

LONG JOURNEY TO BE TAKEN.

Mr. and Mrs. J. E. LaDow to Sail for Japan Soon.

Rubber Industry to be Studied by Well-Known Mansfielder.

Jesse E. LaDow, prominent attorney of this city, accompanied by his wife, will leave in about two weeks on a trip that will take them to the equator, the trip carrying them many thousand miles on the ocean as well as on land.

Mr. and Mrs. LaDow will take the Canadian Pacific route to Vancouver, British Columbia, and sail from there to Yokohama, Japan, a distance of about 4300 miles. From Yokohama they will go to Singapore, the largest shipping point of crude rubber in the world. Singapore is located at the extreme southern part of the Malay peninsula. From this point Mr. and Mrs. LaDow will return by the way of Hong Kong, Cebu, stopping at Honolulu and Manila on their way to San Francisco, taking the southern route to New Orleans on their way home.

Passports on the Japanese steamer Empress of Japan were applied for yesterday by Mr. LaDow.

Mr. LaDow is primarily taking this trip, which will extend over a period of many months, in the interest of the Mansfield Rubber Company and the Columbia Rubber Company.

At the equator and ten degrees on either side a large part of the crude rubber product of the world is produced.

The entire world's production of crude rubber in 1915 was 1,258,700 tons and of this amount this section produced over 100,000 tons. The first six months of 1916 showed an increased output from this section of the world, over the same period last year, of over 42 per cent. Formerly and before the war, most of all this crude rubber was shipped to London, by the way of the Suez canal, and then reshipped to America. In the past year, or thereabouts, the Pacific has been used as the water highway to get rubber into America and many thousands of tons have been received at American Pacific ports and through the Panama canal since that time.

Owing to the great demand for all kinds of vessels, both for cargo and passenger, rates have increased many fold.

Mr. and Mrs. LaDow do not expect to arrive home before six months.—Shield.

Their many Plymouth friends with Mr. and Mrs. LaDow a pleasant voyage and a safe return.

Commits Suicide.

Thursday morning of last week, Mr. F. E. Craig, residing near Bough town, a rural mail carrier, took his two sons, aged about 8 and 10 years to the Ripley fair. Before going he urged his wife, who has not been well for several weeks, to accompany them. She, however, declined. In the evening when father and sons arrived home, he found nothing of Mrs. Craig. She had apparently done a small family washing in the morning, done up the house work with the exception of emptying the dish pan and then opened the eastern and dropped into about six feet of water. When her father and sons were making the search they came upon the open cistern and Mr. Craig secured a hooked pole and fished in the water, in which he caught his wife by the arm. His call was responded to by neighbors and after some difficulty the body was brought to the ground above. Loving and tender hands carried the body into the house and Coronee Bell was called. He found that Mrs. Craig came to her death by drowning and pronounced it a case of suicide. It was a pathetic sight to see and hear the young sons crying on the doctor to do something to bring their mother back. It appears, so it is reported, that Mrs. Craig, who was native of Kentucky, had been illing for some time and given to being despondent. The home life was ideal and there was no cause except temporary derangement that could have caused the rash act. Mr. and Mrs. Craig had planned to spend Sunday at Burgies beach with their sons. The funeral was held at the residence home Saturday afternoon, attended by many of her former friends and neighbors.

Grand Union Meeting.

Progress is being made in painting the Presbyterian church but it cannot be used next Sunday. Rev. Helmut will preach at the Lutheran church Sunday morning and evening at 10:30 and 7:00. Since there is no other preaching service in town we look for a record breaking crowd, tending the assembly of the believers, you need to come early to secure a comfortable seat or reserve your seat from the usher or have to stand during the entire service. How strange! The choir of all the churches are asked to unite for singing.

PLYMOUTH GUN CLUB SHOOT.

In connection with the Blue Rock Shoot to be given by the Plymouth Gun Club, Mr. and Mrs. Adolph Topperwein, the celebrated marksmen, will give an exhibition of expert and fancy shooting here, Friday, Sept. 22, when every body ought to see, as no such marvelous shooting has ever been done in this section.

It will be a revelation to all of the wonderful possibilities of modern arms and ammunition in the hands of the greatest experts. Mr. Topperwein is the acknowledged dean of fancy and trick shots, and his many feats are of a highly sensational character. Mrs. Topperwein has no equal among women for adeptness in shooting. Ladies are especially urged to go, and witness her astonishing skill with shotgun, rifle and pistol. Admission will be free to all.

Some idea of the unusual character of the exhibition given by the Topperweins will be gained from the following remarks: Adolph Topperwein, the greatest living fancy and flying target shot with a rifle, represents the Winchester Repeating Arms Co., and lives in San Antonio, Texas. His native state has long been noted for its expert shooters and this penchant for shooting among Texans, added to his natural ability, undoubtedly accounts for the wonderful skill he displays. He uses no special equipment, but ordinary Winchester rifles, shooting regular cartridges with solid ball, or, in other words, cartridges such as are sold by all dealers. He shoots at oranges, apples, bits of oak or brick, walnuts, small marbles, empty cartridge shells, and many other objects, which are all thrown into the air and hit with either rifle or revolver.

Mr. Topperwein is the originator of many marvelous fancy and trick shots and also the feat of drawing the heads of Indian chiefs and other pictures with bullets shot from a rifle. Rifle shooting is not his only accomplishment, as he does wonderful work also with revolver, pistol, and shotgun.

Mrs. Topperwein, who also represents the Winchester Repeating Arms Co., is undoubtedly the premier lady shot of the world. A few she took up shooting only a few years ago, she has startled the shooting world and entertained many thousands of people by her great skill with rifle, shotgun and pistol. Shooting comes natural to her, without seeming difficulty she masters various kinds of shooting quickly.

Her first public appearance was at the world's fair at St. Louis, where, with a Winchester automatic rifle, she broke 997 out of 1,000 24 inch flying targets and later 1906 out of 2,000 with a straight run of 1457.

