Obituary.

Mrs. Helen E. Sweet was called home at an early hour on Friday, May 16, having reached the age of 71 years, born on April 24, 1843, being one of the few early residents born in her home town. She was in her early life prominent in social and musical circles, and was known for her many kind deeds. She was united in marriage on Feb. 14, 1878, to Mr. Henry C. Sweet, a well known business man, who preceded her ten years ago.

Mrs. Sweet was the daughter of Mr. and Mrs. Andrew Beelman, one of our first and successful furniture manufacturers, who will be remembered by our older citizens. She leaves to mourn her loss, two daughters and two sons, Mrs. A. E. Fox, of Oakland, Calif., Miss Sarah E. Sweet of Plymouth, Ralph W. of Milan, Ohio, and Carl W. of Shelby, Ohio, and one brother, Chas. S. Beelman, of Fremont, Ohio, besides three grandsons and one granddaughter.

Mrs. Sweet has been in failing health for several years, but in a few weeks had declined rapidly. Her children and brother were with her in her last moments.

The funeral services were held on Monday afternoon, at 2 o'clock, conducted by Rev. H. C. Manifold, of the Lutheran church, of which Mrs. Sweet was a member. The pall bearers were Wm. Kirkpatrick, R. F. Guthrie, E. B. Weatherby, J. W. Webb, F. B. Lofland and G. W. Reed.

Mrs. E. E. Weatherby and Mr. A. E. Willlett sang beautifully several selected pieces.
 Among those from out of town who attended the funeral, were Mr. Chas. S. Beelman of Fremont, Mr. Hugh C. Beelman of Chicago, Mrs. Bert Hunsinger, Mrs. Ralph Lohman, Mrs. Frank Stephens of Bellefontaine, Mrs. John Diehl of Lorain, Mrs. Geo. Sweet, Sr., and Mrs. Geo. Sweet, Jr., of Greenwich, Mr. and Mrs. Fred Sweet, and Mr. Henry C. Sweet of Milan, Mrs. John Diehl of Berlin Heights, Mrs. Addie Ulrich and Mr. Chas. Ulrich, Shenandoah, Mr. and Mrs. Fred Beelman, Mr. and Mrs. Isaac Adams, Miss Malone, of Shelby.

The family desires to return their heartfelt thanks to the many who have shown so much sympathy and interest during the bereavement.

Notice.
 Members of Plymouth Post G. A. R. are requested to meet at Comrade Abbott's office on Sunday morning, at 10:15 (standard), May 24th, 1914, to attend memorial service at the Methodist church, at the usual hour of service. Sermon by Rev. R. H. Balmer, pastor.
 The Boy Scouts are invited to join the members of the G. A. R. in the observance of Memorial Sabbath, and attend to the church in a body.

HOW CHILDREN GROW

Children grow by nourishment—not overfed. A surplus of rich foods but low quality that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which result in weakness, dullness and sickness.
 If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brain. Scott's is growing-food for children. Refuse alcoholic substitutes.

COSTS US \$1.86 APIECE
For Maintenance of the Ohio Government This Year.

Each of the 5,200,888 persons in Ohio will contribute \$1.86 for maintenance of the state government for the 1914 appropriation period according to figures compiled by Budget Commissioner W. O. Heffernan and made public yesterday. Nearly half, or 80 cents is spent for the upkeep of state charitable or penal institutions, and 42 cents is spent for educational purposes.
 These estimates do not include the \$700,000 raised for educational institutions by direct tax.
 The aggregate of the budget appropriation bills for 1914 is \$9,370,921.

Deathbed Confession as to Origin of Chicago Fire.

The legend that Mrs. O'Leary's cow kicked over a kerosene lamp and started the fire which swept Chicago in 1871 is challenged by the deathbed declaration of Miss Rebecca Thrift, who died in the county infirmary at Lima May 7.
 "I started the Chicago Fire," gasped the old woman, "and fearing arrest, I fled while the flames raged."
 Further details are spoken by death and are buried in the potter's field with the body of the old woman whose forty years life has for more than forty years been an impenetrable mystery.

