## New, Simplified Forms Ready For March 15th

The Treasury announces that a new income tax form calling for simplified computations based on elementary arithmetic will be available to taxpayers in March.

Most taxpayers will be permitted to file withholding receipts as their complete return. The new form 1040, is designed for those who are required, or prefer, to submit an itemized computation.

Persons earning less than \$5,000 yearly and who claim no more than 10 per cent deductions for charitable contributions, interest payments, and medical expenses will figure their return through a tax table contained in the form. Those claiming greater deductions must itemize their computations.

Taxpayers who earned \$5,000 or more will have a choice of taking a standard deduction of \$500 or itemizing their deductions in detail, but not compute their tax in either case.

The 10 per cent deduction will be used as standard in figuring the tax of those who use withholding receipts instead of the form.

## Dorm Ready At Parsel Lodge

**HOUSE PROJECT AT SHELBY AAF SUPPLY DEPOT IS NEAR COMPLETION**

The Federal Public Housing Administration has just announced that the Parsel Lodge, a civilian housing project, located at the Parsel Supply Depot, is nearing completion. The Parsel Lodge is set on nine acres of ground on the Plymouth-Shelby road out of Shiloh. It will be graded and landscaped. Black-topped streets and parking areas, with adequate street lighting, will tend to give the impression of a small suburban residential group. Water and sewerage facilities have been completed.

Of the eight buildings, seven are dormitories and one community building. Each dormitory will have seven single and 26 double rooms, providing quarters for 50 occupants. The rooms are well lighted and ventilated and will be furnished with a clothes closet, chest of drawers, single beds, reading lamp, chairs, ash trays, and waste basket. Maid service is provided for each dorm as well as linen service. There is a small wash room available for the occupants to wash small articles of clothing, and an outside drying rack, which will help keep the laundry at a minimum.

The community building will house the administration offices, recreational facilities such as a club room, reading room, games, and a snack bar. It will be available to all residents of the Parsel Lodge.

And speaking of dogs, a little brown dog, miniature model, has adopted the Dininger Garage for his new home. Evidently lost, and somebody's pet, they are taking good care of it, hoping the rightful owners will show up.

## Local Team Loses Game

**PLYMOUTH LOSES A HEART-BREAKER BY 4-3 SCORE**

That old one run jinx is still hovering over the local high school baseball team. Proof that it is, was shown last Tuesday evening at Shiloh when Plymouth lost a heart-breaker 4 to 3, making it the third game they have lost by a single run. Shiloh winning here 6-5 in an extra inning and the local lads losing at Monroeville 6-5. The local nine's lone victory was scored at North Fairfield, 12-7.

This Friday, Oct. 13, Plymouth is going to make every effort to lay their one run jinx when they seek revenge against Monroeville, who plays here, on Friday, Oct. 20. Plymouth will attempt to repeat their victory against North Fairfield on the local diamond.

Last Tuesday at Shiloh, Miller and Berberick pitched a good ball, but in two innings their support faltered and as a result three of Shiloh's four runs were unearned. Shiloh held a 4 to 0 lead going into the sixth inning when Plymouth suddenly opened a scoring barrage, scoring three runs in the seventh by Bob Hampton over the right fielder's head. Plymouth had two men on in their half of the last inning, but were unable to push the tying, and perhaps the winning run, across the plate.

Players on both teams played well, but Shiloh, who has been playing ball every Spring and Fall for the past several years, while Plymouth has not had a team for two years, proved that everything else being equal, Shiloh's experience made the difference between victory and defeat.

## Last Rites For Dr. Fowler

Of interest to a number of relatives at this place will be the brief summary of the life of Dr. Sherman M. Fowler, taken from a Michigan paper.

Dr. Fowler died on Thursday, Sept. 21, after a brief illness in Hackley hospital, Muskegon.

He was born in Maple Grove township, Feb. 23, 1876. He completed his high school training in Nashville, then graduated in dentistry from the University of Michigan in 1898. He established his office in Hastings and while there he joined the Knights of Pythias and became a member of the Hastings division No. 19, Unshen Rank. He was a member of the first set of "four" in the Hastings division, and participated in the competitive drills in which that division won the World Championship for three successive years. He loved that kind of work.

Later he moved to Battle Creek where he won fame as a drill instructor, first as Captain of the Battle Creek division, and then as an Elks Drill, and later, captain general of the K of P, of Battle Creek, which became famous as the best drilled squads in Michigan.

He was president of the State Dental Society in 1900. In June, 1917, he was invited to take a special assignment as instructor in the U. of M. He was commissioned a first lieutenant and assigned to the base hospital at Ft. Custer. Later, he was commissioned a major and was chief of the dental section of the hospital. He retained his rank in the enlisted reserves.

## Six-Inch Sermon

† REV. ROBERT H. HARPER †

**Jesus' Understanding of Men.**  
Lesson for October 15: Genesis 1: 27; Psalm 8; Matthew 12:21-25.  
Golden Text: John 2:25.