Besides being a wonderful wing and fancy shot, Mrs. Topperwein is a most professional and accurate shot in the world. At San Antonio, Tex., July 14, 1906, she broke 361 out of 1,000 targets thrown at the regular

tion distance, in 4 hours and 35 minutes.

Mrs. Topperwein is the only lady in the world who ever had the honor to qualify as a national marksmen in open competition, shooting at 300, 300, and 500 yards with a military rifle.

Best Types of Furrow Openers.

The hoe, single disk and double disk furrow openers are the leading types found on grain drills in Ohio. Where the seed bed is well prepared the hoe furrow opener has no superior, for according to the Co. Leare of Agriculture, Ohio State University. For sowing in corn ground where weeds and trash must be contended with the single disk has excellent penetration but covers only fairly well. The single disk covers from but one side, which on the side-hills is a disadvantage. The chief features claimed for the double disk are that it covers from both sides and distributes the seed in a double row. The double disk, on the other hand, is somewhat more complicated and has two bearings to wear out. However, the fact that it will cover better with the single disk will probably make it increasingly popular in the future.

A PLYMOUTH MAN GIVES EVIDENCE.

His Testimony Will Interest Every Plymouth Reader.

The value of local evidence is indisputable. It is the kind of evidence we accept as true because we know we can prove it for ourselves. There has been plenty of such evidence in the Plymouth paper lately, and this straightforward testimony has established a confidence in the minds of Plymouth people that will not be easily shaken.

B. F. Criswell, Railroad St., Plymouth, says: "My business troubles me and my back was lame and weak. Doan's Kidney Pills relieved the backache and pains in my loins. I am able to give this medicine the credit for making me well."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Criswell had. Foster-Milburn Co., Props., Buffalo, N. Y.

One Cent Postage is Now Possible.

Efficiency in the postoffice department with proper readjustment of rates will permit the government to inaugurate a one cent letter rate within the next year, according to Postmaster General Albert S. Burleson.

This emphatic statement, made by the postmaster general before the National Association of Postmasters of the United States at their July, 1916, convention, indicates that this important reform is much nearer realization than most people believe, and that next winter will see radical steps taken toward this end.

In addressing the postmasters General Burleson declared that he thought giving the best postal service in the world today, and that is what the American farmer and business man are entitled to, for they pay for it. He advised the postmasters to spare no expense that means greater efficiency.

Important Notice to Soldiers' Widows.

Washington, D. C., Sept. 8, 1916. President Wilson today signed the Ashbrook Widow's Pension Bill, and it is now the law of the land. It benefits Civil and Mexican War Widows only. Widows now on the pension roll or who may hereafter be placed thereon under the provisions of this bill who are 70 years of age are entitled to \$20 per month. It raises the marriage limitations 15 years or to June 27th, 1906, and restores to remarried widows their former pensionable status. Therefore if you married a soldier before June 27th, 1906 you are entitled to \$12 if under 70 and \$20 if over 70. I expect to remain in Washington some days to look after these claims. All beneficiaries should write to me at once for information and blank, giving you husband's name, company and regiment. Pension agents and attorneys are prohibited from charging a fee for those who are now on the pension rolls but may charge \$10 for original claims. If you have an original claim and you employ an attorney don't send to Washington but go to your local attorney or pension agent. With the help of your Congressman he can do better for you than a stranger. I am remaining here solely to help you and will be glad to have you promptly advise me if I can be of assistance to you. Very resp'y.

WILLIAM A. ASHBROOK, M. C.

Cider Making.

Beginning Tuesday, Sept. 19, and every Tuesday thereafter, until further notice, the Smith cider mill at New Haven will serve their patrons. SMITH SONS.

DEAL WITH THOSE WHO EMPLOY MEN.

Those who pay on presentation of bill, the cost of advertising Plymouth rights.

The merchant pays the entire cost of bringing the things needed to your very door—guaranteeing satisfaction. It is a very interesting fact that the local business men of Ohio employ fully one-third of the people who fill our beautiful homes.

Best of all, the business men of Plymouth have made it possible for you to purchase everything needed; and to transact any other business at home, with pleasure and profit. Trade with the following list of business firms, to build your own bank account.

between the two sashes is a most efficient non-conductor of cold.

Constant removal of old trees and modern tree surgery resulted in a great diminution of a number of tree cavities, the natural home of most of our hole-nesting birds. Fortunately most of these birds will utilize arti-

At windows protected by storm sashants can be allowed to stand against the inner glass, on the coldest night, without injury, as the air space between the two sashes is a most eff-

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—

Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. MARGARET GRAMMAN, 759 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. GEORGE A. DUNBAR, 77 Romydy St., Beverly, Mass.

Erle, Pa.—"I was in poor health, when the change of life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. KESLINO, 931 East 4th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

Use Low Wagon For Handling Silage.

A wagon with low wheels for use in the harvesting of corn for silage is recommended by H. C. Hansower of the College of Agriculture, Ohio State University. Although the draft is approximately one-third greater than that of a higher wheeled wagon, the saving of man labor is of greater importance. Aside from its use in the handling of silage it can be of great advantage for many other farm operations.

Says Sun Furnishes Him Winter's Heat.

Albert Barnes, Fostoria machinist has announced he had heated his house all last winter, and that washing and ironing had been done with "bottled sunshine." He explains he stored heat from the sun's rays by means of a contrivance which he called a heat conveyor it to a barn, which he had remodeled into a structure not unlike a freezing cooler. According to Barnes, the barn is filled with blocks of artificial stone, each carefully packed in pressed straw. These he said, he had laid caught on a large concave surface bowl shape.

"There's no meter on the sun," says Mr. Barnes, "and I don't expect to pay another cent for heat the rest of my life."

FARMER'S PINE DEFENSE.

Tells Editor Why He Gets Goods from a Mail Order House.

Recently a merchant of Natchez happened to see a farmer receive a box at the depot and noticed that it was from a mail order house. He also noticed that the goods were right in line and the same as he carried for years. He immediately approached the farmer and said: "I could have sold you the goods you have here for less money than the Chicago house and saved you the freight." "Then why didn't you do so?" said the farmer. "I have taken the local paper for a year and have not seen a line about your selling these or any other goods. This mail order house sends advertising matter to me asking for my trade, and it gets it. If you have any bargains, why don't you put them in the paper so we can see what they are?" Natchez (Miss.) Democrat.

