Model Room

New Haven.
Deferred from last week.
F. H. Long and family spent Sun-
day in Shelby at the home of their
son, Ross Long.
J. W. Palmer, who has been suffer-
ing with sciatic rheumatism, is
somewhat better.
Eugene Case spent several days
this week at the home of his cousin
near Boughtonville.
Mrs. A. A. Carpenter of Plymouth
spent Thursday last week with
Mrs. I. M. Croninger.
Mrs. J. H. Mills spent several days
in Cleveland last week, at the home
of her son, A. J. Mills.
Mrs. Ray Dickinson entertained the
ladies of the M. E. Aid Society
Thursday of this week.

Miss Irene Myers, who spent a few
days here with friends, returned to
her home in Peru Tuesday.
Mr. and Mrs. Carson, who have been
living in Miss Knight's home,
have moved to Plymouth.
Marx Myers and wife of Peru, and
W. A. Garrett, spent Sunday at the
home of Mrs. C. J. Garrett.
Mr. and Mrs. Will Myers moved
last week into the Newman home
near the S., N. & M. street car line.

An event of interest last Friday
was the celebration of the birthday
anniversaries of Mrs. Bertha M. Mc-
Laughlin and Miss Ella Snyder by a
number of their friends and former
schoolmates.

J. S. Lewis and niece, Mrs. W. J.
Skinner, spent last week with friends
in Newark, attending the fair, and
were over Sunday guests in Colum-
bus, of his brother-in-law, Dr. W. S.
Long and family.

Presbyterian Church.
Next Sunday morning Rev. Grif-
fiths, the energetic pastor of the
church will issue a very lively
discourse from his pulpit. His
theme will be "Mother, The Best
Primary Teacher." The word Mother
is good enough and dear enough

to convince all mothers of the neces-
sity of winning their children's love.
The expectations are that this ser-
mon will be the greatest sermon ever
delivered by Rev. Griffiths. This
sermon will appeal to teachers, high
school students, and more especially
will it appeal to the mother.

This sermon is expected to show
the young Divine at his best. All
mothers, sons and daughters, then,
should not fail to hear this great
sermon.

An appropriate solo will be ren-
dered by Mrs. Jean Seville. Every
mother endeavors to be a teacher.
They will find it an inspiration and
great benefit by not missing next
Sabbath morning's sermon. The
pastor wishes to extend a very warm
invitation to all.

Rev. Griffiths urges all members
of the chorus choir to be present at
7 p. m. this evening for rehearsal.

The Water Wagon.
Here's a howdy-do, as they said in
the Mikado. Over at Cleveland
thieves stole a water wagon Sunday
night. Fact. A ton truck loaded
with distilled water is missing. The
driver stopped to deliver water at a
house and when he came out some-
one was sailing the water wagon
down the street and it has not yet
been apprehended. On the verge of
a statewide wet and dry fight the
disappearance of the water wagon is
causing much apprehension. Dry
claim, of course, that the wets have
hidden it till after election, fearing
the power of suggestion. On the
other hand the wets aver that the
drys assuredly must have had some
hand in the disappearance of the ve-
hicle as they may be fitting it with
seats for the multitude. At any
rate the water wagon has disappear-
ed and Cleveland does not know
whether to weep or cheer.

**YOUR attention is re-
spectfully called to
an important point
not generally known,
that a laxative should have
a tonic element to success-
fully meet constipation.**

Mr. John B. Capers, of 610 Pecan
St., Fort Worth, Texas, had a sig-
nificant experience in this particular.
He was afflicted with a severe case of
constipation and bowel trouble. He
spent a good deal of money in trying
to find a remedy. To his astonish-
ment Peruna very quickly relieved
him of this distress-
ing sym-
ptoms.
This happened a
number of years
ago. Since then,
Mr. Capers states
that he has had
similar attacks of
trouble, the promi-
nent symptom of
which is constipa-
tion, and has al-
ways found
prompt and ef-
ficient relief from
Peruna. He says:
"Up to the time I
started this young
Peruna I could
drink castor oil
like water. It did
no good. My doc-
tor, who was a
physicist, told me
that he had called
on the fountain
spring for help. Peruna was able to
correct this condition completely in
Mr. Capers' case, and there is every
reason to believe that it was the tonic
qualities of Peruna, added to the laxa-
tive qualities, that procured this very
desirable result."

