**Mrs. H. Virginia Coe.**  
Following is the obituary read at  
the funeral of the deceased.  
"Leaves have their time to fall,  
And must be withered by the North  
wind's breath,  
And stars to set, but all  
Their brief seasons for thine own,  
O Death!"

Our departed young friend, Vir-  
ginia, wife of Evan O. Coe, was the  
youngest daughter of Mr. and Mrs.  
William G. Hershiser. She was born  
near Shelby, June 22nd, 1890, and  
departed this life on Monday after-  
noon, August 3rd, 1914, aged 24  
years, 1 month and 12 days, leaving  
to her deeply bereaved husband an  
infant son, whom his dying mother  
named James Willard.

Mrs. Coe's residence through life  
was in Richland county, until this  
spring, when she and her husband  
crossed the line to Huron county.  
After the close of the primary  
grades in the rural schools, she en-  
tered the High School in Plymouth,  
and pursued the full course, gradu-  
ating with her class four years ago.  
Her marriage with Mr. Coe was so-  
lemnized July 28, 1913. Not a few  
of us here remember the occasion  
when the customary congratulations  
were extended to the newly-wedded  
pair, and cordial wishes for a long  
and happy journey through life were  
made. But the uncertainty of life  
again forced upon us as we see  
the happy bride of a year ago now  
borne beyond the gates of death to  
the life eternal.

Virginia, as her loved friends called  
her, was a christian from her child-  
hood, and in childhood years  
united with the church of her par-  
ents, the Methodist Episcopal. But  
after her marriage she transferred  
her relations to the church of her  
husband and his family, the Presby-  
terian. In both churches she was  
known as a faithful and intelligent  
christian.

I have met Mrs. Coe in her home,  
in the social circle, and in the church  
services. Everywhere you met her  
she impressed one as a model young  
woman, exhibiting quietly such  
graceful excellencies of character  
and conduct that displayed, not only  
her careful home training, but that  
she had learned the lessons of life as  
one who knew how to appreciate,  
appropriate, and use them. Her  
refinement and refinement stamped upon it,  
was sunshine itself. I have had no oc-  
casion to say these things outside of  
private conversation before, and  
then only a few times. But today  
they are appropriate, and justly hon-  
or the memory of this precious young  
life. She was always the soul of un-  
selfishness, thinking and doing al-  
ways for others before herself, and  
her christian faith quietly, but none  
the less faithfully manifest, blessed  
her life, and comforted her to the  
end, when she committed herself to  
her Heavenly Father. Not alone  
will the homes of her dearest friends  
be the poorer for her absence, but  
the community of young people  
among whom she moved will feel  
deeply her loss, but their lives will  
be all the brighter for the memories  
of her beautiful years on earth.

She leaves with her deeply be-  
reaved husband, her beloved parents,  
Mr. and Mrs. William G. Hershiser,  
brothers, John and George Hershiser,  
and her only sister, Mrs. Anna Clark,  
also several aunts, uncles and  
cousins, with a host of sorrowing friends.  
"There is a world above,  
Where parting is unknown,  
A whole eternity of love,  
Formed for the good alone;  
And faith beholds the light here  
Translated to that happier sphere.  
Thus star by star declines,  
And all the portals of the here  
As morning light and higher shines  
To pure and perfect day;  
No sink those stars in empty night,  
They hide themselves in Heaven's  
own light."

Federal services were held from  
her late home, west of town, Wednes-  
day afternoon, conducted by Rev.  
Howard M. Welsh, of Iberia, formerly  
pastor of the Presbyterian church  
here, and Rev. R. H. Balmer,  
pastor of the M. E. church, the  
pall bearers being her sister and five  
of her young life cousins, the inter-  
ment being made in Greenlawn cem-  
etry.

**CARD.**  
We wish to extend our heartfelt  
thanks to all those who in any way  
have shown their sympathy and  
kindness during the illness and death  
of our beloved daughter and sister.  
We are especially indebted to the  
comforting words spoken by the  
pastors, and we greatly appreciate  
the many beautiful floral offerings.  
Evan Coe and Family, and the  
Hershiser Family.

**Over 300 Students at the Oberlin Business College.**  
From a copy of the August issue  
of the Oberlin Business College News  
we learn that the Oberlin Business College is  
having one of the most prosperous years  
in its history. The attendance of  
more than 300 students this year has  
made it necessary to erect another  
building to accommodate the large  
attendance. With two splendid build-

ings this school is now one of the  
best equipped of its kind in the United  
States.

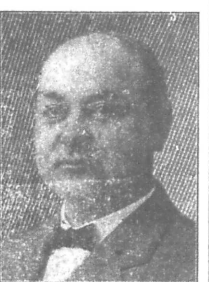

The reputation which this school  
has gained and the great demand for  
its graduates, is attracting students to  
it from all parts of Ohio and other  
states. Any of our readers who are  
desirous of entering a Business College  
should send for a copy of the August  
issue. Fall Term will begin September  
8, 1914.

**School Districts are Selected.**  
At a meeting of the Richland county  
board of education in the basem-  
ent of the court house, Monday of  
last week, the townships of the county  
were arranged into school dis-  
tricts, in compliance with the new  
school laws. Supervisors are to be  
appointed at once and their names  
will probably appear in the report  
of the superintendent of the county  
schools, to be submitted in a few  
days.

The new school districts will be  
made up as follows: Perry, Jefferson  
and Worthington townships; Mon-  
roeville, Washington and Troy town-  
ships; Sandusky, Springfield, Mad-  
ison and Mifflin townships; Plymouth,  
Cass, Sharon and Jackson townships;  
Bloominggrove, Butler, Weller and  
Franklin townships.

