

First-Aid to the Ailing House

by Lynn Chambers

FIRST-AID to the AILING HOUSE

By ROGER A. WHITMAN

Roger A. Whitman—WFO Feature.

CLOSET WITH DRY AIR AN OFF-SET TO MILDREW

ALL summer long come reports of dampness and mildewing in summer houses near the ocean or other large bodies of water. In humid and rainy periods the air of these houses is likely to be so damp that mold forms on clothing, and especially on shoes and other leather articles. One way to get around this is to utilize heat radiated by the kitchen chimney. This can be done by building closets around the chimney. The volume of heat thrown out by the chimney is not great, but it is continuous, and the air in these closets is dry enough to prevent mildewing. Another idea is to set an electric bulb on the floor of the closet and to burn it continuously. With the door shut, enough heat will be thrown out to keep the closet air dry. The bulb need not be large; 25 watts will have a decided effect. Care should be taken to keep anything burnable out of contact with the bulb. It should not lie on the floor, but be on a safe lamp base.

Septic Tank Drain

Question: All our drain pipes run into the septic tank. I recently heard that the kitchen sink drain should not be connected to the tank because of possible damage from soap per person, in addition to what you receive in your ration, so that you will have sugar for canning.

Answer: For best results the kitchen sink should be connected to a septic tank through a separate drainpipe provided with a grease-trap. This trap will separate the grease from the rest of the drainage and you will not need to use a drain cleaning compound. Also, the operation of the septic tank will be greatly improved. Any plumber can install a grease-trap.

Refinishing a Table

Question: Can I refinish a kitchen table top made of wood? The finish would have to be water resistant and not require frequent refinishing.

Answer: Refinishing with a quick-drying synthetic resin varnish is one method. Another is to apply several coats of boiled linseed oil. Allow each coat to soak in for an hour or two, then wipe off the surplus. After two or three coats applications and after the last drying begin polishing with a rough cloth, such as a piece of old carpet, wrapped around a brick. The more the surface is rubbed the better the finish will be.

Color for Walls

Question: We wish to paint the walls of our living-room, but can't decide on the right color. We have a plain rose broadloom rug, a soft green sofa and a large rose chair. Can you suggest a color for the walls?

Answer: My own preference for the walls would be of a very light shade of dusty rose, so pale that it is hardly noticeable. However, I suggest that you visit one of your large department stores to consult the interior decorator.

Stains on Copper

Question: In repairing a large copper window frame, muriatic acid was sprayed on its lower part. The result is a sprinkling of what looks like rust on the lower part of the frame. The acid has also stained a part of the slate roof. What will remove the stain?

Answer: Acid that remains in the copper and on the slate can be neutralized by washing with household ammonia. The stains can then be removed with fine steel wool or sandpaper.

Removing Asbestos Paper

Question: Several years ago the hot air pipes in our cellar were covered with asbestos paper. I find that this is a mistake, for the cellar is too cold and the floors above the cellar are also cold. How can the asbestos be removed?

Answer: The kind of paste usually used with asbestos paper can be softened by soaking with water. However, this will produce a mess on the paper so much that it will tear when being taken off.

Oak Chairs

Question: What would be the best way to finish some ordinary oak chairs from which the finish has already been removed?

Answer: If a light finish is desired, finish with two coats of quick-drying varnish. For darker effects, first stain the wood with an oil stain of a desired color. For best results follow the directions on the label. Finish with two coats of quick-drying varnish.

Burned Food

Question: How can burned food be removed from the bottom of an aluminum kettle?

Answer: A method that is strongly recommended is to cover the burned food with wet baking soda and allow it to remain overnight.

Magic for Your Meals—Berry Jams

(See Recipes Below.)

Time for Jam

With the arrival of the fruit and jelly season, you homemakers will want to make the most of these garden products for winter use. This year it is doubly important for you to can fruits and jellies wisely, as this will help you not only in conserving the nation's resources, but also assure you of delicious accompaniments to your meals during cool weather.

Since sugar is used in canning not only as a sweetener, but as a preservative, the government will allow five pounds of sugar per person, in addition to what you receive in your ration, so that you will have sugar for canning.

Answer: For best results the kitchen sink should be connected to a septic tank through a separate drainpipe provided with a grease-trap. This trap will separate the grease from the rest of the drainage and you will not need to use a drain cleaning compound. Also, the operation of the septic tank will be greatly improved. Any plumber can install a grease-trap.

LESSON

By HAROLD L. LINDQUIST, D. D.
Chaplain, Plymouth Church, Chicago
(Released by Western Newspaper Union.)

