The Mansfield News, in its note concerning the county C. E. convention, held in the above city last week says: "It was thought when Dr. A. C. Miller failed to show up at supper at the Presbyterian church Friday evening, that perhaps the mob had mistaken him for a Zion seeder and the appointment of a searching committee was considered, but the doctor just then appeared and it appeared a late train was the cause of his delay."

Ex-Secretary of State John Sherman died at his home on K street, Washington, Monday morning at 6:45 o'clock. He was one of the greatest financiers that or any other country has ever known, and his memory will be a living monument to the American people. His funeral was held at Mansfield Thursday, quite a number of his friends and admirers from this place attending, the survivors were the remains of the soldier and statesman.

On the 10th of December, 1897 Rev. S. A. Donahoe, pastor M. E. Church, South, Ft. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by Webber & Co.

In a report just issued by the United States weather bureau on the thunder storms of 1899 it is stated that the wire clothes line was the cause of at least a dozen deaths last year. That number of women were struck by lightning and killed while taking clothes off the line. Prof. Henry says that a wire clothes line ought never to be permitted to come within 50 feet of a dwelling. Much less should it be fastened to one corner of the house, as is commonly done.

Do not get scared if your heart troubles you. Most likely you suffer from indigestion. Kodol Dyspepsia Cure digests what you eat and gives the worn out stomach perfect rest. It is the only preparation known that completely digests the food, so that it is why it cures the worst cases of indigestion and stomach trouble after everything else has failed. It may be taken in all conditions and cannot help but do you good. Webber & Co.

The Nineteenth Century Circle met at the home of Miss Luella Wrandt on Monday evening, Oct. 15th. General information was given in response to roll call. A reading-'From the Story of Africa's Farm.' A Boer proposal and Wedding, was read by Mrs. Sherman. Miss Fox gave some interesting Current Events. During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cante of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniments and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by Webber & Co.

Many hundreds of physicians depend upon the use of Kodol Dyspepsia Cure in stomach troubles. The Marietta, Columbus & Cleveland Railroad Co. of Marietta, was incorporated at Columbus Tuesday, with \$250,000 cash, and a direct route is from Marietta through Palco to Columbus. It will probably be a steam railroad and will probably parallel the Toledo and Ohio Central as far as Columbus and the Big Four west of that way. This being the case probably a little exertion on the part of our people might induce the company to locate their line through our place.

Col. Ray, Eighth Infantry, U. S. A., fresh from an Alaskan experience, reverses one's ideas of that distant portion of Uncle Sam's domain, which is generally regarded as an inhospitable realm, much given to ice and snow and mosquitoes of remarkable size and capacity. Col. Ray says there are no severe storms in the interior in winter, and that he seldom wore an overcoat in winter. He has seen blueberries grow two tons to the acre, and fourteen hundred bushels of potatoes grown on four acres of ground.

Rev. Dr. E. T. Hagerman received a telephone message from Lakeside early Wednesday afternoon to the effect that a fire was raging there in the locality known as Kanton Row, and that seven cottages were in ruins, among them the Barkdull and the Cortrite-Watros cottages. The fire started in the Barkdull cottage, but its origin is unknown. The fire extended from Second street until seven cottages had been destroyed. The buildings burned were nicely built structures and the loss will amount to considerable.—Reflector.

If the southern states do not look well to their laurels Ohio will be a close rival in which to establish summer resorts for the people who are in the habit of going south to spend the winter. Wednesday afternoon A. T. Morrow, residing west of this place, drove into town with a load of watermelons, which he had just picked from the vines, which are still green and loaded with melons at this season. This is certainly unusual, as the season for melons in this section usually ends a month or six weeks earlier. But this is only one instance that goes to show what the climate and soil of Ohio will do.

Here is some good advice to parents from one of our boys: "Before you listen to the complaints of your children about the fecklessness of the teachers, and get all worked up and excited over it, it is better to reflect a little. Remember your own or a half dozen cherubs drive you crazy about half the time and wonder how you get on when it is making for you intelligent men and women of an unpromising material as you were twenty or thirty years ago. Remember that besides your own boy, who, of course everybody knows is an angel, she has to contend with the awful boy of your neighbor's and you know full well what a terror he is."

Owing to their rapidly increasing manufacturing and wholesale mail order trade, which now requires their undivided attention, the Root Bros. Co. have concluded to discontinue the retail features of their business, and confine themselves hereafter strictly to manufacturing and jobbing. With this end in view they transferred their uptown store this week to Messrs. C. E. Beaver and D. E. Huffman, who will conduct the business hereafter at the corner of the Plymouth Hardware Co. Mr. Beaver has been with the old firm for the past year, and is well known as a young man of sterling quality and good business principles. Mr. Huffman was for two years connected with the firm of Seltzer & Stead, Shelby, and later as local agent for the Osborne Co. at Mansfield. A little later he will remove with his family to Plymouth. With the well known hustling propensities of the new firm, it is safe to say the business interests of our place and little town will still be kept in the front.

The idea that a small town must necessarily depend upon a very limited amount of trade is altogether erroneous. Just as soon as a town gets a reputation as a money saver for the purchaser, just as soon as the farmer becomes convinced that he can get as much or more for his money, that town no matter how small, will draw trade. There is nothing so sure to bring in a customer to your store the second time as to give him a bargain the first. The business transactions with a moderate profit make more money than one deal with a large gain. And if merchants will advertise persistently and judiciously, the people will come their way in search of bargains.

It is not generally known that a pension signed and authorized by law to build sidewalks on either side of any public road in their township also public footbridges over streams across any public road. But before the trustees can act under the law it must be made to appear to them by a petition signed by twelve freeholders of the township, that such footwalk, sidewalk or footbridge is necessary, freeholders being persons who have real estate absolutely or for life. If they deem the petition reasonable, may order the supervisors of the proper district to construct the footwalk, sidewalk or bridge of such material and at such cost as they shall prescribe, or they may let the work to the lowest responsible bidder, the expenses to be paid out of the township road fund.

The beautiful parable of "The Prodigal Son" (Luke 15: 11-24). Golden text: "I will arise and go to my father."

No man in the New Testament is more familiar than the parable of the prodigal son. Yet this very familiarity prevents many readers from appreciating the parable's beauty.
