THROW OF 25,000 VISITORS Called at Magnificent New Busi- ness Home of Spear & Co., at its Formal Opening.

Nearly 25,000 people yesterday visited the new home of Spear & Co. at Race and Shillico place. It was the occasion of the formal opening of the house-furnishing concern in the new seven-story home, after 12 years of business at Fifth street and Central avenue.

The big store was inviting yesterday. Floral and evergreen decorations were generously and ingeniously arranged on every floor. Smitie's Orchestra played during the day and evening from a beautifully arranged corner of the mezzanine floor. Ten thousand flowers were given to visitors who remained in the store before 3 o'clock, and the firm began to find difficulty in procuring these souvenirs. The flowers were given to visitors only who reached the upper floors. Many did not go above the first floor.

Congratulations and presents were sent by more than 150 individuals and business concerns from nearly every part of the United States. A wonderful floral horseshoe, the most beautiful piece in the building, was presented by the Spear & Co. employees. Hundreds of reports of visits of manufacturing concerns were visitors at the store during the day. N. Spear, president of the company, came from the Pittsburg store to help receive visitors. The Pittsburg store is 23 years old. The third store is in New York city.

Yesterday's celebration marked a new era for Spear & Co. They inaugurate with the opening of the new store their "dignified credit" plan of selling, which they have advertised widely. President Spear said, too, that in the future the Cincinnati store will enter to the highest class of business with the best kind of furniture procurable. He said the store at Fifth and Central could not do that easily because the city had "grown away from the location."

The concern is featuring the "Grand Rapids furniture." Military effects are in favor. "Kaiser gray" is one of the new colors, particularly in living room furniture. Dull gray, black walnut, old ivory, and Japanese oak are other finishes that abound.

On the first floor is collected a wide character of furniture, novelties and the highest grade of a varied kind of stock. The second floor is stocked with rugs, carpets, linoleums, perambulators, lace curtains and sewing machines. On the third floor is a four-room furniture. The fourth floor is the living room headquarters. The fifth is for bedroom supplies. Luxurious chairs and divans cover the sixth floor. The seventh is filled with kitchen utilities, stoves, ranges, cabinets and ice chests. Two big passenger elevators are in use. The subdued lights throughout the building are of artistic pattern. A feeling of comfort for visitors has been striven for by the management in the arrangement of the interior and by an increased force of clerks and other employees.—Cincinnati Enquirer.

Home Economics.

The subject of Home Economics is commanding the attention of a larger number of people in Ohio this year than ever before. It is being taught for the first time in many rural schools and is to form a very important part of the Extension School to be held at Plymouth during the week of Feb. 22-25. Many subjects of particular interest in the making of comfortable and happy homes will be treated by persons who are making the study of such subject their life's work. The housewives and would-be housewives in this vicinity are fortunate in having an opportunity to hear these subjects presented by the ladies from the College of Agriculture who have been secured for the purpose. There will be a continuous program each day from 9 o'clock in the morning until 3 o'clock in the afternoon. Among the subjects that will be treated in the Home Bakers' Course will be the selection and preparation of various kinds and cuts of meats; the place that meat should fill in our home table; the care and various uses of eggs; the selection of materials and their preparation for the baking of bread; the use of vegetables and salads; the planning of meals for the different seasons; home decoration; household management; and food standards. It is, therefore, evident that some attention is being paid to the feeding of our families. It is certainly gratifying to many of us that the quality, the variety and the preparation of our own food is to receive equal consideration as the feeding of calves and pigs. Another feature of the Home Bakers' Course of the Extension School is the fact that instruction is to be given on how to make the home more beautiful. It may be a common fault among us that we pay too little attention to making our home and its surroundings attractive.

SCHOOL NEWS.

(Conducted by Superintendent.)
Miss Edith Kenestrick, seventh and eighth grade teacher, was out Tuesday on account of sickness.

A Lincoln-Washington program will be rendered by the schools, Monday afternoon, Feb. 22. Some of the grades have special drills on this occasion.

Our schools are badly demoralized on account of sickness. On Wednesday morning of this week twenty-three members of the High School alone were absent.

Mr. S. L. Eby of the Kent State Normal School was here Monday evening in the interest of an extension school for teachers. All teachers of this community and those preparing to teach should meet with us at the school building next Monday at 7 p. m. The entire cost will not exceed \$2 for fifteen weeks. This work will count as normal school training work, and will be recognized by all the state normal schools. The work will also receive credit toward degrees and teachers certificates. This will be an exceptional opportunity for progressive teachers. Let's be "live wires."

Housewives and prospective housewives will miss a good thing if they do not avail themselves of the domestic science department of the agricultural extension school.

Of course you can cook and bake, but there will be some revelations in this course for you if you will attend the lectures with your notebooks and pencils. These expert teachers will give invaluable information and recipes. They will answer your "whys" and "wherefores." Can you cook cranberries satisfactory to yourself? Does the icing fall off the cake? Then get in on this.

Methodist Notes.

A large congregation enjoyed the Southern Plantation Melodies last Sunday evening, rendered by the choir and assisted by the girls Junior choir. Thus far twelve dollars and five cents has been received for the work of the Freedmen's Aid Society presented that evening.