Consider the Teacher.

Now that the schools are reopening, we feel like making a special plea for greater appreciation of the teacher's work, more leniency toward her or his shortcomings and more understandings of his or her difficulties. All this on the part of both parents and pupils. The teacher's job is one of the hardest in the world, whether it be in the primary grade or high school. There probably isn't one parent in a hundred who would be equal to the teacher's task. The mother who has difficulty in managing her own child should not expect miracles of management from the young woman who has forty or fifty on her hands. Nor should parents expect a child to be infallible in knowledge nor impeccable in conduct. She's a human being, remember, placed in a difficult position, such as your own daughter may be in some day. She's going to have a big nerve strain before the year is over. Help her to keep sweet and sane by throwing the sunshine of your understanding her way.—Ohio State Journal.

Seed Corn Selection Pointers.

Corn this year should be selected in the field about the third week in September. Corn should be selected that is grown under average conditions or conditions less favorable than the average. A fine ear grown under favored circumstances may not reproduce its kind. Avoid selecting the late big type of corn in order to secure maturity. Select good sized ears but not ears that are unusually large. Do not take seed grown near enticement corn. Such corn is late in maturing. Immediately after selection, seed corn should be properly stored. If left in a pile for only a few hours it may heat and reduce the vitality. Use only home grown seed. Ordinarily it gives the best results.—L. E. TROTTER, Ohio State University.

Personal Mention.

Mr. P. B. Pecht of Mansfield, was the week-end guest of Miss Sue Beelman. Mr. and Mrs. E. M. Patterson were guests of Mr. Vernon relatives the first of the week. Mr. Jno. Beelman and family motored to Toledo Tuesday and guests of H. L. Bodley and family. Miss Grace Trimmer returned to Ada, O. Monday to resume her studies at the Ohio Northern University. Mr. and Mrs. Geo. B. Miller of Sidney, were guests of their brother, Chas. G. Miller, and wife the first of the week. Miss Doris Murray arrived from Cleveland Wednesday to take charge of the trimming at Mrs. D. Hanick's millinery store. Mrs. Irwin and Mr. and Mrs. Will Trimmer were guests Wednesday of Mr. and Mrs. J. V. and Mr. and Mrs. Clarence Arthur. Mrs. Susan Beelman and Mrs. Anna Brandt are visiting Mr. and Mrs. Brundage at Bluffton and relatives at Wauson. Dr. and Mrs. Clarence Ruby of Toledo, were guests Tuesday of his mother and sister, Mrs. A. Ruby and Mrs. Addie Maurer. Miss Mae Brundage returned home to Bluffton after having spent two weeks at the home of her grandmother, Mrs. S. Beelman. Mr. James Harley of Crawford, Nebraska, was in Plymouth last week visiting his cousin, Miss Wilma Dronberger and calling on old friends. Miss Elvora Taylor and Rev. C. Foster, attended the funeral of the infant daughter of Mr. and Mrs. L. B. McCollister, at Bellevue, Tuesday. Mrs. M. Kramer and her two little daughters, Theresa and Agnes, of Delphos, O., are visiting Mrs. Ed. From and other Plymouth friends this week. William Sourwine, Harry Sibbett, H. R. Root and L. P. Derringer, Knight Templars, went to Wooster Thursday morning to witness the dedication of the new \$50,000.00 Masonic home. Mr. Harry Ebert of York, Pa., spent Thursday here, returning in the evening, accompanied by his aunt, Mrs. Laura Ebert, who will make a visit with Mr. and Mrs. Henry Ebert soon. Mr. Wilton K. Ames of Des Moines, N. Y., dropped in unexpectedly the first of the week, to see his mother, Mary A. Ames, of this city, of which she was very much pleased, to be thus highly favored. Rev. C. Foster and Miss Minnie Close, of Grover Hill, O., are guests of Miss Shorah Taylor, and attending the Sandusky Annual Conference of the United Brethren church, which is in session at Shelby this week. Mrs. Jack Strauss of Cleveland, came the first of the week to be the guest of her parents, Mr. and Mrs. Jas. Ward, until the close of navigation on the lakes, her husband being a sailor on one of the lake vessels. Mr. and Mrs. Perry Hoyt and son, who have been the guests of her parents, Mr. and Mrs. W. F. Reed for nearly two weeks, returned back to their home in Toledo Thursday morning, being accompanied by Armin Clark. Mr. and Mrs. Frank Strong of Cleveland, in taking their annual vacation, spent a few days the first of the week guests of their sister and husband, Mr. and Mrs. E. W. Sherman, and other Plymouth relatives, leaving the middle of the week for Michigan points. Mrs. F. H. Howell of Newport, R. I., left Tuesday to join her husband, chief machinist of U. S. N., at Kansas City, now serving as training officer. Mr. Howell began his fourth term in Uncle Sam's service in August. Both he and his wife are on a summer vacation. Mr. Ed From, and family, for several weeks.