**Thrashing Time.**

It is thrashing time throughout  
the country. Now comes one of the  
most delightful seasons in all of the  
year in ruraldom, when farmer  
friends cooperate and assist each  
other in the final work of harvesting  
the golden wheat crop.  
The crop is huge and already one  
can hear the merry shouts of the  
harvest hands as they drive up to  
the "machine" with their wagons  
piled high with the rich sheaves to  
be greeted by the rustic sibes of the  
workers at the thrashing outfit, who  
are given to uncouth but not un-  
popular jokes and banter and who as  
the morning grows old and the sun  
climbs high in the sky think and  
talk of the great feat that is in  
store for them at the farm house on  
the hill.

There another instance of cooper-  
ation is in progress. The wives and  
daughters of the hardy workers in  
the fields have gathered and have  
prepared a great feast of real, whole-  
some, country food for the men,  
and brawny toilers in the fields. On  
the tables, plentifully spread in the  
shade of an inviting orchard, are  
great portions of chicken, brood  
plates of cold sliced country ham,  
mounds of home made bread, steam-  
ing dishes of dumplings, white moun-  
tains of mashed potatoes, savory ves-  
tels of rich, brown gravy, rolls of  
dark red jellies, lazily swaying to  
and fro as if beckoning to be con-  
sumed, and appealing cakes—moth-  
er's, and every variety of candy,  
candies, typical of country fashion-  
ing and never lacking in "capabili-  
ty to touch the spot." Around the  
smokehouse corner is a great cald-  
ron of rich coffee, simmering over a  
fire, ready to be made mellow with  
thick cream and to slide gracefully  
in the good old way from a saucer  
down the eager throats of those who  
are engaged in gathering in the  
products of the honest toil of the  
serious months.  
Suddenly the whistle is heard in  
the field. Horses are stabled and  
fed, and then rushing rollicking to  
the old pump, a throng of glad, hap-  
py, bustling, "coveys" are heard  
and hands under a flow of cooking  
lunger, the product of an honest

**HOW CHILDREN GROW**

Children grow by nourishment—not  
overloaded stomachs or rich foods but  
qualities that are readily converted into  
life-sustaining blood; too often their  
digestive powers cannot procure these  
qualities from ordinary foods which results  
in weakness, dullness and sickness.  
If your children are under-size, under-  
weight, catch cold easily, are languid,  
backward, pale or frail, give them Scott's  
Emulsion which is pure medicinal nourish-  
ment. It sharpens the appetite, builds  
healthy flesh, firm muscles and active  
brains. Scott's is growing-food for  
children. Refuse alcoholic substitutes.

toil and a glorious calling.  
Surely thrashing time brings the  
greatest of all joys. It provides the  
opportunity for the communion of  
friends and for evidences of brother-  
ly love and a display of the spirit  
commanded of all, to "love ye one  
another."

Vote for Carpenter.  
Carpenter for Congress.  
Yes, we surely need rain.  
Primary election Tuesday.  
The Chautauqua was a BIG success.  
Bret Huerta is sorry he fled to Europe.  
The wind is blowing over the oats stubble.  
How do you feel after the chautauqua?  
The cool nights remind one that fall is approaching.  
Tiro will hold a home coming and carnival Aug. 20 to 22.  
For Sale—Good milking cow. Inquire of C. H. Ramsey.  
The bell will soon be summoning the pupils back to the school room.  
There are in the United States this season approximately 9,000 chautauquas.

Anyway, did you ever see finer weather than we had for the chautauqua.  
Aren't you glad you did not have money enough for an European trip this season.  
Put it down in your diary book opposite Tuesday, Aug. 11: "Primates;—and vote!"  
For Sale—House and lot on Porter street. For price and particulars call on L. S. Foght.  
Plymouth certainly thinks well of the chautauqua—at least they took to it like a duck does to water.  
Fishermen are enjoying some excellent sport at the quarry lake these days, some good sized bass being hooked.

Wanted—Carpenter, painting or mason work, and will guarantee full satisfaction. Enquire of A. L. Miller, Maple Street.  
The reliability of SNOW FLAKE FLOUR has been demonstrated to the complete satisfaction of thousands of housewives. Try it and be convinced.  
Several members of the New Ideas Club left for Mittauvas Thursday morning where they will remain for two or three days guests at the Root-Heath cottage.

The Ladies' Aid Society of the M. E. church will meet at the church parlors Tuesday afternoon, Aug. 11. A full attendance is desired as at this time will occur the annual election of officers.  
The union services of the churches will be held next Sunday evening at 7:30 in the Methodist Episcopal church. All citizens are hereby cordially invited to attend. Rev. J. C. H. Mansfield will be the speaker.  
Frank Beverstock of Mansfield, candidate for the Republican nomination for sheriff of Richland county, together with ex-sheriff Barney Falver, were in Plymouth Tuesday meeting the voters in this end of the county.

S. L. Abbott has abandoned his up town office and moved his office farther on his line on Columbus street and in the future will only look after such business as that which pertains to his office, that of Justice of the Peace.

The Beaver-Conklin reunion will be held at Bittingers woods, S. N. & M. cars, stop 64, Plymouth, Ohio, Wednesday, August 26, 1914. All relatives are cordially invited. Dinner at 12 sharp. Bring plates, spoon, cup, knife, fork and sauce dish.  
By order of Committee.

I have the latest style book of made to measure garments for one of our desiring a new suit for Fall, may any afternoon and look the book over. Any style and color, suits tailored in 10 days, and come on approval. Cash and monthly payments.

