## MRS. KESLO SICK SEVEN MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Aurora, Ill.—For seven long months I suffered from a female trouble, with a constant pain in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my housework, I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is. —Mrs. C. A. KESLO, 585 North Ave., Aurora, Ill.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from foot to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (Incorporated), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

## WHAT A JEWELRY FIRM DID

They Invested Some of Their Spare Money in Canadian Lands.

S. Joseph & Sons, of Des Moines, Iowa, are looked upon as being shrewd, careful business men. Having some spare money on hand, and looking for a suitable investment, they decided to purchase Canadian lands, and farm it. With the assistance of the Canadian Government Agent, at Des Moines, Iowa, they made selection near Champlain, Alberta. They put 240 acres of land in wheat, and in writing to Mr. Hewitt, the Canadian Government Agent at Des Moines, one of the members of the firm says:

"I have much pleasure in advising you that on our farm five miles east of Champlain, in the Province of Alberta, Canada, this year (1916) we harvested and threshed 10,600 bushels of wheat from 240 acres, this being an average of 44 bushels and 10 pounds to the acre. A considerable portion of the wheat was No. 1 Northern, worth at Champlain approximately \$1.85 per bushel, making a total return of \$19,010, or an average of \$81.70 per acre gross yields. Needless to say, we are extremely well pleased with our lands."

It might not be uninteresting to read the report of C. A. Wright of Milo, Iowa, who bought 100 acres at Champlain, Alberta, for \$3,900 in December, 1915. He stubbled in the whole lot of it, and threshed 4,487 bushels Grade No. 2 Northern.

Mr. Wright, being a thorough business man, gives the cost of work, and the amount realized. These figures show that after paying for his land and cost of operation he had \$2,472.67 left.

**A Tale of Trieste.**

The Italians are fighting to get back Trieste. How some of the inhabitants of that city feel toward the Austrian masters is shown by the following story: A traveler went into a church there and noticed among a large number of that city's offerings a silver mirror. This, he was told, was presented by a lady whose house had been overrun with these little pests. After her gift to the Madonna, the mirror entirely disappeared from her place.

"You don't believe that yarn?" remarked the skeptical traveler.

"Of course not," replied the merchant, "we should have made a silver Austrian long ago."

**SYRUP OF FIGS FOR A CHILD'S BOWELS**

It is cruel to force nauseating, harsh physic into a sick child.

Look back to your childhood days. Remember the "dose" mother insisted on giving you, the calomel, cathartic. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "Franklin's" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

**ACTRESS TELLS SECRET.**

A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, 1/2 oz. of glycerine, 1/2 oz. of castor oil, 1/2 oz. of lemon juice, mix it at home at very little cost. Pull the hair out with the fingers, or use an electric hair brush. Wash the hair with the mixture of Bay Rum Compound. It will wash, and make it soft and glossy. Wash the hair with the mixture, and it will not color the scalp. It is not sticky or greasy, and does not wash off.

**INNOCENT RECREATION.**

Father had demanded a heart-to-heart talk with his only son.

"I am told that you are given to gambling," he said sternly.

"I admit it," the son acknowledged, "but only for small stakes."

"Oh, as long as it is for something to eat I don't mind," the father said.

## COAL CONFESSIONS

EMBARGO OF A DIFFERENT KIND WILL BE APPLIED TO CORRECT COAL SHORTAGE.

State Officials Take Hand

Speculators To Be Taken in Charge—Radical Measures Will Be Applied To Relieve Desperate Situation and Stop Suffering

Western Newspaper Union News Service. Columbus, O.—Determination to compel a solution of the freight congestion by which coal speculation has been taking advantage of the public has been reached by the State Public Utilities Commission following renewed complaints of suffering and extortionate prices that reached the commission. A conference of all traffic officers at the Utilities Commission was announced yesterday and will be dispatched to the traffic officials of all important railways in the state.