Boys and girls are much in evidence in the congregations. It is the result of organizing thirty-five of them into the Go-To-Church Band. Suitable badges will be given to all who are present at one service each Sunday for four months. Next Sunday will be the last Sunday for receiving new members to the band for this term.

The Washington birthday party next Monday evening at the parsonage is already an assured success. There will be orchestral and other music, a literary program, refreshments, the presence of noted dignitaries of the past, and a unique trip from Mt. Vernon to Plymouth. To help defray expenses ten cents will be charged for the party, and an additional five cents for the trip which will be optional. The members of the church and friends are invited.

Remember the George Washington Social at the Methodist Episcopal parsonage Monday evening, Feb. 22. Ten cents.

A Pleasant Evening at the Snyder Home.

A very nice time was had at the home of Mr. and Mrs. Geo. Snyder, Tuesday evening, when a number of their neighbors came in to help them spend one of this season's long winter evenings, but indeed this one was made short, by the number of different games that were played, and especially by the nice punch with hot coffee, that the hostess served about 11:30, after which Mr. Snyder treated the gentlemen to cigars, and the ladies and children to candy and chewing gum, which all greatly enjoyed. Stories and jokes were told. The fortune book turned, which the young men especially were interested in. Much amusement was furnished by the crowd, when the "light man" was lifted by four men, each declaring he had only lifted three pounds. This happy party, like all others in the Snyder home, in all turned their steps homeward pronouncing Mr. and Mrs. Snyder and son royal entertainers.

Birthday Remembered.

One of the jolliest crowds that ever "came down the pike" met at the beautiful country home of Mr. and Mrs. Sim Carnahan and family, about two miles from Plymouth, Friday evening, Feb. 12, the event being the sixteenth birthday of their eldest son, Russell, who is one of the scholars of Plymouth High School.

Friends, neighbors and relatives composed the crowd which numbered about eighty. Many very nice and useful presents were received by the young man, which he very kindly thanked them for. Games, music and dancing were the main features indulged in throughout the evening.

At the midnight hour a delicious lunch with hot coffee, was served by the hostess, to which none refused to do full justice, when supper was over the pleasures were again resumed for the evening. The music furnished by Mr. and Mrs. Lybarger and Clayton Deek, of Plymouth, was much complimented and enjoyed.

Everything was made so pleasant and inviting by Mr. and Mrs. Carnahan, that all regretted to leave, though it was in the early hours of morning when the guests took their departure for home declaring it was an evening well spent and one not to be soon forgotten. A Guest.

WHY IT SUCCEEDS.

WELL KNOWN HYMN WRITER'S NO MORE

Miss Fanny Crosby Passes Away in Her Ninety-Fifth Year.

THOUSANDS SING BLIND WOMAN'S SONGS

Eight Thousand Hymns of Christian Worship Warbled in Protestant Churches Throughout World

Bridgeport, Ct.—Miss Fanny Crosby, well-known hymn writer, died at her home here in her 95th year.

Her death was not unexpected, as her health had been failing for some time. Shortly before the end she became unconscious and remained in that state until death.

Wrote Eight Thousand Hymns. Eight thousand hymns of Christian worship sung in Protestant churches throughout the world are the work of Fanny Crosby.

SHIP PURCHASE BILL IS PASSED BY HOUSE

Measure as Amendment to Weeks Naval Proposal Goes Through Body.

VOLE IS 215 FOR TO 121 AGAINST

End of Long Series of Filibusters Comes After Day of Bitter Controversy Between Administration Forces and Republicans.

Washington, D. C.—The government ship purchase bill, as an amendment to the Weeks naval auxiliary bill, was passed by the house at 1:20 o'clock Wednesday morning by a vote of 215 to 121.

While the rule provided for but six hours debate the opponents of the bill for once started filibustering tactics in an effort to stave off the vote.

Up to 9 o'clock Tuesday night he had brought on 11 roll calls which consumed more than four hours. The last roll call was on a Mann motion to adjourn, which was rejected 215 to 78.

When Minority Leader Mann saw that the Democratic leaders were determined to stop the filibuster several conferences were held and it was agreed not to keep up the dilatory fight.

SAYS ROCKEFELLER RULES FOUNDATION

Investigator Walsh Asserts John D. Sr. Can Apply Cash to Any Purpose He Chooses.

CLAIMS TRUSTEES HAVE NO AUTHORITY

Declares That as an Interlocking System It Beats Anything That the Railroads and Banks Ever Exhibited.

Kansas City, Mo.—Frank P. Walsh, chairman of the federal industrial relations commission, which has been investigating great philanthropic foundations, in a statement here declared that John D. Rockefeller, Sr., dominates the Rockefeller foundation, which, Mr. Walsh said, can apply the enormous power of the money it controls to almost any purpose it chooses.

The testimony at the New York hearing, declared Mr. Walsh, "showed that the trustees of the foundation exercised no authority that did not come from him. It showed that the directors of the foundation also were directors of the industries from which the foundation obtained its funds.

"The powers it claims and exercises virtually are unlimited, as are its financial resources. They are powers which should challenge the attention of every thoughtful American citizen.

"The commission is not other than with the Rockefeller and other foundations, but this much can be said, the Rockefeller foundation is entirely without the realm of government control.

"I am not surprised that the directors and trustees of the Rockefeller foundation do not know some of the things brought out at the hearing. They do not know anything about the foundation. They do not see Mr. Rockefeller twice a year.