Mr. and Mrs. H. W. Clapp of Toledo, are guests of Mr. and Mrs. J. J. Downend. Mrs. Frank Packler, of Garrettsville, O., is a week-end guest of her son, Mrs. J. J. Downend. Society is arranging for a base ball tournament at October 8th, at which Tyrus Cobb and other noted ball players will be lined up in the teams of the various clubs that will participate in the tournament. Notice to Hunters. The undersigned hereby give notice that no hunting will be allowed on their respective farms. All who do so without permission will be prosecuted. Lester OnDrake, Geo. Swanger, John Sturtz. STOCK SALE SEPTEMBER 27th, 1916. Six Shorthorn Bulls, 10 Dairy Cows, some fresh, balance close springers; 200 breeding ewes; 20 Shorthorn rams. If you are in need of a fine lot of ewes or ram I can please you. 50 head of hogs—Durocs, O. I. C., and Poland China Sows with pigs at sides; a fine lot of young boars. A. G. LEDGER, New Washington, Ohio. Conference Statistics. The Northeast Ohio conference, now in session at Steubenville, has including supply pastors, a membership of 549 ministers. The church membership in the conference last year, was over 149,000. The conference contains 861 churches, valued at \$7,229,575. The Sunday school membership in the past year, was about 175,000. There has been a good growth in Sunday school membership. In connection with these conference facts, it may be stated that the Methodist Episcopal church as a whole shows a larger gain in membership in the past year than in any previous four year period in its history, and the prospects for union with the Methodist church, south, are very promising. This union will doubtless be perfected in the coming four years, and will mark a great advance step in the history of Methodism. A Classic Monster. "Write down all you know about centaurs," said a schoolteacher to a new pupil. The boy returned to his seat and presently handed the teacher the following attempt at composition: "A centaur was ancient cavalry and anchor all in one piece. He could not be knocked out of his saddle because he hadn't any, being the same person as his horse. If he needed a tent he did not need a stable, or if he needed a stable he did not need a tent—I do not know which—and if he needed forage he did not need oats, or if he needed oats he did not need forage. Although he was mythical and primitive, this made him very convenient for war!" Confucius on Kingcraft. "What is kingcraft?" demanded a disciple. Confucius replied, "Food enough, troops enough and a trusting people." "Were there no help for it which could be best spared of the three?" "Troops," said the master. "And were there no help for it which could be better spared of the other two?" "Food," said the master. "From of old all men die, but without trust a people cannot stand." Ice Cream and Sun Cien. A tribe of Indians belonging to the Pueblo group is divided into an ice cream and a sun cien, with an ice priest and a sun priest. In winter the ice section is in charge and the other in the summer time.

Stop The First Cold. A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hasting coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing, antiseptic balms in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist, 50c. Presbyterian Church Notes. REV. J. W. King Bldg. Plymouth, Ohio
Hours:
Friday—2:30 to 5:00 p. m. 6:30 to 7:30 p. m.
Saturday—8:30 to 12:00 p. m. 1:30 to 4:00 p. m. 6:30 to 7:30 p. m.

The evenings are drawing out. Richmond county fair next week. Early fairs are now in their own. Corn cutting is already under way. The equinoctial storms will soon be due.

The Whittier White Shoe Dressing at Judson's.

At Judson's Drug Store you can get Fish Food.

Hog cholera has broken out in Lorain county.

Shelby is talking a street fair for early October.

We have reached the half way mark in September.

Good morning! Have you procured your hortening license?

You can get Photo Water in splits at Judson's Drug Store.

Leadville experienced its first snow storm of the season Monday.

You can get Mrs. Price's canning compound at Judson's Drug Store.

For Sale—One yearling Shropshire Ram.

"No hunting allowed," will stare the hunter in the face oftener than he sees squirrels.

Peaches are very plentiful and of a fine quality, but even at this time are away up in price.

For Sale—Young sows and nine pigs. Call, write or phone, U. W. Rank, Boughtonville, Ohio.

For Rent—A new house, by the middle of October. Enquire of Mrs. Mary A. Ames, Plymouth, Ohio.

The Friendship class of the M. E. church will meet with Mrs. Thurman Ford, Wednesday evening, Sept. 20th.

The first meeting of the Alpha Sewing Circle will be Tuesday, Sept. 19. Hostesses Mrs. Trimmer, Mrs. Rogers and Mrs. Artz.

Will history repeat itself in the North street improvement? I say over the winter up, completed as has been the case of all other paving work here.

Lost—Combination purse and bag, containing a sum of money and a railroad pass. Finder will be suitably rewarded if they will either return the same to this office or P. D. Form.

Kraut makers in northwestern Ohio are paying fancy prices for cabbage. The crop is short and as high as \$20 a ton is being paid. Two years ago, farmers were forced to sell the cabbage at \$5 a ton or even lower prices.

The annual meeting of the Woman's Christian Temperance Union of Huron county will be held in Norwalk, September 20, and all county branches are urged to send their quota of delegates. The meeting will open at 9:15 o'clock.

The Baltimore & Ohio railroad had a large number of troop trains through Plymouth Saturday and Sunday. The 10th regiment was a special train returning to Zanesville and Marietta after being in camp at Camp Perry for ten days.

Monroeville wants a fair and a town clock, and the editor of the local paper of that town hopes he may live long enough to see the pendulum of the clock swing to and fro, after which, if the price of printing material keeps going up, he will be ready to fold his arms and be at peace.

George Wellington Bargar, better known as "Wells" Bargar, young man of 30, employed for years by Baccus as drayman as helper, was beaten to death by the hoofs of a mule at a sawmill camp near Centerville, a village close to Chilesburg, Junction, Sunday morning. He lived for six hours after sustaining injury.

The public schools held their first surprise fire drill Thursday morning and emptied the entire building in the remarkably short space of 26 seconds, and it was done too, in a surprisingly orderly manner. These drills will be made quite frequently, and without previous warning to the pupils, so that in case of emergency each pupil will know what to do in case of fire.

The work of painting the Presbyterian church, both inside and out, which work is being done by Jacob's, is well along toward completion and makes a very pleasing change in the appearance of the church edifice. The interior work is completed and aside from the stencil work on the walls and ceilings and varnishing the seats, the interior work is complete.

State School Supt. Pearson has backed up a plan by State Auditor Donahay to give higher pay to school teachers in Ohio, deplaring that their pay has been lagged two or three years behind the raising cost of living. Donahay in his annual report pointed out that the average monthly salary of grade and high school teachers is \$54, lower than that of most school janitors.

This is the plain unvarnished truth. If you think otherwise try it for yourself and see. These out-of-town houses do not take the you, do not care to know you, are not interested in you in any way, only in the money you send them. Spend your money with your own neighbors, who know you for what you really are, who appreciate your worth, your business, your assistance in building up home interests.

To Rent—Eureka Electric Vacuum Cleaner at \$1.00 per day, at Miller's Furniture Store.

