ALL BIDS FOR CONSTRUCTION OF WATER MAIN TURNED DOWN

After the opening of four bids submitted to the Board of Public Affairs for the construction of a water line, it was decided by members of the Board to reject all bids because of the fact that none of the four bidders were within the estimated cost of the improvement.

The water line, as proposed by the Board of Public Affairs, is to be constructed from the main line on Plymouth street, near the present water tower, to the plant of the Fate-Root-Heath Co. The distance is approximately 1200 feet, and the consulting engineer had drawn up plans calling for cast iron pipe to be placed at a depth below freezing line. The entire project was estimated at \$2500 or a fraction over two dollars per foot.

At the meeting of the Board held Monday night, Clerk J. H. Rhine stated that four bids had been received. The Board opened the bids at 7:30 p. m., and found the following quotations: Richards Construction Co., of Willard, Ohio, submitted a bid of \$3,040.00 for cast iron pipe, and a bid on cement pipe of \$2,435.00.

R. O. Darling & Son, Mansfield, placed a bid of \$2,865.00 for cast iron pipe, and \$2,607.00 for asbestos cement pipe.

Mike Fatol, Cleveland, submitted a bid of \$2,628.12.

G. H. Leech Co., DeGraff, Ohio, made a bid of \$2,330.00 for cement pipe.

After discussing the bids it was decided by the Board that all of them were too high in accordance with the estimate which had been made by the consulting engineer, and therefore rejected all bids.

"Well," said the patient, "what am I to tell my wife?"

The doctor thought for a few minutes, then said: "Tell her you are suffering from syncope." "What is syncope?" asked his wife.

"I don't know," said the husband, "but that's what he said." "When her husband had gone out the wife looked up the word in the dictionary, and found that it meant: "Irregular movement from bar to bar."

Not knowing what a "palm" was, Donald Paul proceeded to say he made them up, and if we wished he would say it. Here it is: "Fuzzy Wuzzy was a bear, Fuzzy Wuzzy had no hair." He didn't say whether Fuzzy Wuzzy had been playing with the Bulls on Wall Street, and lost his hair, or whether it was a new deal regulation or if it was just a case of being moth-eaten. Anyhow, that's his story, and he sticks to it.

WENDELL WILLKIE PRACTICAL FARMER

Republican Nominee for President Raises Hogs and Feeder Steers in Indiana.

By WHEELER McMILLIN,
Editor-in-Chief, Farm Journal and
Farmer's Wife

During the past two months, national interest has focused on five farms lying in a three-mile semi-circle just south of Rushville, Indiana, typical of thousands of corn-belt farms. Living on and working them are five shrewd Indiana farmers, German and Scotch-Irish extraction. They were purchased, individually, by Wendell Willkie, but only after careful inspection by Mr. Willkie and analysis of the soils by agricultural scientists.

The farms were purchased by Mr. Willkie with his savings long before he had any notion of entering national politics. They are operated on a self-maintenance pattern with hogs and feeder steers as the principal sources of revenue. Mr. Willkie and the five tenant-managers share profits on a 50-50 basis. Each farm has made a profit since Mr. Willkie took it over.

The names of the tenants who share partnership with Mr. Willkie are Joseph Kramer, Jesse Bell, Louis Berkemeier, Charles Brown and Harold Moore. All of the farms are signed up with AAA. Miss Mary Sleeth, of Rushville, an old friend of Mrs. Willkie, acts as a sort of local overseer for the farms. She also looks after one of her own.

No Show Places Here

None of the farms is a show place or "fancy" in any respect. Soon after purchasing each place, Mr. Willkie directed that the houses be put in good repair and well painted. Kitchens were modernized and electricity brought in from the local REA lines. The barns and other business buildings were put in order. Each farm has its own vegetable garden, chicken yard and fruit orchard.

Typical of the Willkie system of farming is the Louis Berkemeier place, 368 acres of woodlot and pasture running along Mud Creek, and purchased by the candidate in 1934. This summer it grew 10 acres of barley, 85 acres of corn and 60 acres of wheat to support its 80 Herefords and 200 hogs.

Farmers' Welfare First

The Kramer place, a mile and a half up the road from the Berkemeier's, has a flock of 50 sheep. They are not only a source of cash income. They free Joe Kramer from the task of keeping fence lines cleaned, and furnish Christine Kramer with a source of material for

the blankets and carpets she has woven during the past three years.