"Mr. Rockefeller is a very smart man, perhaps the smartest in this country. But he could not tell the commission why he did not use his profits to pay a living wage instead of using them in the distribution of a charity that constituted a power which many Americans have come to look upon as a menace.

"The power of the foundation's money is being used to compete with the United States government in the investment of the distribution being investigated by the industrial relations commission. The United States government is spending \$400,000 in its inquiry. The Rockefeller foundation, if it will, can spend \$5,000,000 a year. Its investigation is being conducted by the author of an industrial act passed in Canada, which was opposed by every labor organization there and which failed signally.

GIRL HOLDS UP BURGLAR

YOUNG WOMAN DEFIES SHOTGUN AND LEADS SALOON ROBBER BY EAR TO DOOR.

Massillon, O.—Miss Clara Ertle went into the saloon of her brother, W. H. Ertle, late at night to make sure that the door was locked and lights burning, and found behind a barricade of boxes a burglar, armed with a shotgun and filling a suitcase with bottles of expensive beverages.

Miss Ertle did not wait to be held up. She held up the burglar, a young man, and got the door unlocked and lights burning, and found behind a barricade of boxes a burglar, armed with a shotgun and filling a suitcase with bottles of expensive beverages.

PROBING ALLEGED SHIPPING COMBINE

Senate Committee Begins Investigation of Charges That Trust is Opposed to Ship Purchase Measure.

Washington, D. C.—The senate has appointed a committee to investigate the activities of the alleged shipping trust in opposition to the ship purchase bill. It was pointed out several days ago that if by any chance the filibuster should prove successful the administration would return to the fight in a way that would bring to the people a demand that the measure be passed in the next session.

It was said then "that the government is in possession of evidence to prove the existence of a shipping trust or at least a gigantic combination of ocean transport lines through the medium of rate agreements. It is this great combination absolutely controlling freight rates which the administration proposed to fight by the establishment of a government owned merchant marine."

Secretary Hoover promptly informed those in charge of the bill that he would court any investigation of this sort. Administration leaders have now amended the Burton resolution to include an inquiry into what efforts "the so-called shipping trust, or any firm, person or corporation, engaged or interested in shipping, have directly or indirectly made to prevent the passage of the ship purchase bill and whether they had attorneys or lobbyists in Washington working for the defeat of the bill; also whether any senators or stock owners or bondholders of the United Fruit Co. or any other company owning ships which would compete with those to be obtained under this bill."

Seek Change in School Laws. Columbus, O.—The State Association of School Board members has adopted a resolution asking that the school laws be amended so as to enable the school boards to levy up to five mills for school funds without interference from the budget commission. The village and rural schools section adopted resolution asking the legislature to amend the rural schools law so as to provide that the township or district superintendents be employed only on nomination by the county superintendent.

Should the efforts of the commission for the relief of Belgium to buy the cargo of the Wilhelmina fall the evidence of the owners that the food is destined to the civil population of Germany alone probably would be submitted to the prize court.

It is considered unlikely, however, in view of Tuesday's developments, that any evidence could be produced which would justify the British in seizing the food to go to Germany without the action of a prize court.

Recent additions to the list of prohibited exports of Great Britain include many articles of the sort which might be of use to belligerents in making live stock. All sorts of bean fish meal, of cake, oil, corn and a score of other products which might be used by countries at war with Great Britain in the care of cattle, horses and other animals are now in the prohibited list.

Writes Will, Ends Life. Lewiston, Mont.—After having run amuck and burned camp wagons and a sheep shed belonging to Walter Writter, by whom he was employed, W. E. Balfour wrote his will on the rim of his hat and sent a bullet through his heart. At the time he was hiding under a cut bank and was surrounded by a party of men who were closing in on him. Reason evidently returned to him in a measure, as it is believed he had all the money he possessed, a handsome claim and his dog to Mr. Writter.

BRITISH AND FRENCH FLYING BOARDS BOMBS

Forty Machines Attack German Positions, Results of Raid, Generally Speaking, Reported by London to Be Good.

London, England.—An official statement issued by the London press bureau Tuesday night says: "The British admiralty announces the continuation of aerial operations against Bruges, Ostend and Zeebrugge. Tuesday afternoon a number of aeroplanes and sea planes bombarded Ostend, Middlekerk, Ghiselles and Zeebrugge. Bombs were dropped on the heavy batteries of the enemy on the east and west sides of Ostend harbor.

"Bombs also were dropped on the German gun positions at Middlekerk as well as on a transport of wagons which was moving along the roads from Ostend to Ghiselles. At Zeebrugge the aviator assailed with bombs the Mole, the Lochs and a number of trawlers which were at anchor. The number of machines engaged was 40.

"Eight French aeroplanes materially assisted the machines of the British navy by vigorously attacking the aerodrome of the enemy at Ghiselles, thus preventing the German air craft from cutting off the British machines. The results of the raid, generally speaking, are reported to be good."

Russians Lose 50,000, Berlin Says. Berlin, Germany.—(By wire) says to London.—Reports from the Carpathian mountains to the Peter Lovel of Budapest, Hungary, say that the Austro-Hungarian armies were everywhere successful in their offensive movement in Dukla pass. The total losses of the Russians in the Dukla pass battles in the past few days, the reports say, were at least 50,000 men killed or wounded. In a single attack the retreating Russians left 1,200 dead on the field.

