Group Plans Sunday Study

"THE CHURCH BUILDING A NEW RECORD" THESES OF SUNDAY EVENING CLASS.

Jesus, in his teaching, implied that the little children would come unto him unless they were hindered. I find this to be true in my work, as teacher of religious education. The children are eager to learn about Jesus.

Fifteen million boys and girls in America are not carrying out the main purpose of life—to worship and to serve God—because they are being hindered.

Christians are responsible in helping the children to become conscious of Jesus and in guiding them to apply his teaching through experience. They do not learn it and then apply it. They learn it as they live day by day.

Too many children are ruled by force and when the force is removed they are unable to make right decisions. Physical laws apply to character growth as it does to mental growth. If a child is selfish, unkind and rude, it is because he has been trained to be aware of his failures and his tendencies to sin in the light of what Jesus expects. A child needs to use Jesus as his pattern and guide. When he does, he will see he should think out the reason why he did so and then ask Jesus to help him the next time he is tempted.

Most Americans are talking about the "four freedoms" for the United Nations after the war. Some of us may dream of a skyscraper or of a great cathedral, but it will only be a dream until we start the foundation. The "four freedoms" will not become a reality until we start working for it. It cannot be established by force.

Our students are training for teachers, doctors, chemists, engineers and nurses in order to help win the war. Some of our church colleges and seminaries are very much like skeleton towns.

When the peace treaty has been signed the government will say, "Now we are ready for the 'four freedoms'." They will soon realize that the people have not been trained and as a result are not ready for it. They will discover that they did not lay the foundation. If they try to establish it by force, the Lord's Temple will be destroyed as it was in 588 B.C.

We hope that our government will not forget that the church has the key to the "four freedoms". The above topic will be discussed in the Teacher Training Course on January 24th.

Muriel Walker, Religious Education Teacher.

March of Dimes Drive Is Started

Mrs. W. C. McFadden Chairman for local Anti-Infantile Paralysis Fund

The annual drive for funds to finance the National Foundation for Infantile Paralysis got under way in Plymouth Monday, Jan. 18th, and will end on Jan. 31st, the birthday anniversary of President Roosevelt.

Mrs. W. C. McFadden, local chairman, has received a number of the containers together with coin cards and displays and are now being placed in business houses, schools and will be passed at all lodge, club and church meetings that may have an opportunity of making a contribution to help in combating the scourge of childhood, infantile paralysis.

"Certainly one dime contributed by everyone is not much for so worthy a cause," noted an official in calculating the total that would mean in this community alone.

Half of the money collected is retained in the county for use locally in the cure, prevention and study of infantile paralysis. The other half goes to the National Foundation for research and cure.

Although the public is called upon in war-time to contribute much to many things, there is no cause that should evoke greater response than that which has for its purpose elimination of the Great Cripple—infantile paralysis. The knowledge that the dimes one contributes might end this curse of childhood has always resulted in a generous response, not only in Plymouth but in every community of the country.

DEPENDENT OVER SCHOOL GIRL, 12, ATTEMPTS SUICIDE

Dependent because she was not permitted to attend the village school of her choice, a 12-year-old New Haven township girl drank a solution of lye water Tuesday, and Wednesday she was in a serious condition at the Willard hospital.

Reports from the hospital said the girl wanted to attend school in Plymouth and, upon learning that regulations required her to attend New Haven school because of her residence location, she took the lye potion at her home.

Her parents found her dangerously ill and they immediately rushed her to the hospital. The parents stated she had been dependent for several days because of the school situation.

Although describing her condition as serious, physicians said there was a possibility that the girl will recover.

20 Volunteer To Give Blood

PLYMOUTH RESPONDS TO CALL OF RED CROSS UNIT FOR BLOOD

Twenty individuals from Plymouth have answered the call for blood donors and will give a pint of blood whenever notified. The mobile unit will be in Mansfield today and tomorrow and those who registered will be notified if needed. Names will be kept on file.

Blood plasma has played an important part in the saving of lives not only in war areas but in catastrophes such as the disastrous fire in the Cocoanut Grove, the once ornate Boston night club, which became a funeral pyre for nearly 500 gay merry-makers. 150 persons, nearly all of them horribly burned, owe their lives to the American Red Cross and to those men and women who have voluntarily given their blood to this great organization's blood donor service.