Wendell Willkie's idea seems to be that the farmer who makes the best living as well as the surest profit is the farmer with a low overhead. By this, he does not believe that wages should be paid to 1800 levels nor that farmers should starve their families and themselves in order to build up a bank account. To the contrary, he insists that the operator's own bodily welfare come before other considerations. The trim homes, vegetable gardens, fruit trees and chicken yards on each Willkie farm are proof to that end.

He does vigorously oppose the farm practice of selling on a wholesale market and buying extensively on a retail market, especially when it comes to the matter of materials that can be grown at home. That belief shakes down to the rule that lies behind the success of the five farms—a balanced ratio of live-stock and home-grown feed.

The whole plan for operation of the farms seems to be characteristic of their owner. Generous consideration for the fact that his associates in their management are entitled to live well was one of his first thoughts. He laid down the basic principles of operation—selecting those successful farmers had found to be profitable—and then

trusted the men he had selected to carry the program out day by day.

Encourages 4-H Clubs

Not the least of Mr. Willkie's interests as he goes around the farms on his frequent visits are the children of his farm partners. He encourages them to have animals of their own and is a hearty supporter of 4-H club activities.

"Faith in farm land as a sound business investment," according to Miss Sleeth, is apparently the real reason Wendell Willkie invested his savings in Indiana farms; that, and a desire to keep his roots in the soil. Mr. Willkie also wanted his son, Philip, a Princeton student, to have the experience of actual farm work.

"Mr. Willkie," explains Louis Berkemeier, "says we can have just as many steers and hogs as we please so long as we grow enough stuff right here on the place to feed them the year 'round. He says that's the way to make money in farming . . . grow as much stuff as the land will stand without running away and then sell what you can't use yourself. Well, sir, you know that was right down our road. That's the way I was brought up and it's never been known to fail as long as a man takes proper care of his land. That's why we've made a profit out here for the last six years."

WENDELL WILLKIE
Says:

"I believe that the Federal government has a responsibility to equalize the lot of the farmer with

An Even Balance

that of the manufacturer. If this cannot be done by parity prices, other means must be found—with the least possible regimentation of the farmer's affairs."

Would Not Pay for New Deal

In the calendar year 1938 the total income of all persons receiving \$5,000 and over was \$6,828,000,000. If all such income had been confiscated, it would have failed by one billion dollars to pay the Federal expenditures of 1938. It would not be sufficient by \$2,600,000,000 to pay the Federal expenditures of 1939.

Did Not Work

That New Deal reciprocal trade agreements did not attract buyers is shown by the purchase, by countries with which these agreements were made, of meat products to the value of 17,644,000 pounds in 1935, before the agreements were made, and only 13,175,000 pounds in 1936, when all agreements were in effect.

1500 EXPECTED AT BIRD TRIAL

TRI-COUNTY BIRD DOG CLUB PROMOTING BIRD TRIAL ON SEPT. 28-29.

The Tri-county Bird Dog Club, whose membership is comprised of bird dog lovers in Huron, Erie, and Sandusky counties, is promoting the first fall trial on Sept. 28-29. The Tri-county club was organized one year ago and after a modest beginning it has come to be regarded as one of the most active dog clubs in Ohio.

The trial grounds for the fall program is situated between Norwalk and Monroeville on the Art Henry farm. The grounds may be reached by turning north from Route 20 at the Halfway Road. A sweeping grain field flanked on the western end by the Powley woodlot and clover field provides a most ideal setting in which to see the pointer and setter stylist vie for the cash purses and beautiful trophies provided by the club. Lunches will be served on the grounds at moderate cost by a local church organization, throughout both days.

Twenty saddle horses, safe for riding, will be provided by a Sandusky riding stable and may be rented for a reasonable price. Headquarters for the trial will be the Avalon hotel at Norwalk, and drawings for the various stakes will take place at 9 a. m. on Friday and Saturday evenings. The public is invited to these drawings so that they may meet the celebrities of the bird dog world.

Arrangements are being made to take care of fifteen hundred people. The club extends every one a hearty invitation. It is free, so be there and have a good time.

LOCAL FARMERS SEEKING LOANS

79 LOANS ON 1940 WHEAT HAVE ALREADY BEEN GRANTED.

With the deadline for wheat loans more than three months away, the Huron county AAA office announced today that already 79 loans on 1940 wheat, amounting to \$25,039.64 have been made to local farmers under the AAA wheat loan program.

