NUMBER 20

CONCERTS BEGIN HERE SATURDAY

Saturday night the first band concert of the season will be held here and a general invitation is extended to the public to attend this concert. The concert, as usual, is made possible through donations by the business men of the town and the fund reserve is very low at the start, and should any public spirited citizens wish to help finance the band concerts they can make donations at this office or leave their names, and a member of the committee will call.

After interviewing several bands in this vicinity the Crestline Band, under the direction of Maurice Davis, was awarded the privilege of playing here for the summer. Other bands taken into consideration were those of New London, Ashland, New Washington and Greenwich, and it was found that in many instances more money was wanted and a Saturday night date was impossible, and thru the courtesy of Mr. Davis and his organization Plymouth is to have between a fifty or sixty piece band. Mr. Davis states that the organization has had wonderful training, and that he is confident that his band this year will more than please the public.

The merchants urge those who trade in Plymouth to do their shopping early and if possible before the concert, as the experience has been that a great rush is made on the local stores after the concert, and this taxes everyone, and keeps a long waiting list. Another item, that is being called to the attention of the public is to support the stores that support the band. There will be a large size sign placed in each store or firm that contributes to the band and the local business men would appreciate a little effort upon the public to bear this in mind when they do their shopping. Everything is now in readiness for a real opener Saturday night, and tell your friends and neighbors that Plymouth is going to have a real entertainment for them. If you like the music and the program, then applaud. If you have any suggestions, then let us know. But don't forget to come to the old town Saturday night and meet your acquaintances on our famous Public Square.

JUNE BUGS TO PICNIC

John Moon was in the office the other day and stated that the famous June Bug picnic will be held next Sat., June 22 at the Sourwine home south of town, on the Springfield Road.

Now this is a piece of news for the June Bugs, and by that we mean that everyone in the town, and who has a birthday in June is invited to attend this annual event. Just pack up a good old basket filled with fried chicken (if you have any), cakes, cookies, beans, and what have you? And come along. There's going to be a real program in the forenoon, and of course there'll be plenty to eat at noontime.

We haven't consulted the weather bureau or the almanac or a last weeks paper concerning the weather for next Thursday, but we are certain that it will be a fair day for the June Bugs, and so plan to come.

LEAVE FOR MICHIGAN

Rev. Wm. Barber and his two boys, and mother, left Tuesday for Michigan where they expect to make their future home. The Barber's came here about ten years ago, and for a long time, they were the only colored family in Plymouth.

Rev. Barber in between his preaching days, worked at the Fate-Roth Heist plant here, and he and his boys have won a worthwhile reputation for themselves. Luvier Barber, the oldest son, graduated from Plymouth High this year, and during the last two years he was a star player on the basketball team. "Jim" the youngest boy, always wore a winning smile and his chums held much respect for him. No matter what he did he understood that he was well, and if "Jim" keeps going he's going to make a mark.

ON BUSINESS TRIP

Earl W. Heath left Saturday night for Los Angeles, Calif., where he will transact business for the Fate-Roth Heist Co. Mr. Heath will also spend several weeks on the West Coast calling on the various representatives at Los Angeles, San Francisco, Portland, Seattle, Spokane, and Vancouver, B.C.

COMMON SENSE ROAD BUILDING

The solution of the automobile accident problem is within the control of the people and state road building authorities. Narrow pavements, sharp unbanked turns and worn and rutty surfaces take toll of thousands of lives each year. Main highways should be wide enough for several cars to pass.

It is now necessary to build secondary roads not only to relieve traffic on the main highways but to give a fair distribution of road tax funds and to develop the back country. Secondary roads increase the value of farm land, put new life into smaller towns, relieve congestion of traffic in the larger cities by furnishing better distributing and marketing facilities and opening new avenues for traffic.

Improvement of secondary roads can be accomplished at moderate expense through the scientific use of asphaltic materials and road oils which can be utilized to give a water proof surface that eliminates mud and dust. Each state probably needs ten miles of secondary, or feeder roads to one mile of state highway if a road system is properly developed and tax funds equitably distributed.