Coincident with the burning of Chicago, in 1871, this woman was found accreted like a hunted animal in a straw stack on the Booth farm south of Lima. With her was a man. The vigorous spirit, rampant in those days, asserted itself in the form of a moose which, after a parley, spared ear and feathers, but warned the man to leave the country. He fled and no tidings concerning him have ever come.

The woman, sullen and dazed, made no explanation at that time, except that she was homeless and sick. She gave the name of Rebecca Thrift. She was at that time apparently a little less than 30.
 The authorities, not knowing what else to do with the odd charge thus thrust upon them, committed her to the county farm.

There, for 43 years, she remained a country dependent and never once did she consent to give the names and addresses of relatives or to reveal other family history and no one ever claimed her. No one in authority ever believed she had given her real name and no one ever was able to learn her age.

Less than the width of a city street away from the pauper farm into which the body of Lima's woman of mystery now lies, is the spot where she sought refuge in a straw stack in 1871.

MR. LEWIS A. RIFFLE tells his experience with coughs and colds that lead to nervousness and debility.

Colds are often aggravated during the summer because inactive bowels and a stomach out of order are prime causes in keeping a cold from getting well.
 Fetters has very beneficial laxative qualities that neutralize such conditions. Its tonic ingredients tone up the system, and thus invigorate the stomach's functions to normal activity.
 Mr. Lewis Riffle's experience is especially interesting at this time of the year because it shows the close relationship there is between a nervous breakdown and a neglected cold.

As his illness, such a cold upon its first appearance may be treated promptly and successfully. This often saves money and time, and what is more important, a great deal of vitality.
 Mr. Riffle, of 715 Gasconade Ave., Portland, Ore., writes: "I have found Fetters a most remarkable medicine for building up the system and for curing coughs and colds."
 "It took it for four weeks a few months ago when I was all run down, nervous and debilitated, and it quickly restored my health."
 "I have never kept it on hand, as a few days will cure a cold if taken in time."
 "People who object to liquid medicine, can now obtain Fetters as

Democrat Cervantes has been reported to have sent word to his mediation envoys that he would resign the presidency of the Mexican republic on the following four conditions: 1. That General Carranza be forever barred from ascending to the presidency. 2. That Huerta may have a choice in naming the new ruler of the republic. 3. That the United States make an immediate loan of between three hundred million dollars and four hundred million dollars to the Mexican government. 4. That the United States guarantee approximately \$100,000,000 for the loans of Mexico.

FOREST-FIRES RAZE TOWN

Flames Cause Big Loss in Michigan—Refugees Stand in River to Save Lives.

Escanaba, Mich., May 29.—The entire village of Alfred, 13 miles from Escanaba, was wiped out by fire on Sunday, not a building having been left standing. Refugees arriving here brought the first news of the catastrophe. The inhabitants were forced to drop everything and flee into the Escanaba river. Men, women and children were seen wading in the ice cold water for hours, until the flames, having consumed everything in their path, swept on. The heat was unbearable. The refugees stood in water up to their necks, and even were urged to submerge their heads in order to prevent being roasted. Extended lists of names of Senator Isaac Stephenson were wiped out. The village of Larch also has been entirely destroyed, with a quantity of lumber and timber. The village of Laticoy, with a population of 100 is surrounded by the flames. Men from Escanaba are trying to save it. Big fires are raging at eight points within a radius of 20 miles.

FOUR FACED DEATH; SAVED

Members of Crew From Ship Destroyed by Fire Two Weeks Ago Are Rescued by U. S. Vessel.