In 1939 only 62 loans, totalling \$16,875.97 and covering 23,141.80 bushels were made to local farmers. Loans to date show an increase of 17 over those made last year.

Robert H. Finlay, chairman of the committee, said that the rush for wheat loans is indicative of the success of the wheat loan program last year when many local farmers paid off their loans and sold their wheat at more than a dollar a bushel. "This was considerably higher," he said, "than the market price of 63 cents a bushel they would have received at harvest time if they had sold their wheat."

Loans are made at the rate of 75 cents a bushel for No. 1 wheat and 74 cents a bushel for No. 2 wheat, to farmers who secured within their 1940 wheat acreage allotment.

The wheat loan program this year has been simplified considerably, the chairman explained. All the farmer must do, if he is eligible to secure a warehouse

loan, is to ship the wheat to an approved warehouse, obtain the warehouse receipt and return it to the AAA office where loan documents will be made. On the same day, the farmer can take the loan papers to any one of the cooperating local banks and the money will be paid out immediately.

Loans are also available to farmers who wish to store their wheat on their farms.

Farmers in Huron county have expressed complete satisfaction with the AAA wheat loan program, chairman Finlay stated. Wheat loans give them an opportunity to hold their wheat from the market at harvest time when the price is the lowest and sell it at a time when the price is more favorable, he declared.

Wheat loans will be accepted until December 31, the deadline.

THE POCKETBOOK OF KNOWLEDGE

A LETTER TO MAYOR JOHNS

Dear Bill:

This little note is not one of criticism, but more of a reminder that the boys around the Square would like to have the front yard kept a little cleaner.

Sunday morning the Public Square looked as though it had been a picnic ground for a bunch of Democrats. I don't recall seeing it flushed this summer, but you know a little water is good for anything now and then.

And some months ago you and the boys had a real nice street improvement planned. But, I suppose you want to make a good financial showing at the end of the year. Don't forget, though, that the budget commission at Mansfield and Norwalk will look over the town's balance sheet, and if they see a "left-over" in the gasoline tax or street improvement funds, they'll cut the amount of the 1941 budget DOWN! So you see if we in Plymouth don't spend it, the other towns will, and we'll be left holding the bag.

Incidentally as there was a ball on Sept. 1, around \$1700 it's going to rush the street department to cut this down to "nuttin'". And, if you think I'm joking about these budget commissions—Well, wait until Plymouth has been "passed up" by both Richmond and Huron counties so long, until the office-holders and politicians think we're a suburb of New Haven. Consequently neither one of the counties think we have any operating expense here.

Some thirty-odd years ago, I am told that Plymouth township built some pretty expensive roads, and you know a few years ago the state and counties took over the road system, but they didn't take over the indebtedness. However, in a year or so the township will have cleaned up all of its road bonds, and then Plymouth will stand a chance of getting a little more money. At least that's what I've been told on one of my visits to Mansfield. You might get it if you go down to Mansfield and "lay around like what Grant did to Richmond." Yeah, I've even been told by those men that dish out the money that "the towns that hallow the loudest get the most consideration." And

from the way Plymouth has been treated, we could certainly scream!

You know, Bill, while I'm writing this I may as well get it all said at once. First, there's the dust bowl situation that has prevailed over these few acres this summer. Really, the women are not thinking very much of those poor westerners since the wind blows around here. The cost of a little oil or calcium chloride wouldn't deplete the street fund. Of course, summer's about over now, and it would be throwing money away to lay the dust.

I've preached civic pride until I'm blue in the face, and what do I get? Well, a lot of my good friends say I'm plain "nerdy." I suppose they're right. But between choking and being "shook" by death, who wouldn't go crazy? I'm speaking about the roads that lead to our only industry. When the "forty-niners" crossed the western country they didn't have any rougher going than a 1940 motorist would have today on Bell and High streets. And you know it must be tough! That brings in the civic pride. Some months there are as high as 200 visitors at the local plant, and imagine what an impression they get of the town and its officials.

Now, of course, there are only a few weeks before winter sets in. It may be that the amount of \$1700 will be for snow removal, but there's going to be additional operating revenue coming in after January (we hope) and after all, most of our money comes in January and the early months of the year. So that leaves the way open for a little street repair work without endangering the future.