In Plymouth the following new registrants are reported: Mr. and Mrs. Roy Johnson, Carl Loffland, Earl McQuate, Mr. and Mrs. A. D. Point, Mrs. Eva Keller, Henry Packler, Bob Bachrach, David Bachrach, Mr. and Mrs. Albert Marvin, Harold Cashman, Mrs. Florence Ross, Thomas Webber, George Eby and Mrs. Ethel Bartholomew.

An Editorial

Plymouth and vicinity has been rather amused if not highly entertained the past week over the "free-for-all" staged between Mansfield and Shelby concerning the naming of location of the new Army Air Base Depot.

Criticism is due Mansfield in that it tried very honestly to take all the "glory" for locating the depot FOURTEEN MILES NORTH of its city limits. When the war broke out our big city sister was very slow in getting started in the war effort. So much so that it won recognition throughout the state. Blessed with many fine industrial plants, Mansfield failed to show that it was really interested in producing war materials and goods. Only when the time came when its industrial plants were forced to make a "change over" from civilian to war production did the city take on a real spirit of the war.

Mansfield would have Richland county believe that it alone was responsible for locating the air base depot in RICHLAND county. In our opinion we don't believe it. It is not the business of the Army or Civilic Club to "sell" the Army a site for any kind of a project or plant. Army engineers generally know "what, where and when" they want a thing and their job is to get it done. We believe the present site of the air base depot was selected with the view that it would best serve the requirements of the Army, irrespective of the name the army engineers may call it.

If any group or groups of Mansfielders were responsible for bringing the depot to Richland county, then we do not hesitate to give them praise for their efforts. It should be appreciated by those residing in the north part of the county. However, it is believed that the strategic location of the site proved to be the main factor in the army making its selection rather than a high pressure sales talk by any group.

When the news "broke" that the Army had selected an air base depot north of Shelby to be known as the "Mansfield Air Base Depot," it was only natural to suspect Mansfield as trying to capture the "glory" of the depot. The Army to consider this particular site. This is what the citizens of Shelby did. They even did more than "suspect." They got up in the air and "blasted" the depot because the site being north of Shelby was to be called "The Mansfield Air Depot."

Still this was not sufficient reason for a group of Shelby men, who are not known for their eagerness to get together and make a public complaint over the location of the air depot base. The only excuse they could cook up was that "the water supply is insufficient for the depot that didn't hold water, for as you know the rainfall and other data in regards to water supply had been thoroughly checked by staff engineers."

The real reason of the certain few was not the water, but rather the labor situation in Shelby, and it was feared that the air depot might interfere with their labor war. Using the water shortage to scare off the location of the air base depot isn't helping smooth the situation over.

We are at war. It takes men, material and equipment to win a war. It is true that construction of buildings and installation of equipment will require extra help. But we believe that despite the higher hourly rate offered on this project, the fact that the construction in Shelby plants will give serious consideration to the temporariness of the employment offered before leaving their present job.

According to reports the "feud" has somewhat subsided, and it is very likely that the new air base supply depot is to be named: "The Capt. Parsel Air Base Supply Depot." It is a very evident that Shelby did show no resentment to the site being called "Mansfield Air Base Depot" in that petitions were submitted in Shelby and Plymouth, asking that the depot be named "The Parsel Air Base Supply Depot" in honor of the late Captain Elmer Parsel.

Yellow Jackets "Buzz" To Victory; Reserves Are Also "Buzzed"

It was a great, double victory for New Haven Fri., Jan. 15, when they downed Greenwich in a 3-minute overtime, 29-27 score. There was much rough playing in the second half and a lot of foot work, fast handling of the ball, and many good passes that helped in making the baskets, which won the varsity game. The Yellow Jackets were "buzzing" along nicely at the half with a score of 14-14. However, Greenwich came back with more pep and action and the battle was on, the score rocking back and forth the re-

maining time. At the end of the fourth quarter the score was 27-27. The final and winning points were made by Ralph Cok. The Reserves had a simple walk over, the score being 23-7. There was little opposition and this leaves the Reserves one game ahead of the Varsity. The spirit of fair play, cooperation and speed seem to be the biggest helps so far. Sat., Jan. 16, the team goes to Shiloh for the second game in two succeeding nights. The lineup was:

NEW HAVEN LOSES GAME TO SHILOH

CLOSE GAME ENDS IN VICTORY FOR SHILOH

The New Haven Yellow Jackets journeyed to Shiloh Saturday, Jan. 16, to be defeated by a score of 27-24. New Haven was slow the first half to make six baskets against two for Shiloh. The game was very slow and mild compared to the game each team had played the preceding night.