Halifax, N. S., May 19.—A brief wireless message received here on Sunday morning from the U. S. Revenue cutter, Seneca, of the missing third lifeboat of the Lazard line steamship Columbian, which was destroyed by fire in the bay just two weeks ago Sunday night. Of the 15 men who scrambled over the side of the liner into the third boat only four were left. All the others had succumbed to the terrible provisions to which they had been exposed. The Seneca is now heading for Halifax with the survivors. Those alive were the chief steward, two seamen and a fireman. These men were in a terrible state of exhaustion when picked up by the Seneca.

SIGN FOR CHAPTER JAIL FOR LABOR MEN

U. S. COURT RULES AGAINST 24 IRON WORKERS. Men Directed to Surrender at Government Postoffice. Leavenworth, Kan. Before June 4.

Chicago, May 19.—Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers and 19 other members of the organization must report June 4 to resume the service of their sentences in Leavenworth penitentiary for conspiracy to transport granite on passenger trains. The explosives were used to wreck bridges and buildings erected by union labor.

The United States circuit court of appeals issued a mandate on Saturday that the serving of sentences must be resumed within three weeks for all but six of the thirty members of the association originally sentenced.

The government opposed retrial of Richard H. Houlahan of Chicago, William Bernard of Cincinnati and Olaf Trymlund of San Francisco, who will probably have this week whether they will be granted new trials. This will depend upon the decision based upon the oral arguments.

The government offered an opinion on the retrials ordered for William J. McLean of Kansas City, James E. Ray of Peoria and Fred Sherman of Indianapolis. No date has been set for the hearings.

Sentences of from one to seven years will be served by the 20 men who will go to prison in June. They were convicted of conspiracy to transport dynamite on passenger trains in 1910 and 1911. Involved in the case was the wrecking of the Los Angeles Times building.

When the men affected by the mandate reach the federal prison there will be 24 iron workers in that penitentiary.

ASKS PEACE IN COLORADO

Wilson Informs Governor Ammons United States Troops Cannot Be Used Indefinitely.

Denver, Colo., May 18.—President Wilson served warning on Governor Ammons on Saturday that the state of Colorado must be prepared to maintain peace in the coal mine strike districts without federal aid. The president said federal troops would remain in the troubled districts "only until the state of Colorado has time and opportunity to resume complete sovereignty and control."

"I cannot conceive that the state is willing to forego her sovereignty or to throw herself entirely upon the government of the United States," said President Wilson.

In response, Governor Ammons telegraphed the president, advising that an extra session of the legislature, which adjourned on Saturday, has provided a \$1,000,000 bond issue to cover past and future expenses of the state militia. The governor expressed confidence that as soon as these funds are available the state will be able to control the situation.

MINISTERS PLAN CAMPAIGN

Students Receive Degrees and Are Assigned to Churches Which They Assume Immediately.

Western Newspaper Union News Service. Cincinnati, O.—Twenty-five graduates were given degrees at the annual commencement exercises of the Lane seminary. Dr. J. Wilbur Chapman delivered the commencement address and took for his subject, "Why Some Ministers Fail," and spoke in part as follows: "It is not by the way of the head, but by the way of the heart that men are to be reached. Some men fail because they neglect themselves to God. In these things you are keeping back. Your ministry will never be powerful until you are absolutely given up to the leading of the Holy Spirit. It is not because you are keeping back, but because you are not giving up to the leading of the Holy Spirit. It is not because you are keeping back, but because you are not giving up to the leading of the Holy Spirit."

The diploma was conferred by the president of the seminary, Rev. Dr. Wm. McKibbin, who also read a paper written by Rev. Dr. E. D. Morris, of Columbus, O., following a list of the graduates and the charges they will assume immediately following the commencement exercises: E. M. Under the new school law, effective this week, examinations of applicants for county teachers certificates will be held on the first Saturday of September, October, January, March, April, May and the last Friday of June and August.

Druggists found guilty of illegal sale of cocaine and other habit forming drugs will lose their certificates hereafter who violate this announcement was made Friday by the Ohio State Board of Pharmacy. It is expected that the State Medical Board will take the same action in relation to physicians convicted of complicity in the drug traffic.