The new "No Parking" signs recently placed around the Square have become a little loose. Someone is taking a delight in turning them so that the pedestrians only are able to read them instead of the motorists. A little glue on the bottom of the posts will no doubt hold them in place. Well, I think we all agree that you've done a fine job since the war comes in January. But you know it is. No matter what you do or don't do, there is always some one to "crab about it." So don't take this too seriously.

Yours until the ship disappear, Phineas Whittesseed.

FAIRFIELD TWP SCHOOL NEWS

FOOTBALL

The Fairfield Indians made a better showing Friday against their Shiloh opponents than the week before against the Huron Six. They lost to Shiloh by a score of 24 to 13. A belated rally came in the latter part of the game. Many of the Plymouth players and Coach Dunham were present to get our boys' plays. The game at Plymouth this Friday should be a good one. Our boys will have learned their plays better and Plymouth will be confident that they know all of their plays. The rivalry between the two schools seems to be gaining momentum as the season grows older. Don't forget the game at Plymouth, Friday, Sept. 27. It promises to be a good one.

PUBLIC LIBRARY

The local Public Library board has been advised that for the want of funds, the service may have to be discontinued. In order to counteract this threat, the board has decided to have a white elephant and produce sale during the community fair. The time of the sale has been set at 2 p. m. Saturday, Oct. 5, at the school building. Those having anything to donate please notify Mrs. Edith Harvey, Mrs. Josie Cole or J. C. Murlin.

PHILGAS INSTALLED

Hankamer and Holden, dealers for Philgas in the locality were granted the right to install Philgas in the high school laboratory. This will make the laboratory a rather complete one for a small school. Heretofore, the students had to rely on alcohol torches, which were very unsatisfactory.

Installation has been started and will be completed the latter part of the week. Six special Duncan burners comprise the heating units. J. B. Wilder and J. C. Murlin are the instructors in this branch of high school work.

COMMUNITY FAIR

Large signs on each of the highways leading into the village of North Fairfield have been erected to interest the public in the Community Fair to be held Oct. 3, 4 and 5th. The programs will consist of "Grange night, School night and Alumni night. The school program will be an operetta and a spelling contest. The spelling contestants will be pupils of the 5th, 6th, 7th and 8th grades from the Greenfield, Bronson-Norwalk and Fairfield schools. There will be four separate contests. Lloyd Parrott of East Cleveland will give an illustrated lecture of his experiences as a Naturalist-Ranger at Yosemite National park.

Speaking of Astrology, and I know most of you hear and read the word with your tongues in your cheeks, I received a letter last week from the young man who conducted the column on Astrology in the Advertiser several months ago, and I think his viewpoint is interesting.

Yet for all that, astrology is attaining wonderful publicity. Hitler's reliance on astro-counsel, for instance. The blatantly objective statesman of the world should be forced to perceive the value of this science. If a European man uses it to obtain advantages over self-fied "enemy" powers, then the latter, from a practical perspective at least, are justified in using it to protect themselves or to try to stem the hordes of barbarians which now threaten every rampart in the world."

Not to frighten anyone, but in line with the above subject, I came across this rather startling paragraph in an astrological forecast the other day—

"The Full Moon of May 11th occurs at 12:15 A. M. in 20 degrees, two minutes Scorpio, in opposition to a concentration of force in the latter degrees of Taurus that is more powerful than any similar condition that has occurred during the lifetime of any one now living. It threatens the termination of almost everything that has ever been, by way of world organization, and makes way for the building of a social, economic and financial structure on entirely new lines. Just as May, 1940, brought the European war out into the open, as had been freely predicted, so May of 1941 will bring further rude awakenings, and more than ever before, the fate of the world and of modern civilization will hang in the balance."

Sounds like the end of the world, doesn't it? And it reminds me of a time, five or six years ago, when a certain religious crowd spread the news that the "end of the world" was eminent. It so happened that I had access to a party-line telephone, and in dialing a number one day, overheard two women talking. I should have hung up, but—they were discussing the end of the world.

"Yes," said one of them, "isn't

it terrible? They actually say the end of the world will come this fall!" "Mercy!" said the other, in a tremulous voice. "I don't think I'll buy any new living room curtains then. If the end of the world is coming, it would be just a waste of money!"

What young man at the company missed out on a visiting celebrity who stopped in Plymouth especially to see him, merely because he (the young man) had chosen an unthought-of-place to take a nap, and no one could find him?