MAN KILLED IN CROSSING CRASH

Samuel Leslie Fitch, 23, was instantly killed Sunday afternoon at about 1:30, when the Ford roadster in which he was riding was struck by a fast west bound Baltimore and Ohio passenger train at Newman's Corners. The car was completely demolished and was carried some two hundred feet down the track before it was thrown from the engine. Young Fitch was picked up about twenty feet beyond the wreck. The body was badly cut and mangled and every bone was broken. The train crew took the remains into Willard and they were later transferred to the Miller mortuary here where they were prepared for burial.

Young Fitch had been to Steuben and was riding alone when the fatal accident occurred. The vision from the east side of the road is obscured by a high embankment, and this probably prevented the crash victim from seeing the oncoming train. This is the second fatal mishap to occur at this crossing within the past two years.

Mr. Fitch was employed at the Pioneer Rubber Works, Willard, and after taking a ride north of the crossing, he was on his way home. He is survived by his parents, Mr. and Mrs. S. W. Fitch, one sister, Mrs. Benedict of Shiloh, and two brothers, James, Funeral services were conducted at the home Tuesday afternoon with Rev. E. B. McBrown of the Methodist church officiating. Burial was made in Greenlawn cemetery.

STROKE OF LIGHTNING KILLS FIVE CATTLE

When Mr. and Mrs. Henry Ferns returned to their home in Washington township Sunday morning from church, they found five of their Holstein cattle had been killed by lightning. A heifer was lying stretched out under the tree, but later it revived and began eating grass. The value of the animals killed is estimated at \$600. Two of the snapper killed were milk cows. The other three were young cattle. The owner had his stock insured.

WORK HAS STARTED ON IMPROVING ROAD

The work of improving Auburn Center Road from the township hall on the Ohio road to the Auburn Center grange hall and Baptist church has started and will be rushed to an early completion.

The cost of this work will be approximately \$4,500. Of this amount the township pays 60 per cent, the county 30 per cent and the remaining 10 percent is paid by the property owners.

This will afford the people living in the vicinity of Auburn Center an improved highway to reach the voting place and will also give the citizens in the west part of the township an outlet to the east.

MRS. WILLIAM HUTCHINSON

Mrs. Hutchinson, one of the oldest residents of this part of the State celebrated her 92nd birthday last Saturday. She is unusually active for her age, and can remember when many modern inventions were made. A short sketch of Mrs. Hutchinson's life was given in last week's Advertiser and her many friends wish for her long years of continued health.

H. L. FORD WILL HEAD MT. GILEAD SCHOOLS

At a meeting of the Cass Township Board of Education Tuesday night, Supt. H. L. Ford tendered his resignation as superintendent of the Cass Township Schools to become effective at once. Mr. Ford has accepted the superintendency of the Mt. Gilead Schools and will take active charge next month.

Graduating from the Ashland High school in 1916 Mr. Ford has made a rapid rise in the educational field of the state, and has received much praise and commendation for the work he has done in the Shiloh schools. He has received his BSC and MA degrees from Ohio State, and was elected a member of the Phi Delta Kappa, an honorary fraternity in school administration. He served as superintendent of the New Haven schools for a two-year period, and for the past four years he has been in charge of the Shiloh schools and has made an enviable record there. Under his supervision the school was transformed into a Class A six-year high school, and many other improvements came about under his administration.

In his statement to the Cass Township Board, Mr. Ford stated that he regretted very much to ask for his release, that he was never associated with a more cooperative board, and that he appreciated the support given him by the community and the various organizations of Shiloh. Mr. Ford expressed much regret in leaving Shiloh, but that he felt that the offer was one that could not be refused, and therefore he accepted the superintendency of the Mt. Gilead Schools.

Shiloh and the community regret very much that the Ford's are leaving for both Mr. and Mrs. Ford have been active in the various school organizations and church circles. However, best wishes are being accorded them by their many friends, for continued success in their new homes. The following is taken from Tuesday's Mansfield News and will be read with much interest: MT. GILEAD, June 19.—Prof. H. L. Ford, superintendent of the Shiloh schools, was selected to head the Mt. Gilead public school system at a special meeting of the board of education Tuesday night. Supt. Ford will succeed Supt. P. J. McCullough, who is finishing his first year as chief of the Mt. Gilead schools.

