for the property of the week of the tender of the tree with the time. "It is that he was the singular time and the time time in the late was the singular time. The had been on

had gone a long time. He had been ool collecting some debts; he had secreticle beyond his hopes; he came back exulting the had bought his wife is new gown. He bounded into the house with the lightness of seventers; his wife was not there—he looked into the yearsants; and angels:—what is that? He beheld his wife busy with the trees; the year uproted; and laid on the ground and every particle of soil was thrown on attion he flew to ask what she had beer doing—"Oh, the trees did not flourish poor things; they looked sickly and pin ing; she determined to give them som soil more suitile to their nature; she has thrown the other earth in the river at the bottom of the year?." "And you have thrown into the river the hoarding of three years—the money which had cow me has

ment of the view to changing of three chem cape which had cost me when yeary day, and many an anxious see, in short, that would have made see, in short, that would have made anyor of Rappa," exclaimed James of the seed of

RESULT OF FASHIOX.—We noticed beautiful pooled got protting along of streets yesterday, who had been complete shaven, except two graceful tuffs descending from either side of the upper je forming as complete a monstache as it most exquisite could sigh for. The lit creature seemed to realise his important

QUITE UNANIMOUS.—A good deacon making an official visit to a dying neighbor who was a very unpopular man, put the

"Oh yes," said the sick man.
"I am glad of that," said the deacon, "for all the neighbors are willing."

In Behtan's "Thirty Years' view." in snectoic of Lafayete, that when a preaching the harbor of New York, made the unsophisticated inquiry wheth his servant would be able to find a lasek the piler to convey his party to the hotel, little did he anticipate the national pages which anxionaly a waited his landing.

It is with narrow-souled people as w narrow-needed bottles—the less they he in them, the more noise they make in poing it out. Prom the New York Mirror, Oct. 4. rize Ode to Powers' Greek Slave.

Compopilitan Art and Literary Association, purchased some lines since, the original status of Fower's Greek Slave, as one of the prinse if Fower's Greek Slave, as one of the prinse if the state of Fower's Greek Slave, as one of the prinse of Fower's Greek Slave, as one of the prinse of Fower Slave, and the prince of the prince of the Greek Slave, and the state of the Greek Slave, and the slave of the Greek Slave Slave, and the slave of the Greek Slaver Willis of the Musica Slaver Willis of the Musica Slaver Slaver

O Greek! by more than Moslem fetters thrall'd Omarble prison of a radiant thought. Where life is half recell'd: And beauty dwells, created, not enwrought, Why hauntes thou my drams, curvobed in light, And atmosphered with purity, wherein, Mise our soul is transferred, and glows bright

O chastity of Art!

Behold: this maiden shape makes solitude
Of all the busy mart;

Benesth her soul's immeasurable woe,
All sensous vision lies subdued,
And from her veiled byes the flow
fears, is inward turned upon her hearl,
While on her prizoning lips
Her eioquent spirit swoons,

And from the lastrous brows' eclipse alls patient glory as from clouded moons! Severe in vestal grace, yet warm And fezible with the cliente glow of youth She stands, the avest embodiment of truth re pure thoughts clustering around her form, like seraph garments, whiter than th' snows Which the wild sea unthrows.

O Genius! thou can'st chain ot marbie only, but the human soul, And melt the heart with soft control, And awake such reverence in the brai That man may be forgiven, in the ancient days he dwelt

Genius is worshipped! for its works adore
The infinite source of all their glorious tho't
o blessed Art, like Nature, is o'erfraught
With such a wondrous store
if hallowed influence, that we who gaze

Go, these, fair Slave! and in the fatters teach What Heav'n inspir'd and genius bath design Be thou Evangel of true Art, and preach The freedom of the Mind!

On the Venom of Serpents.

The following, by S. Gilman, L.

The following, by S. Gilman, L. L. D., published in the St. Louis "Medical Journal," is the most interesting article

we ever read on the subject:

There is much if the history and haba is of the repulle tribes, however repulsive
they may be in appearance, that is very
interesting. During a sojourn of two or
three mouths in the interior of Arkansas,
which appears to me to be the parditter threath of history called cyhology,
of I found four distinct varieties of ratilesankes, (crotalus,) of which the Crotalus
of Horridus and Crotolus Kirtlandii are by
far the most numerous. The former is the
largest serpent in North America. The
family of moccasis scales Conjunct less
than the control of the control of the contraining of moccasis scales Conjunct less
than the control of the control of the contraining of moccasis scales Conjunct less
than the control of the control of the contraining of moccasis scales Conjunct less
than the control of the control of the contraining of the contraining of the control of the contraining of the contrai

screents. It consists of a strong fraints work of bone, with its appropriate massive work of bone, with its appropriate massive with the second property of the

two or three drops of venom, which resembles thin hory. The sack is so connected with the of the fang during incretion, that a slight fings at its base, and it makes its exit at a small slig or opening near the point, with considerable force; thus it is carried to the bottom of any wound made by the fang. Unless the fangs are creeted for the mouth concealed inc. the external and internaized boxes, somewhat like a pen-kusilate but the control of the conline of the control of the contro

blade abut up in its handle, where they are covered by a fold of membranes which encloses them like a theat—this original dendition of the control of the co

The process of robbing serpents of the venom is easily accomplished by the of chloroform, a few drops of which a pifes them. If, while they are under influence, they are carefully eased by a neck and the variant dentits had out