Township Schools.
Summer is over! Vacation days
have come and gone! The last town-
ship school began its schools Monday,
Oct. 5. The townships in this dis-
trict are: Cass, Sharon, Plymouth,
and Jackson. The sub-districts, the
teachers and the number of pupils
enrolled are as follows:
Cass Township.

Nearly all the children of school
age in this district are already in
school and we hope all will be in
soon. The County Superintendent
and the District Supervisors are en-
deavoring to bring the rural schools
of this county up to a higher stan-
dard of efficiency, and would be glad
to feel that they have the coopera-
tion of all the parents.
F. B. FAIRCHILD,
District Supervisor.

How to Help the Retailer.
Every time this newspaper prints
the advertising of a standard article
it is helping the retailers who handle
that product.
It is to the interest of retailers
that a newspaper should increase its
general advertising—because it stimu-
lates business at their stores.
People like to see the goods they
read about in the newspapers.
If prices and quality suits them they
buy.
Every retailer means a considerable
profit to the retailer.
Retailers help their home news-
paper and help themselves when they
push these goods.
It is a co-operation profitable alike
to the dealer, the manufacturer, the
newspaper, and the consumer.
Attractive in appearance, delicious
in flavor and goodness, bread
and cake made with Snow Flake Flour
is the best you can buy.

Twentieth Century Circle.

The Circle met on Oct. 12th, with
Miss Ruby Clark as hostess. The
subject for the evening was "The
Wife in Art, and the following papers
were listened to with interest:
Lucretia Fedi Mrs. Trauger.
Lucretia Buti Mrs. Sauer.
Maria Ruthven Mrs. Nimmons.
Elizabeth Eleanor Siddall Mrs. Searle
Helena Fourment Miss Fleming.
Saskia Van Uienburg Mrs. Walker.
Supplementary Reading Mrs. Sauer.
Nineteen members responded to
roll call, after which the society ad-
joined to meet on Oct. 26, with
Mrs. McClintch.

**Take Mammoth Picture of Facul-
ty and Students.**

Over 4,000 students and members
of the faculty at the Ohio State Uni-
versity were photographed Wednes-
day in one mammoth group. This
is one of the largest group pictures
that has ever been taken. Tier after
tier of bleachers were set up on the
campus and the students were seat-
ed according to their respective col-
leges. If the picture proves to be a
good one it will be exhibited at the
Panama Exposition.

A similar picture was taken at the
University three years ago, but it
did not compare with this last one
in size. When it was taken, how-

ever, it was the largest group picture
that had ever been taken in the
country. Since this time larger
pictures have been taken of the em-
ployees of large factories.

Because of the uncertainty of export, apples may be cheaper this year than previously. Dealers are afraid they will be unable to ship and are not making large deals in apples with the result the entire crop will have to be disposed of in this country.

Pumpkins, the most popular article on the market during the season, have arrived. If this article were missing, the joys of autumn would be few. Plenty of pumpkin pie will be available this season and pumpkin faces for the Halloween season will be legion.

Judge Babel of Crestline, in common pleas court at Findlay, Thursday last week, granted a restraining order preventing the Logan Natural Gas Co. from collecting 60 cents a month from patrons whether they use that much gas or not. Findlay council recently granted the company a new franchise.

A good auto driver is recognized by the noise he does not make. If he permits his engine to run away and disturb the whole town, he is a novice; but if he stops and starts in a quiet, easy manner, he is an expert. Some who have had machines for years are still on the novice list, while others have become experts in a few weeks.

The old fashioned farm dog used to have an easy time barking at passing vehicles, but since there are so many automobiles and motor cycles running about the country he is kept pretty busy. Occasionally a presumptuous canine tries to chase a buzzwagon off the highway and the speed maniac gets him, then his kiki is silenced for evermore.