Auditor Dalton has called a meeting of the school officials of the county to meet in the probate court room at 9 o'clock, June 13, for the purpose of organizing a county board of education under the new law. All the schools of the county, except the medical schools, are included in this law. The county board will consist of five members to be elected for one, two, three, four and five years.

Minor Jordan, farmer, 23 years old, who, with George Doane, conducts a hay baling outfit, met a tragic death Saturday evening between 5 and 5:30 o'clock, on the Conrad farm, in Hartland township, just as the crew with the outfit were preparing to leave the place. He was crushed to death, his body being caught between the engine and hay press, as the engine was backing up couple onto the baler.

The weather is now to take on a quiet, harmonious condition that will guarantee to fruit and vegetable growers freedom from frost scares, according to the weather sharks. There was a slight frost in certain sections Saturday morning. It is the general opinion that the light frosts have not worked any damage to fruits or vegetables except in a few places where tomatoes and cucumbers were touched slightly.

Huron county's beautiful Children's home, which was built by Willing Bros. of Bellevue, is now complete and has been accepted by the county as far as the county commissioners are concerned. A few official details must yet be gone through with before the building is actually turned over to the Children's home trustees. These details consist of the approval of the plumbing, the boilers and other details by state inspectors.

Some one has advanced the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason he overlooked the fortunate "e" of the letter, as we call his attention to the fact "e" is never in war, always in peace, it is the beginning of existence and the end of trouble. Without it there would be no meat, heat, no life and no heaven. It is the center of honesty, makes love perfect, and without it there would be no editors, devils or news.

Owners of real estate which has been ordered sold to enforce collection of taxes, or to satisfy a judgment, should be notified that the confirmation of the sale, according to a decision of the supreme court at Columbus in the case of Theo. Fitzinger, et al. against Thos. C. Van Antwerp, et al., trustees of Cincinnati. Suit was filed in the Hamilton county court to collect \$1,477.71 taxes and \$2,182.85 assessments against thirteen lots, but the defendant filed a motion saying they would redeem certain lots and the Hamilton county court, please court held that this could be done. The decision was affirmed by the circuit court and by the supreme court Tuesday.

Coughed for Three Years.

Mrs. Anna M. Steintz, one of the best known women in northern Ohio, and Huron county's foremost business woman, came to this city Saturday morning at 7:30 o'clock at the home of Mr. and Mrs. Henry Hines in Monroeville, where she had her home for many years. She was 69 years of age and at the time was one of the officials of the S. N. & W. electric railway. She had a large negro residing in the above road.