Dewey Reynolds has a marvelous sense of self-control and a deep regard for the "ther fellow's" feelings. He was talking to Stanley Shaver the other day, and Stanley leaned "way back in his swivel chair. The chair scotched out from under him, and he landed moaning on the floor. Dewey leaned over, the better to see him and kept right on talking without utter a change of facial expression.

Our Silver King Bowling team is going right to town. On September 17, they won two games out of three, playing what they term as one of the "toughest team in the league," Joe Miller's—which was formerly known as the East Side Night Club team, with an average of 808.

There is also a substitution on the Silver King Bowling team. Howard Biller is playing instead of Mr. Carter, and Mr. Carter says he will bowl with the drafted room boys who have organized their own group and will bowl in Shelby.

What's this we hear about a beauty queen contest sponsored by the Fate-Root-Henth Co. during Plymouth's fall festival. We understand its purpose is to elect a Silver Queen for our Silver King.

Has Frank Weck or Lloyd Lipus said anything about that trip to Boston?

Miss Florence Willett of Canton entertained Mrs. Mary Fleck at a six o'clock dinner at the "Joy" tea room in Shelby Saturday evening.

NORWALK TO HAVE CONCERT SERIES

Citizens of Plymouth have an unusual cultural opportunity this year in being asked to join the Norwalk Cooperative music association. Three concerts by outstanding artists of the Columbia Broadcasting system will be presented in the Norwalk High school auditorium during the winter months. The dues for membership, which are \$3.50 for adults and \$1.50 for students, entitle the subscriber to attend concerts not only in Norwalk, but also in Fremont, Wooster, and Fostoria, where membership cards will be honored.

The series at Wooster, which has already been arranged, will feature Lansing Hatfield, popular C. B. S. baritone on November 4; Mildred Dilling, harpist, on Jan. 8, and March 10 Vronsky and Babin, duo pianists. The membership ticket, thus, entitles the holder to twelve concerts in nearby cities. The other concert dates will be arranged in the near future and made public.

Local members of the concert association who have memberships available are Rev. R. C. Wolf, Byron Griest and Sherman Moist. Anyone who is interested in joining is urged to get in before Saturday of this week, at which time no more memberships will be sold.

FALL HUNTING BEGINS IN OHIO

Fall hunting began in Ohio yesterday, Sept. 25, when squirrel season opened.

Squirrel season is the first call to arms for Ohio's hunters. It extends until October 10. Limit is four a day with eight in possession after the first day.

Duck season begins October 16 to December 14, when ducks, geese, coot and jacksnipe may be hunted. Shooting starts at sunrise and continues until 4 p. m. This is a change from last year when shooting was not permitted before 7 a. m. Jacksnipe may be hunted from sunrise to sunset.

There is a bag limit on ducks of 10 per day. The possession limit is two days' bag. Under the new ruling, however, the hunter may have in his possession the legal limit for 20 days after the season closes. Last year, only 10 day's legal limit was permitted. On November 15 the season on rabbits, pheasants, Hungarian partridges, raccoon and grouse begins.

For the three game birds the season runs through November 30. Rabbit season stays open until January 1 and the raccoon season ends January 15 in 22 counties and from October 1 to February 15 in Jefferson county, but in the other 58 counties the season is open throughout the year.

Gray fox may be taken throughout the year in any part of the state. There is no bag limit on foxes.

NEW CHURCH AT PERU VILLAGE

The Rev. Stanley C. Stall, minister of the Norwalk Universalist church, announces the opening of a new church in the village of Peru last Sunday.

The new church will be called the Peru Universalist Community church. Mr. Stall says "It will be our ambition to develop a church family where all who wish may come and worship, regardless of any former affiliation or of none; where your principal obligation will consist of attendance at services; where lack of money will be no hindrance—other than free will offerings, there will be no financial obligation on the part of the people."

For several years there has been no Sunday school or church in the village although three different denominations have buildings here. Mr. Stall says that he hopes to interest all of the people in forming a real Community Church.

PUPILS MUST SALUTE AMERICAN FLAG, SAYS ATTORNEY GENERAL

Saluting the American Flag is not "bowing down to a graven image" in the opinion of Attorney General Thomas J. Herbert. He declared this week in a letter to William J. Schnell, 225 W. Boardman St., Youngstown, "Zoneservant" of Jehovah's Witnesses.