Russians Opening Railways. Petrograd, Russia.—The completion of several lines of railroads radiating from Warsaw to points on the Austrian frontier of eastern and western Galicia, which is expected to be accomplished within a few weeks, is designed to give the Russian forces that mobility which apparently is necessary to cope with the rapidly changing conditions that the German and Austrian armies make so successfully. Work on these lines is being rushed day and night, and the first branch to the vicinity of San is expected to be in operation by the end of February.

Britain Huris Defi at Germany. London, England.—Great Britain, unterrified by Germany's announcement that beginning at midnight Wednesday she will consider waters surrounding Great Britain and the English coast and will prey on shipping by sea and air, Tuesday prepared to tighten freight shipments destined for Germany.

"We Will Make Reprisals." "We will make reprisals if you enforce your right to destroy our merchant ships and their crews," is the defiance the British hurl at the Germans. Germany had proposed to halt enforcement of her war zone order if Great Britain and the allies would not restrict shipments of conditional contraband goods and materials destined to the civilian population of Germany.

The British reply to this is an announcement that prohibition against foodstuffs destined for Germany will be formally proclaimed by Wednesday and the government's retaliatory measures against the threatened German submarine blockade will go into immediate effect.

Walter Hines Page, the American ambassador, conferred Tuesday with Sir Edward Grey, the British foreign secretary, concerning the German note over the issue of reprisals on the part of Great Britain. It will permit foodstuffs for the civilian population to enter Germany.

Discuss Wilhelmina Incident. Mr. Page and Sir Edward also discussed the steamer Wilhelmina, long overdue for food for Germany, which is being held at Falmouth, where a prize court for the food of which has not yet been determined.

Should the efforts of the commission for the relief of Belgium to buy the cargo of the Wilhelmina fall the evidence of the owners that the food is destined to the civil population of Germany alone probably would be submitted to the prize court.

It is considered unlikely, however, in view of Tuesday's developments, that any evidence could be produced which would justify the British in seizing the food to go to Germany without the action of a prize court.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs"; that don't worry because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment of even at any sickness. Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Find Live Duck in Fish. A strange specimen of the angel fish was caught by Captain Palmer at Sound Beach, who removed from it two ducks. The wicked fish had stolen the ducks from J. Kennedy Todd's Innis Arden estate. One was alive. The fish were struggling in the water when seen by Captain Palmer, and was landed with a pair of ice tongs. The fish is a yard long, and its mouth is 6 by 8 inches. It was frozen and was taken to the Marine Biological plant and is exhibited in the window of a market here.—Greenwich (Conn.) SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Now you can simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Her Travels. Two little Los Angeles girls were talking about the big cities of the United States. Rosie, who had traveled a great deal, and had been in many of the best places, with it called Goldie, had them, at the latter's request.

"I want to go to Mexico very much," concluded Rosie. "I have never been out of the United States." "Haven't you?" asked Goldie, in tone of superior pity. "Why, I have. I have been in San Francisco and Nebraska."

An Old Contention. "How did the happen to decide that he was her soul mate?" "He was demonstrating a new dance at her house and broke a costly vase." "I don't see how she figured that out." "Neither do I, but there is a neat deal in the philosophy of women: She can't be figured out." Money you bet on the mare doesn't always play her under the wire, does it?

USELESS JOBS ARE ELIMINATED

OVER \$1,000,000 SAVED TO OHIO STATE TREASURY BY APPROPRIATION BILLS.

MOVING WEEK AT THE CAPITOL

Departments Returning to State House in Order to Cut Down the \$70,000 for Outside Rentals.

(By Denby Donovan.) Columbus, O.—More than \$1,000,000 is saved to the state treasury by the first appropriation bills submitted to the General Assembly this session.

A special appropriation bill for the coming year and a half months is necessary because the appropriation year has been changed to start July 1.

Efficiency Considered. Chairman Reichard said that the million-dollar economy had been effected mainly by eliminating useless jobs and cutting down extravagant maintenance and expense charges.

Typical of the general economy plan is the bill's provision for the State Highway Department. Approximately \$25,000 is slashed from the department's pay-roll.

Needs of every state institution for money to complete new buildings are met by the bill. The State Normal, for instance, gets \$100,000. For salaries and wages of officers and employees at the nineteen state institutions the State Board of Administration is allowed \$544,862.

Gov. Willis contributed to the economy program by announcing that some of the state offices which now pay high rentals for quarters in Columbus skyscrapers will be requested to return to the State House where extra rooms have been secured by a readjustment of departments.

Beliefontaine, O.—An attempt to build passenger train bond from Columbus to St. Marys on the Toledo & Ohio Central railway was discovered here five minutes before the train was due. Louis Linsion, car inspector for another railway, found pieces of steel rail and scrap iron piled upon the track in such position that the train would have been thrown into deep stone quarry.

Ohio's New Efficiency Expert

When the newspaper reading public noticed, a few days ago, that Kenneth McKinley, efficiency expert of the State Civil Service Commission, had testified before the legislative office and salary probe committee that it was possible to save as much as \$500,000 a year in the operation of the highway department alone, it was the first intimation that most folks had that Ohio had such a person, or such a job as an efficiency expert.