Tonight (Friday) the second episode of Peter O'Brien will be shown at the Deister Theatre.

Make your fall housecleaning easy by renting Miller's Eureka Electric Vacuum Cleaner at \$1.00 per day.

For Sale—Quarter sawed oak peg-legged dining table, with six leather chairs to match. Inquire at this office.

People will have to boil their spuds with the jackets on if they wish to reduce the high cost of living and as they are now retailing at \$2.00 per bushel in the local market.

These are certainly the fine days of the autumnal season for enjoyable trips into the country. There is the most enjoyment of the air and scenery for those who are inclined toward carelessness and consideration of others.

Full description and plans for building a handsome Bungalow will be given by Mr. J. H. Trimmer, Building Department in this issue of the Advertiser. One of the leading dwelling architects in the country prepared the article for this issue.

It has long been regarded as impossible to make a silk purse out of a sow's ear, but the inventive Germans, according to report, have now had success in this experiment and it is possible to make sausage casings out of raw silk. Much new casings could hardly be much tougher than the old ones often are.

Boyd Fackler of Shiloh, has filed a deed of assignment with the court assigning his property to Frank Fackler and H. S. Marbo for the benefit of his creditors. The assignor represents to the court that his property consists of five 75 and 55 acre tracts of land in Bloominggrove and Cass townships. His personal property consists of a stock of merchandise in Shiloh.

Hunters were astir bright and early this (Friday) morning and long before the sun was peeping over the eastern hills many were out in the woods seeking success for the open season for hunting these frisky little animals, having started on this morning. Those who are authorized to hunt are not overly plentiful and those who bag three or more can consider themselves fortunate.

Attica's chautauque—the second, closed Monday night and in every respect was a success. While other towns fell down financially, Attica has more than one hundred dollars to the good. Other towns must take off their hats to Attica and the country round. Here people of town and country are a unit when it comes to pushing a good thing along. The Coit-Alber Bureau will furnish the 1917 program.—Attica Hub.

Shaving is not a labor but a necessity and the state has no right to deny a man the privilege granted a male—according to a brief read in the supreme court at Des Moines yesterday by attorneys of a Davenport barber arrested on complaint of the barbers' union for keeping his shop open on Sunday.

"If a man can carry a mule on Sunday he has a right to have his own head carried, in a manner of speaking," says the brief.

Young men of Ohio, who are looking for a wife who can cook, would do well to look up Miss Loretta Potter, of New London, who was adjudged the champion pie, cake and candy maker and is now to be in the state by the state board of agriculture. The decision was made in handing out the prizes for contests at the state fair Miss Potter winning the trip to Washington offered by Gov. Willis, as well as a second machine awarded by a trade paper for excellency in plain sewing.

The Farmers Farm Co. received another car load of geese from Kentucky the first of the week, the total number of birds in the car being 2500. Previous to this they had upwards of 5000 geese on the farm, making the farm as large if not larger than any other goose farm in the country. They will keep adding to the present number until they have reached 50,000. They have plenty of range land and are especially equipped for raising geese, and another year this farm will be worth going miles to see, as it undoubtedly will be the largest goose farm in the world and the largest such rarely seen.

What may prove to be his farewell sermon was delivered by Rev. O. F. Mott, pastor of the Methodist Episcopal church, before a large audience Sunday morning, as on Tuesday he took his departure for Steubenville to attend the conference of the Northeast Ohio Methodist churches, which is in session in the above city this week. During his two years pastorate of the church here, he and his estimable wife have endeavored to do good, not only to the church going people, but people at large, who will regret extremely to see him transferred elsewhere, as it is well known that other places are seeking him. He has added new membership to the church and gave it a spiritual awakening and it is not a far stretch of the imagination to believe that in all departments and the fruits of his labors are seen on all sides. His many friends are hoping that he will be returned, but if conference decides that he will be more useful elsewhere, he will have the well wishes of his friends here into what.

Stamp taxes—our warlike war taxes are dead and no more will they have to be affixed to deeds, notes, mortgages, etc., according to notice sent out by Collector Niles. It is interesting to note that at the same time the stamp tax is removed, another tax is imposed, on the increase of revenue by increase of income taxes, increase of inheritance tax, tax on surplus and undivided profits of all corporations, more tax on alcoholic drinks, and tax on profits of manufacturers—robbing Peter to pay Paul.

Wouldn't a little grape juice taste good next winter when the juice of other fruits are not obtainable? Grapes are said to contain sugars which are especially nutritious and all the sugars are carried with the juice of the fruit. Many housewives find the following a satisfactory way of making grape juice: To 25 pounds of grapes add one pint of water and cook until soft. Drain through a jelly bag and add 1 pound of sugar, bring to the boil, boil for 5 minutes and bottle while hot. The juice may be kept indefinitely and diluted to suit taste when served.

The Twentieth Century Circle held their first meeting Sept. 11th, at the home of the president Mrs. Ludovika Waite. The first number on the program was a vocal duet by Mrs. Artz and Mrs. Trimmer, "In the Stars," which was very pleasing.

Next came the president's greeting, in her usual joyful manner. "Early Stories of Alaska," by Mrs. Southard, "The Settlers of Alaska," by Mrs. Postell, both very interesting.

Twenty-two members answered the roll call. Moving then adjourned to meet with Mrs. C. F. Root, Sept. 20th. After a different light refreshments were served, and all went home feeling the first meeting was a great success.

When it comes to raising pumpkins William Myers and son, residing east of town, are entitled to the whole bake shop. From the vine, the seed of which was hauled out in manure this spring, they gathered 16 well matured pumpkins, uniform in size and of a rich cream color. The combined weight of the 16 pumpkins was 264 pounds, an average of 16 1/2 lbs. each. Aside from these the vine contained eight other smaller ones, making the total number of pumpkins on the vine as 24. The sixteen together with the vine were exhibited at the Ripley fair last week and drew two prizes, Saturday afternoon and evening, and the first prize was won by the vine.

The week the pumpkins were on display in the show window of Wm. Taylor's produce store and attracted much attention.