Mr. Herbert said it was his opinion that the school board of Liberty township centralized school were within their rights when they expelled 10 children who refused to salute the flag if the board had adopted a proper rule requiring the salute. Mr. Herbert cited an opinion rendered by the office in 1935 and a Supreme Court decision both holding schools could require students to salute the flag.

"The greater difficulty, as I see it, in the path of those of your belief, is that you are following a man-made interpretation of that portion of what you quote as 'God's law,' wrote Mr. Herbert. Mr. Herbert said he agreed that God's law is the supreme command of the universe and took precedence over mere man-made statutes.

"No one other than your group looks upon a flag salute as bearing in any way on religion but merely a symbol of allegiance to the civil law which you state Jehovah's witnesses attempt to render," Mr. Herbert pointed out.

"The flag itself is certainly not a graven image of anything in the heavens above or on the earth beneath or under ether in the water. Nor by the same token does

AMERICAN BOY Is Companion To Thousands

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our school basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every basketball player, from a famous coach or player, football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys' clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 25c a copy. Subscription prices are \$2.00 for one year or \$3.50 for three years. Foreign and Canadian rates \$5 a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich.

CALL TO PRAYER

A call to prayer for England and her people has gone up over the United States, for next Sunday, September 29th. The call is made by the leaders of churches of all denominations "moved by the intense suffering and danger of the British people, to whom we are bound by many deep spiritualities,—by the heritage of a common ideal of democracy and freedom and a common struggle to achieve it."

All peoples, Gentiles and Jews, alike, will devoutly respond with an abiding faith that God's will may prevail.

PRIMITIVE METHODS Need Not Be Followed in Advertising

A salute to the flag necessitate or imply any bowing down. In fact, the American flag salute calls for standing erect and looking squarely at the flag. Therefore, I am unable to follow the reasoning by which your leaders arrive at such an interpretation.

The most regrettable phase of your problem, as I see it, is that you yourselves are teaching innocent children an interpretation which has no divine origin but merely emanates from your own leaders.

"I regret that you and your fellow believers are so blindly following the interpretation given by your leaders to the language quoted in your letter, an interpretation which seems very much distorted and exaggerated to most of us, and I am writing this lengthy reply only in the hope that you will at least recognize our thought in saluting a flag, we are merely re-affirming our recognition of the very form of human government which guarantees to each and all of us the right of worship God in our own individual way," Mr. Herbert said.

"No one other than your group looks upon a flag salute as bearing in any way on religion but merely a symbol of allegiance to the civil law which you state Jehovah's witnesses attempt to render," Mr. Herbert pointed out.

"The flag itself is certainly not a graven image of anything in the heavens above or on the earth beneath or under ether in the water. Nor by the same token does

PRICE IS RAISED ON BURIAL LOTS

Over Monroeville way, the price for burial lots have doubled for outsiders. Discovering that so many non-residents of Ridgefield township were finding it cheaper to bury their kin in Riverside cemetery, the township trustees have decided to double the purchase price from \$75 to \$150 for outsiders.

Previously non-residents paid only \$75 for the lot which entitled them to perpetual care and it gave them a decided advantage over residents who paid the same price, but have a small sum added onto their taxes each year to pay for the care of the cemetery. Residents will still pay the old price of \$75, trustees Alvin Fritz, Louis Meyer and Roman Meyer announced.

RULE'S
ON THE SQUARE

Appears in Cleveland

Tallulah Bankhead, glamorous daughter of the late Speaker William Bankhead, will be seen in Cleveland for the first time on Monday, Sept. 30, when she opens the city's engagement in the Lillian Hellman drama, "The Little Foxes," hailed by press and public throughout the country as one of the greatest plays of the generation.

As Regina Gliddens in "The Little Foxes," Miss Bankhead gives the outstanding performance of her meteoric career. As Life Magazine summed up:

"An astrologer told Tallulah Bankhead in 1923 to go to England. And since this glamorous, golden-haired daughter of a U. S. Congressman from Alabama acted five years on the New York stage with only indifferent success, she packed up her bags and went. In England she became overnight a phenomenal success. Her pathetic waitress in 'She Knew What She Wanted,' put all London at her feet. Plays like 'Her Cardboard Lover,' 'The Green Hat,' and 'Camille,' made her the rage of all Britain, in their eyes, America's greatest actress."

