**CHAUTAUQUA FOR PLYMOUTH
THIS YEAR**
Arrangements Concluded for
Holding the Five-Day Carni-
val of Lectures, Entertain-
ments and Concerts.

Plymouth is to have a Chautauqua
next summer. Arrangements have
been closed with the Colt-Alber Chau-
tauqua Co. of Cleveland, O., for a
five-day program of their Chautauqua
talent to be held some time next
summer, probably during August.
A list of forty-two representa-
tives of business and professional men were
secured as guarantors of the propo-
sition, thus insuring the local sup-
port necessary for the success of
such an undertaking.

The Chautauqua proposition as
promoted by the Colt-Alber Com-
pany follows the plan of the Circuit
Chautauques which had such a
wonderful growth in the Middle-
West, and whose influences have
placed the circuit on the forefront
in many progressive movements de-
signed for the betterment of living
conditions. It is proposed to bring
to Plymouth a five-day Chautauqua
with afternoon and evening pro-
grams each day, the whole to be
held under a mammoth canvas to
be erected in a suitable location,
and manned and managed by the
Chautauqua.

Included in the program already
arranged are many of the leading
lecturers of the American platform,
noted entertainers, magicians, con-
cert companies and political celebri-
ties, the performers being care-
fully selected by the appearance of
the New York City Marine Band. The
Chautauqua will bring to our doors
the cream of the talent of the Ameri-
can platform, for the hearing of which
we usually journey to the Mother Chau-
tauqua at Chautauqua, N. Y., and will
afford rare opportunity for the entire
community to enjoy a week of un-
alloyed uplift and entertainment un-
der ideal summer conditions. A
feature will be the "Homecoming"
week for all former Plymouthites.
Course tickets covering the
entire week will be sold at a price
which will make them particularly
attractive to all, and the county
thoroughly covered in order to
obtain the largest and attendance
of all the people. The Chautauqua
is in no sense a proposition for
Plymouth alone. In the west such
gatherings attract thousands from a
radius of many miles, and county
street carnivals, old home weeks,
and the like, have all taken a
back seat for the Chautauqua.

Here the movement has been taken
up with enthusiasm in the belief that
people of Richland and Huron
counties will relish a departure from
the accustomed lines, and will re-
spond wonderfully to this new and pro-
gressive movement for community
uplift.

The Maple Syrup Season.

Each season of the year brings its
joys and none is more welcome than
the maple syrup period, which ushers
in spring. When the thaws start
and the sap begins to run and pro-
duces great kettle of rich, sweet
maple molasses and great hunks of
brown maple sugar, and also the
candy pullings and the accompanying
pleasures, there is much happiness
in the sugar camps, and the year
proves to be a bumper. The extreme
cold weather and the big snows has
produced a condition that is welcome
in the sugar camps, as the sap and
pails are being made ready for use
when the sap begins to flow and in
addition a supply of workers are be-
ing secured from the printing offices
to paste on the cans telling the world
that the syrup is free from brown
sugar and other adulterations. Soon
little whiffs of smoke of the variety
that makes Ohio famous will be seen
coming from the sheds, as the time
for the first maple sugar and molasses
due. The smoke signals will also
whet appetites for the syrup, in
which will float rich, brown buck-
wheat cakes or the mouth melting
soda biscuits or perhaps a yellow
waffle.

PRECEDENTS REBBS MESSAGE

URGES CONGRESS TO REPEAL THE EXEMPTION LAWS.

"IN VIOLATION OF TREATY"

Favoring of American Consular Vessels Declared by Chief Executive Also to be Based on Mistaken Economic Policy.

Washington, March 5.—Declaring that the exemption of American coastwise shipping from the payment of Panama canal tolls was based upon a "mistaken economic policy"...

The president declared that all the world powers were unanimous in judgment that the exemption was in violation of our treaty obligations.

The president added that the United States "ought not to quibble" in the matter of a treaty obligation.

President's Message.

"Gentlemen of the Congress: I have come to you upon an errand which can be very briefly performed."