Buy Supplies in Open Market. While massing the party strength to pass a bill to reduce the salary of the State Insurance Commissioner by \$1,500, the leaders of the General Assembly managed to get adopted in the House of Representatives a bill exempting all the County Infirmaries and Clinics from the state from the requirement of purchasing from the State Board of Administration clothing and supplies manufactured by the inmates of the various institutions under its care.

The insurance bill, which was passed by the Senate, did not go through the House because the minority refused to vote for the emergency clause in the Senate and opposed a suspension of rules in the House.

If the Senate adopted the other measure the state will be deprived of the revenue which now goes to keep up the institutions and the way will be opened to a return to the old system of buying supplies piecemeal in each locality instead of in bulk through the new central purchasing system, installed in 1911.

Cutting Down the Salaries. The proposal to reduce the annual salary of the governor of Ohio from \$40,000 to \$30,000 is contained in a bill introduced in the House by Representative Black.

LANDSCAPE GARDENING

First Exposition To Be Given in Dayton the Week of March 1.

Dayton, O.—The first annual floral and landscape gardening exposition of the Miami valley, which will be held here March 1 to 6, promises to be very interesting and instructive. Some very artistic designs in gardening and park planning constitute a large number of spaces. An exhibition of garden, lawn, park and porch furniture and fixtures will help those contemplating building this season, in making their selections of some of the rare things that make up the most artistic schemes and these exhibits will command every one's most careful attention.

The lectures in connection with the exposition are all free and will constitute a program both afternoon and evening. They will be given by prominent men who have given these subjects years of study and have carried them out in a practical way. The success of the undertaking will be due largely to the efforts of W. A. Barber, 203 Rebold building, who has been untiring in his efforts to bring about an exhibition of this character.

BANDIT SLAIN IN PISTOL BATTLE

Cincinnati Bank Cashier Kills Robber After Narrowly Escaping With Life.

Cincinnati, Ohio.—A pistol battle between Cashier William Cross, of the Mohawk German Banking and Savings Co., of this city, and two men who attempted to rob the bank resulted in the death of one of the robbers. Cross was uninjured, although the robbers first fired when within a few feet of him, and when he made a grab for his pistol after being ordered by the bandits to throw up his hands.

Following the first shot, the robbers grabbed a hand full of bills lying on the cashier's desk and darted through the door. Cross followed, firing, and one of the men dropped with a bullet in him. He was removed to a hospital where he died shortly afterward.

Bank officials claim that about \$700 was obtained. The other robber was caught later in a cellar not far from the bank and with him was found the stolen money. He gave his name as William H. Patterson, of Covington, Kentucky.

There will be no destructive ripper of the present state school system. It is stated by those who have completed a canvass of the lower house. This is partly because Governor Frank B. Willis says the school code must not be destroyed and that he is in favor of the laws with minor modifications.

Equal division among all Ohio counties of money derived from automobile and chauffeur licenses for the maintenance and repair of highways, will be provided for in a bill to be introduced in the Senate by Senator Cass of Putnam county. The bill also provides that auto licenses shall be distributed by the county clerk.

Commencing March 1, a very drastic federal law goes into effect governing the sale and administering of narcotics. The new law is called the Harrison anti-narcotic law and will affect all druggists, dentists and physicians. All sellers and prescribers of narcotics will have to register with the local collector of international revenues, and violations will be punished with a fine not to exceed \$2,000 or imprisonment not to exceed five years.

The Newark Reflector of Monday, in speaking of the new outbreak of the hoof and mouth disease, says: "Dr. L. P. Beechy, of Columbus, for a number of years in the employ of the federal government as an inspector in the meat department, was in the city yesterday, the guest of his brother, A. D. Beechy, superintendent of schools. Dr. Beechy came here from Wellington, where he was sent on an inspection trip on account of a new outbreak of the hoof and mouth disease. He says the disease has broken out with renewed fury in this part of the state, and that stringent measures will be necessary to stamp it out. An entire herd of fifty cattle will be killed in a day or two in an effort to retard the progress of the disease. The authorities at Wellington are tracing immediately to a shipment there of 100 head of cattle from New York State."

Valuable Train in Chicago Junction.

A train, probably the richest ever passing through this city, was here this week. The train contained 107 cars of grain destined to Baltimore for foreign shipment. It is said that from 9,000 to 12,000 cars of grain are on the B. & O. system between Chicago and Baltimore, waiting for the embargo to be lifted. One firm in Chicago last week placed an order for cars to handle one shipment of a million and a half bushels of oats destined Baltimore.—Chicago Jct. Telegraph.

Get Ready for Spring Work.

Now is the time to overhaul the farm machinery in preparation for the rush work in the spring. The more preparation you make now, the less you will have to do when the time arrives for the actual work of seeding, plowing, and planting. Overhaul all your machinery and see if repairs are needed. If some parts are broken or lost, get them and put them on now, do not wait until you must use the machine. Go over your plows and see that they are in good shape. Also have your disk harrows sharpened and polished and oiled so that they will be ready for use.

A MAN will start downtown with \$50 in his pocket. On his way he will pass a bank. If he deposits \$40 of his \$50 he will be more sparing in his expenditures. Money will not TAKE WINGS! Little currency and a FAT CHECK BOOK is a better combination. An elephantine WAD OF GREENBACKS and an ANAEMIC CHECK BOOK.