Supt. Ford, who has made a record at Shiloh that has brought favorable comment from state school officials, will receive an increase in salary.

H. L. FORD

any over the pay given the retiring superintendent here, it was announced. The exact salary tendered Supt. Ford was not reported but it is understood that the amount is a considerable boost over Supt. Ford's salary at Shiloh.

Supt. Ford was present at the meeting and accepted a contract for one year. He was selected over Prof. Dean F. Loy, head of the school of education in Ohio Northern University, a candidate for the position. Prof. Loy was retained at Ohio Northern when a petition was circulated in his behalf after it became known in Ada that he had applied for the Mt. Gilead superintendency.

Supt. Ford will assume his duties as head of the Mt. Gilead schools on July 15.

Board of education members said they were greatly impressed with Supt. Ford's work at Shiloh where the high school has been advanced from a Class B rating to a Class A standing under his leadership.

Mr. and Mrs. Schontz of Shelby were callers at the home of Mr. and Mrs. Wray.

TALKS ON MISSION SCHOOL NORTH FAIRFIELD.—J. E. Haskins gave an interesting talk on his recent trip to Pineville, Ky., at the M. E. church here Sunday evening. He spoke chiefly about the Methodist home mission school which is located there.

HOTEL BEGINS ADDITION Work on the Mansfield-Leland hotel addition will begin Saturday, officials state. The construction will be in charge of the Jacob Wells Co. and will be rushed. The addition will be seven stories in height.

THE WAR ON HIGH GASOLINE TAXES

The automobile industry, through its successful efforts to eliminate the excise tax on motor vehicles, saved motorists over \$100,000,000.

Now the petroleum industry, by adding citizens in the war on exorbitant gasoline taxes, hopes to save the driving public at least \$150,000,000 yearly.

Last year the gas tax paid in the United States totaled \$360,000,000, according to an estimate by the Bureau of Public Roads. This year the aggregate is expected to hit \$450,000,000, a 50 per cent increase.

It is said that the tax now paid averages around 25 per cent of the filling station price of gasoline. This is out of all proportion to the cost of fuel. The worst of the situation is that the tax is steadily increasing. Many legislatures apparently consider it a painless and easy means of extracting money from the public.

Every state now taxes gasoline. The minimum tax is two cents, the maximum which has just come into effect in South Carolina, is six cents. In the latter state a motorist whose car runs 12 miles to the gallon pays a toll of one cent for every two miles he travels in gasoline taxes alone.

When any tax becomes exorbitant, the public will rebel. There is no excuse for riding a willing taxpayer to death.

It keeps your food safe—the temperature is well below 50...always!

For family health...for appealing menus...this is vital.

In the General Electric Refrigerator the temperature is kept several degrees below fifty...always! Fifty degrees is accepted by scientists as the "danger point" in the preservation of food. When the temperature rises even a degree or two above that, bacteria multiply, foods become unsafe to eat.

Perhaps you think your own refrigerator is always "cold enough." You cannot be sure unless you actually take your refrigerator's temperature. It is constant cold which is needed.

Countless superiorities give the General Electric Refrigerator its outstanding position...an hermetically sealed, dust-proof mechanism, mounted on top...an accessible temperature control...a new standard of quiet operation...no oiling...no troublesome machinery...simplified installation...no radio interference...an unequalled two-year service guarantee.

The new all-steel cabinets and the hermetically sealed mechanism combine to produce what we believe is the finest refrigerator ever made. More than a quarter of a million homes are enjoying the convenience, economy and health-giving service of the General Electric Refrigerator. And not one of these owners has ever paid a dollar for repairs or service! This is a record in the industry.

The new all-steel General Electric Refrigerators are priced as low as \$215 at the factory. A small payment down places one in your home. Visit our display rooms—see the new models—you'll agree that they offer the greatest values of all.

We, the Judges, chosen to count the votes in the Plymouth Advertiser subscription campaign, which closed Saturday at 5:30 p.m., do, after a careful tabulation of the same, find the above standing to be correct and hereby award the prizes accordingly.