The Reserves played a closer game, being defeated by 18-17. New Haven had a lead of 4-2 at the end of the first quarter, but it was snatched from them and Shiloh was not threatened until the end of the third quarter when the score was tied 12-12. It was then a fight to the finish with Shiloh one point ahead when the final whistle was blown.

The next game will be played

at New Haven, Wednes., Jan. 27, when Plymouth comes for their annual visit. The lineup for the Shiloh-New Haven game was:

The increase this year was caused by extra expenses required by law, including the \$3,000 set aside for cattle testing and about \$350 for expenses of state examiners. It is given out that the expenses of the county examiners from \$500 to \$600 a month while they are here and the time of the examination of records is six to seven months as a rule. There has been a big decrease in the welfare load. It is stated that the county will be able to go along and stay within the budget for the first time in years.

Derr conducted the devotions taking for his Scripture the 36th Psalm. Other plans were laid before the class and action taken on the Special Event Calendar to raise funds. The treasurer was requested to pay half of the year's pledge and all bills were reported paid. The birthday collection was also turned in at this meeting.

After several quiz contests, refreshments were served. The February meeting will be held with Mrs. Ralph Ream, assisted by Mrs. P. W. Thomas.

Jim Lindsay Cited As Model Soldier By Salt Lake City Rotary Club

Selected as model soldiers from the Kearns, Utah Army Post, Sgt. James L. Lindsay and Staff Sgt. Richard E. Schunk, drill instructors of the 358th Tech. School Sq. represented the camp at the Salt Lake City Rotary Club dinner meeting, held in the hotel Utah, December 9.

Also represented at the banquet were the Navy, Marine and other branches of the service. Lindsay and Schunk proved to be head and shoulders above them all. Reason: both Kearns men tower four inches above the 6-foot mark.

When asked what they enjoyed most about the evening among the Rotarians, both soldiers agreed that the fellowship and warm welcome given them was something they will long remember.

"And you can quote us on this," stated the Sergeants, "that's one mess hall I'd like to eat in any night. The food was wonderful." Sgt. Lindsay is the son of Mr. and Mrs. L. S. Lindsay of Main street, Greenwich, Ohio, and the husband of the former Miss Jerry Ramsey of Plymouth.

GOD'S WILL BE DONE

by Huldah Davis Frush

A tiny babe in a small crib lay With blue eyes so eager and bright, And standing near with pride and joy

Were father and mother that day

And they knelt in prayer giving thanks to God

For this son that was born to them,

His prayers were as Joseph's and here's Mary's prayer

At the manger in Bethlehem.

They guarded their child through all the years

From harm that might come his way,

And they watched him grow from child to man

And the years seemed but a day.

Then the man heard the call of his country's distress,

"To arms, brave men must fight!" So he took his turn standing guard against

The enemy in the night.

The night that's the darkness of war and strife,

Corruption which hovers near, While fighting for loved ones safe at home

Each day seems all of a year!

Through the din and terror of the bells of war

He fights bravely 'til day is done, Though he's tired and weary and his nerves are taut

He'll fight on 'til the war is won!

The babe, then child, now man and soldier Has a job that he WILL do, And we pray all times, whether night or day,

For victory well over-due.

And that the soldier boy who risked his life On all land and air and sea May come home again to father his son In a land of liberty!

And may God see fit to erase the horrors Of this war from his memory and view, Reflect there instead a confidence of peace In the red and the white and the blue!

URGE WOMEN TO SAVE OLD HOSIERY

American women who turn in discarded hosiery to collection centers established in retail stores throughout the nation are performing a vital war service.

One of the prime functions of Civilian Defense is to back up the country's armed forces, and contributing discarded hosiery is as important as donating scrap metal or household fats and oils. Socks from women's hosiery is processed into powder bags necessary for firing large calibre guns, and nylon is used for other war purposes.

The nation's women can contribute a tremendous amount of silk and nylon by placing their discarded but washed hosiery at retail counters in hosiery and ready-to-wear stores throughout the nation. In Plymouth, both the Plymouth Dry Goods Store and Hatch's Dress Shop are cooperating.

Before they can be shipped out 100 pounds must be gathered, and it takes a heap of socks to make 100 pounds. If you have any laying around, gather them up and place them in the containers for that purpose.