The annual high school baccalaureate sermon will be delivered on Sunday evening, May 24, at the Lutheran church, by Rev. J. H. C. Mansfield. Services will begin at 7 o'clock. The music will be furnished by the high school pupils, under the direction of the superintendent. All are cordially invited to attend. Seats will be reserved for teachers, members of board of education, and parents of students.
While attending the Howe show at Shelby last week Wednesday, John Hart of this city, was touched for \$15 which had been intrusted to his care by a sister and which he had placed in an envelope in his inside coat pocket. By putting up a bluff to the management of the show the money was returned, but how else so John thinks, by the party who touched him. Others were short changed in various ways.
The high school commencement exercises will be held at Hamilton's Hall on Thursday evening, May 28. The members of the Senior class, assisted by other high school pupils will render a Tercentenary play (dramatized form). The music will be furnished by the local high school orchestra. Tickets for reserved seats will be on sale at the People's National Bank on and after Tuesday, May 26. The prices are for reserved seats—25c, all other seats—15c. Exercises begin at 8:00 p. m.
The concrete work on the west side of the Sandusky street improvement, which has lain dormant since last fall, will be started on Tuesday, Wednesday afternoon and at the close of the day's work Thursday about 400 feet had been run in. At this rate, barring rain and mishaps, another week's time should see the improvement well along toward completion, and too, the residents along that thoroughfare can boast of one of the prettiest pavements and streets to be found anywhere in this section.
W. H. Fetters, who has the contract of pumping the quarry lake, preparatory to testing it as Plymouth's future water supply, started the pump at work Monday afternoon at 2 o'clock and up until 7 o'clock Tuesday evening and lowered the rate of about one-half inch per hour. The pump which he uses throws a six inch solid stream and has a capacity of 100,000 gallons every twenty-four hours. The lake is between three and four acres in extent and has an average depth of from 12 to 30 feet. Up until Thursday evening the lake had only been lowered 40 inches.
The J. D. Fate Co. has just completed ready for shipment one of the finest pieces ever manufactured by this popular clay working machinery company—a cutting table for the manufacture of paving brick, which obviates the repressing of brick and has to be resorted to when made by any other machine. This company to meet the demands of the trade in this line, has just received a new machine which will add greater facilities to its product, and the possibilities of the future along this line it is to be hoped may come so rapid and of such character that the J. D. Fate Co. may in the future put upon the markets machinery capable of work that will revolutionize the present and result in a cheaper material for road making and other work for which old-mother earth is used.
Hry Holt, second son of Dr. and Mrs. S. S. Holtz, who some two weeks ago was kicked in the stomach and chest by a horse, suffering a broken rib, was taken to a Cleveland Hospital Tuesday morning where he passed away at 3:30 o'clock Wednesday morning, aged about 31 years. No operation was made, his death being attributed by the hospital physicians as being caused by aortic dilatation of the heart, complicated by nephritis and uremic poisoning, and which no doubt was hastened by the injuries received in being kicked. His body was brought here Wednesday afternoon and taken to the home of his parents on Trux street, from which funeral services were held Friday forenoon at 10:30 o'clock, conducted by Rev. R. H. Balmer, burial taking place in the Mt. Hope cemetery at Shiloh.

Another delightful social affair was given to the Seniors, Saturday, May 16, when Mr. and Mrs. L. S. Focht entertained. They did exactly as the invitation requested, for they laughed, talked, ate, drank and dispensed with the conventional rules. All timidity ceased when they saw Mr. Focht's face and especially when he led them to the dining room where a delicious three-course dinner was served. The rest of the evening was spent in contests, music, etc. As the evening neared its close all reluctantly took leave, declaring Mr. and Mrs. Focht royal entertainers.

Stop and Consider!

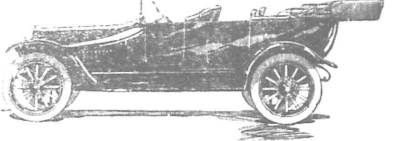

Have you ever stopped to consider the true meaning of economy?
Some people think that the words Economy and Cheap are synonymous—that they mean just the same. BUT DO THEY?
Or is true economy found in full value?
WE THINK IT IS.
Is a low price economical if you do not get value returned for that price? WE THINK IT IS NOT.
We take special pains that every piece of merchandise we sell must measure up in full value to the price that is paid
What you buy of us must give you dollar for dollar in value. On that platform, and that alone will we continue to do business.

Make Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unselfish expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of Lydia E. Pinkham's Vegetable Compound.

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

Read this one from Mrs. Waters:

CAUDEN, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or a sleeping-chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—MRS. TILLIS WATERS, 1136 Knight St., Camden, N.J.

And this one from Mrs. Haddock:

UTICA, OHLA.—"I was weak and nervous, not able to do my work and scarcely able to be on my feet. I had backache, headache, palpitation of the heart, trouble with my bowels, and inflammation. Since the Lydia E. Pinkham's Vegetable Compound I am better than I have been for twenty years. I think it is a wonderful medicine and I have recommended it to others."—MRS. MARY ANN HADDOCK, Utica, Oklahoma.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 90 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, which has restored so many suffering women to health.