"I have come to you upon an errand which can be very briefly performed, but I feel that you will measure its importance by the number of sentences in which I state it."

"I have come to you to ask for the repeal of the act of August 24, 1912, which exempts vessels engaged in the coastwise trade of the United States from payment of tolls."

"In my own judgment, very fully considered and maturely formed, that exemption constitutes a mistake against public policy from every point of view."

"I have come to you to ask for the repeal of the act of August 24, 1912, which exempts vessels engaged in the coastwise trade of the United States from payment of tolls."

VANDERBILT IS DEAD

SUCCUMBS TO OPERATION FOR APPENDICITIS.

Built the Biltmore Estate Near Asheville, N. C., and Developed Forestry School.

Washington, March 9.—George W. Vanderbilt of New York died here on Friday from the effects of an operation for appendicitis performed several days ago.

George Washington Vanderbilt was born at New Dorp, S. I., N. Y., on November 14, 1862.

In 1898 Mr. Vanderbilt married Edith Stuyvesant Dresser, the witty and talented daughter of Capt. G. W. Dresser, U. S. A.

The Vanderbilts had three homes. One was at 40 Fifth avenue, New York city, another in Bar Harbor, Me., and the third—the real home—at Biltmore, where he had a hundred thousand acre estate in the mountains of North Carolina.

Biltmore, under Vanderbilt's personal supervision, became a vast experimental laboratory of industry. The best methods of dairying were sought and found; the science of farming was developed in an unprecedented degree; the infant science of forestry was developed under no less a man than Gifford Pinchot, who was one of Mr. Vanderbilt's lieutenants.

WAR OFFICE AND BRYAN ORDER INQUIRY OF VERGARA INCIDENT ON BORDER.

Washington, March 11.—The United States government is engaged in a search for information as to the circumstances under which the body of Clemente Vergara, an American horse dealer supposed to have been killed by Mexican federal soldiers near Hidalgo, Mex., was found on the American side of the Rio Grande.

A brief telegram to the state department from American Consul Garrett at Nuevo Laredo, Mex., informed the state department that the body had been found and that details would be reported by mail.

The slow mail process did not satisfy Secretary Bryan, who promptly wired the consul to make his report by telegraph.

Laredo, Texas, March 10.—Several Texas rangers said to have been acting under orders from Governor Covert, crossed into Mexico on Sunday, exhumed the body of Clemente Vergara, the Texas ranchman who was kidnapped and put to death by a band of Mexican federalists three weeks ago, and brought the body back to the American side.

The body was in such a good state of preservation that it was easily identified, and all the wounds could be distinguished.

TO AMEND CANAL ACT

HOUSE BODY FAVORS BILL WHICH PROHIBITS FREE TOLLS.

Comments on President's Message, Are of Widely Divergent Nature.

Washington, March 9.—By a vote of 14 to 3 the house interstate commerce committee decided on Friday to report favorably the bill repealing the clause of the Panama canal act which grants free tolls to American coastwise shipping.

On Thursday after President Wilson had called upon congress to act, Senator Chilton of West Virginia introduced a bill to amend the Panama canal act and permit the repeal of the clause exempting American coastwise shipping from the payment of tolls.

"The president notwithstanding anything herein contained is hereby authorized and empowered by proclamation to make, suspend, alter, change, or abolish any tolls contemplated or provided for by this act, and may prescribe tolls to be charged in any case in which tolls are prohibited herein."

"I absolutely approve of the sentiment expressed by President Wilson. We made a great mistake in ever providing for free tolls."

Representative Doremus of Michigan, chairman of the Democratic congressional campaign committee, said: "The president has not changed my mind a bit. I have been for free tolls all along and will continue the fight against any repeal."

ST. PAUL'S HEADS ARE HIT

Charged That False Report Was Made to Interstate Commerce Body.

Washington, March 9.—"Serious irregularities" in the accounting of the Chicago, Milwaukee and St. Paul Railroad company was charged in the report made public on Friday of an interstate commerce commission investigation by Commissioner Harlan, which makes the direct allegation that irregularities in reports of operations submitted to the commission were made to influence favorable disposition of St. Paul railway securities.

