The legislature declines to make the theft of a chicken (of the barnyard variety) or other domestic fowl, a penitentiary offense. On the recommendation of the judiciary committee, the house killed the bill of Representative Marker of Van Wert to that effect.

Of 12,359 women licensed to marry last year, 1,018—almost one-twelfth, or 8.1 per cent, were widows. If we add to the number of widows the divorced women who look to themselves new mates, it will be seen that the lady bereft of her companion and support need not, and in very many cases cannot, lead the lonely, narrow existence attributed to her in over-sympathetic quarters.

Here's a bill that won't get the O. K. of the school children. It limits school holidays to Christmas, New Year, Decoration Day and Thanksgiving, cutting out Columbus Day, Lincoln's and Washington's birthdays, substituting exercises in the schools on these days. The bill was introduced by Representative Cummings of Lorain. It says the school board may let the children out on the other days if local sentiment demands.

The schools of Ohio will have a national song week from Feb. 19 to 23. It is planned to have community meetings at each school house on some evening during the week at which time patriotic songs will be sung. The songs to be selected are the ones familiar to the children, their parents and grandparents. The schools may decide on the evening they wish to meet. County Superintendent Bell is making arrangements for these meetings in Richland county.

County commissioners Monday were checking plans with E. A. Merkle, county surveyor, relative to road improvement work which will be taken up during the coming spring and summer. Commissioner Swisher said indications for bike construction this season were larger than at any heretofore. The engineering department is now working on plans and estimates of the cost of construction for a number of important jobs which are to be attempted. — Mansfield News.

It is estimated that if the war in Europe should continue two years longer, there will be twelve million more females than males in the warring countries, and it is said statesmen there are giving serious consideration to the matter of authorizing polygamy. Such a thing is not unknown in history, but it is so repugnant to modern ideas of civilization that one cannot consider it with patience. But the Dark Ages never saw anything like the present world war, and out of it will come things that we do not now dream of.

Henry S. Moring, trustee in bankruptcy of Boyd Fackler of Shiloh, has filed a petition in common pleas court against Rachel C. Fackler, asking that a deed certain property in Shiloh be set aside and the title be decreed to pass to this plaintiff. The plaintiff represents that Boyd Fackler was such an early time he made the transfer to this defendant. The trustee claims there was no consideration in the transfer and was made for the purpose of placing said property beyond the reach of creditors. C. H. Keating is the attorney.

It will be interesting to local people, generally, to have their attention called to the fact that Easter Sunday will fall much earlier this year than it did last year. Ladies will be especially interested, as this will afford them a chance to display their Easter headgear much earlier in 1917 than they did in 1916. Ash Wednesday, the beginning of Lent, will fall on Feb. 21. All of the Good Friday falls on April 6, and Easter Sunday will occur on April 8. According to an old sign an earlier Easter presages an early spring, and many are hoping the signs will prove true in 1917. Let's hope so.

New Idea for Sane Fourth.

If the toy-makers of the United States, who routinely hold their annual convention in New York, can put their plans into effect, the Fourth of July will be a sort of midsummer carnival with Uncle Sam the postulant, instead of Santa Claus. All agree that the Fourth should continue as a festive occasion. The plan is to substitute for the crackers and other explosives a American-made toy with plenty of action and plenty of noise, but harmless. The manufacturers report that the toy industry in this country has expanded 300 per cent since 1914.

Horses' Vacation Over.

The last of the war horses, gathered at the Pennsylvania lines feeding station at Crestline, have been shipped by express to the agents of the allied armies in Jersey City for transportation to Europe.

The last lot of horses there numbered more than 800 and were held in Crestline station two months before an outbreak of pneumonia. Before a corps of expert veterinarians and the disease under control almost 100 of the horses died. Senator Frank Miller, who owns the Crestline feeding station where the horses have been kept, says more than 12,000 horses have been received and shipped from Crestline since the beginning of the war.

Governor Fixes 'Thrift' Day For February 3.

Governor Cox has officially proclaimed today (Saturday), February 3, as Thrift day in Ohio and urged its observance "by thought and discussion of means to reduce waste and conserve individual and community resources."
"Easy spending," said the governor, "naturally accompanies a period of great prosperity. Unnecessary expenditures, thoughtlessly made, adds to the discomfort of those who have misfortune, by making the essential outlay greater. Thrift is the greatest balance."

"Pursuant to the national movement, it therefore seems proper to observe a day when the attention may be called to the need for saving."