The foundation work for the large addition to the Root-Heath factory Co.'s plant has been completed and many brick, which will enter into the construction are on the ground, work of laying which will possibly be started this coming week and pushed vigorously through to the end.  
The high water mark in the letting of contracts for state road construction, was reached in Columbus Tuesday when Commissioner Marker offered roads for construction which are estimated to exceed \$2,500,000. This letting is a record breaker, exceeding the last which in turn exceeded previous ones.

The Wear-U-Well Shoe Store this week installed some up to date machinery. A new sitcher for sewing on taps is a real find for adding on your work while you wait, requiring from 10 to 15 minutes to tap and heel the largest size shoe. Some are glad our little city keeps in step with the larger ones in being up-to-date.

While Richland county has not been infested by the army worm to any extent in other counties in the western section of the state, another pest known as the turcock moth is doing considerable damage to the trees throughout the section. The worst to be found in great numbers in many places about the city and county. Walnut trees are especially attacked, when Plymouth and they have been stripped of their foliage. The caterpillar that does the damage is about two inches long and is covered with gray hair.

The beautiful \$425.00 Story & Clark piano, used at the chautauqua, and kindly loaned by their resident in the Barton Hardware and Implement Store, and which was offered to the highest bidder, went to R. C. Funk of Greenfield at bid of \$225.

Plymouth, as in biblical terms, doesn't believe in placing her lights under a half bushel, but in letting it radiate in all directions. The nineteen new lights placed about the business section certainly are performing their function, lighting up this section of our town in a most brilliant manner.

John G. Deek, well known in Plymouth, but who of late has been making his home in Fredericktown, was united in marriage Saturday evening to Miss Grace Gallagher, also of the same place. The bride is a graduate of Chillicothe High School and taught school the past winter. Friends here extend their congratulations to himself and bride.

A farmer entered a drug store the other day and asked the price of sulphur. When told it was ten cents, he said: "I can get it from the mail order house for seven cents." "Yes," replied the druggist, who had recently heard that argument before, and you can get it in hell for nothing, and you won't have to pay no freight." He sold him the sulphur.

At a meeting of the Richland county board of elections held Saturday evening the committee for printing the ballots for the primary election to be held August 11, was awarded to Geo. Holm & Bro., whose bid of \$100 was the lowest submitted. A total of 15,650 ballots to be printed, divided among the three parties which will nominate at the primary.

Sitting down on the Baltimore and Ohio railroad tracks near Alta to wait for a friend who was making the hike with him from Mansfield to Belle, Jesse Biggs, a twenty year old young man, fell asleep. While fast asleep and unaware of the danger, he was struck and instantly killed by the fast passenger train No. 15, due here at 11:48 Friday evening.

An exchange says that a new attachment for automobiles is out. It is a music box and when the car is driven less than twenty miles an hour it plays "Home, Sweet Home." When the car is driven faster than thirty miles an hour it plays "Near My God." The car is some speed demons, who drive 50 to 100 miles an hour, play only "What the hell do We Care."

The Coit-Alber Chautauqua which opened in this city last week Friday for a 6 days' run came to a successful termination Tuesday evening, all numbers being largely attended. The program throughout was one of exceptional merit, entertaining and instructive and highly enjoyed by the thousands in attendance. This was made possible by the assistance in the chautauqua work and the promoters back of it, as well as the Coit-Alber Co., are to be complimented in making it the successful one. It was five days of community betterment and social uplift and fully demonstrated the value of the chautauqua work and how people are so often deceived that all are clamoring for another such coming year. While no definite steps have been taken it is safe to say that the people's wishes are gratified with a larger and better chautauqua, if such can be this coming year. It took work to carry the people through, but when Plymouth and its citizens undertake anything they always succeed in carrying it through to a final success, which the chautauqua was no exception in all other respects.

Bob Langford, the boxer, who was here carnival week, has been meeting with great success since leaving Plymouth, cleaning up all his opponents. He was here Monday and at the end of the month will go a mile against time on a bet of \$200 at Galion.

Automobile thugs robbed the Havana postoffice at an early hour Saturday morning, securing about \$200 in money and stamps. The office is in the E. & O. depot and is in charge of Allen Satchel. The thieves evidently came from the direction of Bellevue, as they stopped at the farm house of Michael Cecil about 1:30 o'clock that morning and asked the road to Havana and Chicago Junction.

The Monroeville Driving Club's fine new track will be dedicated on Saturday, August 16th, when the first matinee races will be held. It is expected that a large number of horses from neighboring towns will be entered, and some rare sport is promised. Entrance blanks can be secured of Jesse Buckingham, secretary. The races will be held in the afternoon and our people are cordially invited to attend.

W. C. T. U.  
The regular meeting of the W. C. T. U. will be held at the home of Mrs. James Murphy, Wednesday, Aug. 12th, let all members come out to this meeting as it is the annual all day picnic and election of officers. The County President is also expected to meet with the ladies on this day.

A PERSONAL LETTER  
From John F. Kramer, to the Readers of this Paper.

In this little letter I desire to call your attention to the fact that I am a candidate for Representative from this county. As you know I have served one term. If my record and course in the legislature has been such as to merit a second term, I will appreciate your support. If my record does not merit a second term, I would not want your support. I know that I did not vote on all measures to suit everybody. This is impossible. It may be that I did not vote upon any measure so as to suit everybody. So you will have to consider my record as a whole in arriving at a conclusion as to whether you will care to support me for a second term.  
Thanking you for the consideration you may give this matter, I remain,  
Yours truly,  
JOHN F. KRAMER.