"But eight years ago Tallulah Bankhead became tired of England, packed her bags and came home. Two years in Hollywood made her unsatisfactory. A half-dozen plays in New York were more or less flops. Somehow it seemed impossible to find adequate parts for this strange electric woman with the languid eyes, the panther's step and the siren's husky voice."

"But now, in Lillian Hellman's 'The Little Foxes,' she fills for the first time, a role curved big and fierce enough for her talent. Against the cold, steely force of the year's strongest play, the glitter of her acting lights up a whole era of U. S. History."

The cast includes Frank Conroy, Charles Dingle, Carl Benton Reid, Marie Carroll, Lee Baker, Eugenia Rawls, Dan Duryea, Abbie Mitchell and John Marriott.

PROSPECTS GOOD FOR HUNTERS IN OHIO FOR BAGGING LIMITS

Hunting in Ohio will be better this fall than last year, Commissioner Don Waters of the State Division of Conservation and Natural Resources predicted today, basing his prediction on a favorable hatching season, increase in natural propagation areas and the larger amount of game released by the Division this year.

More than twice as many pheasants and a third more raccoon were released in Ohio this year than last. This is more pheasants and raccoons than were ever released before in the history of Ohio. Mr. Waters said. More than a fifth additional rabbits and pheasants were trapped on game refuges and released in open territory this year than last year.

Duck hunters and hunters in general were greatly aided by the leasing of the 11 new Muskingum Watershed lakes by the Conservation Division, on some of which hunting will be open to the public this fall.

"A great deal of credit for improvements in hunting conditions must go to local and state sportsmen's organizations," Mr. Waters said. These groups have been especially industrious this year in rearing and releasing pheasants and game, patch planting and improving cover. It would be almost impossible to measure the help they have given the Conservation Division in conserving and propagating wildlife in Ohio."

A comparison of game released in Ohio this year and last follows:

Pheasants	1939	1940
Raccoons	32,727	71,000
Rabbits trapped	1400	1900
Pheasants trapped	5485	6968
Raccoons	1400	1800
Grouse	None	6827
Rabbits	20,106	26,106

* Rabbit distribution for coming winter not yet determined.

The SNAPSHOT GUILD LANDSCAPE PICTURES

A good foreground, interesting material in the distance, and a filter to reduce haze and bring out the clouds—these are the secrets of interesting scenic shots for your album.

PICTURES of outdoor scenes form an important part of your album, and opportunities for these landscape pictures can be found wherever you go. However, to make the most of an outdoor scene, here are some points to keep in mind.

First, always include a foreground—especially when you shoot broad, open scenes. "Foreground" simply means something of interest near the camera. If you are on a hill, and want to picture the valley below, don't stand at the very edge of the hill. Back up a little way so that you can include a tree or a guard rail—or better still, a person admiring the scene.

Second, when you shoot distant scenes always use a color filter if it is the least bit of haze in the air. With the popular types of "chrome" and "pan" films, a yellow filter will show the scene just about as you see it; but without a filter, the distant parts may seem too hazy. For great clearness in distant scenes, use a deep yellow G filter; or use "pan" film and a red A filter.

Third, don't overlook pleasing nearby bits of landscape. The broad distant scene appeal to the

eye—but often small scenes make more attractive pictures. A curving brook, a little waterfall, a pasture corner formed by an interesting stone wall or rail fence—a turn in a country road with overhanging trees—all these can yield delightful pictures, when you choose your camera position with care.

"A camera position has a great deal to do with the success of your scenic shots. Note the picture above. The fisherman makes a good spot of interest in the foreground, the mountains lead interest in the distance, and a filter brought out the clouds. However, the picture would be still better if the camera had been held lower, and nearer the fisherman. That would narrow the strip of water, and bring the man's head higher in the picture space—thus breaking the straight, level water line in the distance.

Remember these points in shooting scenic pictures—a filter, a foreground, and a well-chosen camera position. Practice landscape shooting in the late summer and autumn months, and be ready for winter scenes later. Good scenic shots add value to your album—no matter what their season.

Fetters-Hockenberry Marriage Solemnized Saturday Afternoon

The marriage of Miss Dorothy Eleanor Fetters, daughter of Mr. and Mrs. Luther Fetters of Bell street, to Charles F. Hockenberry, Jr., son of Mr. and Mrs. Charles E. Hockenberry of Sandusky St., was solemnized Saturday afternoon at four o'clock in the First Presbyterian church, with Rev. James A. Thomas reading the single ring ceremony in the presence of 65 relatives and guests. The church was appropriately decorated with beautiful flowers in a color scheme of blue, green and white.