Newark's Natural Gas Rate.

Discussing the decision of the United States supreme court in regard to the Newark, O., natural gas rate, K. C. Kriek of the Logan Gas and Fuel Company said:

"Notwithstanding the fact that, under the ordinance granted by the city of Newark in March, 1916, the rate now prevailing there is 27 cents per 1000 cubic feet, which rate in turn will increase to 30 cents and later to 33 cents, an error crept into the telegraphic dispatches from Washington published in various Ohio newspapers, to the effect that the United States supreme court had affirmed an injunction of the Ohio supreme court fixing a rate of 18 cents per 1000 cubic feet for natural gas in Newark and restraining the gas company from charging the consumer more than that rate. In reality, the decision was entirely without controversy which is now past history and has no bearing upon the present rate or ordinance at Newark."

The ordinance before the supreme court was to determine the ownership of an sewer fund established in 1911, and which represented the difference in rates between what the gas company demanded and the city of Newark was willing to grant at that time. The mistake of the Washington correspondents lay in overlooking the low rate which prevailed in by-gone years, when Newark was the center of a great gas field, and making it appear that rate applied to the present time.

Stage life, with its unflinching appeal to the public, is intimately disclosed in the Bluebird Photoplay "Bobbie of the Ballet," which will be the attraction at the DeSler Theatre on Wednesday evening with Louise Lovey, the girl whose appearance lives up to her name, impersonating a ballet girl who resists temptation under strong pressure, and triumphs over those who would wreck her life. There is a pathetic appeal to the hearts of humanitarians in this girl's struggles against heavy odds and an exaltation of spiritlessness for girls who may be weakening under the stress of their surroundings. In working out an intensely interesting story the producers have adopted several sensational methods to intensify the appeal of a great moral lesson embellishing the visualization of the narrative in beautiful photographs.

Then all went to the DeSler Theatre for an hour, after which the guests bade adieu and the Tourists returned to Mrs. Snyder's home to finish the evening with their study of U. S. government, which they find more interesting with each meeting. Ice cream was served after the lesson and it was near midnight when they went home with the memory of a delightful party.

HITS FOES OF MILITIA WILSON MAY STUMP

WILSON TELLS DELEGATION CONSIDERS MAKING SEVERAL SPEECHES ON PEACE.

Advocates of Military Training Act Policy on Mexican Border—Rebuked by President.

Washington, Jan. 27.—President Wilson, speaking on Thursday to a delegation from the Maryland League for National Defense, which attacked the National Guard and advocated universal military training, rebuked them for their "unrestrained language" and said they would have a better chance of his support if they were more reasonable in their attitude.

The memorial, read to the president by Maj. Randolph Barton, spoke of the National Guard system as a "disgrace" and a "failure." It urged universal compulsory military training and service, and mentioned the mobilization of the National Guard along the Mexican border as an example of "the failure of the system."

President Wilson told the delegation that their attitude closed the opportunity for discussion of the question and was not helpful.

"I do not need to prove to you or anybody my deep interest in this subject," said the president. "I will frankly say to you I would have been more impressed by this memorial if it had been expressed in more restrained language."

Senator John Walter Smith of Maryland accompanied the delegation. The memorial which criticized the sending of the guard to the Mexican border and said it was "utterly and absolutely inadequate for the defense of the country."

"It is a scandalous waste of public money," said the president. "Such a system is a disgrace to the civilized people," he continued.

Senator John Walter Smith of Maryland accompanied the delegation. The memorial which criticized the sending of the guard to the Mexican border and said it was "utterly and absolutely inadequate for the defense of the country."

Senate Holds Long Debate on President's Address—Some Opposed to Action.

Washington, Jan. 26.—President Wilson has taken under consideration a suggestion that after Congress adjourns he make a number of speeches in different parts of the country in a campaign of education in connection with the ideas expressed in his address on peace before the senate.

Officials said the president had reached no conclusion and would not do so for several weeks.

Action on Senator Cummins' resolution to provide for exclusive consideration of President's Wilson peace address, but the president's official order directed it to the calendar.

Senator Cummins sought to obtain unanimous consent for the resolution to go over without prejudice, to come up automatically again this week, but Chairman Stone of foreign relations committee objected. Senator Cummins pointed out that with the resolution on the calendar it is possible for him to move to take it up tomorrow or any other day after the senate routine morning business is concluded.

Senator Stone wanted to refer the resolution to the foreign relations committee, but the president's official order directed it to the calendar.