BLOOD SHED IN BATTLES PAGE

Fighting Between International Combatants in Europe Reported.

GERMANS ENTER BELGIUM

Dispatch From Nish, Serbia, Says Austrian Troops Were Defeated With Heavy Losses in an Engagement With Servians Near Semendria.

London, England.—Further reports of fighting between the international combatants drifted from the front lines, which is being rigidly maintained in all European capitals and field headquarters of the different forces.

The few reports that made their way across the borders of Russia, Germany, France, Austria, Serbia, Turkey and Belgium chronicle the spilling of blood.

In addition to reports of engagements which have leaked out, it is the general impression here that several important engagements not reported have occurred.

German troops crossed the Belgian frontier at Germelegh, near the junction of the Dutch, Belgian and German frontiers, according to Brussels wireless.

Phone and Telegraph Wires Cut.—German troops have cut telephone and telegraph wires on French territory along the border, it was reported in Paris.

The German cruiser Breslau bombarded the French coast near Boulogne, Algeria, afterward steaming off at full speed in a westerly direction, according to announcement at the German Embassy in London.

A German army aeroplane dropped three bombs on the French fortified town of Lunéville, in the southeast of Alsace. Some property damage was caused, but there were no casualties.

A dispatch from Nish, Serbia, to the Mladin says Austrian troops were defeated with heavy losses in a battle with Servians near Semendria.

Three regiments of Austrian infantry comprising nearly 10,000 men, supported by heavy artillery, advanced against the Servians, but were repulsed, leaving many of their number dead and wounded on the field.

A Russian warship went aground on the Aland islands after a naval battle between the Russian and German fleets, it was learned in London.

A body of Russian frontier guards from Krotzingen was driven back by a part of the garrison of the German seaport of Memel, the most northerly town in Prussia.

German troops continued to harry French outposts along the frontier by making numerous raids into French territory. The French, however, refused to be drawn beyond the six-mile zone left unoccupied along the frontier.

A Paris report said German troops crossed into French territory near Marée-La-Tour, where one of the most important battles in the Franco-Prussian war was fought in 1870.

Germans Invade Belgium.—German troops made a further invasion of Belgian territory near Verrieres, to the east of Liege, according to a dispatch to the London French legation at Brussels.

A proclamation by King George commanding the mobilization of the British army was read from the steps of the Royal Exchange in London. A huge crowd cheered and sang the British national anthem.

The Japanese foreign office at Tokio issued a statement that if the war extended to the Far East and England is involved in it, it would be necessary to participate in fulfillment of the Anglo-Japanese alliance.

French Take German Cruisers.—The governor of Algeria actually reported that a German vessel believed to be the Breslau, aboard the French naval station of Boulogne, in the Algerian coast. Later wireless dispatches report that the vessel was destroyed, along with the cruiser Goben by a French fleet Algerian dispatches also report that the combatant German cruiser which was captured by the Agadir incident three years ago was sunk off the Moroccan coast by French warships.

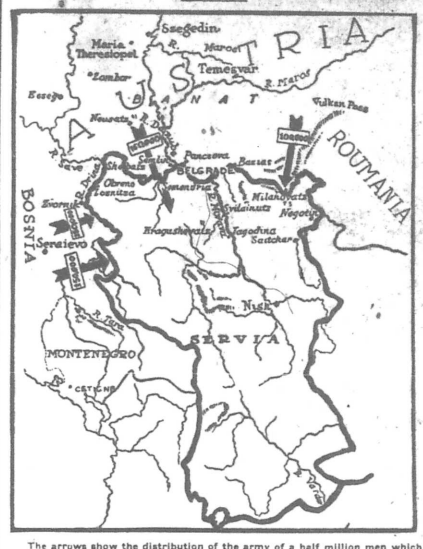

The British fired eight broadsides—some 60 shells—at the Hona fortifications and later steamed away. It is believed to have fallen in with the French fleet of 12 warships, which named Gibraltar Sunday bound east.

German Troops Advance.—German troops were driven back by a part of the garrison of Memel, a little German port on the Baltic.

Rushes Aid to American Tourists.—Washington, D. C.—Relief for tens of thousands of Americans in the war zones of Europe will be extended through every power and influence at the disposal of the United States government. Millions in gold will be sent to the war-torn Kingdoms for immediate relief.

Officials of the state, war, navy and treasury departments conferred today to discuss plans for immediate relief. President Wilson asked congress to appropriate \$50,000,000.

BRITAIN DECLARES WAR ON GERMANY

England Bases Its Move on Unsatisfactory Answer to Demand of Neutrality.

ARMY AND NAVY PREPARED

King George's Government is Ready for Hostilities and United Kingdom and Dominion Beyond the Seas Have Been Put in Posture for Defense.

London, England.—Great Britain declared war upon Germany Tuesday night.

England based its move on Germany's unsatisfactory answer to the demand that the neutrality of Belgium be respected.

The British government Monday night demanded that Germany make formal statement of its intentions to Belgium and Holland, the neutrality of which has been guaranteed by the powers of Europe for 84 years.

This Britain failed to do. Ultimatum Demands Immediate Reply.—Great Britain's ultimatum demanded a satisfactory reply by midnight Tuesday. The German reply, received late in the afternoon, was of such a nature that England made her declaration at 11 o'clock in the evening.

The British foreign office has issued the following statement: "Owing to the summary rejection by the German government of the request made by his Britannic majesty's government that the neutrality of Belgium should be respected, his majesty's ambassador at Berlin has received his passports, and his majesty's government has declared to the German government that a state of war exists between Great Britain and Germany from 11 o'clock p. m., Aug. 4."