Postoffice clerks and railway mail clerks will begin weighing all mail received and despatched for a period of 105 days beginning next Thursday. All express mail is weighed in the postoffice, while the railway clerks are required to weigh all other mail. The pay received by railroads for carrying mail is based on the weight of the matter carried during this period.

Charles W. Manahan, Huron county's oldest resident, passed peacefully into eternity Monday afternoon, at the home of his grand daughter, C. M. Peckham, 8 Manahan avenue, Norwalk. Had he lived until May 15 next, he would have been 102 years old. Born in 1815, in Cayuga county, New York, he moved at an early day to Ohio, and was one of the pioneers of the Friends. His death was due to exhaustion from the heavy burden of years.

So far Plymouth has no "Jitney Buses."

Are you all ready for the extension school?

Monday will be Washington's birthday anniversary.

The Kinson Concert Company consisting of a violinist, a soprano, soloist, a pianist, and a reader will give a well balanced program of music and readings of a high order at the Lutheran church, on March 9. This will be the only entertainment of its kind here this season, and the people will surely be glad of the opportunity to patronize this attraction. The program will appear in a later issue.

The farmers of this locality and the ladies who preside over the destinies of the homes can gain much information by attending the agricultural and economics course at the extension schools to be held in Plymouth the coming week. Even the old maids can better their chances by enrolling in the economics course, as nothing appeals to a man so much as a well prepared meal and a tidy home.

Tickets for the agricultural course of the extension school to be held here next week will be \$1.00, which will also give the wife of a married man admission to the economics course. The joint session of Friday afternoon as well as that of Thursday evening, will be held in Hamilton's hall. The Friday afternoon session being free to all. Single admission per day to the agricultural course will be 25c and to the economics course 15c.

When the frost is on the window and the kitchen pail is frozen; when the little fly needles come with every breath that blows; when the chilblains make us groan aloud and cold feet give us pain, it's safe to bet that we all wish for summer time again. For while we sweat and stew around in breezy summer clothes, it's an easy thing to cool off and forget our earthly troubles. But it's different in the winter, when the world is full of ice, and the weather is as hard to beat as any loaded dice. We may boast about our climate and about our spring and fall, but the balmy days of summer are the best ones after all.

The Twentieth Century Circle met at the home of Miss Geber, Feb. 15.

Mrs. Criswell read an interesting paper about Mrs. Shakespeare. Mrs. Seville sang a solo, entitled, "Who is Sylvia. An interesting reading, A Froze Review of Handel, was given by Miss Ruby Clark. Roll call was responded to by eighteen members with quotations from their favorite poem. Circle adjourned to meet in two weeks with Mrs. Criswell.

Agents of the Wilmer Atkinson Co., publishers of the Farm Journal, are now in this locality, getting out a new Richland county directory. The new directory will include every farm in the county and a numbered road map, different in many ways than heretofore ever put out, which together with other features will make it most valuable to the farmers and business men. The price of the directory and map is very trifling, and one should be found in every household. The agents will call on you within a few days and all should give the information desired.

The Plymouth Motor Truck Works certainly have reasons to believe the coming season will be one of great activity for them, having just booked an order for six of their industrial locomotives from one firm, while orders for single locomotives are a frequent occurrence. These locomotives, the first of which were put out last season, have gone through the experimental stage, and wherever tried have more than met the requirements for the work for which they are intended. Consequently as time goes on the demand for them will become more and more, and the activity at the home plant will become greater and greater.

A change of ownership in one of our barber shops will take place March 1st, when L. H. May, who for the past year has been working for C. M. Flory, will take over the shop as its owner. He will move his equipment from the rear rooms of the McKinley flats to those occupied by Dr. Chas. Walker for several years. Dr. Walker taking the rooms vacated by the barber shop. This will give Mr. May a much better location for his tonsorial parlors, as he intends to install several departments which are new to Plymouth trade. Mr. Flory and family will leave our little city, going to Ashland, where he will open a chiropody shop. May succeed attend all parties concerned.

February 8th, the eightieth birthday of John McKeivley was celebrated at the residence of his sister, Mrs. Martha M. Lovell in Greenfield township. Mr. McKeivley having taught school during the winter of 1854-55, sixty years ago, in an adjoining district. Mrs. Lovell desired to have the remaining living pupils to be found present at the celebration. She could get invitations to only seven, five women and two men, all of whom gladly responded with their presence. She had also other guests, so that she entertained twenty-eight at a fine delicious dinner. Mrs. Lovell will be eighty-four years young, or of age, March 31, and still she always does the cooking or sees that it is O. K.

One of the pleasing social events of the season was the Washington birthday party given at the Masonic club room from 2 to 5 and 7 to 9, Wednesday afternoon and evening, by Meadames J. W. Taylor, Frank Jones, Frank Ramsey, C. J. Rave and J. W. McIntire, at which 135 guests were entertained. The rooms were very pleasingly decorated with flags, bunting and flowers, while the traditional cherry tree held its place of honor and was greatly admired. Florence Jones, garbed as George, and Myrtle Ramsey as Martha, received the guests at the door in a most gracious manner. Ralston's orchestra furnished the music, while Mrs. Dr. Agnew of Shelby highly entertained the guests with her readings. Refreshments of a very pleasing and appetizing nature were served.