County Treasurer Joseph Hale has announced that the tax rate in the majority of the taxing districts will be lower this year. Richland county has 43 taxing districts and in all, except Shiloh corporation, Springfield, Sandusky, Jackson, and Milfill townships, the rate will be lower. The tax rate for Madison township will be 10 cents a hundred or \$1 less on the thousand, being reduced from \$7 to \$7. The tax rate in the city will be 4 cents lower on the hundred.

Acting on instructions from the Logan Gas & Fuel Co., the last branch of that company, last week notified consumers that the supply of gas will be discontinued after Nov. 30. The company's franchise has eight years to run. The action is said to follow the city's victory in the fight against increased rates. Court of appeals recently enjoined the company from raising the price from 18 to 25 cents. All public institutions and private houses are laying in supplies of coal although court procedure may halt the company's proposed action.

Two automobile trips are planned through the southern and northern parts of Richland county on Friday and Saturday. J. A. Adams, the Texas temperance leader, will be the principal speaker on these tours. On Saturday there will be a big trip through the northern part of the county. The Mansfield delegation of workers will go to Shelby on the interurban car and there be joined by the other workers and a band. There will be about fifteen automobiles to make the trip. A meeting will be held at Plymouth at 3:00, Shiloh at 4 and Shelby at 7:30. Rev. B. H. Gearhart, Jr., will be the other speaker at these meetings.

Some people are inclined to deprive themselves of conveniences and necessities which they means fully warrant and which they would appreciate were it not for their desire to accumulate surplus funds from which they derive no especial benefit. So they work on, day after day, eating the bread of carefulness, laying up yellow dollars, and warranty deeds until old age writes their faces all over with its wrinkle record of care and privation. Death finally gives them their last land title to a dozen square feet in the cemetery. Their children generally feel sorry that the old folks didn't last longer, but console themselves that the fact of their making pockets in shrouds has gone by, and that the bank account still survives. Have you not observed that the green cure of the excellent blotting paper for 25c tears of grief.

Helpless Lung Trouble Cur'd. Many recoveries from long troubles are due to Dr. Bell's Pink Pills. It strengthens the lungs, checks the cough and gives relief at once. Mr. W. S. Williams, Gates, N. Y., writes: 'I used Dr. Bell's Pink Pills. It gave me a new lease of life and helped me to get a complete cure. Get a bottle of Dr. Bell's Pink Pills. If you cough or dry and hacking let it settle down your throat, you will surely get relief. Only 50c at your druggist.'

SCHOOL NEWS.

(Conducted by the Superintendent.)

We teachers appeal to the parents to keep tab on the progress of your children in school. Have you examined their report cards yet? Do you ever see them? Do you sign them? Do your children sign your name? Parents, visit the school sometimes unexpectedly and see how your children measure up with other children. Don't put these matters off until the end of the year, and then imagine that your children have not had a square deal. Is it not just possible that some children deceive their parents sometimes? Are you one of them? Would you allow your children to annoy the teachers and pupils if you knew it? Some of the pupils do this sometimes. Parents, you can help if you will.

For several reasons we have disbanded the football team. We were reluctant to do this, but we thought it best to do so.

We are getting ready to do manual training work in our schools and shall have some useful work. We shall have a good work thing to report later.

Our foot ball team has done well this year considering all things. Shelby has a population several times that of Plymouth, and Ashland is larger than Shelby, yet we made a good showing against both teams. Ashland used 22 players against our 13. Shelby had a number of substitute players to rest their regulars. Both teams we have played have outclassed us in size and number of available players.

The high school present, on Friday, Oct. 30, the following program: Debate: Should football playing be allowed by the school authorities? Affirmative: Floyd Major and Geo. Hershiser; Negative: Gerald Howell and Arthur Brumbaek.

H. H. SIBBETT,

Boughtonville Elevator Man Will Soon Retire From Active Business.

Next February it will be 15 years since H. H. Sibbett began maling the throtle of the Boughtonville elevator and he says he is going to retire from the business. It has been 21 years since Mr. Sibbett had a vacation of three consecutive days and when he turns the business over to other parties next February he is going to see some of the country. Mr. Sibbett takes one day each year at the Attica fair, but he works until the last minute before leaving. If there is a farmer who lives within many miles of Boughtonville that does not know Mr. Sibbett, he must be a new arrival in Huron county. He is so well known in the grain business that a representative of Bradstreet wanted to put his picture in the Bradstreet rating book. Sibbett has weighed so much wheat that it has become a second nature to him and he can guess the number of bushels on a load by looking the farmer in the eye when he drives on the scales. He has been a resident of Huron county all his life.—Chicago Telegraph.