132 Years Old!

Sayed Mchrem, of Chicago, says he is 132 years old. He appears to be 80 or 90, but contends that he was born January 11, 1811, in Cairo, Egypt. In 1885, when he was 52, he came to Chicago for the World's Columbian Exposition. Sayed says the secret of keeping young is his philosophy of self-harmony.

PLYMOUTH WINS IN CLOSE GAME OVER SHILOH HI TEAM

By Arline Ford

The Plymouth Pilgrims once more came out victors in a rip-roaring tussle with the Shiloh Drummer Boys. In view of an overflowing audience, both teams put forth all their effort to display the most exciting and interesting game of the season.

Man, what a game! It was just one continual foot race from one end of the floor to the other, with a basket at each end, keeping the score tied for the greater part of the game. The score was tied at the end of the first quarter, the half, and the end of the third quarter. When the whistle blew to wind up the game, the score was tied, but the cheering from all sections was so loud that the officials were unable to hear the whistle and Shiloh got in another basket, putting them ahead by two points. However, the basket could not count, and it was necessary to play three minutes overtime. Near the end of the overtime the score was again tied and it looked very much like another overtime would have to be called, but about 8 seconds before the close of the game, Berberick, with his famous overhand shot, scored another basket for the Pilgrims, closing the game with a 57 to 53 victory.

Since Shiloh has always been Plymouth's greatest rival, this game made the competition still greater. The game as at Plymouth-Shiloh games, was a little rough so with a little foresight, there were two referees, M. J. Clark and W. H. Leslie.

The Reserve's game was also very exciting, finishing with a score of 15 to 14 in favor of Shiloh. We can't, however, feel too bad about losing this game to Shiloh since it is the first game the Drummer Boys, either Varsity or Reserves, have won all season.

Our next game will be held on January 22, with Belleville, at Belleville. Let's all plan to be there and boost the boys to another game as thrilling as the one with Shiloh. We know they will put on a good show and deserve our support.

RUBBER CRISIS

There still seem to be a number of people who won't admit that gasoline rationing is necessary in order to save rubber. But so far there seems to have been no other answer suggested.

There is no doubt that rubber must be conserved to the limit. Reports from Washington indicate that unless plenty of synthetic rubber is being made by September of this year, our nation's rubber supply—and that includes the rubber available to all of our allies—will be practically exhausted.

Therefore, unless we are going to let the Jeeps and army trucks run on their rims, the rubber pile must be added to at once—even if our civilian population has to ride around on wooden tires.

Because of the good news from Russia and other war theaters, some of us are getting a lot too optimistic about the war ending in a short time. All the facts show that there is still a long hard job to be done and there is no doubt that it will be speeded up or retarded by the success or failure of our government to get hold of sufficient quantities of rubber.

So, whether we have the gasoline or not, it is now all most a criminal action for any civilian to burn up any of our dwindling rubber supply on any driving which is not imperative.

PAY-AS-YOU-GO

There is no doubt, as taxpayers begin to figure what their taxes are going to be in 1943, that there will be an increasingly loud demand for a pay-as-you-go form of taxation.

The only hitch to the immediate adoption of a plan to pay all of our income taxes in the form which is now being used for the payment of Victory tax is this: Certain congressmen can't get it through their heads that it doesn't seem right to excuse people from payment of taxes on their 1942 incomes.

The pay-as-you-go plan would mean that a man would, during 1943, pay taxes on his 1943 income, instead of paying those taxes in 1944 and paying taxes on 1942 income during 1943. It would mean that a man earning the same amount in 1942 and 1943 would pay exactly the same tax this year, but from the bookkeeping standpoint he would be paying no tax on 1942 income.

Actually, the government would collect considerably more money in 1943 with a pay-as-you-go plan, since the income of the people will undoubtedly be many billions more during 1943 than it was in 1942. The only people who would "get a break," if you want to call it that, by paying now on 1943 income instead of on 1942, would be those who earned more in 1942 than they will earn this year. But since that only includes the men and women who are taking a salary cut or whose businesses are doing poorly, there should be few objections. And a pay-as-you-go plan would mean that we could all pay our income taxes on time without having to borrow the money.

With the rationing of food and clothing at hand it's a good time to start practicing the addition of figures.