Well it's all over—The Plymouth Advertiser Subscription Campaign soon came to a close last Saturday afternoon in the most satisfactory manner possible to imagine. The prediction made at the outset that this campaign might be the greatest of any ever attempted in this vicinity has been fulfilled and we have never heard of a similar campaign put on in a town twice the size of Plymouth which came anywhere near equaling the one just closed here.

The only disappointing feature of the whole proposition was, as Mr.

tabulate it. We ask the indulgence of the subscribers who have renewed their subscriptions in the matter of changing the credit on your paper. Watch it, if after a few weeks it still remains the same, call our attention to it. It will take some time to make the necessary corrections, but they will all be attended to in good time. A statement from the publisher, Mr. Thomas, Iva Shaw, the campaign manager, and the Prine Publicity Co. will be found in this paper. Subscriptions came in bunches from Plymouth and adjacent territory for miles around. The final count took place after each candidate had made their final report and officiated in the counting to the utmost satisfaction of all concerned.

The prize winners are given above with the statement of the judges. Everything was carried out as originally advertised. Those who did not win a prize but remained in the campaign, until the finish in accordance with rule 8, we paid a commission and checks for the different candidates were mailed today.

TO THE PUBLISHER

In view of the many courtesies The Plymouth Advertiser has extended to us in the way of facilitating our efforts and actively cooperating with us in every legitimate and consistent manner, that the campaign might be the greater success, we hereby make public acknowledgment, and extend to the business and mechanical departments our most generous thanks. We are fully cognizant that without this very valuable assistance and perfect working harmony we could not have accomplished our ambition, to make the campaign which closed Saturday such a profound success.

The magnificent increase in the circulation of your publication must be very pleasing to you, and is an eloquent tribute to the merits of The Plymouth Advertiser which we are pleased to say has so large an army of friends in the territory in which it circulates. This increase in circulation is not only valuable to you but is exceedingly beneficial to every merchant who uses the advertising columns of your paper and all persons interested in the upbuilding of your beautiful city.

We bespeak for your worthy publication unbounded success for the reason of its high character and determination of its publisher to make it second to none in the great state of Ohio.

Yours very truly,

PRINE PUBLICITY CO.
London, Ohio.

TO THOSE WHO LABORED

You are personally and collectively given my generous thanks for the courtesy extended to the manager of this campaign and for the magnificent increase in the circulation of The Plymouth Advertiser and a very large percentage of the credit which I will receive, I really owe to you. I am not unmindful or unappreciative of what you have done or the value of assistance and in publicly thanking others I make my greatest obsequence to you.

The only unhappy thought connected with the entire campaign is the fact all could not win prizes. Working with you for the past seven weeks has been a distinct pleasure. I have been connected with many campaigns and naturally come in contact with hundreds of people, but during my work in Plymouth I have been privi-

leged to meet the finest people in the land, and close my associations with you with deepest regret. I most certainly wish for every worker in the campaign just closed the best things of all things in life.

Yours very truly,
IVA B. SHAW

REPTILE WITH 14 RATTLES KILLED NEAR CATAWBA

CATAWBA ISLAND—A rattlesnake measuring five feet, eight inches and having 14 rattles was killed by Kenneth Meachem when it crawled under his Sinclair Oil truck when he stopped the truck on the Chapel road near the Leon Newton home.

The snake is said to be the largest rattler killed in this locality in years. Meachem, whose attention was called to the snake by a small boy, Albert Marshall, grasped a hoe and beheaded it before it had a chance to coil.

THE BAND CONCERT

While other towns within the trading area of Plymouth are forging ahead, Plymouth is having a little difficulty in keeping the spirit of brotherly love and progress, for which the old town has been noted for years. Just what has come over the town to cause this feeling of indifference is hardly understandable, for the community is as prosperous as ever, and there is just as much opportunity. We are afraid that the merchant who kicks about a contribution to the band or any other good cause has overlooked the fact that he is probably at error when he says something not nice about our town.

The fund for the band concert, after much coaxing, has gone over the top, and we know that the community for miles around will enjoy this feature of entertainment through the summer. Now, Mr. Merchant, it is up to you.