Others invited to the conference were United States District Attorney Stuart R. Bolin, Attorney General Joseph McHugh and representatives of the Interstate Commerce Commission. Additional inspectors have been added to the force of regular inspectors to collect facts concerning the situation. It was said that relief may be effected by special legislation for a situation that is held to be becoming intolerable. It is recognized that the winter has been one of unusual severity and that ordinary supplies of coal have been exhausted by the extraordinary demands. The conditions, however, are not regarded as adequate causes for the situation that now exists.

Radical measures will be employed to relieve the freight congestion on the lines in the state unless the railways speedily demonstrate their ability to remedy the situation. With abundant promises of heroic endeavor to ease up the situation it has grown steadily worse during the past two months. State officials are now convinced the congestion and lack of prompt transportation has become a real menace to life and property and there has been a determination to clean up the situation, if it can be cleared up, if not, to make a heroic effort to better it. There is no doubt in the minds of the officials that the state can immensely better the conditions.

With thousands of cars of coal standing on the tracks of the roads, and with thousands of people in the state practically out of fuel in mid-winter, the full supervisory power of the state will be invoked to stop the cars moving and the known demand supplied.

**College Funds Deficit.**

Wooster, O.—Wooster College will face a deficit of \$15,000 at the end of the year because of the increased expense of operating expenses, trustees reported after their regular meeting. Of this sum \$10,000 represents the increased cost of coal. The board accepted the resignation of their president, Dr. O. A. Hills, who has served long in this capacity and granted Prof. J. C. Boyd a year's leave of absence.

**Bankers Get Jail Sentences.**

Cincinnati, O.—Charles H. Davis and Elmer E. Galbreath-former presidents of the Old Second National Bank of this city, were sentenced to serve seven and one-half years in the Ohio penitentiary by United States District Judge Sater. Both Davis and Galbreath were convicted recently on a charge of swindling victims of the United States banking laws.

**Miami Debaters Selected.**

Oxford, O.—Miami and Denison Universities and the University of Cincinnati have formed a league for the triangular debate of some appropriate national question next month. Miami's team chosen as the result of a trial in which over 50 men took part, will be as follows: Lee Crawford, Elmer Schneider, Earl Blaik, Fred Cline, Frank Harrington and Richard Isard.

**Ohio Plumbers Meet.**

Springfield, O.—The 25th annual convention of the Ohio Association of Master Plumbers formally was held here last week, with 200 delegates from Dayton, Cincinnati, Cleveland, Columbus and other cities in attendance. Among those present were R. B. Ranta, Cleveland, president of the national association.

**May Extend Strike.**

Toledo, O.—Unless the three months' strike of operators and linemen of the Ohio State Telephone Co. here is settled by March 1, the strike will be extended to the Cuyahoga Telephone Co. in Cleveland, declare officials of the Electrical Workers' Union.

**Celebrates 50th Birthday.**

Dayton, O.—Dr. W. L. Shuey, of the United Brethren church, just celebrated his 50th birthday anniversary. Rev. Mr. Shuey, who is yet in fairly good health, is one of the best known of the ministry of the U. B. church.

**First to Carry the Tenets.**

Springfield, O.—The first to carry the tenets of the church of the U. B. church.

**G. A. R. To Meet June 11.**

Akron, O.—The week of June 11 has been selected as the time for holding the next G. A. R. state encampment here by G. A. R. officials.

## GUNS OF ESSEX TRAINING SHIP

Equipment Belonging To Ohio Naval Militia Ship Essex Shipped East

Toledo, O.—The last of the guns from the Ohio Naval Militia training ship Essex have been shipped East. The destination is secret. With the guns went all the ship's equipment which would be useful in case of war. Captain Anthony F. Nicklett is said to have received provisional orders to be ready to leave with his men immediately on declaration of war, to board some battle ship or cruiser.