According to radio reports Hitler will have from 500 to 700 subs ready for action this Spring. O. W. I. should tell the people what we're doing about it!

MAKE THE MOST OF YOUR HANDICAP

On a night in March, 1918, a raw and drizzling rain fell on the front-line trenches in France. It had been raining for several days, and the ground was softened by rain and by exploding shells.

One sector was held by the Royal Canadian regiment. At about 10 o'clock that night an order came through to send a raiding party toward the German trenches. The man selected to lead the raid was Captain J. Francis Smith of St. John, New Brunswick, Canada.

They set out in the biting wind and rain. A shell burst nearby. Phosgene gas. Phosgene, and shell-shock to boot. They gathered him up, hospitalized him. He couldn't swallow, so they fed him through a stomach tube, then nursed him out of the gas, and put him on an operating table to cut some shrapnel from his thighs.

After the operation, Captain Smith got out of bed, delirious, fell and fractured his skull. He recovered consciousness but the gas and the jar had combined to put his optic nerve out of business. He was stone blind!

When they invalided him out of the service, Captain Smith returned home to Canada a despairing sight.

In his early twenties, the major part of his life lay before him. What was he to do with it? What interest was there for a man who couldn't see? How could a blind man make good? Before 1914 Captain Smith had trained as a pharmacist and had intended to become a doctor. Now he decided that he might, with the superior touch faculty of the blind, become a physiotherapist. So he trained for that, and eventually took staff positions as a physiotherapist in two military hospitals in Toronto.

The fineness of his touch continually increased. He thought such a faculty ought to make him good in osteopathy, a science which treats disease by corrective manipulation of displaced bones, nerves, blood vessels and muscles.

So, acting on the hunch, he entered the Philadelphia College of Osteopathy, where he was graduated with honors for brilliant work in applied anatomy and for his brilliant showing in his examinations.

Dr. Smith is an inspiring example for people who are tried to give up because of some physical handicap.

ENSIGN JOHN PAUL JONES

LETTERS MIGHT HELP JOHNNY TO FIGHT A WAR

First Class Example of How Not To Help Soldiers Maintain Morale On Every Battlefield.

Well Johnny, I sure was glad to get your letter and to hear that you had a fairly good foxhole so that you could keep your head down and your feet dry at the same time. Your hunting in the Solomons must remind you of the days we spent down in the hills picking squirrels out of the tree tops, except the squirrels don't shoot back.

You probably do not care much about having your own news returned to you so I had better get started on the things at home. Bill was drafted two weeks ago and his father is ready to paw up the earth because he has been asked to turn out more crops, milk, and meat this year and he cannot find a hired man. Bill seemed glad to go. I guess it's pretty tough for the boys at home when the girls and everyone else have eyes only for those in uniform.

It seems a little peculiar that, with folks as busy as they claim to be, they still have more time than usual to watch their neighbors. We have new aristocracy now, and the guys with C gas cards are dukes. I guess all defense plants must be running 24-hour shifts because most of the cars parked down town nights have either B or C cards.

You would be tickled pink to be here and watch Mrs. T. dig herself in for the duration. She beat the sugar rationing by about 40 days and 200 pounds, and she has enough coffee and canned goods on hand to stock a fair-sized store. Of course, she does not drink coffee and she will not

live long enough to eat her cupboards bare but she is having a whale of a good time proving that she knows more than the government about national resources.

The paper reported yesterday that the Ford workers at the River Rouge plant were having themselves a wildcat strike. The Chrysler men went back to work after a short vacation. The arbitrators are arbitrating. Some of the soldiers who had been in England were shipped back to the Chillycothe prison a little while ago. Well, that's one thing the army teaches, you have to obey the rules.

A lot of folks are having a pretty tough time lately. A new excise tax boosted liquor taxes the first of December and it seemed like most of the inhabitants were standing in line for hours to save themselves 50 cents a quart. Then, buys were limited do one bottle a day per person, and they had to get out the police to line up the customers at some liquor stores.

Joe's mother got word from the navy department that he is missing. I guess the Mediterranean is pretty wide for our boys to swim. You'll miss Joe when you get back, I hope you get this letter before the war ends; but so many people are riding everywhere now that they have to leave the airmail off the planes part of the time.

Well so long Johnny. I'll tell your girl I have written to you. I have seen her out with every day who has been home on leave so she probably does not have much time to write. I hear all the pretty nurses are in the army—ha, ha! A. J. P.