The irregularities disclosed by this inquiry, Commissioner Harlan points out, are similar to those disclosed by the commission's investigation into the financial operations of the New Haven and the Frisco systems. It is asserted that "the income of the Puget Sound was greatly overstated, a variety of other figures were falsified, and the showing of income was used by the officers of the Puget Sound company to attract the sale of the bonds."

Griffo Gets Religion. "Dowling's" burned out on Times square the other night, and those who for years had occupied rooms above the famous old billiard hall were forced to run for their lives in that raiment they happened to be wearing at that moment. Among them was little Griffo, who was at one time a fighter and is today the best piano player between midnight and one o'clock in an uptown music hall.

"I did not get trick," Griffo is quoted as saying. "I took two flights of stairs in two jumps, 'til the fire blits at me. I'd been left at the post you coulda buried me in a fryin' pan."

"And what did you get?" asked his friend. "I got my hands and religion."

Ugliness a Qualification. Some boys nowadays appear to have regarded ugliness as a quality to be desired in their servants. When Eliza Cole, daughter of Coke of Norfolk, was about to marry, she wrote to her prospective mother-in-law: "Pray, have the goodness to decide by your choice, but about the pretty housemaid I wish she were less pretty and less fond of dress, but if her conduct and principles are good, neither are really objectionable faults. I think our establishment will be a pattern of morality, particularly if Mr. Stanhope engages the squinting butler and the toothless housemaid mentioned to me."

The Effect. "Well, how did you sleep last night?" "Very badly. My husband adores Goethe, and he was spouting him all night."

Made a Good Bargain. A mine, now said to be exceedingly rich, was recently bought by the owner for a pair of trousers and a cap.

LIFE'S ROAD Smoothed by Change of Food. Worry is a big load to carry and an unnecessary one. When accompanied by indigestion it certainly is cause for the blues.

But the whole trouble may be easily thrown off and life's road be made easy and comfortable by proper eating and the cultivation of good cheer. Read what a Troy woman says: "Two years ago I made the acquaintance of Grape-Nuts and have used the food once a day and sometimes twice, ever since."

At the time I began to use it life was a burden. I was for years afflicted with bilious sick headache, caused by indigestion, and nothing seemed to relieve me. "The trouble became so severe I had to leave my work for days at a time."

"My nerves were under such a state I could not sleep and the doctor said I was on the verge of nervous prostration. One man I knew ate principally Grape-Nuts and brought a package for trial. "What Grape-Nuts has done for me is certainly marvelous. I can now throw off my work as easily as I did from the old trouble and have not had a headache in over a year. I feel like a new person. I have recommended it to my family and I know it will give relief to all who are afflicted with bilious sick headache, indigestion, and nothing seemed to relieve me."

Nearly a thousand dollar premium was paid Saturday afternoon at Monroeville for Peru township road bonds. The bond issue for road improvement in the township, aggregating \$30,000 was sold to Davis Bernham of Cincinnati, for \$707 premium.

It is believed that the bill introduced by Congressman John K. Eyer for the 14th district to give widows of Spanish war veterans a pension of \$12 a month and children \$2.00 a month will be passed in the house. The bill has been reported favorably by the committee and is expected to pass the house.

The Hungarian pheasants, which were received by the Richmond County Fish and Game association, are being released in three parts of the county. Another shipment of 60 pairs is expected this week. At first it was thought best to release all the birds in one place but later it was decided to divide them into three lots.

The county commissioners, yesterday afternoon, advised the Board of Health, appropriated the sum of \$4,000 for the office of the district tax assessor, the first installment for this office. It is estimated that the operation of this new fangled tax system will cost the county at least \$10,000 as against the sum of \$4,222 for the year 1914.

Despite the annual agitation for the purpose of holding the regatta of the Interlake Yachting association in some other place besides Put-in-Bay the 1914 regatta of the association will be held in those historic waters in the week beginning July 12, as decided by the members at their spring meeting, held in the Toledo Yacht club Saturday.