England Prepared for War.—King George's government has made every preparation for hostilities, and the United Kingdom and the dominions of the British empire beyond the seas have been put in a state of defense. The government, Tuesday afternoon, took over all the railroads in Great Britain.

The admiralty also officially announced that the government has taken over the two battleships—one completed and the other nearly completed—ordered in England by Turkey, and two destroyers ordered by Chile. The battleships have been named the Krin and Agincourt.

The army has been mobilized, the navy reserves throughout the empire called out, and the great home fleet gathered in the North sea, ready to defend England against possible invasion, or to strike home at Germany's naval base at the west gates of the Bosphorus.

Parliament has voted a war credit of \$525,000,000 for emergency purposes.

Keeps Gold From Fees.—Her Honor Me. Carrryins more than ten million dollars in gold, the North German Lloyd steamer Kronprinzessin Cecilie, after a forced run of four days, dropped anchor here Aug. 4. Her officers had feared capture and kept every movement of the big vessel a secret.

The Cecilie sailed from New York Tuesday. The gold was consigned to French and English bankers, and, being worth over \$5,000,000 in herself, the ship constituted the finest sea prize ever open to capture.

Villa Breaks With Carranza.—El Paso, Tex.—Gen. Francisco Villa virtually has proclaimed his independence from the Carranza government, according to reports brought here Tuesday by arrivals from all parts of northern Mexico.

Negatives Issued for the peaceful transfer of Mexico City to the Constitutionists are at an end. The Constitutionists refused to entertain a suggestion imposed by the Carranza commissioners.

These commissioners did not see Carranza.

OHIO CORNBORS PAID TRIP

Twelve Hundred Young Tillers of the Soil Expected to Go This Year.

VISIT CITY OF NEW YORK

Special Trains Will Again Be Run—One Thousand Would Be Excursion Last Year.

Western Newspaper Union News Service.—Cleveland, O.—Although the annual trip of the champion corn growers and farmers under 18 years of age, and the best bread, pie and cake bakers under 18 years of age in the state, is almost four months away, these young tillers of the soil and the makers of happy homes in the future, are busy in every county of the state, and the annual tour of the national capital, big battle-ship, pickle plants and historic mansions promises to be the greatest event that has yet been pulled off by the state board of agriculture.

Last year there were over 1,000 of these young folks who journeyed in Pullman cars through the eastern cities. This year the number will be greater. The cost will be about the same for those who make this delightful trip possible, \$50 for those under 18 and \$60 for those over 18 years of age.

Political candidates, enterprising firms, banking institutions, etc., who are anxious to see the coming generation better equipped to care for themselves and their offspring, are making the trip financially, and making it possible for the little hustlers to get better acquainted with the nation they live in.

It is not at all improbable that a trip of a day at least on the Atlantic coast will be provided. This will be from Philadelphia to New York city.

THE STATE HAS TAKEN CHARGE.—In Cincinnati, Where State Assits Local Authorities.—Cincinnati, O.—Dr. Paul Fisher, state veterinarian, has assumed charge of the fight which is being waged by the local health department against an epidemic of glanders which began last week here.

All public watering troughs for horses have been closed and teamsters have been ordered to carry individual buckets. Dr. Fisher has ordered that no animal be put on each case as it develops the disease is easily communicable to human beings, but so far no cases of this kind have been discovered.

HOSTS WILL BEGIN LEAVING.—War Spirit Among Cincinnati's Foreign Element at Fever Heat.—Cincinnati, O.—War spirit, blown to a fever heat by developments of the European situation between Austria and Germany, has been vented in general meetings of Serbs, Servians, Hungarians and other foreigners in the foreign districts of this city.

They are raising money to pay for the transportation of Serbs to fight in the Serbian army, were started.

DANNY MUST COME ACROSS.—Ravenna, O.—District Tax Assessor A. H. Webb, of Portage county, who recently increased the personal returns of Dan R. Hanna from \$16,000 to \$45,000, said that Hanna's attorney admitted that the returns should be increased and that he had assessed at \$12,000. The offer was refused by the district assessor, who will insist on a much larger amount.

BUCKEYE BREVITIES.—Cleveland, O.—With a coach all to himself, except two guards and Immigration Inspector Cameron Miller, who recently increased the personal returns of Dan R. The offer was refused by the district assessor, who will insist on a much larger amount.

CLAIM THE JAIL IS UNSANITARY.—Cleveland, O.—The board of health passed a resolution yesterday, the mayor and city police, regarding the city jail in which to confine persons. The jail is in a basement beneath the mayor's office. It has been used for over half a century for that purpose.

HUSK HAS SUCCEEDED MARKER.—Wellston, O.—William J. Husk, of Wellston, was named by State Superintendent of Public Works John I. Miller as chief clerk in his department, in place of Harry G. Knapp, who has been chief clerk in the state banking department.

FAIL TO REACH A SETTLEMENT.—Massillon, O.—Unable to agree on even the preliminary matters and opponents of the Massillon district, in which sugar miners are at issue, adjourned a joint conference. The prospects of peace are said to be decidedly slim.

MAKE LARGE GAINS IN EARNINGS.—Columbus, O.—Columbia Gas & Electric Co. for the first six months of 1914 made large gains in earnings of the first six months of 1913. The company controls large areas of gas lands in West Virginia and Kentucky, owns the pipe lines which transmit this gas to Cincinnati and surrounding towns and controls the companies which supply gas to electric street cars of Columbus and Cincinnati, and also the street car lines of Newport, Lexington and other Kentucky towns along the River.

FILLS A LONG-FELT WANT

Will Transfer Patients From Other State Institutions.

