

"KEEP Your Credit GOOD"

THE MOST FOOLED MAN IS THE MAN WHO FOOLS HIMSELF!

—particularly when it comes to paying his bills. Bad credit is like backyard gossip—it travels fast — and is magnified as it goes along. Therefore the man who fools himself by not paying his bills promptly when due — is hurting himself far more than he can hurt his creditors. They lose only money. He loses their good opinion and eventually his own self - respect!

MOST PEOPLE APPRECIATE THIS AND THEREFORE — PAY UP AND KEEP THEIR CREDIT GOOD!

The P. H. S. POST

CHAPEL
Mr. Jenkins was the chapel speaker Wednesday morning, October 2nd, 1929. He talked on our conduct in school. He said the school is a unit that has and order is necessary for the progress of the school just as it is for the government. He said that pride followed after obedience and it should be every student's desire to obey. This was a most interesting talk and I think it gave us all the inspiration to behave in the future.

Superintendent Miller was the chapel speaker Wednesday morning, October 9th, 1929. Since last week was Fire Prevention week his talk pertained mostly to fire. He said that fire is one of the most beneficial things to mankind when under control but it is very destructive when it is not. He also said that America has greater fire loss than any other country and the largest part of the causes can be traced back to carelessness.

At a special discovery day program last Friday morning, the Reverend Miller was our speaker. He spoke on life as a matter of attitude, and that life is blended through love and hope. He said that if you put some water in pump to start it working it would supply water for the whole farm; so sometimes we get an idea that starts a flow of good ideas. We look at a thing and praise its good points never thinking of the God who created it. He concluded with saying that he wished we would remember James A. Garfield. "The social strata of America is like rock; hard to come to the top; but in America it is like a drop of water. It may be deep in the sea today but, tomorrow it may rise and sparkle on the wave."

GIRLS' PHYSICAL EDUCATION
The girls physical education is directed by Miss Prancoot on Mondays

and Wednesdays. Due to the wonderful fall hiking weather the director took the girls on hikes for the first and second days. The first trip was made to the new schoolhouse where a complete examination of the new building was made.

The girls have chosen two indoor baseball teams. Each physical education day the teams stand each other. The games are quite exciting for the captains, Tommy Becker and Ruth Root, have chosen the teams about evenly matched.

An Appreciation

In discontinuing our meat market we take this opportunity of cordially thanking the people of Plymouth and vicinity for their loyalty and patronage. Your support is most highly appreciated.

During the 45 years that our market has been in operation the name of Bachrach has stood for fair and honest dealing and "Service Above Self."

Although we close the doors of our business, we do not close our hearts to our many friends whose association we cherish and which we hope it may be our good fortune to share for many years to come.

"Cities Service Has Been Mighty Good to Me"

A man of vision made that statement. Ten years ago he began investing in Cities Service Common stock. His first purchase—only a few shares—was made with a modest sum he had been able to put aside.

Each year, as his income allowed, he bought more stock, and at the same time, reinvested his cash dividends in additional shares and held his stock dividends. Today, due to the steady growth and splendid record of achievement of Cities Service Company, this investor has good reason to say "Cities Service Has Been Mighty Good to Me" because:

He is financially independent

What Cities Service has done for this stockholder is typical of what it has done for thousands of others—what it can do for YOU! Today Cities Service Company has over 450,000 security holders who have faith in its management—its policies—its ability to expand—its future.

You can now start on the road to financial independence—you can take steps to free yourself and your family from financial worries in years to come by investing in Cities Service Stock.

Doing so will make you a partner in one of the country's ten largest industrial organizations—will enable you to share in its profits—receive its dividends, which are being paid monthly in cash and stocks at the current market price.

Now is a good time to buy. You can order from one share up. Nearly 400 stockholders in Shelby who receive their dividends every month. Ask me about it.

DELPHI NEWS

John Henry Guest, a prosperous farmer of the southwest part of Ripley township, died in the Shelby hospital Sunday morning from a run shot wound inflicted by self. Accidentally or intentionally is not known.

He lost his wife a few weeks ago and he was pronounced by those near him as being very despondent over his great loss. He had said to some of his friends there was nothing more in life for him—and he wished he could have died when his wife did. On Saturday afternoon, October 12th he told his sister Mrs. Mariott, who was temporarily in his home that he would go and kill some squirrels that were eating his corn. He took his single barrel shot gun and was found soon after with a wound or hole through his body.

A doctor was called and Miller's ambulance soon had him at Shelby hospital.