During the winter months let's plan to push Plymouth well to the front another year. We have a town of great advantage and all that is needed is a united effort on the part of her citizens to make it the foremost of any of its size in the state. Then why not all together give her another boost upward.
Matters pertaining to the extension school, which will be held in Plymouth during the month of February, are well under way. The affair will be widely advertised throughout this section and there is no question but what it will be largely attended by farmers and their wives, as domestic science will be one of the features of the school.

Miller, our furniture dealer having delivered three large loads of furniture to parties in the above town this week. Come on over neighbors, for we can surely please and meet your wants.
Plymouth will be very much in evidence along political lines Saturday. Two meetings are scheduled here for that day, the first to be held at 8:00 in the afternoon, at which prominent anti saloon people will occupy the boards. In the evening Governor Lamb's Cox and other democratic speakers will discuss state issues to the needs of Plymouth and surrounding territory. The music for this occasion will be furnished by Otter's Ladies' band.

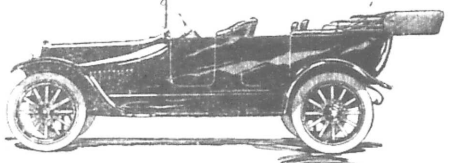

The J. D. Fate Co. has begun to feel the depression as a result of the European war, and have cut their working time to nine hours with Saturday off.

"Mae, I have come to kill you," exclaimed Curtis D. Maxwell of Mansfield, 38, hack driver, when he burst in a door at midnight Saturday night at the home of Mrs. Mae C. Maxwell, 32, from whom he had been divorced three days before. He fired at her, the bullet grazing her temple, and then killed himself.
Citizens of Attica are considerably elated over the striking of natural gas in that village. A well being put down on the C. C. Sutton lot encountered first a vein of salt water and then a vein of shale gas. The well is now 175 feet deep and it is said that there are indications of oil. The drill is at present in the black shale.
Apples, apples, apples. "Eat an apple a day and keep sickness away." Eat more of them and help cut down the high cost of living. These and many other arguments will be heard throughout the country between now and October 20, for the apple growers of the country have started a movement to induce the public to eat more apples. October 20 has been decided upon as "Apple Day" throughout the United States.
"J. C. Brewbaker, of Plymouth, candidate for county commission" on the democratic ticket," says the Chicago Junction Telegraph, "was in the city Tuesday calling on friends and he could not make the rounds in one day. He has many friends in this city, in fact, all of his acquaintances are his friends. Mr. Brewbaker is making a clean-cut campaign and is entirely on his own resources. He says if he is elected—well, there's no use repeating it. Every one who knows Mr. Brewbaker knows that he will do the duties and serve the tax payers in the best manner possible. He is going to gather up many republican votes in this end of the county as the straight party ticket is becoming more extinct at every election." Yes, and Plymouth will do her share to elect him, too.
The patrons of Wonderland Theatre have a rare treat in store for them next week Wednesday evening in "The Master Criminal," which will be presented in four parts, of sensations and surprises. The synopsis of the play is as follows: "Collin, a rare specimen of criminal with the faculties of a natural born leader, having won the confidence of the habitues of the underworld, is made their leader. Thrown into prison, he escapes with the aid of his accomplices times without number, and after reaching freedom, always manages to elude the police long enough to accomplish his nefarious schemes. How he makes dupes of the men and women he comes in contact with and how he manages to slip through the fingers of the police is told in a startling surprising series of episodes, but, fortunately, he sees the error of his ways, and reforming, becomes chief of the police. From being Master Criminal, he becomes Master Criminal Hunter."

CONSUMPTION TAKES 350 PEOPLE DAILY
Over 350 people succumb to consumption every day in the United States. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it upholds the restorative forces of the body to avoid colds and prevent consumption. If you work indoors, eat easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes.