Lesson for June 28

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

ALCOHOL FACTS VERSUS DRINKING PROPAGANDA

LESSON TEXT—Proverbs 23:31-33; Isaiah 5:1-7; Hosea 4:11; Joel 3:2, 8; Ephesians 5:18.
GOLDEN TEXT—If sinners entice thee, consent thou not.—Proverbs 1:10.

The facts are on the side of the anti-liquor forces. The liquor traffic and they are so plentiful and so devastating that the industry does not care to face them. Their "best" bet is to use propaganda so that they are fully prepared as to disarm the reader. If the propaganda is truthful, it is only because it has to be, and only in that measure.

Our lesson suggests several points in the liquor propaganda, each of which we can prove to be untrue.

I. They Say, "Enjoy Life, That's What We Are Here For" (Prov. 23:31-33).

Consider the ads of the liquor trade. They carry the beautiful lady, the brilliant young man, the socially correct surroundings, riches, ease, etc. They suggest that even the grandmother in the home approves the use of intoxicants to bring comfort and pleasure to the breadwinner in the home.

What is the truth? Man is not here for pleasure; he is here to serve God. History demonstrates that the nation that lives for pleasure, especially in connection with the use of intoxicants, is doomed to extinction.

II. They Say, "Liquor Is Not Dangerous" (Prov. 23:32).

It is presented as a pleasant and harmless stimulant, when in fact it is known to science, to police and social welfare workers as a narcotic which not only upsets digestion and deranges physical processes but, most of all, "affects personality by its action upon the certain specific brain area. It disturbs, confuses, slows down, and removes the inhibitions of checks and balances which make a well-rounded personality. It is the highest functional level of the brain, the personality, that is first put into eclipse by the action of alcohol" (Carson Taylor).

III. They Say, "Those Who Oppose Liquor Are Fanatics" (Isa. 5:20, 21, 22).

The prophet answers that claim by pointing out that those who favor the use of alcohol are the ones who call evil good and good evil, etc. A little study of liquor propaganda as it appears in the advertising of the industry soon demonstrates that fact. Of late they have been trying to convince us that beer is just a soft drink for the home. Any policeman who has seen a man drunk on beer, and any social or religious worker who has seen the destruction it has wrought in the home and in society, knows that is not true.

IV. They Say, "Strong Men and Leaders Are Drinkers" (Isa. 5:22).

Sadly enough, many of our leading men do indulge in liquor, but if the truth were out, it would be known that they are less capable as leaders and weaker men for their use of it. And who has not seen a leader become a poor derelict by the alcohol route, or a strong man become a jittery mental, moral, and physical wreck in the same way.

The work of a nation in both war and peace is done by sober, steady, trustworthy men who have a "clear head," not because they use a certain whisky but because they do not use it.

V. They Say, "The Pleasure Is Worth the Price" (Hosea 4:11; Joel 3:2, 3).

The wicked ones who captured Israel felt they made a good trade when they gave a boy for a harlot, or exchanged a girl for wine. The modern system of making merchandise of boys and girls is not as open as it seems, but when you figure the cost of alcohol to our land, be sure to add in the girls who have gone into iniquity by the way of tavern hostesses and the boys who have lost everything sacred because of "boozing."

Remember too that the beer makers are not using this way to cultivate a taste for beer in millions of young men—their future customers—and we are letting them get at away with it right in the army camps.

VI. They Say, "Drinking and Religion Go Well Together" (Eph. 5:18). The words of Paul give us the clearest direct brand of falsehood. Being drunk with wine is the exact opposite of spirituality.

Liquor interests know that if church members can be led to believe that wine at dinner, beer as a soft drink—and an occasional social cocktail—is not incompatible with spirituality, they will have effectively shut the mouth of the opposition they fear the most—the church.

Let pastors and church boards be alert and drastically with drinking church members, and the church will profit spiritually, and again become an effective means of stemming the tide of social iniquity which is engulfing our nation.

NEW IDEAS for Home-makers

By RUTH WERTH SPARS

NOTE: If you have a metal bed that you would like to modernize you will find sketches and directions in Mrs. Spars' Book 4. There are eight of these booklets of 32 pages of things to make from odds and ends which accumulate around the house, or from inexpensive new materials. Copies are 10 cents each and with an order for three (No. 1 to 3) you will receive a set of three different quilt block patterns including the Ward Ward illustrated herewith. Send order to:

MRS. RUTH WERTH SPARS
Drawer 19

Bedford Hills New York

Enclose 10 cents for each book desired.

MOST quilts today are planned as bedspreads and have a color scheme to harmonize with other decorations.

If a variety of figured scraps is used one color is generally repeated in each block to give the design unity.