**Seeks Review of Case.**

Columbus, O.—Application for review of a decision of Hamilton county court of appeals was made by Swain C. Brown, who is seeking to recover damages from the Kitchener Manufacturing Company. Brown signed a release on his claim when he was in a hospital to which he was taken for amputation of four fingers after an accident.

**Foreign Policy Blamed.**

Findlay, O.—Mr. Sidney L. Gulick, for 25 years a missionary in Japan, told delegates at a college student volunteer convention here that if war broke out between this country and Germany it would be due solely to mistakes of the American government in its foreign policy.

**Children to Buy Flag.**

Chillicothe, O.—Old Glory waving over the city building is tattered and torn, but little more than a rag. Chillicothe is short on funds, so there is no money to buy another. The children in all public and parochial schools have agreed to pay 1 penny each for a new flag.

**Superintendent Resigns.**

Springfield, O.—G. E. Barber, assistant superintendent of the Dayton-Columbus Division of the Ohio Electric Lines, just severed his connection after 12 years of service. W. L. Clayton, chief dispatcher of the same division, takes his place.

**BUCKEYE NEWS NOTES**

Columbus, O.—The Cleveland Federation of Women's Clubs, in a telegram to Gov. Cox, offered its services to the government in the present crisis.

**Paupers.** O.—A homeless man, about 25 years old, sleeping in the jail at Melrose, in this county, was burned to death. How the fire originated is not known.

**Sanitary.** O.—Charles E. Boston, public health manager of Randolph, died of early diphtheria, died here in 77 years old. For more than a year he had been an invalid.

**Cleveland.** O.—City officials confiscated 36 cars of coal for the operation of municipally-owned public utilities, when the supply on hand dwindled to the danger point.

**Cambridge.** O.—Fire did \$25,000 damage here when it destroyed the Cambridge furniture factory, the Guernsey Laundry Co. and several warehouses and dwellings.

**Cleveland.** O.—Delegates to the convention of the National Cannon Association here declared that hundreds of canneries would be placed at the disposal of the government in case of war with Germany.

**Delaware.** O.—For the first time in 21 years Ohio Wesleyan debaters lost in their home forum. Colgate won the affirmative side of the question that United States should adopt universal military service.

**Marion.** O.—Marion manufacturers announced that they would turn over their plants to the Government for the manufacture of munitions of war should Uncle Sam become involved in the European conflict.

**Cincinnati.** O.—Two small children of Mrs. Elizabeth Aubrey, of Buena Vista street, this city, were found dead by neighbors, when the latter investigated smoke which was coming from the windows of the sewerer's home. A third child was badly burned but recovered.

**Bucyrus.** O.—The American Clay Machinery Co., which has manufactured thousands of tons of shells for the allies just offered to turn over the output of their factories at Bucyrus to the United States government.

**Cincinnati.** O.—In the proceedings to wipe out the "railroad coal company combine," the United States court approved the New York Central railroad's operations. The Continental Coal Co. and its plan to transfer that property to George M. Jones, Jackson (O.) coal operator.

**Greenview.** O.—The frozen body of William Shafter, aged 65, of near New Bremen, was found by searchers huddled in a shock of corn fodder on a hillside near Greenview. Shafter had wandered away from his home during the night.

**Lebanon.** O.—The body of C. M. Connel, who had been missing from his employment in King Mills since January 8, was found in the woodshed of the Connel home near Mason. He was frozen to death. Connel's home was in Pittsburgh.

## Backache

In spite of the best care one takes of oneself, say part of the human machine is liable to become out of order. The most important organs are the stomach, heart and kidneys.

The kidneys are the scavengers and they work day and night to separate the poisons from the blood. Their signals of distress are easily recognized and include such symptoms as backache, depression, drowsiness, irritability, headache, dizziness, rheumatic twinges, dropsy, gout, etc.