Overworked. The papers are publishing stories of Dr. Wetz Mitchell. This is one of the best of them.

One day a patient came into his office and found him closing a large bundle of letters. "All resignations from committee of Dr. Wetz," he said, "greatly. 'I'm going to get off, off, off. I have told my wife that when I die I want her to put on my tombstone, 'Committed to the grave!'"

Fatal Defect. The Rev. Bascom Anthony, a presiding elder of the Methodist church in western Georgia, tells a story of a negro pastor down his way who failed to give satisfaction to his flock. A committee from the congregation waited on him to request his resignation.

"Look here," demanded the preacher. "What's do trouble wid mah preachin'? Don't I argufy?"

"You sho' does, eldah," agreed the sponsors.

"Don't I spouty concerns' de Scriptures?"

"You suitfully does," admitted the others.

"Den what's wrong?"

"Well, eldah," stated the head of the committee, "hite dis way. You argufy wid mah gentilities, but you don't show wherein."—Saturday Evening Post.

Better Soldier Than Statesman. One hundred years ago on the forty-fifth anniversary of his birth, Lord Wellington was rewarded with the title of Duke in recognition of his successes in the Peninsula campaign against the French.

At the same time the House of Commons voted \$2,000,000 for the support of his war dignity. Within a little more than a year the famous soldier was destined to win the great victory at Waterloo and to be made the commander-in-chief of the British forces. Later in life the Duke of Wellington became British prime minister, but the strong personal qualities that had helped him to success as a soldier were not the qualities that best fitted for the premiership, and the career of the duke as a statesman added little to his fame.

Thoughtful. Little Della was slowly turning the leaves of her nursery book when suddenly she stopped and said to her mother: "Mother, what day was I born on?"

"Wednesday, dear."

"Wasn't that fortunate! It's my day at home," replied the little girl.

In the spring, when land is in good condition to work, harrow, smooth and mark out rows four feet apart and as close as possible. Then set the plants well out in rows, leaving the rough cultivator alone enough to keep weeds out and the soil loose until September, when, if the plants are vigorous in

PROPAGATE CURRANTS AND GOOSEBERRIES

The English Gooseberry Borer is a Thing to Look Out For—Spraying is the Best Prevention.

There are many ways to propagate the gooseberry and currant, says Rural New Yorker. If new varieties are wanted seeds are used, which are washed from the ripe fruit and planted in the fall, or stratified until ground is fit for planting in spring. If one desires to propagate a certain variety it may be done by separation, layering or cuttings. Many times these fruits will set suckers, which if separated from the plant with some roots attached, make good plants. Layering is a very easy means of propagating cuttings. should be removed to the permanent quarters the following fall. If it is not convenient to take the cuttings in the fall, they may be taken in the spring and planted in the rows the same as the trenched cuttings were. The age of the parent plant will make little or no difference to the cuttings provided these are strong one-year-old shoots. Great emphasis should be given to the fact that cuttings should be taken from the best plants. If the plant is weak it poor in its habit of growth or subject to disease more than the others it should be discarded so far as propagation goes.

SPRAYING POTATOES TO AVOID BLIGHTS

Increased Yield is Sufficient to Pay for Operation—Growth is Winner Either Way.

The results of 20 years of potato spraying with Bordeaux mixture over in years like 1910 when no blight occurs, increases the yield of the plants to which it is applied. This increased yield is always sufficient to pay for the cost of spraying operations. Spraying is to be regarded as an insurance that pays for itself if the blights are prevalent, the potatoes are insured against loss therefrom. If the season is a dry one and no disease occurs, still the crop will be enough larger to pay for all the cost of spraying. The careful potato grower will either way, no matter what the weather or disease conditions.

Buttermilk for Calves.

Experiments have shown that calves fed on buttermilk make as good gains and are less subject to disease than those fed on skim milk. The condition of the buttermilk should be the same at all times, just the same as skim milk. It should not be too old, lumpy or bitter. Buttermilk has practically the same composition as skim milk, and should be fed in the same quantity and manner. It should not, however, be fed to the calf before it is at least three weeks old and the change from sweet milk to buttermilk should be very gradual, taking at least three weeks.