The beauty of any quilt is enhanced if it is set off with a valance around the bed. The bed in the sketch had no particular tradition and the footboard was much too high to display the quilt to advantage.

One famous food that hasn't gone up in price!

Order several packages today and enjoy the "SELF-STARTER BREAKFAST"!

A big bowl of Kellogg's Corn Flakes with some fruit and lots of milk. It gives you VITAMINS, MINERALS, PROTEIN, FIBER!

What's a musical comedy got to do with winning a war?

PLenty! We're building an army of men—not machines. And men have minds. And minds need freshening... change... relaxation.

So one of the biggest undertakings of the USO is its sponsoring of free entertainment, through the cooperation of the movie and theatrical industries, at army camps, navy bases—wherever the fighting men of the USA go to train or dig in.

USO Camp Shows, Inc. is actually the biggest single theatrical enterprise the world has ever seen. It looks 264 shows for the boys every week, which play to an average nightly attendance of 50,000.

It contacts movie stars, theatrical headliners, big name bands and their leaders. It routes all these... plans their itineraries... arranges the most convenient times when soldiers and the boys can take time out to sit and be entertained.

Perf. realize that the one great advantage of the American fighting man is his ability to think for himself, to make the most of any situation, to fight as a liberty-loving individual.

And this is one of his great differentiators from our enemy.

To help carry on the all-important work of maintaining the morale of our fighting forces, the USO needs your help... it needs your contribution.

Your dollar has many demands on it this year. Many of these demands must be met—others deserve to be met. And among these latter, the plea of the USO for whatever sum you can contribute toward your earnest contribution.

For we have a war to win, and the USO is directly concerned with the men who must—and will—win it.

Big Stars—for the men who are digging in!

Send your contribution to your local chairman or to USO, Empire State Building, New York.

If you know a Navy man, don't ever call him a "gob"—sailors consider the name an insult. You can get on the right side of him, though, if you offer him a Camel— or better yet, send him a carton. Camels are the favorite cigar with men in the Navy (Army, Marines, Coast Guard, too, for that matter) based on actual sales records from the service men's stores. Local dealers are featuring cartons of Camels to send to any member of our armed forces anywhere. Send him that Camel carton today.—Adv.

New Rubber From Old to Help Bridge Shortage

When you answer the nation's call for your scrap rubber, here is what becomes of it before it becomes reclaimed rubber, mixed with crude and served up to bridge the shortage. At left you see scrap rubber which has been ground, heated and mixed before being forced through a fine screen to remove dirt. The rubber comes out like spaghetti strings. At right is a pile of finely ground rubber scrap.

Building New Naval Base in South Pacific

A naval officer and a couple of chiefs stand in water above their waists (left) as they pick a site for scapline ramps at a new base upon an undisclosed island in the South Pacific. Right: The luxuriant fronds from the plentiful palm trees quickly, effectively and inexpensively camouflage the tents of the army, navy and marine units that occupy this South Pacific isle.

Part of New 'Toughening Course'

A seven-foot high collection of logs, sandbags and dirt, piled to a 45-degree angle, is really no obstacle to these boys at Selfridge Field as they go over the new 220-yard obstacle course, designed to toughen them up. At this side of the obstacle is a four-foot ditch filled with sand. There are hurdles, tunnels and jumps where a miss means a mud-bath.

Yanks in the Caribbean

This photo, from somewhere in the Caribbean area, shows U. S. troops in the course of their vigorous training for beach warfare, while becoming accustomed to the intense heat prevalent in these tropic outposts. A single fox hole is seen, well camouflaged.

TO YOUR Good Health

by DR. JAMES W. BARTON

Released by Western Newspaper Union.

A CAUSE OF GOITER

For years physicians have always looked for the "cause" of the severe form of goiter. Infection of teeth, gums, sinuses, and other parts were blamed. And if no cause could be found, it was said to be due to some cause unknown.

In a recent book, Dr. Leonardo C. Perrusi, Buenos Aires, points out that careful study of 24 selected cases of hyperthyroid goiter, he finds in each case some emotional disturbance to be the cause.

In one chapter he reports a case brought about by sudden fright. In another case, the cause was an inferiority complex and exaggerated ambitions. Another was due to a domestic or family problem that could not be solved. Intense or unbearable grief (clinical depression) was the cause in another case. Watching an unusually sentimental play in a theater was the cause of one case. The fear of venereal disease caused the thyroid condition in another case. Cases were due to (a) death of a relative and a situation of despondency and (b) prolonged sickness of the husband.