Lima, O.—Transfers of as many patients as possible from the different state hospitals to the new hospital for the criminal insane at Lima, is the aim of the state board of administration. This board is urged to accept not only the criminal insane, but for- cers and others with no local ties, so that there will be more room in the old-established hospitals for drug-users and alcoholics. The present state laws will not permit the admission of other than criminal insane at the Lima hospital, and for this reason it is certain that needed legislation will be asked for others with no local ties. The capacity of the Lima hospital is far in excess of what will be needed for many years to come for criminal insane.

DISPATCHER RESPONSIBLE

According to Report Made by Public Utilities Commission.

Columbus, O.—W. J. Cunningham, of Marietta, dispatcher for the Pullman road, is responsible for the collision of a passenger car and pay car near the poor farm and that which killed Chris Noe was killed and 16 were injured, according to a report made to the state public utilities commission by spectators.

THE HOSPITAL MAY BE CLOSED.—New License System Curtailed Funds, Which Are About Exhausted.—Columbus, O.—Unless county officials can find some way out of the dilemma, it may be necessary to close the new county tuberculosis hospital from September 1 to March 1. The situation comes about through the new license system. The commission had counted upon the usual amount of the poor fund for the maintenance of the tuberculosis hospital, and so did not take into account the raising of the amount of that institution as discovered as necessary. Recently it was discovered that about \$30,000 had been taken from the poor fund and that some other source of revenue would have to be found for the maintenance of the tuberculosis hospital.

HOSTS WILL BEGIN LEAVING.—War Spirit Among Cincinnati's Foreign Element at Fever Heat.—Cincinnati, O.—War spirit, blown to a fever heat by developments of the European situation between Austria and Germany, has been vented in general meetings of Serbs, Servians, Hungarians and other foreigners in the foreign districts of this city.

ELLIOTT MARSHALL

North of Ohio and Potomac Rivers and From Vertical Line Drawn Through Buffalo and Pittsburgh as far West as the Mississippi.

Washington, D. C.—In a divided opinion the Interstate Commerce Commission granted some of the 5 per cent freight rate increases asked by the eastern railroads and denied others. Increases will apply in the territory north of the Ohio and Potomac rivers and east from Buffalo and Pittsburgh as far west as the Mississippi.

EASTERN RAILROADS GAIN PART INCREASE

GRANTED SOME OF 5 PER CENT BOOSTS ASKED AND ARE DENIED OTHERS.

Increases Will Apply in Territory North of Ohio and Potomac Rivers and From Vertical Line Drawn Through Buffalo and Pittsburgh as far West as the Mississippi.

Washington, D. C.—In a divided opinion the Interstate Commerce Commission granted some of the 5 per cent freight rate increases asked by the eastern railroads and denied others. Increases will apply in the territory north of the Ohio and Potomac rivers and east from Buffalo and Pittsburgh as far west as the Mississippi.

Increases will apply in the territory north of the Ohio and Potomac rivers and east from Buffalo and Pittsburgh as far west as the Mississippi. All class rates and many commodity rates are increased 5 per cent in that section. No increases were permitted east from Buffalo and Pittsburgh to the Atlantic seaboard. That excludes from the area from which the railroads will receive benefits, the greatest traffic producing centers of the country.

Two Commissioners Dissent.—Commissioners Daniels and McChord dissented from the majority opinion. Mr. Daniels held a 5 per cent increase should be granted east from Buffalo and Pittsburgh to the Atlantic seaboard. That excludes from the area from which the railroads will receive benefits, the greatest traffic producing centers of the country.

The majority, headed by Chairman Hays, held as serious west and east from Buffalo and Pittsburgh to the Atlantic seaboard. That excludes from the area from which the railroads will receive benefits, the greatest traffic producing centers of the country.

While it was held that the income of the majority held to be smaller than demanded in public interest, no showing had been made warranting a general increase.

The real relief, the commission held, for the New England roads and those in Central Freight association territory was financial reorganization. The commission denounced what it characterized as a propaganda to influence its decision and added there was no doubt it had "seriously injured the present commercial depression."

Such advances as are allowed are expected to increase the income of the railroads about 5 per cent. Such prudential east and west roads as the New York Central, Pennsylvania, Erie and Baltimore & Ohio will benefit by the advance, as will the lines that have lines running from the east over into the territory in which the advances apply.

Coal, which alone consumes more than one-half the total traffic of the railroads, will have no advance. It was, nonetheless, expected that such items as cement, iron ore and plaster, neither will there be any increase on lake-and-river traffic.

First Conflict in Air.—Brussels.—The first conflict in the air in history, was waged at night over the little village of Tondel at 8,000 feet. The plane was sent into a panic by the sight of a monster Zeppelin dirigible hovering above them.

The warship, which dropped bombs into the village and was driven back when a French military aviator got out his machine and was in a great height above the Zeppelins and began riddling it with bullets. The huge air craft fell to the ground.

Former U. S. Consul Says Within These Mysterious American Ruins Are Books With Pages of Stone.

Washington, D. C.—Edward H. Thompson, former United States consul at Yucatan, in a communication to the National Geographic society at Washington, D. C., describing Chichen Itza, the home of a forgotten race...

Specimen of Ruins That Are Spread All Over Yucatan.—The level upper surface of the mole two great rings of stone were fixed to the supporting masonry directly opposite each other.

The writer tells a legend concerning Canké, the important ruler Chichen Itza, who loved the daughter of the ruler of a distant province. One day a runner brought him the news that the daughter of a neighboring and far more powerful province was married to the maiden, Canké and his warriors went to his enemy's city under cover of darkness...