Wild ducks and wild geese will be allowed to pass over Ohio unmolested by hunters this spring, and may pursue their aerial path to the northern latitudes where they will rear their young in greater numbers than ever before, because their ranks were not thinned in their flight from the southern to the northern part of the continent. The Richmond County Fish and Game association will assist the game warden in seeing that the new law is observed in Richmond county, and similar organizations in other Ohio counties will no doubt do the same.

A county superintendent of schools in a new office that will be created in Huron county and other counties of the state of Ohio the coming July and members of boards of education and others interested in this matter should read over the advance copies of the new Ohio school law which have recently been published and become familiar with the many new laws recently enacted by the legislature of this state. The county superintendent is to be elected by July 15, and some time between now and that date the county commissioners must provide and furnish an office at the court house or somewhere at the county seat for still another new county officer created by the Cox legislature.

The postmaster general is considering the adoption of a new form of post card, which will cover not only the ordinary street address of the recipient, but his telephone number also, according to the March Popular Mechanics Magazine. Upon its arrival at destination, a clerk would immediately call up the telephone number and ask for the person to whom the card is addressed and read the message, after which the card would be delivered in the usual way. The card would bear a special stamp costing 5 cents and would have preference over other first class mail matter in the same manner the special delivery letters do now. A reply postal card would be 10 cents. The number of words might be limited, and no liability assumed by the postal authorities other than the now borne in the special delivery letter.

EARLY RISERS
 The business little pills.

Carpen & From, saloon men of Plymouth, were given the right to transfer their business from 19 on the south side of the public square to lot 18. Applications to operate a saloon in Shelby, and the Humber case, occupied the commission later.

Geo. Raish of Bellevue, in remitting to the Advertiser, says: "Please credit me with the amount, as the paper is like a letter from home and must have it. Family O. K., and when you or any of the Plymouth contingent come to our city, don't forget us as we have a warm spot in our hearts for all Plymouth friends."

"Tourists" have been striking Plymouth pretty regularly this winter, and hardly a night passes but from two to half a dozen are given lodging by Marshal Hills, who are turned out in the morning, and the admittance that they get out of town, which however, they fail to do before knocking at numerous back doors with a request for a hand-out.

Baltimore & Ohio express train No. 14, running at about 25 miles an hour, was derailed at Attica Junction last week Saturday morning. Seven or eight coaches jumped from the rails, two of which turned completely over, being dragged 200 feet along the tracks. Most of the injuries of the passengers were from broken glass and from bruises.

From present indications it now looks as though Plymouth might enjoy a life more than an average building boom this coming summer. As two additional houses for High street are a certainty, while a third will grace the corner of Plymouth and High streets. Others are looking over plans with a view to building or remodeling, and so let the work go on, for if we expect the town to expand more houses must be provided for those who desire to locate here.

Fifteen members of the Plymouth Golf club came to this city Saturday for a shoot with the Mansfield Gun club, says the Shield of last week Friday. The two clubs appeared to be very evenly matched, the record of the local club being 65 per cent perfect, while the record of the local club was 64 per cent perfect. The Plymouth club was entertained by the members of the local club during their stay in the city. The members of the local club will go to Plymouth to return match in the near future.

By request State Highway Commissioner James Marker forwarded to the clerk of Auburn township necessary papers for petitioning the county commissioners for state aid in paving the Bucrus and Plymouth road, a state highway, says the Tiro Wood. The provision is that the state pays 75 per cent of the cost of paving while the balance, 25 per cent must be paid by the township. The proposition is certainly a fair one, and there are good prospects of Auburn township being an active participant in sharing of what belongs to every township through which a state highway passes.

After you have finished criticizing some official for doing something you think he ought not to have done; or for not doing something you thought he ought to have done; or for doing something differently than you would have done it, just step long enough, before your next tirade, and note to yourself that after all you will have to go many miles, and then some, before you will find a town of Plymouth's size that has more than Plymouth has, that is a better town than Plymouth, that has better opportunities for growth than Plymouth has, that has a more wide-awake lot of citizens than Plymouth has, that has better stores than Plymouth has. Therefore, think highly of her always. Speak well of her at all times. Remember, you can talk up or down on any one as a friend. Seek to know her good points and do all you can to advertise them. Find her virtues and abolish them. See to it that laws are enforced. Look yourself squarely in the face and ask: What kind of a town would my town be if all its citizens were just like me?

