**SCIENTISTS GET ENDORSEMENT**  
Acc for District of Columbia Leaves Christian Scientists Free From Licensing.

WASHINGTON—President Coolidge's signature to an act passed at this session of Congress gives the District of Columbia a new and broadened law regulating the practice of the healing art in which complete freedom for the practice of Christian Science is provided.

The act provides that its terms shall not apply to "persons treating human ailments by prayer or spiritual means as an exercise or enjoyment of religious freedom."

The measure has the approval of the commissioners of the District of Columbia, the Medical Society of the Homeopathic Medical Society, the District of Columbia Osteopathic Association, the Chiropractic Society of the District of Columbia, the Washington Board of Trade, and numerous citizen associations.

**Senator Copeland Sponsor**  
Dr. Royal C. Copeland (D.), Senator from New York, a practicing medical doctor, offered the bill in the Senate and directed its course thru the committee and the two chambers. He willingly accepted the amendment offered by Christian Scientists, and assisted in shaping it acceptably to the Medical Society. The act is the product of numerous hearings and conferences held over a period of several years.

"The bill will not prohibit the practice of those who believe in other methods of healing than the prescribing of medicine or the performance of surgical operations," the report made to Congress by the committee has considered the legislation declared.

"Instead, it specifically authorizes the practice of healing as the proper method of healing as is necessary to protect the public against injury and fraud, but to afford ample opportunity without discrimination for the practice of any system, provided only that the practitioner shall have such adequate knowledge of the human anatomy and other basic sciences and of the proper method of healing as is necessary to protect the public against injury and fraud."

**No Restriction on Methods**  
Even the requirements of examination and licensing which apply to other drugs methods of healing are not applied to those who practice religious healing except for this and a few other exemptions, the act prohibits the practice of healing without a license or legal registration.

The law is distinguished by the fact that it lays down no restriction on the method of practice to be followed by the applicant for a license to heal. All applicants are eligible to practice, provided they can prove themselves competent and trained in the particular method of healing which they intend to practice.

For purposes of general administration a commission on licenses, composed of the president of the Board of Commissioners of the District, the United States Commissioner of Education, the United States District Attorney, the Superintendent of Schools and the health officer of the District is created with authority to appoint the board of examiners in the various healing practices regulated by the act.

She was assisted by Mrs. John Hester whose article was entitled "Our Children—Putting Away Things," and Mrs. Trauger gave, "Our Children—Stories." Mrs. Pugh gave "Our Children—Getting Ready for School," and Mrs. Jesse Phillips, "Our Children—The Fortunate Child." Each topic was followed by a short discussion and Mrs. Bernice Morrow summed up the value of all the topics in "The Restoration of the home," bringing out some very important facts namely, that from recent surveys we learn of decadence of home life, largely in our cities, working hardships in the lives of our children, and the influence of the home fails the child from lack of moral and spiritual training rather than from any lack of proper provision being made for their bodies.  
"One of the fundamental principles of the woman's Christian Temperance Union is, in the words of Frances Willard, "to make the whole world more homelike."  
"The home is the true unit of society. It determines more than any other one influence, and perhaps more than all influences combined, what the destiny of the boy or girl shall be. It shapes the social life. It makes the church possible. It is the true basis of state and nation."  
"Homes of a generation ago gave to their children a background which has given us today men and women who have made possible that protection of the house and the child which no other generation has known—the outlawry of the legalized liquor traffic."  
"If needed protection is to be maintained there must be taught in THE HOME the poisonous effect of alcohol, the necessity for total abstinence, and the importance of obedience to authority. The power of organized motherhood will help to maintain and promote this protection as it helped to secure it."  
The woman's Christian Temperance Union is sometimes called "Organized Mother-Love."  
The next meeting of W. C. T. U. will be July 21st at the home of Mrs. J. H. Hester, Mulberry St., with the program in charge of Mrs. Dan Clark.

**BOOZE CASES**  
Nick Brown was arrested for selling liquor early this week and Mayor Brown bound him over to Judge Hoch at Norwalk.  
Sunday evening Pete Denalow became intoxicated and assaulted Mrs. Hauke Denalow who had him arrested and his case will come before the grand jury. Another case to come before the Grand Jury is assault and battery. Dan Oney struck Willie Humphreys with a brick. The men are drunkards.

**COMMENCEMENT**  
The first Commencement to be held at the new High School Auditorium was a very enjoyable affair in every way. The capacious seating and excellent ventilation were greatly appreciated after years of adverse conditions. The High School orchestra played March Festivals as the class marched to the platform by the center aisle. Seated with them were the speaker, Dr. Hayden of Cleveland, Mr. C. C. Temple, L. R. Hopkins, president of the Board of Education; Mrs. Adah Simmons, principal; and Rev. Theodore Peterson who gave the invocation and benediction. The musical numbers were furnished by the High School and included two selections by the girls' glee club, Alma Mayer by the boys' quartette, two selections by the mixed chorus and the orchestra. The address of the evening by Dr. J. R. Hayden was very fine. He gave an earnest delivery and a use of the King's English that has made for him a place in the historical world of so small prominence. He took as his theme life compared to a meal in which each small part becomes part of the whole and each experience is essential to the rounded out life. He emphasized the fact that education is never completed. Following the address Mrs. Simmons presented the class for graduation. She presented the sorry fact that the class president, Miss Virginia Sweet, was unable to be present as she is ill with measles. L. R. Hopkins presented the diplomas. The class made a very pretty appearance. The girls wore simple white dresses and carried American beauty roses while the boys wore dark blue suits.

