News Items.

A huge depot is being erected at the Canada end of the Niagara suspension bridge. It will be 1000 feet long and 150 feet wide. The president of the United States has just had a attack of the chills and fever, similar to that suffered from last year.

The yellow fever still continues to prove a great virulence and fatality at Norfolk and Portsmouth. The Missouri papers say more corn will be raised in that State this year than any previous year. Much of the wheat land averages over 40 bushels to the acre.

The cholera is still committing its ravages in Lawrenceburg, Kentucky. On Sunday there were five deaths. Thirty persons are now lying sick, and the whole population are panic stricken.

The following took place at a celebration of the 75th anniversary of our National Independence in the Fayette Hotel in Pennsylvania. "My bleeding country—may she never be pierced again!"

ARTHUR COLLIER—"This institution is greatly embarrassed, and without the prompt aid of friends must fail. The present difficulties are attributed to the lack of judgment and skill in managing the financial department—\$75,000 is needed to place it again on a firm foundation."

A writer in the Tribune from Rutland, Vt., says that the value of the marble taken from the quarries of that place during the past year exceeds that of all the copper taken from the Lake Superior region. \$750,000 is the amount of the past year's business, and it is rapidly increasing.

According to a statement being prepared by E. Merriam, the number of vessels which were lost or injured in 1854, are 5,382, exclusive of steamships. The French republic has now well over the aggregate to 8,000. The loss of life exceeds 9,000, and the loss of property will be about \$40,000,000.

The decrease of the brandy trade is strikingly illustrated in the absence of all American vessels from the port of La Rochelle for the last six months, a fact which is said never occurred since the French republic was proclaimed. The failure of the grape crop and the temperance movement in the United States.

There are two coal veins in Illinois, at La Salle, which are each of them five and a half feet in thickness and of the purest quality. They are 140 and 180 feet below the surface. Veins of coal are on the surface, but they contain sulphur, and are not so valuable. Coal will be taken to Chicago at two dollars per ton when the shafts and mines are completed and in operation.

DR. HOOD'S LIVER AND BILIOUS PILLS. Prepared by Dr. C. M. Jackson, Phila. Pa. LIVER AND BILIOUS PILLS. Jaundice, Chronic or Nervous Biliousness, Dropsy of the Kidneys, and Rheumatism arising from a Bilious Liver.

The number of Protestant parsonages (exclusive of Presbyterian) is reckoned at 1,288, and the number of Roman Catholics, at 17,961. Taking the criminals generally, there were 983 Protestant felons, and 9,964 Romanist; 2,957 Protestant misdemeanants, against 25,817 Romanist. The Protestants do not include the "Protestantism," of whom were 215 felons and 678 misdemeanants. There were 442 male and 577 female Protestant convicts, against 5,138 males and 8,665 female Roman Catholics, and 530 male and 85 female Presbyterian criminals.

BOUNTY LAND WARRANTS—The total number of applications received at the Interior Department in Washington, for bounty land warrants under the last general act of Congress, up to the close of August, was 209,800, of which 160,000 were acknowledged, 26,882 allowed, and 23,988 warrants or certificates issued. Six hundred and eighty of the claims examined are for soldiers of the Revolution or their widows, of whom were five hundred and twenty-two who had numbered sixty-three to the soldiers themselves, now living, and four hundred and fifty-five the widows of the revolutionary men.

NEW ORLEANS DOCTORS AND WOMEN—The Norfolk correspondent of the Baltimore American writes: "Ricardo of New Orleans, and his gallant party of doctors and nurses, are doing noble service. They are a unique organization, and I cannot help telling you of a peculiarity of Ricardo, who as you know, is a whole-souled Southerner. He calls his names the 'French auxiliary,' and has them in a good discipline as you were a military company. They sit either at the hospital, at the old City Hotel, and the instant he calls for one, he rises and answers, and immediately bundles up and travels to the place designated. I never saw such system. They that we had it before."

PRESIDENT PIERCE AND CAPTAIN TYLER—A FRATERNAL EMBLEM—There was an affectionate meeting of the Virginia White Sulphur Springs on the other day. The President came down to get rid of the Washington chills, and was welcomed by Captain Tyler, of the First Floor of the State Capitol, and Mr. Pierce said that nothing could have been more brilliant than the reign of Mr. Tyler. The interchange of kind words and expressions of a remark made by a Whig Senator in Washington, whose name does not seem to be mentioned in the present administration, "Gladstone," said by Captain Tyler, "I have never seen you in administration, in my opinion, a very good one." "Why?" exclaimed surprised inquisitor, "because you have never seen me in the White Sulphur Springs, where I have just had the good fortune to be accompanied by my wife and daughter."

BAUCH'S AFRICAN COMPOUND.

F. V. Z. GOVEY & CO., are Sole Proprietors of a New and Perfect Formula, just discovered, of Extracting and Combining the Medicinal Properties of Plants, without their Impurities.