Community Religious Meetings End Sunday, Very Successful

The large attendance on Sunday evening at the Methodist church was a surprise, considering the icy roads and inclement weather.

Congregational singing directed by Mrs. Henderson and accompanied by Miss E. Floy Rose was appreciated and nearly everyone took an active part by responding with enthusiasm. Special numbers were given by a quartet of girls from the school and Russell Ross of Plymouth showed a neighborly spirit by contributing a vocal solo which pleased the audience.

Rev. Henderson gave a short talk and then made some comments on the suggestions that had been placed in the boxes for that purpose during the past week. Mayor Don Hamman and W. W. Pittenger read several suggestions and gave their opinions as to the feasibility of their application.

Many of the suggestions were for the social and sports improvement. Some were for the continuance of these meetings, as

nearly all were of the opinion that they have been a community benefit.

After a few short talks a decision was reached by motion and vote of the audience, that Rev. Haines, Rev. Stover and Mayor Don Hamman and Supt. E. J. Joseph act as a committee to make plans for future meetings.

Next Sunday evening, Jan. 24, will be the last time Rev. and Mrs. Henderson will be present to conduct the meeting. Rev. and Mrs. Henderson have traveled extensively in evangelistic work from coast to coast in all the large cities and many smaller ones, also in every province in Canada with the exception of the extreme north-west. They know how to meet people and their genial Christian spirit has given the community a better understanding and a happier outlook. And we sincerely hope they can mingle again in the same capacity in the future.

Here's hoping for a crowded house next Sunday evening.

Last Rites Held Monday For Mrs. Margaret Shafer Swartz

Relatives at this place received word on Thursday evening of the sudden passing of Mrs. Margaret Shafer Swartz at her home near Mechanicsburg, Pa., on Thursday.

EIGHTH GRADE
The Eighth grade had a class party last Friday night. We had a sledding party on Gilger's hill. We then went to the Tower Restaurant for refreshments. We all had a very good time. We were sorry that some of our members were absent.

Many of our Eighth graders are enjoying the new books in the library among them are the "Kay Tracy" series.

We are all enjoying the slides which we have in current events class on Friday. The last one was about the Fifth grade.

SEVENTH GRADE
In English we have been studying plural and singular words. Miss West, our teacher, has been giving us cards to make singular or plural words. All of us are enjoying very much.

In Religious Education for last Tuesday Miss Walker picked out several of the students to take a chapter in the "Book of Genesis" to read aloud. Also we were reading a book called "The Way of a Christian Life". The members of the class have enjoyed the reading as far as we have gone. Each week will read a chapter in it when Miss Walker comes, which is on Tuesday the second period.

DRUMMER BOYS BEAT IN OVERTIME

The Shiloh Reserves won their first game of the season when they won over their nearest rivals, school at Plymouth. The boys have really improved in the last couple of weeks and therefore will probably be tough competition for the rest of the schools this year.

Swartz was higher scorer for Shiloh with five points. The score at the half was 4 to 4. The winning basket was made by the Reynolds which made the final score 15 to 14.

A very spectacular game was played between the two rivals Shiloh Drummer Boys met the Plymouth Tigers won a close game from the Shiloh Drummer Boys Friday night. After getting off to a poor start in the first quarter, Shiloh came back in the second to bring the score 17-15 in Plymouth's favor. The game was close all the time with a zig-zag score. At the end of the game the score was 34-34.

Shiloh started off in the overtime by making a three pointer. Then Plymouth made one. With ten seconds to go, Berberick of Plymouth made a very unusual shot and the Tigers won 37-35. High point man for the game was Daurp of Shiloh with 15 points. His credit, following him was Rhine of Plymouth, who had 14. Everyone who attended will vouch that this was a most unusual game and high credit should be given to both teams for their will to win.

To top off a full weekend the Shiloh Drummer Boys met the New Haven basketball team in their own school on Saturday night, Jan. 16th. Both games went to the Drummer Boys. The victory was a close one. The game seemed to be catching up in their points. Shiloh held its ground and won the game 27 to 24. Van Wagner was high scoring man.

Slippin' Along

This ice is really getting me down—not once but several times. After six weeks of the worse ice and snow imaginable, an early spring is something to look forward to.