NOT EVEN AN ACQUAINTANCE

American Girl Surely Had Reason for Complaint Against Impertinence of Accoster.

You remember how in the piping days of peace, when something simply had to be done to make talk, there was a hue and cry about American girls in Berlin and the dreadful things they did under pretense of studying music. Here is a story of one of them which the New York Evening Post Saturday Magazine's special war correspondent has sent over with the explanation that it was all he could get past the censor at this time. A Berlin paper reports that a quiet street in Charlottenburg was suddenly alarmed by shrill cries of "Police! Police!" A great crowd promptly collected about the person responsible for the disturbance, an excited young woman, obviously American.

"Arrest this man, officer," she said as soon as a policeman appeared. "I am Miss Ellington from Cincinnati, U. S. A., and he had the impertinence to speak to me."

The policeman, guided by the young woman's accusing finger, picked out the culprit.

"The man is a stranger to you?" he asked.

"An entire stranger," replied Miss Ellington. "I have only been taking violin lessons from him for six months."

Tender Spot.
He was taking her for a ride in his new motor car.

He seemed to be absent-minded and dreaming.

"How time flies!" he exclaimed at last with a deep sigh.

"When is the next installment due?" she asked with a significant glance at his car.

And the very next evening he went out for another ride in his car, but with a girl who didn't know so much.

BRITISH DRAGON SPEAKS BITTERLY OF AN INTERRUPTED BREAKFAST

By GEORGE DUFRESNE, International News Service.

Paris.—The stream of wounded from the battlefields of the Marne and the Oureq is being directed past Paris to hospitals in the rear, for the obvious reason that until it is quite certain that Paris will defend herself against attack it would be unwise to fill the ample hospital accommodations of the capital.

In the American hospital only 55 of those 500 beds are occupied. I came across a soldier of the Sixth dragoons, suffering from a bullet wound in the hip that was nearly fatal. The night before the battle his squadron was on outpost duty. Some firing had been heard, and he rode ahead of the squadron to see what was happening, believing that French cavalry were engaged with the Germans close at hand. He entered along a moonlit road and saw the shadow of some trees he found himself in the midst of a group of German horsemen. He had his carbine across the neck of his horse and fired point blank into the breast of a German trooper with whose horse his own came into collision. The German was as quick with his weapon, and both men fell to the ground, the German dead, the British with a bullet through his hip. An instant later the squadron came clattering up and cut the German detachment, about thirty strong, to pieces.

Has Strong Prejudice.

The British dragoon has seen things which have given him a strong prejudice against the enemy. In a Belgian village he saw the yet warm corpse of peasant woman who had been struck down by a uhlans lance. The uhlans were riding out of the village as the British rode in, and the man who killed the woman did so because she could not or would not give him some bread.

On a patrol duty he came across a stationary motor car. In it were three French officers and a lady, all dead, all sitting in the position in which they were when they died. A volley had been poured into the car. The lady's hand hung carelessly over the side of the car, and the fingers showed marks of rings which had been roughly stripped off.

Our cavaliers were, he added, a good deal pestered by the enemy's aeroplanes during the retreat from Mons. Whenever a German aeroplane appeared over a bivouac the order was given to change camp, and weary men who had been in the fire the enemy appeared in force, and the breakfast had not only to be abandoned, but to be abandoned to the Germans.

Turcos Beat Patients.

Of all the patients the best, say the doctors, are the Turcos. There is no limit to the pain they can endure.

Yesterday afternoon the parade of two standards captured from the enemy was accepted by Parisians as a good augury for the success of their arms.

The number of French priests serving with the colors is a good deal larger than has been imagined, and it is stated authoritatively today that as many as 19,000 priests are enrolled as combatants. The departure of the cardinal archbishop of Malines from the Gare St. Lazare gave rise last night to a picturesque scene. The archbishop was fully robed, and stood on the platform surrounded by a large crowd of priests and others who have sympathized keenly with the Belgians in their struggle. As the train left the station he stood in the carriage bowing to those on the platform—an aesthetic figure of the Richeieu type, a man of dominant personality, with a charm of pose and expression that made one realize how keenly his work is appreciated by his countrymen in Belgium.

Loss of Horses Appalling.