**CENTRALIZED PICNIC**  
The Centralized school closed Friday with their annual program and the program was held in the forenoon and was followed by a very fine dinner. The fathers gathered together a ball team in the early afternoon and played against the Centralized boys and beat them. The game was much fun and excitement. The school

reports a good year. Every regular pupil was promoted and those conditioned had moved into the district during the school year and were lacking in some subjects.

**TEACHERS HIRED**  
The local school board have hired the following teachers. The High School core is still lacking two but they have persons in mind for these positions: Superintendent, M. C. Temple; Principal of High School, Mrs. Adah Simmons; Coach and Manual Training, Milton Shents; Principal of grade school Miss Minnie Black; seventh and eighth grades, Mrs. Ruth Temple; fifth and sixth, Mrs. Crystal Kasper; third and fourth, Miss Minnie Black; second, Mrs. Effie Brown and first Miss Viola Goodacre. Miss Goodacre will also teach music in the grade school Miss Woodruff, teacher of music in the High School goes to Palmsville this fall and her place has not been filled as yet.

**SCHOOL REPORT**  
The local school report a good year of work and while some will be obliged to take their work over it only shows that a high scholarship is being maintained. The library will be open to the public one day each week during the summer and Mrs. Mary Watts will have charge of the books.

**HOUSE BURNS**  
The tenant house on the George Scane farm at Bouchington burned Tuesday evening. The house was on the road to the fire in less than five minutes the house was in flames and did good work while the water lasted but when the small cistern and the pump failed the house was obliged to stop operations. The house was vacant and some think it was the cause of the fire. The damage to the house was \$1,000. The house was to be tramped housing there.

**WEINER**  
Miss Link entertained the basket ball boys and girls of the High School at a party given at the school after school and for the evening. They went to Barre grove west of town and had a very fine time. The all evening was fairly halmy. The wet grove was contracted by go-lashers and the fun ran just as high as if every weather condition had been perfect. Weiners, rolls, baked beans and marshmallows were given. The large quantity of the boys' coach Mr. Shents was also a guest.

**Township Ball Bearing Mowers**

## Announcement

OF EXTRAORDINARY INTEREST TO THE PEOPLE OF HURON COUNTY AND VICINITY.

By action of the board of directors of The Huron County Banking Company, stock in the institution is made available to the general public, who have so materially contributed to the prosperity and outstanding success of this Bank.

The sole purpose of the plan evolved is to gain wider distribution of the capital stock among the people of Norwalk, Huron County and vicinity. The success of the Bank has during the years made the stock so valuable that it has become closely held, with a book value attained by few financial institutions in communities several times this size. Participation in this success by the public is the broad object in mind.

Forty-seven years ago the Bank was established with a paid-in capital of \$25,000. The total resources in 1886 were \$291,276.37; today the total resources are in excess of \$4,000,000.00. This tremendous growth has been due solely to the safe conservative policy of the Bank, engendering during this long term of years, a public confidence such as few organizations enjoy.

The capital stock of the bank is now increased from \$100,000 to \$200,000 and present shareholders are waiving their rights in fifty percent of this increase in order to permit it to be available to the people of the community. Being an Ohio corporation, the stock is taxable.

The strong, steady growth of the Bank, throughout the years, has been outstanding in financial circles in Ohio. The original shareholders paid in but fifty percent of their holdings; the Bank earned its way from that humble beginning. Here is an actual example of the increment the shares have experienced. In 1882, an original stockholder invested \$500 for 10 shares, that being the 50 per cent required to be paid in. Those ten shares received a 100 per cent stock dividend about ten years ago, thus becoming 20 shares. There has just been declared another stock dividend of 50 per cent, making these now 30 shares. Under the present reapportionment of the stock, with the reduction of par from \$100 to \$25 a share, each present shareholder receives four of the new shares for each one of the old, and these 30 shares therefore become 120 shares of the new stock, which is today priced at \$100 a share—and the original \$500 investment is today \$12,000. Besides that each share thru the years has received constantly and without remission, generous cash dividends each year.

The new stock may be subscribed for now at the Banking House, in limited numbers of shares; under the state law however the certificates cannot be issued until July 21st next.

## CONGRATULATIONS, BOYS

Have you seen the many chests of some of our high school boys swelling with pride? Well, they have a right to be proud, for their breasts are now adorned with several medals won at the district track meet at Ada last Saturday. Those winning first places and getting gold medals are Lavier Barber, winner of the quarter mile race, and members of the relay team, consisting of Lavier Barber, Wade Lebold, Harry Long, and Junior Bachrach. Raymond Hatch is adorned with a silver medal, won for taking second place in the High hurdles. And say, if you ever tried to run that race you will find it quite an accomplishment to get over those high hurdles, let alone run a race over them.

Several others of the boys won places and were recognized with ribbons. All in all, the boys did well and their work is prophetic of many records when we get our new track and the boys get a regular place for their practice.