A marriage of more than unusual surprise occurred Monday when Joseph G. O'Heron, proprietor of the Home Bakery, and Miss Millie L. Curpen, after arming themselves with the necessary license from the probate court at Norwalk, betook themselves to Tiffin, where at 6 o'clock they were united in the holy bonds of wedlock by Rev. Collins, and returned to this city Thursday evening, where the congratulations of a host of friends greeted them. The bride is one of Plymouth's fair young ladies, and for a year or more has presided over the counter at the popular bakery. The groom is one of Plymouth's rising young business men, a hustler in his line, and although only identified with our business circles for a short time has made a host of friends. The Advertiser, in common with their wide circle of friends extend most hearty congratulations.

From now on will grind feed, cob and all if you wish, on Friday of each week. Bring along your grain and satisfaction will be guaranteed. R. J. CARNAHAN.

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithium and sodium salts. It is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, agreeable, lithia-water drink, which quickly relieves bladder trouble.—Adv.

DOWN TO BASE OF SUPPLY

Manager of Supply Company Forced to a Compromise With Receipt of Large Order.

The tea companies were fighting each other for the trade of the town. The Bee Tea company gave premiums with each pound of tea, while the Gee Tea company did not. The result was that the latter concern was being pushed to the wall. Finally the Gee Tea people realized that they must give premiums.

So, after careful consideration, they decided to give a quart of milk with each pound of tea. Business picked up at once.

"I understand you give a quart of milk with each pound of tea," said a lady one day.

"Quite right," answered the manager. "Well, I'm Mrs. Ketchum of Holdem & Starvem. We operate a string of ten boarding houses here. I want 150 pounds of tea. Do I get 150 quarts of milk?"

"Why—er—I think so," stammered the manager. "Will you wait till I go back and look over the supply?"

In a minute he came back. "Madam," he whispered, "I have figured up and I find that if you will take 100 pounds of tea we can give you a cow."

Sure. "Pa, what is a skillful strategist?" "A skillful strategist, my son, is a man who knows when to quit."

KNOW NOW

And Will Never Forget the Experience. The coffee drinker who has suffered and then been completely relieved by changing from coffee to Postum knows something valuable. There's no doubt about it.

"I learned the truth about coffee in a peculiar way," says a California woman. "My husband who has, for years, been of a bilious temperament decided to leave off coffee and give Postum a trial, and as I did not want the trouble of making two beverages for meals I concluded to try Postum, too. The results have been that while my husband has been greatly benefited, I have myself received even greater benefit."

"When I began to drink Postum I was thin in flesh and very nervous. Now I actually weigh 18 pounds more than I did at that time and I am stronger physically and in my nerves, while husband is free from all his ills."

"We have learned our little lesson about coffee and we know something about Postum, too, for we have used Postum now steadily for the last three years and we shall continue to do so."

"We have no more use for coffee—the drug drink. We prefer Postum and health."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in plga.

Postum comes in two forms: Regular Postum—must be well boiled. 15c and 5c packages. Present Postum—is a soluble powder. A teaspoonful dissolved quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 5c and 10c tins.

The cost per cup of both kinds is about the same. There's a Reason for Postum.—sold by Grocers

IN HONOR OF HEROES OF VALLEY FORGE

Arch of Triumph at Valley Forge, Pa., Dedicated to the American Continental Army Whose Sufferings During the Winter of 1777-78 Made That Place Historic—The Log Cabin Is Typical of the Quarters in Which the Soldiers Spent the Winter.

The arch of triumph for which Congress appropriated \$100,000 in 1910 has been built and dedicated to the American soldiers who endured such terrible privations while in winter quarters at Valley Forge in 1777-78. In 1893 the state of Pennsylvania bought 475 acres of land covering the site of the camp and formed it into "Valley Forge Park." The new monument, which occupies a prominent

place in this park, is in the style of a Roman arch and is a massive granite structure, 60 feet high, with inscriptions commemorating the sufferings of the soldiers. Near the arch, and forming a sharp contrast with it, is a log cabin typical of the quarters in which the continental army under General Washington spent that memorable winter in our country's history—Popular Mechanics.

The shaft itself is 500 feet high, or top of which is set the pyramidion 51 feet 5.5 inches in vertical height. The base is 50 feet 1 1/2 inches square, and the top of the shaft below the pyramidion is 31 feet 5 1/2 inches square. At two and one-half times its height the shaft would come to a point.

The capstone weighs 3,200 pounds and is crowned by a small pyramid of pure aluminum 5.5 inches at its base and 8.9 inches high, weighing 100 ounces.

No mention of the monument would

"Hello, Frisco."

"Just think of being able to sit in a telephone booth in New York and talk to your best girl in San Francisco!"

"I've thought of that, and I've been wondering how long it will be before somebody writes a popular song about it."

Old Style. "Did she marry well?" "No, it was a case of true love!"—Harvard Lampoon

Washington Wanted National Church. It is probably known to comparatively few of our country people that in the original plans of the city of Washington as accepted by its founder, the illustrious man whose name it bears, space was provided for a national church, yet such is the fact.

At the beginning of our history as a nation authority was given by congress to President Washington to select a site for the capital of the new republic. One can imagine the interest wherewith he assumed that great responsibility, for which with the experience gained in his early youth as a land surveyor in Virginia, he was peculiarly fitted. Doubtless not a single detail of the entire project escaped his attention.