It is in his personality that man is created in God's image, set above the lower animals by the power of thinking, feeling, and willing—in kind like God but far less in degree. Psalm 8 declares man's primacy among all created things. Pitifully small compared to worlds in space, his mind is greater than matter. And from the days of the cave men to the present, man has overcome the disparity between his physical powers and those of the beasts—by weapons and means he has learned to use.

The healing of the withered hand in the synagogue Jesus employed for giving valuable teaching concerning the design of the Sabbath—He also taught the supremacy of a man over a brute. Man is better than a sheep. All agree to this but many fail to treat their fellows, by their loving attitude toward them, above lesser creatures and material things. In the synagogues, the great host of men have been used as mere pawns. The unmarked dust of millions of enslaved workers would plead for the rights of every man. The closing section of the lesson gives a beautiful picture of Jesus carrying on the service He indicated by His own teaching in the synagogue—by His compassion toward the suffering and the sorrowing, and fulfilling the prophecy of Isaiah. And through 20 centuries the gentiles have found hope through the Saviour of men. All should be led to give their lives to the Blessed One who knows all about them and sets an infinite worth upon them.

**SEVENTH DAY ADVENTIST CHURCH**  
45 Sandusky Street  
Saturday, Oct. 24, 1944  
Our motto: "Back to the Bible and not to the opinion of men."  
7:20 p. m. Sabbath school; subject: Joel, the Prophet of Penticost. Supt. Al Beckwith.  
3:00 p. m. worship. Subject: "The Millennium."  
The word "millennium" comes from two Latin words meaning a thousand years.  
The only "thousand years" mentioned in the Bible, that has a definite beginning, and a definite end is recorded in Rev. 20, and comes right between two resurrections. That is, the resurrection of the righteous and the resurrection of the wicked. John 5: 28, 29 records the words of Jesus regarding two resurrections. Paul in Acts 24: 14-15 also speaks of two resurrections. Then again Jesus in the gospel of Luke 14: 14 refers to the first resurrection. The millennium is a period of time, that many are wondering about today. The Bible tells all that we need to know about the millennium. It tells what will be going on during this "millennium" period of time. The public is invited to come and hear what God's Book has to tell us on this very important subject.

**FIRST LUTHERAN CHURCH**  
Rev. F. Lambertus, Pastor

Worship services at 11 a. m. Luther League at 8:30 p. m. Catechetical instruction on Tuesday at 7:00 p. m.  
Choir rehearsal Thursdays at 7:30 p. m.  
Subject for Sunday's sermon: "Jesus, the Light of Salvation."

There is a body of Christian belief that is the basis of Christian life. These beliefs have to do with God. His sovereignty will have His creative purpose, His holy love. They have to do with the Bible as a means by which we know the truth, which we could not otherwise know, about God and about ourselves, and the world. They have to do with sin, its tragic and destructive nature, the responsibility and even at last its complete removal. They have to do with Jesus Christ, who He is, how and why He came and the way in which He comes a transforming power in our lives. All these truths are taught by the church and are offered to those who avail themselves of the opportunity to come. You are invited.

The Rev. John Lambertus, pastor of St. Johns Ev. Lutheran church, Sioux Falls, S. Dakota, was a visitor at the Lutheran paragonage over the week end and Sunday with Rev. and Mrs. Lambertus. The visiting pastor preached the sermon on Sunday in First Ev. Lutheran church.

### MENTAL ALARM CLOCKS

This winter, more than at any time since the war started, the nation's scarcity of alarm clocks is going to be a major problem.

Before the war, about 12,500,000 alarm clocks were sold each year. Less than half that number are being made, during 1944 and even less were made in 1943. In addition, it is almost impossible to get an alarm clock repaired these days.

Thus there must be a great many people, by now, who have to depend on a factory whistle, a rooster or good luck to rouse them from sleep in time for work or school.

In the summer it is comparatively easy for most of us to wake up at an early hour without outside assistance. But on cold, dark winter mornings plenty of people might sleep the day through unless stirred into wakefulness by a rasping, irritating tinkle from an alarm clock.

The only solution seems to be a slow process of mental training. It is said that, by thinking about it hard enough, most people can wake up within five minutes of the time they want to awaken.

### UNDECIDED VOTERS

It is estimated that there are still 20 per cent of the American people who haven't decided which way they will vote in November—and another 10 to 15 per cent who may not bother to vote at all.

Yet what these two groups do will probably determine the results of the election. The election is expected to be close enough so that if a sizable majority of those now on the fence decide to support the same presidential candidate, he will be elected.

We have no sympathy for those who show no interest in taking advantage of the right to vote. During a time when we are fighting a war to preserve our democratic form of government, which is the envy of people all over the world, it seems almost sacrilegious for any American citizen to ignore his privilege to have a voice in the administration of our country.

"HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

### LET HIM 'OUTTALK' HIMSELF

About two months ago Mrs. Vincent Calli's husband came home in a secondhand car and announced that he was going to buy it. Mrs. Calli lives in Los Angeles, Calif.

There had been such scenes before and Mrs. Calli had started in to "outtalk" her husband. But did you ever hear of a husband being "outtalked"? Well, no one else ever did, either. And Mrs. Calli has always prided herself on saying exactly what she meant. But this had never gotten her anywhere.

This time she decided to approach the matter differently. Her first decision was not to say anything until she had cooled down—a wise decision. Next decision was to get her husband to discuss the matter with her calmly.

Then she asked him why he thought they should buy a secondhand car at this time. Mr. Calli was full of whys, and they were pretty good ones, too. He would drive to work instead of going by bus. He could go in one-third the time. There was no argument against these facts.

Mrs. Calli praised him for this. He had certainly seen those two points clearly. He did have a good head and he used it wisely.

Then Mrs. Calli showed him the other side. They would have to make weekly, or monthly payments on the car. On top of this they would have to worry about gas and tires and repairs that come with secondhand cars. This she suggested that it might be a good idea to wait till after the war and buy a new car, instead. She did not say this, so much as she suggested it. Wouldn't it be a good idea, she asked.

Mr. Calli turned the idea over in his mind. Well, yes, there was something to support it.

Mrs. Calli asked him what he thought the new cars after the war would look like and what kind of improvements they would have. This set her husband's mind racing and he visualized a new car with the latest improvements instead of the old secondhand one standing in front of the house.

The more Mr. Calli thought about a new car, the better he liked the idea. In no time at all he was talking in favor of it, without knowing he had swung around. He had talked himself out of one idea into another. Finally he said, "I think my idea of buying a new car after the war is better than loading up on an old car now. I'll take this old rattle-trap back."

The next morning he took it back.

## Doings In Congress

By CONGRESSMAN WILLIAM LEMKE

CONGRESS HAS RECESSED until November 10. When it meets again, the election will be over. There are two principal issues in this campaign. One is the fourth term, the other, government by bureaucracy. These two issues really go in hand. Bureaucracy is the result of keeping one man as the executive too long. Power always wants more power. I do not blame the president for having wanted a third term. I do not blame the president for wanting a fourth term. I blame ourselves for being foolish enough to give it to him. I know that if he gets a fourth term, he will be a candidate for a fifth term, and then a sixth.

PRESIDENTS, LIKE PUGILISTS, do not know when they have had enough and when they ought to quit. That is human nature, and it is that part of human nature that produces dictators. There is no question but that every dictator who ever lived, wanted to make this a better world. But all dictators have the same fault—they always want to be the person from "whom all blessings flow." Then, if you are not a good little boy and eat out of their hands, no blessings will come your way and when dictatorship becomes thoroughly established, then your life and your liberty is in danger if you even think.

THE COMING ELECTION IS vital to every citizen. There is plenty of room for differences of opinion without hating and calling of names. Let's settle the issue of fourth term and bureaucracy by calm thinking. Let us balance the benefit against the harm. Let us weigh the results not as of today, but as of tomorrow. Paternalism in government has always through all history, proven a flat failure. Rome employed it in the last days of its existence. Mussolini tried it in Italy, and Hitler in Germany.

THERE ARE OTHER DICTATORS whose time will come as sure as the sun shines. I do not believe the people will submit.

### DINAH SHORE HEARD IN NEW RADIO SHOW

Dinah Shore, the G. "Gee-Whizz," has returned to the air with her own show, after touring the European war theater. She is heard over Station WLW on Thursdays at 7:30 p. m., CWI.

permanently to dictatorship or bureaucracy, either here or abroad. I repeat, let us weigh these issues carefully. There is plenty of room for differences of opinion but let us think calmly and make sure that our vote will be cast for the best interest of ourselves and our children and of the future. Do not permit anybody to influence your decision, your judgement, by the promise of office or temporary financial gain.

DURING THIS ELECTION LET us listen calmly to all arguments and balance and weigh these arguments always with the facts that you know. This is an age of confusion of statement and contrary statement, of charges and denials, and denials and charges. It is an age when there is much chaff and little wheat, but the intelligent voter will have no trouble in putting two and two together. If he is a farmer, he will know why he could not get sufficient farm implements for his farm. If he is a businessman, he will know why he had to waste one-third of his time trying to live up to bureaucratic edicts. If he is a laboring man, he will know why he has been inconvenienced and up against unnecessary hardship. He will have some experience with the high cost of living. He knows something of the cost of pluses and lend leasers.

The Shelby Cycle Company has been given the go-ahead sign on the manufacture of bicycles and production will get under way

this year, company officials state. Bicycle retooling was completed two weeks ago and there are no longer any restrictions on who may buy one, provided it can be found. Production is to be confined to adult bicycles.