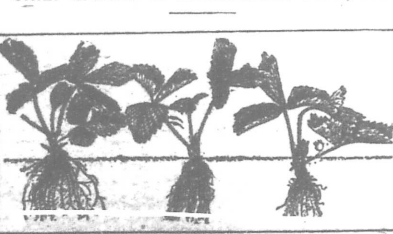

Returns Plant Food.

Only a comparatively small proportion of the millfeed is actually utilized by the cow. Practically all of the plant food may be returned to the soil if it is properly conserved. Herein rests a very important factor in the production of the dairy.

Mulch for Raspberries.

A mulch of manure on the raspberry plant is good for next season's crop, but it should not be so heavy near the patch as to furnish a harbor for field mice, beneath which they can dig down and eat the roots.

CHIEF ERRORS IN STRAWBERRY PLANTING

Methods of Planting Strawberries.

the runners should be about six inches apart. Many people fail to get strawberry plants to grow after being set. Probably the chief mistake are shown to the right and the left in this drawing. The plant at the right is set too deep; that at the left too high or shallow. The correct method is shown in the center. The crown of the plant should be level with the surface of the ground to give the plant proper chance for development.

NOT A SOOTHING APOLOGY

Bobby's Well-Meant Effort Probably Made Indignant Private Soldier Madder Than Ever.

Colonel Blank had a little boy five years old, and little Bobby had often heard the men in his father's regiment spoken of as "Colonel Blank's men." So he said to one of them: "My father was you?"

"The soldier was very angry. 'You little boy,' he exclaimed, 'what are you talking about? Nobody owes me.'

"Bobby's mother heard about it, and was much distressed, 'telling the little boy to bet she said: 'Bobby you were wrong when you said your father was his men and I want you to bet, the soldier that you are sorry for what you said.' Bobby, intending to overtake the private, the little boy exclaimed breathlessly: 'I'm sorry my father was you.'"

What He Feared.

It was during a very violent thunder storm in which the lightning flashes were particularly vivid, terrifying and frequent.

"Do not be afraid," Tommy said to his mother, "your father it leaves holds the lightning in his hands."

"Yes, I know he does nothing, but then, you see lightning is so quick and slippery that I am afraid it might let some of it get away from him when he don't know it."

400000 Settlers a Year

Immigration figures show that the population of Canada increased during 1916 by the addition of 400,000 new settlers from the United States and Europe. Most of these have gone on farms in provinces of Manitoba, Saskatchewan and Alberta.

Lord William Percy, an English nobleman, says:

"The Canadian soil opportunities offered by the Dominion West are so abundant that those who wish to see the highest growth should be impelled from thinking that any country where they can meet such conditions will improve their position."

"My districts are better peopled up than will be the case in any other country where the number of immigrants is steadily increasing."

Scout Headquarters.

At the invitation of Rev. G. M. Griffiths and the Presbyterian congregation, one patrol of Plymouth Troop of Boy Scouts attended divine services Sunday morning. It is to be regretted that many were present as the sermon by Rev. Griffiths was inspiring and eloquent, and the vocal selections by the choir were enjoyed by all. Our sincere thanks to Rev. Griffiths and his congregation for the at-homeness they made us feel while with them. It is to be regretted that the afternoon of the hike had been out in the morning, there would have been nothing to deplore, as a big delegation under Sergeant George Smith, struck the trail at Billstein's, for a trip along the Huron river. Scout Master Stead, with Kenneth Reed as his aide-camp, followed at a short distance. After a time had passed and some thrilling experiences on the high banks which line the river had been undergone, these two began to miss the others, and after traversing several miles sat down to rest. Not until then did the troop put in an appearance, having successfully ambushed and trailed the two for over two miles without discovery. It was a fine piece of scouting, and the afternoon was then taken place, the feature being the umpiring of Kenneth Reed, who was engaged at enormous expense for the Grand Army of the Republic. Tumbling feats ended the afternoon with all tired but happy. The first aid examination conducted by Dr. Walker was passed with honors by Gerald Howell, Harry Lynn and Charles Jones. Before promotion to a second class scout, a Tenderfoot must have less than one dollar on deposit in a public. With the exhibition of their pass books, Chas. Jones and Gerald Howell have become our first second class scouts.