"The very best way to restore the kidneys to their normal state of health," says Dr. Pierce, of Buffalo, N. Y., "is to drink plenty of pure water and obtain from your favorite pharmacy a small amount of Anuric, which is dispensed by mail order. Anuric is a powerful purgative and should be taken before meals. You will find Anuric more potent than lithia, dissolves uric acid and water does sugar."

**His Double Duty.**

James walked up the street the other night with a box of chocolates under one arm and a big package of meat under the other.

Hallon, Jones," said Johnson, "you homekeeping? I didn't know you were married."

"I'm not yet."

"What are you doing with those chocolates and that meat, then?"

"Going to give my girl."

"Do you have to furnish the family with meat already?"

"Oh, no; the sweets are for the girl and the meat is for the dog. I have to square both."

**YES! LIFT A CORN OFF WITHOUT PAIN!**

Cincinnati man tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoe that nearly killed you before, says this Cincinnati authority, because a few drops of freezease applied directly on a tender, itching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted off, root and all, without pain.

A small bottle of freezease costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the sensitive skin.

If your druggist hasn't any freezease tell him to get a small bottle for you from his wholesale drug house, —

**When Women are Weak**

The Ohio senate voted Wednesday to give women the right to vote at presidential elections, by passing the Reynolds bill 20 to 16. Gov. Cox is keeping his own council, but it is intimated he will sign the bill.

Whether beer is board is a question to the courts at Sandusky to decide. Five men were arrested charged with failing to pay their board bills. It was found that the principal item was for 71 bottles of beer.

A bill has been introduced in the senate to send to Lookout Mountain, Tennessee, next summer, to the dedication of the new Ohio soldiers' monument there, all Ohio veterans who participated in that battle. A number of Richland county civil war veterans are still living who participated in that conflict.

The Ohio quail is half a song bird with exceedingly brilliant prospects of becoming a full fledged bird of song before many weeks elapse. A bill classing the quail as a song bird giving them the same protection as accorded our birds of song, has passed the house by an overwhelming majority and is half a law. It is to be hoped that the senate will be as gracious in its treatment of Bob White as was the house.

That much talked of play, "The Birth of a Nation," was approved by the Ohio board of censors and released for exhibition in this state. For more than a year the film has been a political issue in Ohio. Gov. Willis objected to its exhibition and the two Republican members of the board kept it out. Censor V. R. Wilson changed his vote and agreed to support Mrs. Miller on its passing. Only a few eliminations were made.

Those who are in love with King Winter at his best surely must have had an enjoyable time last Sunday and Monday morning. All day Sunday King Winter was fairly routed with glee while he was playing his most spectacular antics and capers of all sorts. Nor was he contented with his spectacular and extremely boisterous display on Sunday but amused himself Sunday night by crowding mercury into a small corner way below zero, and playing havoc generally with water pipes and growing plants in homes. It was winter in all his glory for sure, as those who ventured out at a Monday morning can abundantly testify. Let King Winter do his best for his stay will not be very long.

At the delinquent tax sale held Tuesday at the office of County Treasurer Homberger, 65 pieces of real estate were sold for taxes. This is an unusually small number, 81 pieces being sold for taxes last year. The lowest amount of delinquent taxes on any piece of property was 50 cents and the highest \$425.47. The total amount of the taxes which were delinquent was \$1,411.35. The titles are being made out for the purchasers. People who wish to redeem their property have to pay not only the delinquent taxes, but the penalty of 15 per cent and six per cent interest, as well as all expenses. If this is not done, the persons who get the tax titles, get a deed at the end of two years. The 65 tracts were pretty well scattered throughout the county.—News.

The above program is entirely new and is one that will be readily appreciated by anyone interested in high class music, well played. The admission will be only 35c with no seats reserved, and at this reasonable figure a large crowd is easily expected.

#### W. C. T. U.

The February meeting was at the home of Mrs. Murphy and was enjoyed by all, and many plans were discussed for the work that is before us. In 1916 the work was great, but in 1917 it will be greater, so let every woman who has an interest in prohibition be ready to help wherever the call sounds.