The wastage of horses during the present war has admittedly been appalling. At the St. Lazare terminus today I met a general with some 200 men of the Ninth French dragoons. They had no horses left and had come to pick up some at present waiting in Paris. They were then taking an eastward-bound train as far as Chateau Thierry. Their purpose was to harass the retreat of the Germans, who at that point in the fighting are said to be utterly exhausted. Whole sections of them are being captured helpless after three sleepless nights. Even the sentries are asleep, and every man capable of doing so has crept into a barn or other shelter to get some rest.

The heroism displayed by the British troops is the subject of admiring comments in the French papers. The

Sick Women Attention

It is possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN.—"I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. JENNIE ABERMAN, c/o Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. MURDOCH, 25 Gordon St., South Quincy, Mass.

TOOK SPEECH IN THE DARK

Stenographer Says It Was Not Difficult to Follow Remarks of "Uncle Joe."

"Sometimes a man gets a reputation that is undeserved," said Sam Gray, a member of the stenographic corps of the house of representatives, at the Willard, according to the Washington Post. "It happened to me a few years ago when I was traveling with former Speaker Cannon in a political campaign. I was there to make a stenographic report and transcript of them. In one Western city the speaker was talking in a tremendous crowd of people, when suddenly, without warning, the electric lights went out, leaving the house in total darkness.

"For fifteen minutes, perhaps, the speaker talked on in the darkness. It was up to me, of course, to make a report of his speech, and I did. Naturally I had to feel my way, and I made my notes unusually large, so I would have no trouble in reading them. When the lights were restored I was right there with the speaker, and made an accurate transcript of his speech. Some of the newspaper boys heard of the story and published it as a marvelous feat.

"The fact is, it was not at all difficult to follow the former speaker. He is not a rapid talker, and I had no trouble in taking his remarks."

A Distinction.
The hearthen in his blindness bowed down to wood and stone.

"For shame!" cried the children of light, and shuddered ostentatiously.

Whereupon the hearthen felt thought ful.

"Are wood and stone so much worse than a bit of burning dyed in diverse colors?" he queried.

"Don't get sarcastic, now," warned the children of light. "We're not talking about patriotism, we're talking about religion!"

Przemysl.

We are indebted to a Pittsburgh contemporary, educated in a place where the smelting of races is going on, for the proper pronunciation of that Galician stronghold. It is to hold a "p" between your teeth while pronouncing "zhm," and at the psychological moment hook a "p" in the outer hook of the "z." Thus "Przemysl." A cinch—Syracuse Post-Standard.

Love and the Wolf.

At a dinner in Tompoh Senator Key Pittman, apropos of a rash eloquent on the part of two young constituents, shook his head and said:

"Love laughs at locksmiths. And later on, alas, my young friends will read the wolf doing the same thing."

Most Improper.

"Miss Filibet, the doctors say that if a self-conscious person will hold something it will help him to overcome that feeling."

"Perhaps the doctors are right, Mr. Flubbin, but I cannot permit you to overcome your self-consciousness by holding me, so please don't attempt it again."

HON. ARTHUR W. OVERMYER

Hon. Arthur W. Overmyer of Fremont, Democratic nominee for congress in the Thirteenth district, comprising Wood, Seneca, Sandusky, Huron and Erie counties, was born and reared on a farm in Sandusky county, O. He is thirty-five years old and his life has been one of great activity and aggressiveness. He began teaching at sixteen and continued seven years, meanwhile taking a course in law at the Ohio Northern university, from which he graduated as a lawyer in 1902, and at once located at Fremont. He was seven years secretary of the Sandusky County fair; in 1908 secretary of the Ohio Fair Managers' association, and is now president of the Ohio Fair Boys' association, an organization of more than seventy fairs in Ohio. The past six years he has been clerk of the horse and speed department of the Ohio State fair. His fair work and sincere and deep seated interest in agriculture and its allied interests has given him a wide acquaintance throughout the state. From 1903 to 1910 he was clerk of the Fremont board of health, and in 1909 was elected city solicitor and re-elected in 1911 without opposition from either party. In every campaign since becoming a voter he has participated as a speaker in behalf of the Democratic ticket. The remarkable vote given him in the primary is the best testimonial of his worth. He is an able and conscientious lawyer, with a broad general knowledge gained in the field of experience; a clean and courageous fighter; a splendid public speaker, an aggressive campaigner and will make a good congressman.