We wonder if the people of Plymouth have ever realized the natural beauties which surround Plymouth. Dame Nature has indeed been kind to us, and a trip along the east bank of the Huron river, will well reward your time and effort. It is requested that every Boy Scout report promptly at Scout Headquarters at 10:15 on Sunday morning prepared to attend Memorial Services for the Grand Army of the Republic at the M. E. church. Let everyone show the true scout spirit by his attendance.

W. S. Ward Wins In Property Suit.

W. S. Ward, whose bankruptcy case is still in the courts, scored a victory in his battle for recovering Mrs. L. H. Beam in a suit brought by Mrs. Mary A. Solover to set aside a deed for property. The property was conveyed at \$20 and was valued at \$100,000. The suit was brought by Mr. Ward in his schedule of assets. It has since been sold to W. S. Kerr.

Solover, through her guardian, C. F. Harding, charged that Mr. Ward had caused the property to be deeded to him without financial consideration, and asked that the deed be set aside.

Mr. Ward opposed the suit on the grounds that he had assumed a mortgage on property for Mrs. Solover, and had agreed to provide for her.

Referee Beam, in his opinion, found that while Mr. Ward had not made up to his account entirely, Mrs. Solover would be the lesser of the two injured in the settlement, and as the law allows such considerations for his conduct in favoring Mr. Ward, Mansfield News.

Handing Clover for the Seed Crop.

Poor crops of clover seed are often attributed to the fact that tumble seeds are not plentiful or that the season has been wet. However, the real hindrance to clover seed production according to C. S. Wheeler of the College of Agriculture, Ohio State University, is the clover flower midge. The maggots of this insect are found in the clover blossoms where they destroy the ovary in case before there it can be fertilized and develop a seed. Two generations of the maggots appear each season with the two blooming periods of the clover. To get rid of the midge is impossible for the individual farmer because the adult which is a fly comes in from neighboring fields. Control depends upon getting the second crop of blossoms, which are to develop the seed, to appear either before or after the second generation of maggots. This is best accomplished by removing the first crop before it would naturally be cut in. Either mowing or cutting early in June or cut as when about half of the blossoms are open. This plan will cause the seed to develop early in the season, and by the time the second maggots appear it will not be damaged by them. By this plan the hay crop is partly cut in for the seed crop and usually with profit. In order to save the hay crop, some farmers delay the second crop of blossoms until after the second generation of maggots. This they accomplish by cutting over the field twice or by pasturing late.

What is a Cord.

Two young men came to a farm one day seeking work. They had their hats on and they were going to the edge of the swamp, where there was an extensive woodland. They were instructed to cut the cord for the fence and to cut the pieces of their eight feet long and four feet high—that is, they were to cord the wood, and they were to be slow but not too slow, and they should cut. After three days the owner of the farm went to examine the work. He was disappointed to find that the sticks they had cut varied from three feet to five feet in length, and it was piled in a tumble-down fashion. When the farmer expressed his dissatisfaction, one of the young men exclaimed, "Oh, well, it will average about right." "But," said the farmer, "I cannot sell wood by the average, I sell it by the cord, which is exactly four feet high and eight feet in length." Of course the two young men lost their job. It is a pity that the discharged farmer never would have lost his reputation for selling an honest cord of wood. Unfaithfulness and dishonesty are the two links of a chain that cannot be severed—one is sure to follow the other.