In looking over the work of the past, and planning for the work of the future, I was reminded of a picture of the old war dying, and as he was slowly passing away his eyes were turned to the page on which was written the wonderful victories for prohibition in 1916 and his eyes were on a new page for 1917, as if he would read the future and see if greater things could not be done, but his time for work was past. Our time for work is here and it needs every one to stand loyal. We are in the fight for prohibition in Ohio this year. Don't wait to be drafted but be a volunteer, and join the W. C. T. U. for in union there is strength, and when, in November, our state goes dry, you will have been a helper in the work.

In all the states that have banished the saloon the women of the W. C. T. U. have stood side by side with men in the very thickest of the fight. So every woman in Plymouth and vicinity is asked to join us. Please send in your name to our secretary, Mrs. Howell, or to the president, Mrs. Boardman, and don't wait, do it now.  
Reporter.

The New Washington H. S. basketball team proved a little too much for our local team in the game played here last week Friday evening, the visitors winning in a score of 27 to 19. However, in the girls' game the tables were turned, our girls winning by a score of 28 to 3. A night (Friday) both the Crestline boys' and girls' teams will be here for games with the local teams.

Turn out and give the players a good attendance. Your presence will go a long way toward helping our teams to win. The games will be called at 7:30 in the case of 7:30 as announced on some of the bills.

The coldest spell of the winter, or even in years, evoked in upon us Monday morning, when thermometers in various parts of town registered anywhere from 10 to 20 degrees below zero, according to exposure, some said to have gone as low as 22 below. The gas pressure remained about normal, consequently users did not suffer. Throughout the day the temperature slowly rose and Tuesday morning thermometers registered 10 degrees above, making a change of nearly 30 degrees in 24 hours time. Had the cold been accompanied by wind it would have been almost unbearable, but as it was not a breath of air was stirring, and according to those who have kept tab Monday morning was the coldest we have had since 1912.

Lovers of the movies have a fine treat in store for them Wednesday evening, Feb. 23, when "The Christian," a Blue Ribbon Vitaphone in eight reels will be shown at the Deist Theatre. James Ward was in Cleveland again, the first of the week where he delivered nice orders of his well known brand of cigars to various dealers. He likewise purchased a big order of leaf tobacco which will be worked into his various brands, calls for which are increasing daily. Jim believes in giving smokers cigars of quality and likewise up to a standard at all times.

Tuesday afternoon the jury, in the case of Cornelius Farley, barber of Chicago Junction, against Leon Hunter, hard ware dealer of that village, for \$10,000 damages, returned a verdict in favor of the defendant, Farley while at the Hunter store purchasing fishing tackle last fall fell down a cellar stairway, and brought suit for \$10,000 for injuries he is said to have sustained.

In response to 50 invitations sent out a large number of the little friends of Lloyd Ward gathered at his home, corner High and Bell Sts., Saturday afternoon, and helped him celebrate his eighth birthday anniversary, the hours being from 1:30 to 4. Games, etc., were indulged in by the little folks while refreshments of a pleasing and appetizing nature were served, the hours slipping away all too soon for the little folks.

The Misses Loretta From and Beatrice Kappenberg were associate hostesses at a Valentine party at the home of Dorothy Hills, to the members of the Junior Camp-fire girls. The home was lighted with many red candles and valentine decorations were all through the rooms. The table was centered with a basket of sweet peas and lighted with red candles. Refreshments were served which also carried out the valentine idea.

If contributors of news items understood the inconvenience and bother it makes in a newspaper office to bring in or phone in at the eleventh hour articles for publication, they would strain an effort to get in on time. Events that have happened in time to report Monday or Tuesday should be handled in as early as possible on those days. Wednesday is late, unless it is news that could not have been reported earlier. Events that have happened into ancient history are not wanted.