Preceding the ceremony a program of violin and piano selections was played by Mr. and Mrs. Francis Guthrie.

The bride chose a cameo blue velvet dress with wine colored accessories and wore a corsage of deep red roses. She was attended by Mrs. Donald Fetters, who wore a navy blue crepe with contrasting accessories. Her corsage was white gardenias.

Donald Fetters, brother of the bride, was best man.

Following the ceremony a reception was held in the church parlors.

Mrs. Donald Fetters, sister-in-law of the bride, and Mrs. Wilbur King, sister of the groom, presided at a beautifully appointed table, decorated with pink roses and smilax and white candles in crystal holders.

NEW QUOTA SET FOR WAR RELIEF

Those who have been following the activities in war-torn Europe can only imagine the dire need of helpless children, women and men, whose homes have been wrecked and are in need of medical attention.

It is with a deep thankfulness in our hearts that we send our children to school, without fear of bombing, feeling confident of their safe return, and it is with a deeper sense of responsibility that we are willing to share with those in need.

Each week a call has been sent out from the Richland county chapter of the American Red Cross for "knitters." A new quota for war relief is set up and a survey now going on to see what portion of this quota will be accepted by Plymouth community.

The quota for the county is as follows: 75 women's dresses; 150 women's skirts; 375 girls' dresses; 250 girls' skirts; 250 layettes; 120 boys' shorts; 60 boys' overalls 60 boys' shorts; 125 convalescent robes; 120 hospital pajamas; 100 men's sweaters; 100 women's sweaters; 600 children's sweaters; 50 shawls (crocheted); 50 mufflers and 60 pairs men's socks.

Of this amount the Girl Scouts of Mansfield accepted the entire quota of 250 girls' skirts; Shelby accepted the entire quota of 250 layettes and in addition will make 50 men's sweaters; 25 women's sweaters; (cardigans) and 100 children's sweaters, size 6.

The materials are furnished and garments cut and assembled; yarn will also be provided to those who will knit. To date, Plymouth has willingly accepted her portion and those who are willing to help in the greatest humanitarian work can get in touch with Mrs. John Fleming or by phoning 75 for Mrs. Pickens. Mrs. Pickens also states she is willing to teach those who wish to learn to knit.

Those in Plymouth who have been doing sewing since the last published list are Mrs. Sadie Paregory and Mrs. O. Lamoreaux; knitting by Mesdames John Root, Ann Bachrach, P. H. Root, J. A. Bachrach, Louise Miller, Alta Munn, Coats Brown, Ida Fleming, Arlene Schreck, Natelle Motley, Isabelle Cole and Misses Jessie and Margaret Cole.

Special mention is made of Mrs. Isabelle Cole, who has passed her eighty-fourth birthday and unable to see clearly, has completed two sweaters and a scarf. Recently she remarked about the different weight of yarn in the same garments. Others had not noticed it, but Mrs. Cole distinguished it by "the feel" in her fingers.

May the Red Cross count on YOUR help!

WEEK-END Specials

ARE YOU SEEING THINGS?

For several weeks now rumors have been current that Fifth Columnists have been at work and that "Old Glory" stickers commonly used on automobile windshields have been used to conceal "serpents" in the shading, representing folds of the flag flying in the breeze, and that the whole thing is a Communist or Nazi plot to discredit the flag.

A thorough investigation, however, has revealed the idea so fantastic as to be absolutely unbelievable and all Mobilgas dealers who gave away the stickers have so been notified.

A circular letter from Frank E. Samuel, National Adjutant of the American Legion, stated that it was a common practice for lithographers to indicate the depth of the waves of the American Flag by the use of gray streaks, both heavy and fine. This practice is followed in order to give a third dimension appearance. Furthermore, the practice seems to be followed for the purpose of giving effectiveness when the lithographic flag is viewed at a distance rather than at very close analytical inspection. Examination of a catalog put out by Ammin and Company—the largest flag makers in the country in 1930, disclose similar markings which were long before the so-called Fifth Column was heard of in any part of the world.

By stretching the imagination, various animals, letters and symbols can be visualized by the gray streaks placed there by the lithographing company for these purposes and are not attempting to convey some subtle, subversive message.