SHREEP

Should Be Raised On Every Farm In Ohio.

The sheep breeding season is now at hand and a small flock of from 25 to 30 ewes should be found on every farm in Ohio. A flock of this size can be kept at little expense. It will, if given a chance, clean the farm of weeds, provide a supply of wholesome food, and return to the farmer a neat sum from the wool produced. A strong, vigorous, pure bred ram should be used. Ewes to be desirable should have straight backs and good mouths. As a rule sheep have one pair of permanent front teeth when one year old, two pairs when two years old, and three pairs, or a full mouth, when three years old. A ewe with a full mouth may be five or more years old, but if the teeth are neither broken nor the horn worn down, the ewe may be bred and kept for a year with good results. A small flock of ewes can often be pastured during the winter on a wheat or rye field. The best roughage for sheep is clover or alfalfa hay and a few roots. If clover is not available, however, corn fodder supplemented with a little bran or linseed meal is sufficient. As soon as the lambs are old enough to eat, give them a little cracked corn where the ewes cannot get it. Sheep husbandry in Ohio has two principal drawbacks, namely, dogs and stomach worms. The dog menace, which is a big one, may be obviated by building dog-proof fences. Dog-proof fences are not especially difficult to build neither are they expensive. A fence that has been used successfully by the United States Forest Service in protecting sheep from coyotes is recommended. This fence is built as follows: A strand of barbed wire is stapled to posts at the surface of the ground; three inches above this is placed a 36-inch strip of close woven wire fencing, and above this are stretched two strands of barbed wire.

If sheep free from stomach worms are secured little trouble will be caused by these pests. The worms are small round whitish worms that infest the stomachs of the sheep. The lambs become infested by eating grass on which the young worms have crawled. It is recommended, therefore, that the lambs be placed on pastures that have not been occupied by the mature sheep.

Shadiness Will Kill

A sunny temper will penetrate the knotty problems of arithmetic, as well as those of the woodpile, and will untangle the intricacies of a foreign language or transform a disordered kitchen, better than a sullen one. The cheery disposition is likely

to be a part of the victorious character. Popularity may not be a very high recommendation; but, other things being equal, it is better to be popular than grouchy. The grouchy person is most woefully handicapped and must needs have many excellent qualities before he can hope to rise to equally high esteem with his less gifted but more cheerful counterpart.

Real politeness is the kindly expression of a kindly intent. Ill-nature and politeness are antagonistic and cannot dwell together for long in the same individual. Politeness in its genuine essence contributes toward the well-being of all, even to long life; while impoliteness and irascible temper may shorten life. --Mother's Magazine.

No Patent On This.

An Iowa farmer has devised a rat trap upon which he claims no patent, but which any one troubled with rats can use. He purchased a big galvanized iron bucket or garbage pail and placed it in the barn. He filled it two-thirds full of water and on top of the water a layer of chaffy oats he emptied out the mixture of water, oats and drowned rats. He rebaited his trap and the next morning he figured results and found that he aimlessly but with malice aforethought, had gotten rid of eighty-nine rats. He declares it will rid a barn of rats in a short time.

Fooing the Taxpayers.

How taxpayers of cities operating their own water and light plants are fooled into believing they are receiving low rates is told by a writer in Public Service Magazine. The case of Reading, O., is cited as an example.

A citizen of Reading may pay only 6 cents a kilowatt hour for lighting service—that is when he settles his electric bill. But the monthly bill does not let him out. He must meet a further cost for electric service when he pays his taxes.

In order that those who enjoy the benefits of electric service may have low rates, every taxpayer in the village, whether he uses electricity or not, must pay taxes to make good a deficit of more than 4 cents a kilowatt hour for all the current that is used for lighting and power. That is how the city plant is able to make the low rates.

Last year after the citizens had paid their water and electric light bills for the twelve months, they were called on to pay \$12,509 more to meet deficits that were caused by the water and light plant. Because of this extra amount was collected in with the taxes the taxpayers did not know the money was to pay for their light and water. It was just a general tax to them. They thought they had paid their electric and water bills in full and that the plants were paying. Thus are the taxpayers fooled.