Your argument is: The auto and good roads take away the trade, and the chain stores cut in on your volume. Have you, as a merchant, ever employed the same methods of efficiency and salesmanship at other stores in your community?

Do you merchants ever think of organizing and pushing together, and keeping the interest and good will of the buying public within your power? If you haven't, why not?

Brush up your dirty show cases, rearrange your stock, mark down those items unsalable, and clean up your shelves. And get a little push behind your organization. Half the stores in Plymouth do not have a proper name sign on them. They're living through mere reputation of some former merchant who probably enjoyed a good trade because he was a local resident for forty years. But times have changed.

Now, Mr. Merchant. Don't feel insignificant. Your business is as good as you make it, and don't forget that it can be greatly improved, so let's start when the band starts.

BOSTONIAN'S IDEA OF WHAT A SMALL OHIO TOWN PAPER IS

The American Government is not providing adequate defence for its border states. We are open to daily attack by Canadians and Indians. Road construction should be urged, and forts put up for we farmers deserve a square deal as much as do the Easterners. We send our representatives to Washington to speak up for us and yet there's nothing done. Come in to the Editor's desk in the back of Eli Jones' blacksmith shop and suggest your idea of the situation.

THEATRE NOTES

The Golden Eagle Co., has put up a big tent in Sam Brown's vacant field, and "Uncle Tom's Cabin" is going to be put on the stage tonight and tomorrow night at 7 o'clock sharp. This new play is very interesting and you can get in for 10c and 15c. There is plenty of hitching rail along in front of the general store and blacksmith forge so drive your wagons right in.

PERSONAL ITEMS

Mrs. Davy Smicker wore a new orange colored percale to meeting last Sunday and was the envy of the crowd. Her yellow bonnet with its red silk ties was sent out from Marietta last month.

Dory Crutcher and Sammy Pebbles drove in to meeting last week and some says they're ready to tie up. She wore gloves, and had a pink stone bracelet on.

Isaac McGintir shot the end of his little finger off yesterday when he thought his wife who was picking blackberries in the woods, was a bear. She had on a black dress and shawl and he can't see very good.

ANOTHER SACRIFICE

Another life has been sacrificed at the grade crossing of the Baltimore and Ohio railroad, crossing south of Newman's Corners. If the State Highway Department, railroad officials, County and township commissioners would meet at the crossing and look over the situation we believe that their hesitancy would result in the moving of the two large embankments on the east side of the road.

It is true that the young man knew the crossing was there. But have you ever gone through a red light thoughtlessly? Yes, And it might have been so with the crash victim. Three seconds of thoughtlessness means a whole lot at a grade crossing. Especially when a huge train traveling a mile a minute crowds down on you.

Several narrow escapes were told Sunday afternoon by people who use the crossing almost daily, and one man even stated that he had offered his services and a team to help remove the embankment. The people who live along the road realize its danger, they're cautious, but someday, another sacrifice will be told.

Why not lay prejudice and responsibility aside and remove an obstruction at a grade crossing that will in all probability cost the life of another motorist?

LET'S KEEP IT UP

After the drive on the "one-eyed auto," is over, there is just one more menace to the highway that should be looked after and that is the "no tail light driver." If you are observant you can take a little drive any evening and count several cars within a distance of a few miles without a tail light.

We think that the State of Ohio with all its truck and bus travel should investigate a proper light for the rear end of these vehicles in order that they might be distinguished from the regular motor car. How can a motorist, traveling forty-five miles per hour, tell whether or not the red light in front of him is showing ten miles or forty miles per hour. But, if there is a correct red light for a truck, this vehicle could easily be distinguished, and some guess as to its speed could be ascertained.

And the farmer who drives a team at night should also be reminded that in this day and age it is a dangerous risk. Within the past month we know of two narrow escapes which were caused by two thoughtless farmers driving along after good dark with no light. It is a needless risk on the farmer's part; and to those who would value their lives and the lives of their fellow man, they should always play safety first and carry a red lantern when they think they'll be getting home late.