Asked where they were over the week-end, one party promptly replied, "in the ditch." Nothing serious but it took a tractor with lugs to pull 'em out. Another pedestrian said he thought it was a good idea to remember that he came to think of it, was just that precarious walking. Martha Schreck admonished her older brothers that they had on their best pants and to remember they were not to be used while skating.

Few people ventured out over the week-end or the first of the week, but those who did go out report a number of minor accidents or cars in the ditch.

the butter by cutting twice the usual thickness, or does it?

The following items were taken from the Plymouth Advertiser, Dec. 1911: "The mind has much to do with the physical condition of a man. A year or so ago, we saw an old gentleman walking with a cane, and he appeared tottering and as if one foot were in the grave. When getting out of his buggy he made his exit one foot at a time and then even groaned. He is now a widower. He drives to town in a new car, and when he alights he jumps out as spry as a man of thirty. He wants to marry."

Now that the season of the year has arrived when we will have more or less snow, property owners and residents should take particular pride in keeping their walks clean. As a general rule Plymouth people are pretty good in this matter. While it is a few who do not give the attention to this matter that they should, some merely shoveling a path only a few inches wide, causing pedestrians to trail along in the snow, and some who drag along in the snow. Keep your walks cleaned to the full width, as it only costs a little more exertion and you will be held in better esteem by your neighbors and fellow citizens.

The Wonderland Theatre, which for the past year and one half, has been under the management of Barney Robinson, changed ownership Thursday morning, the new owner being Reuben Deisler, who comes here from Mansfield. It is his intention to make some changes and make the Wonderland one of the most popular theatres in this section of the country. It is Mr. Deisler's intention to move his family, which consists of himself, wife and two children, to Plymouth, where he can be on the job every morning. We gladly welcome the family as residents of our little city and trust they will find their venture both profitable and pleasant.

EDITORIAL

(Continued from Page One)
one of the first men from Richmond county to make the supreme sacrifice.

Through Congressman J. Harry McGregor of the 17th District, it is learned that the Army Air Forces Naming Board in Washington has the complete power in selecting the name which will be given the depot. It is certain that if the Board reviews the history of the late Captain Parsel, it will pay high honor to a man who well deserves it. Captain Parsel came up in the Air Corps the hard way. He had the ability, integrity and determination to carry out his orders and to perform his duty. In one instance he not only obeyed orders on a bombing raid, but he honored an individual, but will fight the Japs which kept the group in active duty for 32 consecutive hours. For this performance alone he won high praise from his commanding officer.

With opposition to the depot dying down in Shelby, and Mansfield in a receptive mood in having the name changed, it is hoped that the War Naming Board will give serious consideration to adopting the name, "The Capt. Parsel Air Base Supply Depot" for the project to be erected. This, it is believed, will not only be honoring an individual, but will please the entire population of the district in knowing that this depot will be dedicated to one of the country's most outstanding pilots, and which will be commemorated during bravery shown in time when our very freedom was at stake.

Mansfield, Shelby, Plymouth and nearby communities will no doubt undergo a "boom period" during the construction period of the depot. But for the post war period we should be willing to face this condition for it is very desirable that after the war America will be air-minded. Those men who are familiar with aeronautics predict great things for this country in the way of air travel. It is to this end that we should be willing to undergo difficulties in order to gain possible recognition at a later date by having an established air port and base ready for use as the close of the present war.

In the selection of the present site for the new depot, we extend hearty congratulations to those citizens in Mansfield and Shelby, and others who aided in securing the project. Especially do we recognize the effort and ability of Congressman McGregor in helping on this important venture. It is our hope that the air base will not only prove to be of benefit locally, but to our state and nation, in peace time as well as during a time of war.—FWT.

and Consequences". Nearly all of them had to take the Consequences. A few of them were to be de-

Bob Wagner gave a good rendition of the popular song "For Me and My Gal".

Rev. Henderson was asked to read a discussion on "What part will women play in industry after the war." Many interesting points were brought out and many of the students entered into the discussion.

SNOOPER

We wonder what all the noise was the third period last Wednesday.

WONDER

We wonder why Bob Wagner wears his good red hat to school.

WONDER

We wonder why Charlie Seaton is all a fluster this week? It couldn't be the sailor boys, could it?

I wonder why Sally went to the dance Thursday night. Could it be because Pudge lives beside the skating rink.

We hear some sophomore girl make a telephone call and started to talk in the receiver.

Mr. Joseph Marcella, what is an adult?

Marcella: An adult is a person who stopped growing except in the middle.