MEN AND ISSUES THAT FIGURE IN WAR SITUATION

To Count Leopold Berchtold, Austrian Foreign Minister, Must Be Given First Place

BROUGHT ABOUT CONTEST

It is Understood He Believed the Time Ripe for Favorable Action—Career of Nikola Pashitch, Servian Premier—Russia's Part in Embroglio.

Count Leopold Berchtold, a quiet man, with English manners, sitting at a desk in the foreign office in Vienna—such is the unimposing presence of the Austro-Hungarian statesman who precipitated a situation more serious to Europe than any that has arisen since the events that immediately preceded the Franco-Prussian war...

Russia Back of Serbia.—When he took office as the director of the foreign office, Berchtold found a situation full of portents. Behind the self-imposed protector of all the Slavonic nations, including Serbia, and the two other members of the triple entente, Great Britain and France...

Then came the Balkan war in 1912, in which the Bulgarian and Servian Slavs crushed the power of Turkey in Europe. The formation of the Balkan League and the utter defeat of Turkey were startling events which caught Berchtold napping. His next move was to break up the Balkan League by stimulating the land hunger of Serbia and Greece...

The Franco-Serbian success, though, was another development for which Berchtold was unprepared. After Serbia had been defeated by the combination of five nations, including Turkey, the clamor at Belgrade against the assassination of Bosnia-Herzegovina...

doubled vituperativeness and acerbity. This agitation, it has been pointed out by Berchtold, was the direct cause of the tragedy at Sarajevo, when the archduke and his morganatic wife fell by bullets fired by a Servian. The Austrian minister of foreign affairs demonstrated in the judicial inquiry that followed the crime, that Servian officials, civil and military, had been involved in the events that led to the assassination.

Deemed Time for Action.—The moment for action had come. Berchtold, surveyed the international horizon...

Pashitch was premier of Servia in 1912, at the outbreak of the Balkan war. He saw an opportunity to block Austria's long-sought road to the Aegean sea. The first objective points of the Servian armies in the first war were the ports of the Adriatic, in what is now Albania. These, with the help of Montenegro, Servia occupied in the first stages of the struggle.

At this stage, however, Pashitch's calculations were upset by Austria. Acting in conjunction with Italy, which also had pretensions to the country inhabited by the aboriginal stock of the Balkan peninsula, the Austrian government succeeded in inducing Rumania to order Servia, Greece and Montenegro out of the Adriatic territory occupied by them, and set aside this region as an independent state, to be called Albania.

For the success of his defiant attitude toward Austria, Pashitch depended almost entirely upon Russia. It was realized in clearly by General Putnik, the Servian chief of staff, that resistance to Austria upon the field of battle would be unthinkable, so far as an ultimate triumph for Servian arms is concerned.

In the course of the past score of years Servia has been conducting an agitation among the Slavic population of southern Austria, and Pashitch undoubtedly counts upon internal disorders in the rear of an advancing Austrian army to embarrass the enemy in a campaign into Servia.

Clamor Against Austria.—But the chief grievance of the Servians has been the continued domination of Austria-Hungary over a large population across the frontier which the Servians maintain is of Serb blood. Although a considerable part of this population has contested the claims of the Servian financiers and has

repeatedly demonstrated its preference for Austrian rule, the campaign for liberating the Servian brothers from the Austrian yoke has been kept up with frequent outbreaks of anti-Austrian clamor in Belgrade. The Austrian clamor in Belgrade, says Servia, has lent her secret and sometimes her open support.

The annexation of Bosnia-Herzegovina by Austria in 1909 produced a wild demand in Servia for immediate war to liberate the Bosnian brothers from Austrian rule. At that time, however, Russia was not ready for action against Austria, so the clamor spent itself in torrid speeches and fervid press declarations.

Occupied Adriatic Ports.—Pashitch was premier of Servia in 1912, at the outbreak of the Balkan war. He saw an opportunity to block Austria's long-sought road to the Aegean sea. The first objective points of the Servian armies in the first war were the ports of the Adriatic, in what is now Albania. Bulletin On Dust Prevention.

In response to a great demand from all parts of the state, especially the smaller cities and villages, the state highway department has just issued bulletin No. 27, on dust prevention. This bulletin incidentally reminds the public that "good roads are dusty roads." The table of contents shows that among other things these subjects are treated: Sources and causes of dust; dust from farm material brought on the road; dust from wearing away and disintegration of the surface; dust originating from deep-seated causes; dust nuisance in village streets; dust on earth and gravel roads; dust on macadam roads; dust preventives—water, calcium chloride, asphaltum, etc.; methods of application of oils. The department feels that this bulletin will aid the state officials in their work in better roads and maintaining them, and will, at the same time, be of immense value to officials in the smaller places where the problem of dust prevention has been one to grapple with, and left unsolved.

Payment Is Guaranteed.

How thousands of borrowers from insurance agencies in a number of Ohio cities have obtained money at higher rates of interest than allowed normally by law, after being "bonded" as security for the loan by the United States Credit Agency Co. of Springfield, is told in a report by State Insurance Commissioner Robert M. Small to Atty-Gen. S. Hogan. A check was made on the office of the credit agency company by Commissioner Small on the suspicion that it was conducting a business in Ohio without a license contrary to law. The report made confirms this. The Attorney General was asked to start ouster proceedings against the company. An original action against its officials.

Big Boost Is Given.