E. F. WHARTON IS TAKEN BY DEATH

B. F. Wharton, well known and a life long resident of Richland county, died at his home near Shenandoah, Saturday night at 11:30 o'clock following a lingering illness. He was 78 years old.

Mr. Wharton is survived by six daughters, Mrs. Hattie Fike and Mrs. W. H. Fisher of Ashland; Mrs. L. E. Gettleman, Mrs. A. H. Glenn, and Mrs. Charles Kirkwood of Shenandoah; Mrs. M. C. Lasell, of Aberdeen, N. D. Fifteen grandchildren and three great grandchildren.

The funeral was held Tuesday afternoon at the Christian church in Shenandoah, of which Mr. Wharton was a member.

SIXTY BIRTHS IN RICHLAND

Sixty children were born in Richland county during the month of May, according to reports from the county health department at Mansfield. Baby boys for the month numbered 33 while there were 27 girls. Only five of the children were not named at birth and these parents were urged to name their children at once and notify the department in order that records may be completed.

Short names seem to predominate at present and those most preferable are such names as "Ann" and "Mae" among the most popular among the girls.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercises and diet habits should be encouraged. But when necessary there's no harm in taking a nap, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when naps should always be taken. Take a spoonful every night for a few days. It's thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Naps are different from any other substance. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every girl has this remarkable substance. Get the genuine.

100 RANCH TO BE AT BUCYRUS

The only big show left which features a street parade in the forenoon of the day of exhibition, Miller Brothers' 101 Ranch Real Wild West is coming, under the personal direction of Colonel Zack Miller, to Bucyrus, Friday, June 28th, sponsored by the Amulmer Park Association, at the Wentz lot on Hooper Ave., for two performances, at 2 and 8 p. m. In heading this way, the show has only a short railroad jump, and the management promises that nothing will be in the way of the parade which is always one of the great local attractions, when this big show exhibits in this part of the country.

The new 101 Ranch street parade, positively the largest in the world, with all its color, its picturesque horsemen, its tabernacle wagons and floats, its bands, elephants, camels, buffalo, longhorns, covered wagons, Indians, cowboys and cowgirls, calliope and mounted soldiery of all nations will leave the lot in our neighborhood city at 10:30 a. m. on exhibition day and will proceed themselves to the populace, a glorious spectacle of the Wild West in the eighties in its two mile long splendor, will be one of the events in outdoor entertainment of the year.

One of the big areas with its opera chair grandstands seating 12,500 people, will be presented not only the biggest and wildest Wild West Show ever seen, but also a regular circus performance, which will thrill the circus fans with its feats of daring and glamour.

Many famous fighting Indian chiefs and braves will ride in the dazzling "march past," the hundreds of cowboys and cowgirls will be decked out in their best, the 1,100 people with the show will present themselves to the populace, a glorious spectacle of the Wild West in the eighties in its two mile long splendor, will be one of the events in outdoor entertainment of the year.

Messrs. Roy Scott, Albert Marvin and Walter Dawson formed a congenial motor party to Cleveland Sunday afternoon, for an interesting game between Philadelphia and Cleveland.

But if he stammers?

THESE TWO BOYS want to succeed in life—as does your son. But if one stammers, he faces a life of misery from his school-mates, his associates in business—if he ever gets a job—to the time he wants to marry.

No one who himself has not been a stammerer can appreciate half of the misery that life holds for one who has difficulty in speaking easily.

But Benjamin Bogue knows. He was a stammerer for nearly twenty years!

Then he cured himself after trying many so-called cures. He is now one of the leading young business men of Indianapolis. And he is ready to help you, or any of your friends or relatives who are afflicted with the curse of stammering.

Children do not outgrow stammering. Sometimes there is a temporary lapse in the trouble which gives renewed hope that the curse has been

lifted. But it returns with redoubled severity. Stammering can be outgrown in only about one case out of 500.

But most cases can be cured, especially if taken before maturity. Mr. Bogue has proved his methods, first upon himself, then upon thousands of men and women all over the world.

The story of how he struggled to find work, to cure himself and how others can be cured is told in a fascinating book of 288 pages. He will send this to you for ten cents each copy postage. It may open a door of wonderful hope. Write for it tonight.