To the Public

At the end of the first week of school we find a total of 290 pupils enrolled with 72 in the High School. This is somewhat less than should be considering the population of our city and the number of foreign pupils.

It is the duty of parents and friends of any child who has not completed the high school course to encourage the continuation of that course.

We earnestly request that all such persons call at the office and allow us to talk over the situation with them.

JAS. A. KRESHNER, Supt. of Schools.

Notice to Hunters.

Hunting and trespassing on the lands of the Farmers Farm Co., are strictly forbidden and violations will be prosecuted to the full extent of the law.

FARMERS FARM CO.

DESLER Announcing

A Money Saving Service to All Auto Owners.

THERE has opened up in Plymouth a shop where any kind of a pneumatic tire—in almost any condition can be put back in running order—good for more miles of hard road service.

And if the tire isn't worth repairing, we tell you so—if it is—and we fix it—that repairs it.

Unconditionally Guaranteed

The plant which we have installed is the best make that money can buy. It is designed to repair successfully any "fixable" injury on any kind of tire—from 2 1/2 in. motorcycle to 54 in. auto tires. And our workmen have learned the tire repair business in the local shops of the manufacturers. The best equipment that we can get and the best practical training to be had, put us in a position to produce the best tire work that can be done.

Remember! We guarantee every nickel's worth of work we do.

Come to Us With Your Tire Troubles

"BE CONCERNED WITH PAY" IS THE ADVICE

FROM ADJUTANT GENERAL'S OFFICE IN EXPLAINING LAW TO NATIONAL GUARD.

SOME GET MORE THAN OTHERS

Those Qualifying Under New Defense Act Get 100 Percent of State and Federal Pay.

Western Newspaper Union News Service. Columbus.—The fact that some recruits of the First Regiment have received more pay than others should occasion no discontent, according to the Adjutant General's office. The matter will be adjusted, it was explained. Those organizations which qualified under the new national guard defense act receive part state and part Federal pay.

The Federal money has been delayed at Washington, due to the late approval of the appropriation act and the tardiness in appropriation. The units of the First which have qualified are the medical detachment and D, E, F, L, K and M companies. Others have not qualified.

New Capital Invested. On a hot month Cincinnati showed up in formation of new corporations and in the authorized increase of capital stock of existing companies. The whole state made great growth, adding three quarters of a million dollars for each working business day in August. Between them Cleveland and Cincinnati had more than \$24,387,000 in new capital, with the Queen City substantially as much as the three other leading cities put together.

In the entire state there were 216 new corporations, with a total authorized capital of \$14,833,800. The increases were \$9,285,500, bringing the gross addition to \$24,387,000. Decreases were only \$967,000, and therefore the net gain was \$23,920,500. Cleveland had 44 new companies, Cincinnati 39, Toledo 15 and Columbus 11, and all other cities and towns \$4,461,000. Its increases were \$1,191,000, and its gross gain was \$5,532,000. Decreases were \$140,000, the net gain was \$5,392,000.

Cincinnati's new companies had \$4,641,000, its increases were \$1,191,000, and its gross gain was \$5,532,000. Decreases were \$140,000, the net gain was \$5,392,000.

Fulfilling Tax Commissioner. Gov. Willis has accepted the resignation of James Boyle, of Columbus, as a Republican member of the State Tax Commission. The governor appointed as Boyle's successor State Budget Commissioner E. M. Pullington, also of Columbus. The appointment is effective at once. The position pays \$5,000 a year. Boyle's resignation followed public charges that he was responsible for the action of several county boards of revision in arbitrarily raising tax valuations. Boyle's resignation followed public charges that he was responsible for the action of several county boards of revision in arbitrarily raising tax valuations. Boyle's resignation followed public charges that he was responsible for the action of several county boards of revision in arbitrarily raising tax valuations.

May Extend Fowl Ban. It is doubted by sportsmen whether Hungarian or gray partridges will be subjected to the mercy of hunters for several years to come. The present law would permit them to be hunted November 15 to December 4, 1917, but it is expected that this will be repealed at the next session of the legislature, because of the scarcity of the partridge. It is the European war that has caused the scarcity. In the winter of 1915-1916 the state game commission imported and distributed in Ohio 6,000 partridges from Hungary. It was planned to continue this for several winters, but the war made it impossible. Sportsmen also are looking for an attempt by the next legislature to postpone the open season on mall, which is scheduled for November, 1917.

Vance Is Appointed. Superintendent of Public Instruction Pearson announced the appointment of Superintendent William McK. Vance, of the Delaware schools, to be a member of the state board of education for a period of five years. He succeeds S. L. Turpin.

Appeal Wyandotte Suit. In a decision handed down by Common Pleas Judge Rathmell, the temporary injunction restraining State Auditor Donahoe from issuing a \$100,000 warrant for the purchase of the Wyandotte building for the state offices was dissolved, and the state offices are situated there, thereby approving the purchase. It is not expected the litigation will end until the supreme court meets in January. The case has been made up to the appellate court, thus leaving the purchase for the present at least.

Many Young Men Bought. Owing to the greatly increased demand on the part of the United States government for male stenographers and typewriters, the United States civil service commission is seeking in Columbus and other cities throughout the country for young men to qualify for the positions, which pay from \$300 to \$1,500 a year. For the present, the government will hold examinations every month, with the exception of December, in 400 of the principal cities of the country. The positions offer "a desirable field to bright and ambitious young men," the civil service commission promises. Appointments, it is further promised, will be made as soon as eligibles are available. For full information regarding the scope and character of the examination and for application forms, inquiries may be directed to the secretary of the United States civil service, department of examiners at Cincinnati.

Millions To Be Added. Brown county officials came to Columbus to verify an extraordinary order that came to them from the State Tax Commission. Having verified it, they expressed their surprise. The order was that J. R. Silvers and F. A. Silvers, wealthy bankers of Ripley, be placed in the tax delinquency for \$94,000. The Tax Commission order takes in back taxes as well as taxes for the current year, and as the taxes can be collected it would result in the payment to the treasury of Brown county of millions of dollars. The property is said to be in the form of shares of stock in a Texas oil company, hundreds of thousands of shares of which stand in the names of the Silvers brothers. The stock, it is said, was bought at a very low figure, but is now quoted on the market at more than \$150 a share.