After analyzing the above and 15 other cases, Dr. Perrusi concludes that in almost all cases of severe goiter, the disease is produced by emotional disturbances which excite the thyroid gland to intense activity by way of the sympathetic nervous system. He does not think that infection or other factors cause many of the cases, as the majority of the cases that he has seen have occurred "in predisposed individuals as a result of emotional disturbances."

What are the predisposing factors in thyroid disease? Among the predisposing factors are inferiority complexes, lack of harmony or co-ordination of the various glands of the body, emotional disturbances, the geographic position of the country, the activity of the patient's life.

What is the treatment suggested by Dr. Perrusi? The usual treatment should be given, that is, rest, iodine, X-ray, or surgery, and in addition all patients should be psychoanalyzed to find out and remove the emotional factors responsible for the development of the disease.

Ulcerative Colitis Subject to Emotions

Some years ago it was found that many nervous and emotional individuals suffered with diarrhea for a time, followed by a period of constipation and then by diarrhea again. There was a constant "uneasiness" in the abdomen. The stools were often covered with mucus and the ailment was and is called mucous colitis.

With this mucous colitis some patients also had ulcer of the stomach and of the small intestine, which is often within an inch or fraction of an inch of the stomach. This is called peptic ulcer, and it is now known that both peptic ulcer and mucous colitis are due to the same conditions—nervousness and emotional disturbances. The treatment in both ailments is the same—eating bland non-irritating foods and trying to keep as calm as possible.

There is, however, a severe form of colitis also due to emotional disturbances, particularly anxiety—prolonged fear—has been the opinion of many physicians and a statement of two Mayo Clinic physicians, Drs. Charles J. Donald and Philip W. Brown, recently substantiates this.

In the American Journal of Digestive Diseases, these physicians state: "There is no question that the mental attitude of the patient may contribute to the onset of an attack of ulcerative colitis just as anxiety can aggravate the condition of patients who suffer from duodenal ulcer. Fear of food, fear of getting too far away from the toilet, and what is referred to as 'just fear' seem to add greatly to the problem in the case of these patients. Their chances for recovery depend upon good food. Protein is the most important article; chiefly red meats, liver, kidneys, sweetbreads, and lean pork in those that can tolerate pork as it is very rich in vitamin B-1."

QUESTION BOX

Q.—Please give me some information on trifacial neuralgia?

A.—Trifacial neuralgia in most cases can be relieved by use of alcohol injections which are effective for months or years. Where the injections fail to relieve, surgery is used.

Q.—What would cause my 15-year-old daughter's hair to turn gray?

A.—See your physician. It may be that there is a lack of vitamins or gland activity.

THINGS for You TO MAKE

A PATRIOTIC kitten is Tom, the tea towel cat. From Monday to Saturday he is a willing subject for illustrating six timely and clever captions, and on Sunday he dons his best cap and hangs out a V for victory. You'll adore Tom on your kitchen towel rack; a few quick stitches will put

him there. And he is not stopped there, since he also poses for a trio of panholders—Hip, Hip, Hooray.

Order this "Make of the Hour" as pattern 22476, 15 cents; make tea towel and panholder sets for yourself and for gifts, or otherwise. The transfer is the kind that stamps several times. Send your order to:

Wartime Problem Solved

Necessity has forced the American people to do many new things. While in the past many bird lovers have raised canaries at home for the pleasure and satisfaction they derived, now the breeding of canaries at home has become a new, worthwhile hobby—a money-making hobby that is spreading all over this country.

With the major supplies of canaries from abroad abruptly stopped with a strict wartime ban placed on the importation of hundreds of thousands of canaries formerly shipped yearly from Central Europe and Asia, the ingenuity and foresight of the American people have met the situation with smiles of satisfaction as they turned this canary shortage into a wartime opportunity.

But a small out-lay was required to start this worthwhile hobby—turning a most pleasurable undertaking into a profitable, money-making business at home.

J. Fuller Pep

I been readin' about some of these divorcees and it seems to me husbands are like automobiles. If you take good care of them, you don't have to keep getting new ones all the time. And one way of takin' good care of him is to see he gets all his vitamins. And that's where KELLOGG'S PEP comes in. Course it hasn't got 'em all, but it's extra-rich in the two most likely to be short in ordinary meals—Vitamin B, and D. What's more, PEP's one grand-tastin' cereal, too!

Kellogg's Pep

A delicious cereal that supplies per serving (1 cc.) the full minimum daily need of Vitamin B, 1/4 the daily need of Vitamin B.

Superfluous Things
Nothing is cheap that is superfluous, for what one does not need is dear at a penny—Plutarch.

The Plymouth Advertiser

PUBLISHED EVERY THURSDAY

Entered at the Post Office at Plymouth, Ohio, as second class matter under the Act of Congress of October 3, 1917.