London's Strand.

The condition of the Strand, London's famous thoroughfare, was a frequent cause of worry in the old days. In 1215 we find a petition from the people of Westminster complaining that the footway was interrupted by thickets and bushes and the road so bad that the feet of horse and man received constant damage. It was not until the time of Henry VIII, that the Strand was paved. In those days the street had quite an ecclesiastical character, nine bishops having town houses there. The noblemen, we are told, lay within the city for safety, but the bishops used the water side because they were "sacred persons, whom nobody would hurt."—London Mail.

Sound and Sounds.

"Here," he growled, "what do you mean by waking me out of a sound sleep?"

"Because, dear," replied his wife sweetly, "it was such a distressing sound."

MOTHER SUPERIOR ROSARY HILL HOME

Tells How Vinol Restores Strength and Vitality to the Weak, Worn-Out Ones in Her Charge.

Rosary Hill Home, Hawthorne, N. Y. — "I have been at work among the sick and poor for nearly eighteen years, and whenever I have used Vinol for run-down, weak or emaciated patients, they have been visibly benefited by it. One patient, a young woman, was so weak and ill she could hardly creep to my door for aid, and was leaning on a friend's arm, supplied Vinol to her liberally and in a month when she returned to thank me I hardly recognized her. She was strong, her color charming and her cheeks ruddy and bright. These words are uttered from my heart, in order that more people may know about Vinol, as there is nothing makes me happier, in the world than to relieve the sick." — Mother M. ALPHONSA LATHROP, O.S.D., Hawthorne, N. Y.

Such disinterested and reliable testimony means convince everyone who needs Vinol, our cod liver and iron tonic to build up health and strength for all weakened and nervous conditions, whether caused from overwork, colds, and coughs, or from lack of food. If Vinol fails to benefit we return your money.

No	
X Yes	ARTICLE XV, SECTION 9 Prohibition of the Sale, Manufacture for Sale and Importation for Sale of Intoxicating Liquors as a Beverage.
No	

This is the official amendment ballot that will be handed the voter, except the cross marks. CUT IT OUT. Get acquainted with it. Study how to vote AGAINST the iniquitous "Home Rule" measure of the liquor interests and FOR the prohibition amendment of the Christian interests. By all means do not fail to vote on BOTH of these two measures. Vote NO on the first amendment an YES on the last.

RICHLAND COUNTY TEMPERANCE COMMITTEE.

Money.

Money counts. It is false and immoral to deny that it does. It counts mightily. If a man who desires to care for his dependents, but has not money, is worth his salt he will appreciate that money counts morally and that it is immoral and stupid not to have realized that it counts. — Spokane Spokesman Review.

Apply Sloan's Freely for Lumbago.

SAMPLE BALLOT CORRECTLY MARKED.

If you believe in HOME RULE you should be sure to vote not only "YES" on the first amendment appearing on the ballot, but also "NO" on the last, thus:

Proposed Amendments to the Constitution.	
X Yes	ARTICLE XV, SECTION 9a Home Rule on the Subject of Intoxicating Liquors.
No	
Yes	ARTICLE XII, SECTIONS 1 and 2 Limitation of the Tax Rate and for the Classification of Property for Purposes of Taxation.
No	
Yes	ARTICLE V, SECTION 1 To Extend the Suffrage to Women.
No	
Yes	ARTICLE XV, SECTION 9 Prohibition of the Sale, Manufacture for Sale, and Importation for Sale of Intoxicating Liquor as a Beverage.
X No	

If the majority of the votes cast on each of these two amendments is "YES," then the amendment receiving the greater number of "YES" votes will become a part of the Constitution and the other amendment will be dead.

Remember that a "YES" on the Home Rule amendment and a "NO" on the State-wide Prohibition amendment, and every "NO" vote on the Prohibition amendment kills one "YES" vote on the first amendment. Failure to vote "NO" on it amounts to half a vote "YES" for it.

Don't fail to ask for the separate Constitutional amendment ballot when you go to the polls.