The Twentieth Century Circle Reception.

The Twentieth Century Circle very pleasantly entertained at the Masonic Club room Friday evening, Feb. 12, the members and guests to the number of fifty.

The attractions for the evening was a talk on the "Degeneration of Man," by Clementine Vere De Vere Fleming, which was a forerunner of the playlet, entitled "The New Woman," in which the management in selecting the cast chose some very clever players, including Mrs. Chas. McClinchee, Mrs. Frank Seabolt, Mrs. Jean Seville and Miss Jessie Trauger.

The play was followed by a vaudeville performance, by a company of "negro" artists, all stars, who having an open date were secured for the evening. The troupe comprised, Mary Amanda Trimmer, accompanist; Erastus De Postle and Sambo La Faust, half brothers, and end men; Abraham Lincoln Seale, clog dancer; George Washington "Zeke" Shutt, cake walker; Chole Ann Dick, impersonator; "Aunt Dinah" Sauer and "Topsy" Gaskill, besides other notable "coons" in specialties, and under the direction of Ruby Arabella Clark, that vaudeville was some minstrel.

Delicious refreshments were served by the committee, composed of Mrs. Artz, Mrs. Trimmer and Miss Jeanette Gebert.

Mrs. John Feighner and Miss Roush of Shelby, guests of Mrs. B. F. Criswell and Mrs. Dan'l Hoffman, and Mrs. Sarah Harving of Mansfield, were out of town guests.

Huron County Again Under Quarantine.

Several counties, including Huron, have been clamped down with the quarantine on live stock. The action was taken by State officials last week Friday and the following order, signed by Paul Fischer, L. P. Beechy and A. P. Sandles has been received by the Advertiser:

Columbus, O., Feb. 12.—Order No. 17 effective at once. The entire counties of Hamilton, Lorain, Medina, Erie and Huron, and the townships of Townsend and York in Sandusky county, the townships of Thompson, Reed and Venice in Seneca county, and the townships of Ruggles, Troy and Sullivan in Ashland county are hereby quarantined, prohibiting absolutely the movement of any cattle, sheep or other ruminants and swine out of said territory or from farm to farm within said territory for any purpose whatever; over railroads, public highways, or otherwise; and prohibiting absolutely the movement of any hay, straw, or similar fodder, and manure, hides, hoofs, horns, wool, etc., in said territory for any purpose whatever.

All public stockyards are hereby ordered cleaned and disinfected, the use of railroad cars for transporting livestock is prohibited until further notice.

Safer Sidewalks.

In Minneapolis, public authority attends to making sidewalks safe, so that there has been nobody hurt in that large city during the winter. They attend to this duty by systematically sprinkling the icy walks with sand, each ward being in charge of its alderman for this purpose. A letter from there, says:

"If the walks have become slippery during the night there, you discover on leaving your home in the morning, even if the snow is as early as 5 o'clock, that the sand wagons have been on the job."

What a joy that would be and how many broken limbs, if not lives, it would save! In Chicago, since the holidays, the roster of icy sidewalk victims is: Dead, 16; injured, 843. The sand policy would have saved them all.

Notice.

All persons having claims against the estate of Wm. Cannan, deceased, please re-send in their claims, as former records of same were destroyed by fire. Attach affidavits as before. Willis Cannan, Administrator, Lock Box, 185, Akron, Ohio.

The largest advance in price of eyeglasses and spectacles ever made at one time, it is said, is announced in price list just issued by manufacturers. The amount of the increase, which is on lenses, is estimated at from 25 to 50 per cent. About 10,000,000 people in the United States use glasses.

OWE MY HEALTH to Peruna

I was Gradually Breaking Down From Confinement to Store.

Mr. C. N. Peterson, dealer in fine boots, shoes and cigars, No. 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health and I felt that I was gradually breaking down."

"I tried several remedies prescribed by my physician, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health. I have been in the best of spirits since, and feel that I owe my health to it."

Catch Cold Easily.

Mr. Arthur G. Peterson, R. F. D. 21, Box 21, Oniro, Wisconsin, writes: "I am now rid of the tendency to catch cold. Peruna is a wonderful remedy."

Those who object to liquid medicines can now procure Peruna Tablets.

MOTHERS OF DELICATE CHILDREN

Should Read the Following Letter—Mrs. Slack's Story About Her Child's Recovery is Entirely Reliable.

Palmyra, Pa.—Three years ago my little girl had black measles which left her with a chronic cough and so awfully thin you could count all her ribs, and she coughed so much she had no appetite. Nothing we gave her seemed to help her at all until one day Mrs. Naisert told me how much good Vinol had done her little girl, so I decided to try it for my little one, and it has done her so much good she is hungry all the time, her cough is gone, she is stouter and more healthy in color and this is the first winter she has been able to play out in the snow, coasting and snow-balling without any ill effects."—Mrs. ALANNA SLACK, Palmyra, Pa.

We know Vinol will build up your little ones and make them healthy, strong and robust. Therefore we ask parents of every frail and sickly child in this vicinity to try a bottle of Vinol, our delicious cod liver and iron tonic without oil.

If we can induce you to try a bottle of Vinol as a body-builder and strength-giver for your child, and you do not find it is all we claim, we will return your money on demand.