The remains of Mrs. Matthew Zimmerman, who died at Mansfield Friday were brought here on No. 17 over the B. & O. Wednesday for interment in Greenlawn cemetery. Deceased was for many years a resident of Plymouth, going to Mansfield after her husband's death several years ago, where she has since made her home. Dropsy was given as the cause of her death and her age as 65. She was the last of seven children, all girls. She was an aunt of Mrs. Bent Chronister, of this place.

The sale of property for unpaid taxes, held Tuesday forenoon at the office of County Treasurer Hemminger, was the shortest in the history of Huron county, consuming just fifty minutes. The sale opened at 10 o'clock. Fifty parcels of land in all were sold, and there were only nine forfeitures to the state for lack of bid. The tax collections this year have been unusually good. Mr. Hemminger states, and approximately \$430,000 of the undivided general tax has been paid in.

The next number of the winter lyric course will be given at the Presbyterian church on Thursday evening, Feb. 22, by Crawford Adams and his company, one of the strongest musical companies on the road. This company needs no recommendation as they appeared here last season in our chautauque and highly pleased our people. The personnel of the company are Crawford Adams, "the wizard of the bow," Minnie L. Sample, soprano and accompanist, and Roscoe Bred, Boston leading woman humorist. They will give a program of great variety and adaptability and everybody should take this opportunity to hear them.

A large, yellow, meek, which mysteriously found its way into the editor's home last week Friday evening, so far as the donor is concerned how it came to be repaying in a rocking chair, is just as much a mystery as ever. However, we can attest to its good qualities as the family pet has been indulging in pumpkin turn out and give the players a good attendance. Your presence will go a long way toward helping our teams to win. The games will be called at 7:30 in the case of 7:30 as announced on some of the bills.

The coldest spell of the winter, or even in years, evoked in upon us Monday morning, when thermometers in various parts of town registered anywhere from 10 to 20 degrees below zero, according to exposure, some said to have gone as low as 22 below. The gas pressure remained about normal, consequently users did not suffer. Throughout the day the temperature slowly rose and Tuesday morning thermometers registered 10 degrees above, making a change of nearly 30 degrees in 24 hours time. Had the cold been accompanied by wind it would have been almost unbearable, but as it was not a breath of air was stirring, and according to those who have kept tab Monday morning was the coldest we have had since 1912.

**MOTHER TELLS HOW VINOL**

Made Her Delicate Boy Strong

In a New York City—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles and there seemed no hope of saving his life. The doctor prescribed cod liver oil, but he could not take it. I decided to try Vinol—and with splendid result. He seemed to agree with him so that now he is a strong healthy boy."—Mrs. THOMAS FROSTMAN, 1090 Park Ave., N. Y. City.

We guarantee Vinol, which contains cod and cod liver peptones, iron, and phosphates, for run-down conditions.

**Would You Like To Overcome That Nasty Habit of Bloating?**

An unnecessary evil—entirely so. There is no more need for that bloated, puffed-up condition after a meal, than to drink necessary food to your chair after you have finished dinner.

Bloating is a condition arising from carelessness—pure and simple carelessness. You forget that the stomach is a peculiar organism; you forget that all stomachs are not alike; you forget that to over-do the stomach at any time means a reaction.

Stop using the charcoal, soda, pepper mint way of trying to overcome that disagreeable tendency. Those ways simply overcome what you, in your carelessness have allowed. Stop those ways and use the up-to-date, sensible method—the method that PREVENTS—catch the idea?—the method that PREVENTS that nasty, bloated condition. The PREVENTIVE method is really the only logical way of assisting the stomach in its work of taking care of what is eaten.

Pepsin can and will PREVENT every known form of stomach distress. It takes care of every particle of food that enters the stomach. There will be no undigested food to ferment; there will be no gas; there will be no bloating or bleeding once you start taking Pepsin at your meals.

Your druggist will furnish you Pepsin in a small vest pocket bottle which costs twenty cents and will last for a week or ten days.

**LAXATIVE for Aged People**

**THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used.