Injunction Is Granted. Judge Rathmell, of Common Pleas Court, granted the Columbus Chamber of Commerce a temporary injunction restraining the state from purchasing the Wyandotte Building. This suit substitutes the one brought by the Chamber of Commerce through W. G. Lett, secretary of the Chamber, issued for a writ of prohibition to prevent the state from purchasing the building. It is the judgment of the business men of Columbus, and he believed the entire state, that the state can not properly satisfy its large needs for additional space without constructing a new building properly located. The Wyandotte Building is one of the first modern buildings erected in Columbus.

Appeal to Supreme Court. Asserting a constitutional question is involved, Henry Schoggen asked the Supreme Court to reverse the decision of the Court of Appeals of Hamilton county in the case which resulted in a lower court victory for Charles Schmidt. It is said the Appellate Court had no authority to reverse, save by concurrence of all three judges. The suit involves a lease on property in Cincinnati. All the city of Cincinnati filed a motion asking the Court to reconsider as a matter of great public and general interest the decision of the Court of Appeals of Hamilton county in favor of property owners on MeLean avenue. The city represents the question is of great importance in the application of the benefit plan of street assessments.

Five Awards Made. Among the death awards of the State Industrial Commission were \$2,121 to Mrs. Carl Richter, widow of a Columbus city employee; \$1,744 to Mrs. Susane Plakura, of Cleveland; \$1,093 to Mrs. Christina Blom, of Elmwood; \$1,000 to Mrs. Mary E. Harkness, of Carbonade, and \$600 to Mrs. Irma Shimp, of Pleasant Hill, for the death of her son.

Fish Hatchery Assured. The Central Ohio Anglers and Hunters' Club has realized enough money to insure a fish hatchery for \$25,000. It will be located at the filtration plant, where a plot of land was donated by the city. In connection with raising this fund, the club gave away an automobile and camp trailer. This was awarded to E. E. Martin, of Steubenville.

Election Resign. J. E. Johnson, of Middletown, resigned as the Democratic Presidential elector candidate from the Twenty-second Congressional District, comprising part of Cuyahoga county and Lake and Geauga counties. Another Democratic candidate for the same of J. C. Neely, of St. Mary's, in the Fourth District, also resigned.

Expenditures Limited. In a ruling of Judge E. D. Pritch, of Akron, it was held by Attorney-General Edward C. Turner that the candidates for judges are limited by the express terms of the corrupt practices act to the expenditures expressly designated. The part of the act giving a bit more leeway does not apply, it is held.

State Gas Valuation. Final valuation of the Cincinnati Gas and Electric Company, leased and operated by the Union Gas and Electric Company, was fixed by the state public utilities commission at less than the amount set by the company, as follows: Reproductive value, \$11,239,485; depreciation, \$1,800,225; present value, \$9,439,260. The company's own figures were: Reproductive, \$10,638,244; depreciation, \$7,174,745, and present value, \$3,463,499. The case was asked by the city council of Cincinnati.

THE PLYMOUTH ADVERTISER

MAKING the FARM PAY

By CHAS. M. CARROLL

Duchess Skyark Ormsby, Winner of the Champion Cow—Record, 1,205 Pounds of Butterfat; Milk, 27,661 Pounds; Butter, 1,101 Pounds.

COW IS GREATEST PRODUCER

It is truly said that the cow is man's greatest benefactor. Hall, wind, droughts and floods may come, destroy our crops and banish our hopes, but from what is left, the cow furnishes the most nourishing and life-sustaining foods.

For 2,000 years she has shown her allegiance to man, sharing alike in his prosperity and adversity, responding to all that was done for her, until through her great service she has become indispensable as an economic factor in our national progress.

Dairy communities are rich communities. The cow produces the most and best food at the least cost, and she brings in a steady income; she converts cheap roughage into profit; she makes the farm worth more; builds up red barns and good homes—means living on the farm.

Cow Makes Farm Worth More. There is always an air of permanence and prosperity about a well-managed dairy farm. A man feels independent when he knows his income is steady. The dairy business is a cash business. It calls for intellectual activity. The success of the man engaged in it depends upon his using his head, developing his judgment.

Dairying builds up the farm. It requires fewer acres to produce a good living, and consequently leads to closer neighbors and more thickly-settled communities.

As land, labor and feed increase in

either one-half of the complete carcass, and is not in any sense an elimination of the composition of the carcass.

Princess Carlotta produced profits sufficient for more than three steers; nearly fat enough for two; ash enough to build the skeletons for three, and an additional 920 pounds of milk sugar worth as much per pound for food as ordinary sugar.

It is because of this economical use of food that the dairy cow and not the steer is kept on high-priced land. Wisconsin is cheap and feed abundant the meat-producing animals predominate, but when the land becomes high in value and feed expensive the farmer turns to the dairy cow.

Duchess Skyark Ormsby is the world's champion butter producer. The results of her 365—continuous—days' test, conducted by the Minnesota Agricultural college, shows that she produced 27,661 pounds of milk, nearly 14 tons, or over 23 times her own weight. The butterfat contained in this year's milk weighed 1,205 pounds.

At 35 cents a pound, she produced about \$500 worth of commercial butter in one year. To her credit of \$500 worth of butter must be added over 20,000 pounds of skim milk and butter milk, about 14 tons of manure, and a calf, which pay for her feed and care, making the \$500 a net profit to the owner.

Dairy Products Second in Value to the Corn Crop.

There are about 22,000,000 dairy cows in the United States and the annual value of their products reaches

worked a speedy transformation in the market. It placed Wisconsin, Illinois and other states on the dairy map and opened up the channels of export to the cream separator, which was a great factor in the development of the dairy business. Since that time dairying has been growing very rapidly.

Points for the Dairyman.