No, we can't tell it all. No paper ever did, no matter how small or how large. It matters little how particular we are, we find each week, after the paper is out, that we have missed several items of news. We would publish all the news every week, however, if the people were only half so particular to see that they knew the item regarding themselves or their families as they are in noting whether or not the said item appears a print. We always like to see the news and will appreciate any favor thus extended in our direction.

At a joint meeting of the councils of the Lutheran churches of Plymouth and Shiloh, which heretofore have been under one pastorage, held here Wednesday afternoon, it was decided to separate the two churches, and each maintain their own pastor, which action will be ratified by the membership of the two churches to be held later. Rev. J. H. C. Manifold, who a few weeks ago assumed the pastorage of the two churches, succeeding Rev. F. B. Heibert, will come to Plymouth, and will also fill the pulpit at Shiloh until such time as the Shiloh people can secure a pastor, the new order of things to take place about April first.

Frank Lofland had an experience Monday morning that he wont care to have repeated again in his life time, being struck by an auto driven by Dr. Geo. Searle and knocked for a distance of at least twenty feet.

Mr. Lofland had just left the Peoples National Bank and had stopped in the street, and observing the doctor and his auto coming, stopped and peered to see in which direction the auto was going and thinking the doctor intended to turn the corner, he proceeded a step or two when the auto swerved and struck him, and as a result sustained no more than bodily bruises and was able to be at his place of business the following day.

The village authorities are considerably lax in enforcing the law, especially as to speed and in turning corners, and unless they take the matter in hand there is likelihood of a more serious accident happening any day. Auto drivers should be made to drive to the opposite side of the street before turning a corner and then pedestrians would know what to expect. The accident of Monday should serve as a warning and all auto drivers made to conform strictly to the law.

Rudolph Van Vechten, a young man of leisure, is astonished to see a man enter the... The latter were half-blind in their ways and kept their faces averted...

BOOK I.

CHAPTER VI.—Continued. There were five men and three women. The latter were half-blind in their ways...

He recognized one of the men—the aged, white-haired servant whom he had seen once or twice emerge from Number 1313...

While he stood undecided as to what course to pursue, the matter was plain, unexpectedly out of his hands.

A man, walking rapidly, came abruptly out of the darkness and entered the glare of light from the hoisted open door and windows...

Tom now had an opportunity to observe several particulars about him that he had previously missed, or failed to note...

"John! What has happened? Who is this?"

Inconspicuous party. He tripped over obstructions and splashed through puddles and mud...

A sudden feminine scream, half-piercing, startled him. Then a girl's agitated voice—and a more remarkably sweet voice, it seemed to Tom—said:

"And Callis replied: 'Don't be frightened, Miss Jessie. Where's your father?'"

"Miss Jessie did not answer this question. It seemed to Tom that a number of people had crowded into the hall during this brief colloquy...

"There are ladies here."

"They're in decent poor company," snarled Tom.

"Gag him," Callis briefly commanded. "Here, take this."

Tom's sole concern at that moment was to get away from the scene...

"But it is," he replied whimsically, also in a whisper. "Won't you release me—or at least remove this bandage from my eyes?"

No reply was vouchsafed him, no further speech from the pulse-disturbing voice...

PLANT VEGETABLES AND SMALL FRUITS

Farmer Should Prepare Half an Acre of Land Not Far From the Dwelling House.

BOOSTED UP THE PRICE

When You Come to Think of It the Article Was Worth the Increase

Hot and stuffy was the auctioneer, and packed, too—yes, even packed to its utmost capacity.

(TO BE CONTINUED)

Then a fellow at the rear of the hall spoke up: "I bid \$51," he said—America.

"One reason for the great number of divorces that women now go in for (and men, too) is their culture, but soon plain sewing and cooking..."