The agricultural movement was given a big boost at the meeting of the county school superintendents and the officials of the state department of public instruction, held in Columbus, Ohio, August 10. Superintendents Clarke, Irvin, Harbour and Goll explained the department's plan for increasing the interest in both this subject and domestic science, each supervisor addressing the superintendents from his district. Under this plan whatever assistance is needed in any county in furtherance of the cause of the subject will be obtained from state departments through the superintendents. Eighty-six of the 88 superintendents were present at the meeting. One was absent on account of illness. The other, was attending summer school at Columbus university.

Plant Is Closed.

Proceedings in the United States Court may follow the closing down of the Capital City Dairy Co. plant, it was said. Just what will be done in the case of the dairy is not known. The office at Washington. Little information is available at the Internal Revenue office. Collector Williamson is now showing his orders from Washington.

Will Give Data.

The arrangement between the United States census department and the state vital statistics bureau by which Dr. A. C. Holland, registrar of the bureau, furnished the department with data which was suspended recently, will again be put into effect. The census department, without getting the consent of the bureau, decided to send a man to the bureau to get this information, but when he came and asked for data, he was informed that the bureau could not have it.

**BIDS FOR ROAD IMPROVEMENT**

Sealed proposals will be received by the Township Trustees of Plymouth Township, Richland County, Ohio, at their office in the village of Plymouth, Ohio, on the 17th day of August, 1914, for the improvement, maintenance and paving of about three and one-fourth (3 1/4) miles of road of said township according to plans and specifications thereon on file in the office of the Township Trustees.

Said work will be let by sections as shown on profiles filed with the clerk of said township. All bids must be filed by 12 o'clock noon on August 17, 1914.

All bids must be accompanied by the printed forms to be obtained from Albert Kirkpatrick, Clerk of Plymouth Township, Plymouth, Richland County, Ohio, and enclosed in a sealed envelope, directed to the Trustees of Plymouth Township, Plymouth, Ohio, and endorsed on the outside of the envelope "Proposals for Construction of Highways for Plymouth Township, Richland County, Ohio."

Each bid must be accompanied by a deposit of \$200.00 in cash or check on the local bank for that amount, and be left in the hands of the Township Clerk, subject to the conditions specified in the proposal hereto annexed, as a guarantee of the good faith of the bidder.

In addition to the bids for complete work, bids will be received for labor and material separately; bids will also be received for material alone. Where bids are made for furnishing material alone, the same will be at the rate of \$1.00 per ton, F. O. B. cars, at Plymouth, Forest siding, or Shelby junction, and from what point and by what railroad the delivery will be made. All bids for excavation shall state the price per cubic yard, without regard to length or depth of cut, or to length of haul, and to be estimated in terms of cut only.

The Trustees reserve the right to reject any and all bids.

Where bids are made for both labor and material, the price so named shall be in full of all labor and material required for the full and complete execution of the work.

All prices must be written in words, and also stated in figures. The place of residence of each bidder must be given, and the signature, which must be written in full. Where firms bid, the individual names of the members must be signed in full, and the firm name added and the bid must give the name of every one interested in the same.

The Township Trustees reserve the right to choose part and reject the remainder of any proposal, and otherwise stated in the bid, and award the work in separate parts to different bidders, or to reject any or all bids. They also reserve the right to make any award within 30 days after the bids are opened, and to purchase the material and deduct that item from the award.

Acceptable to the Township Trustees will be acceptable on the contractor's bond, in lieu of individual or personal security. Contractors are cautioned before filing their bids to examine the plans, grades, cross-sections and the specifications of each particular road, for any changes or alterations that have been made.

The quantities given are the result of careful measurement and computation and are believed to be correct, but the contractor should use his own data and make his own computations before filing out his bid.

**CARE OF THE DUCKS.**

Plenty of Drinking Water is an Essential.

Water in abundance for drinking purposes is a necessity, and amateurs sometimes make a great mistake in failing to recognize that fact, says the Farm and Fireside. Ducks fed on soft mud will have a chance to dip their bills in water to wash out their nostrils or they will be in danger of smothering to death, as the man gets into their nostrils. Indeed, they sometimes get their nostrils filled with mud and rush to the water dish.

It will be seen that the dish in which water is given must be deep enough so that the ducks may bury their bills in the water. Self-feeding fountains are best for young ducklings, as they prevent the youngsters getting their feathers wet, something which must be carefully avoided.

On large duck farms the ducklings are always driven to the houses on the approach of a storm. It is well to have the water dishes in the duckhouses all night, so they may not get dry. Many growers keep a lighted lantern in each house at night in order to keep the ducks from becoming nervous or alarmed and piling up in a corner.

Mr. Wickham was born at Norwalk and has resided there all his life. He was educated in the Norwalk public schools and at Lafayette College. For twenty-five successive years was secretary of every Republican County Convention held in Huron county. Is a member of Maple City Tent K. O. F. M., the Norwalk Lodge of Elks; Court Firelands I. O. F.; the D. K. E. college fraternity, and the National Press Club of Washington, D. C.

In his youth learned the printer's trade in the office of the Norwalk Reflector. Was city editor and editor of the Reflector from 1882 until November 1909, when he resigned to become identified with the American Protective Tariff League, which since its organization in 1885, has led in the fight for protection, in all parts of the country, and is feared and hated by all free traders. Mr. Wickham has always been a student of the tariff, and since 1903 has devoted himself exclusively to the cause of Protection. During the tariff sessions of Congress in 1911, 1912 and 1913, he was stationed at Washington, where he gained an acquaintance with public men (especially the men who will frame the next tariff bill), and an insight into legislative procedure, which, with his knowledge of the tariff, would be of great value should the voters of the Thirteenth District, choose him to represent the district in Congress.

Mr. Wickham is the only Huron County candidate for the Republican nomination for Congressman at the Primary, Tuesday, August 11.