Any man to make success in the dairy business should bear in mind these points:

1. Strict regularity in feeding and milking.
2. Good permanent pastures.
3. At least one silo for winter feeding and one with a smaller capacity for summer feeding.
4. Cows that will give at least 4,000 pounds of milk or 200 pounds of butter in a year.
5. Plenty of roughage; and when pastures fall some concentrates, as cottonseed meal and gluten feeds.
6. Pure water. High producing cows must have large quantities of water. It is well said that it is cheaper to warm cold water with a tank heater than to allow the cow to warm it with 60-cent corn. The water tank should be in a cool, sheltered, sunny place.
7. Clean and well-ventilated barns and healthy cows. Dark, damp, steamy, poorly ventilated barns are ideal places for the development and spread of the tuberculosis. Remedy: 1. Test the cows with the tuberculin test. 2. Cut new windows and let in an abundance of sunlight. 3. Provide proper ventilation.
8. Quietness and kindness. Loud talking, swearing and rough handling should not be permitted in a well-managed dairy.

The average dairy cow of this country produces something like 3 000 pounds of milk a year and approximately 150 to 100 pounds of butterfat.

It is not profitable dairying. Yet farmers cannot greatly increase dairy production unless they apply the best of the best and Babcock test to their individual cows and find out the cows that pay for their feed and those which do not. The co-operative cow-testing association enables all the dairy farmers of a community to test all their cows. With the average of numbers the cost of such an association usually amounts to \$1 to \$1.50 per cow per year.

Benefit of the Cow-Testing Association. According to Iowa bulletin No. 13 2,500 yearly records from 177 different dairy herds have been completed in the five years. The results show that herds which have been organized in the state since 1910.

The average cow in the testing associations, it would mean an increase of production for the state of \$23.77 per year at a net profit of \$23.77, after paying for the feed at market prices less the cost of hauling.

If the 1,500,000 cows of Iowa produced as much butterfat per year as the average cow in the cow-testing associations, it would mean an increase of production for the state of \$23.77 per year, at 30 cents per pound, at \$34,650,000.

The co-operative cow-testing association is the best method of detecting the loss in the herd. It puts dairymen on a business basis, arouses the interest of the owner, his boys and hired men in the cows, stirs up local pride by bringing the people of the community together to talk over their business and helps to make farm work enjoyable and interesting.

Some people think that it is a hard job to milk cows and care for stock, but we have found it just the opposite. If we will take an interest in the work and get our heads in the game. All we need is industry unless we like it, but the best we have into it, and intelligence. The cow has lifted many a mortgage and saved the home.

KEEP CAREFUL TAB ON FLOCK

Observation of Droppings Will Prove of Advantage in Indefinite Condition of Health.

It does not need a careful handling and examination of each fowl during the week to keep tab on your flock as to condition of health. The droppings will tell you as much if watched each day. If you are feeding your fowls too much meat, the chances are the droppings will show traces of blood. Cut out the meat for a while if the above is noticed. If the droppings are not shaped up and of whitish or watery condition, the mashers like to be too wet. Better make the mashers dry for a while. If the excrement is yellow or light green, of soft water nature, look out for cholera, or bowel troubles approaching that stage.

Benefit of Fall Fowling.

When an early fall plowing yielded five and four-thirtieths bushels more per acre than when on late fall plowing the Edgeley subsection, North Dakota, in 1875 there was a great weakening of the steers' carcasses—the coming of the refrigerator car.

Libby's Vienna Sausage
and Sliced Dried Beef

Both contain less heat producing properties than heavy meats.

Try them for summer luncheons and picnic tables.

WHEN FOES MEET IN AIR
German Lieutenant Tils of Engagement in Which French Aviators Lost Their Lives.

"One afternoon a French flyer appeared," says a German Lieutenant. "It drifted over Donauwundt and then rose high above the clouds. For a long time it seemed to be just hanging in the air. And then—from our side, there came a buzzing, a fierce, sharp buzzing, and then two black spots were seen breaking through the clouds. It came straight like a bee line for the little French flyer. It went through the clouds and disappeared. The French flyer was seen. The clouds covered all. Five minutes of suspense passed, and then a shot, and after that a roaring. We waited breathlessly, and then two black spots were seen breaking through the clouds. They little spots, and these spots were the two French aviators. "It drifted over Donauwundt and then rose high above the clouds. For a long time it seemed to be just hanging in the air. And then—from our side, there came a buzzing, a fierce, sharp buzzing, and then two black spots were seen breaking through the clouds. It came straight like a bee line for the little French flyer. His Regiment. "Regiments' Regiments," said Prof. Hilary McMaster before the Harvard Medical school. "There are too many nonsensical regiments, young gentlemen. I prefer the regimen of Mark Twain to all such rubbish."

"Mark had a very strict regimen, you know. He never smoked but one cigar at a time, and never smoked while sleeping."

"He never ate meat except with his meals, and he never drank except at his meals."

"He ate fast, and he never ate a bad debt in Mark's boyhood, and among the stores were nine barrels of cod liver oil. These lasted Mark seven years. The rest of the family had to get along with the speck and hux vomica. Mark being the pet. He was, in fact, the first lost child. He got it all."

Field for Him.

"You don't get much expression into your portraits."

"Then you think I can't make a living at art?"

"I say that. You'd be just the man to design kings'—the guests and knaves for playing cards."—Louisville Courier-Journal.

At the Collum place, Saco, Me., on the Old Orchard road, is a southern rosebush 100 years old.

Graps-Nuts

Gets Attention—

First, because of its wonderfully delicious flavor—

Then again, because it is ready to eat—fresh and crisp from the package.

But the big "get attention" quality is its abundance of well-balanced, easily digestible nourishment.

For sound health, every table should have its daily ration of Graps-Nuts—

"There's a Reason"

FOOD VALUES BOTH GOOD COW BETTER

	100 LBS. OF MILK	100 LBS. OF PORK
PROTEIN	3.55	1.55
FAT	3.55	1.55
CARBOHYDRATE	3.55	1.55
MINERAL	3.55	1.55
WATER	3.55	1.55