Subscription Rates: 1 Yr. \$2.50, 6 Mo. \$1.50

WANTED TO Buy—Medium size, second-hand chairs, no wash or stove. Inquire A. E. Jones, second house east of theatre. 25p

FOR RENT—5 rooms and bath on East High street. Enquire Mrs. E. C. Gebert, 31 Plymouth St., Plymouth, Ohio. 25p

WANTED—Waitresses, 21 to 50 years of age. Howard's Cocktail Bar, Bowling Green, O. juilp

WANTED AT ONCE—Ten men to work on A. C. & Y. section; must be over 18 years old. Inquire D. E. Beam, 70 West Broadway, Plymouth, O. 25p

LEGAL NOTICES

ORDINANCE NO. 71
AN ORDINANCE REGULATING THE SALARY OF THE CEMETERY SECTION

Be it ordained by the Council of the Village of Plymouth, Ohio:

Section 1. That the salary of the Sexton of the cemetery shall be Twelve Hundred Dollars, (\$1,200.00) per annum, payable monthly.

Section 2. That any ordinance, section or part of an ordinance insofar as said ordinance, section or part of an ordinance conflict with the provisions of this ordinance, be and the same is hereby repealed.

Section 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Passed June 16, 1942.
Attest: J. H. Rhine, Clerk.

18-25c
J. B. D. President of the Council

NOTICE TO CONTRACTORS
STATE OF OHIO
DEPARTMENT OF HIGHWAYS
Columbus, Ohio, June 20, 1942
Engineer of Sales Legal Copy No. 42-287

UNIT PRICE CONTRACT
Sealed proposals will be received at the office of the State Highway Director of Ohio, at Columbus, Ohio, until ten o'clock A. M., Eastern War Time, Tuesday, July 14, 1942, for improvements in: Richland County Ohio, on part of Section Mansfield and Section R of the Mansfield-Ashland Road, State Highway No. 140, U. S. Route No. 42, in Madison Township and the City of Mansfield and Section Mansfield of the Mt. Gilead-Mansfield-Savannah Road, State Highway No. 334, State Route No. 39, U. S. Route No. 30, in the City of Mansfield, by surfacing with asphaltic concrete.

Width: Pavement variable; Roadway variable.
Length: 12,603 feet or 2,386 miles.

Estimated cost: \$67,540.00.
Contract to be completed not later than September 30, 1942.

The minimum wage to be paid to all labor employed on this contract shall be in accordance with the "Schedule of Prevailing Hourly Wage Rates Ascertained and Determined by The Department of Industrial Relations applicable to State Highway Department improvements in accordance with provisions of R. S. 17-3, 17-4, 17-5 and 17-5a of the General Code of Ohio."

Bidder must submit with his bid a certified check in an

Johns-Manville Co. Needs Local Representative

C. E. Walsmsley, district supervisor of the Johns-Manville Insulation company, was in Plymouth Wednesday morning making inquiry for a local representative. He has inserted an ad in the columns of the Advertiser and interested parties may write him at Oberlin.

The insulation floats on a column of air through a large rubber hose that comes from the hopper in the blower truck.

Johns-Manville rock wool is made of limestone and is mechanically sifted to take out hard spots that are formed in the manufacturing process. The insulation looks like sheep's wool.

Five hundred thousand "existing" homes in the country have been insulated since 1932.

Some of the advantages of insulating one's home are: 1. Protection from fire. 2. Protection from frost. 3. Protection from insects.

Testimonials from fire departments tell how insulation reduces spread of fire as it is maintained from stone and will not burn.

Cuts cost of cleaning interior walls because dust can no longer enter through cracks.

Health for children and adults because outside walls are warm as inside walls.

Quiet—Though not sold as a sound proofing, insulating dulla sound and makes a quieter home.

An insulated third floor can be furnished into an attractive, comfortable room.

Summer Comfort—Cool sleeping rooms by keeping the roof heat out.

Winter Comfort at a fuel saving up to 40 per cent.

NEW HAVEN
Bridge Club

The New Haven Bridge club was entertained last week (Monday evening) at the home of Mr. and Mrs. Robert Smith at Willard.

Robt Reunion
The Noble Reunion was held on Sunday at the home of Mrs. Winnie Mills. Relatives from Cleveland, Toledo, and Greenview, Willard and Cuyahoga Falls attended.

Miss Helen Mills, Miss Gertrude amount equal to five per cent of the estimated cost, but in no event more than ten thousand dollars.

Plans and specifications are on file in the department of highways and the office of the resident district deputy engineer.

The director reserves the right to reject any and all bids.
