

## Doings in Congress

By Cong. Wm. Lema

How much longer will we permit the pencil-pushing bureaucracy to abuse our patience—to insult our intelligence? We have just wasted weeks trying to come to grips with the absurd rules and regulations of the Treasury Department in making out our tax returns. We are now compelled to pay \$2,000,000 to experts to prepare a tax return twice a year. In addition, a billion dollars' worth of manpower is wasted.

The trouble is Congress has permitted the bureaucrats to supplant the nation's laws. Ever since I have been a Member of Congress I have insisted that Congress write the laws and that the bureaucracy should not be seen or heard. I am glad that at last Congress and the public are beginning to realize the danger of government by bureaucracy.

Congress has already named the bureaucracy—it has made it civil. I did my full share toward that. When I returned to Congress, bureaucracy would add to the crest of the wave. It threatened to "crack down" on the public. It threatened to "crack down" on the laborer, the small businessman who refused to accept the yoke. It was bold, arrogant, belligerent, brawny, bawling, and bawling. It was the hand of the Hendersons, the Joseph Weylers and scores of others who walked the halls of Congress. But there is much more to be done. We must rewrite and simplify the nation's entire tax system.

Not only is our time wasted in preparing the tax returns, but some of the money is squandered and wasted. We are taxing ourselves \$42,000,000,000 this year. That is \$42 for every mile since the day that Christ was born. In addition, we have already plunged the nation 163 billion dollars into the debt. More than that and we will be over 338 billion dollars in debt by 1948. All this money was never there and never could be so efficiently and honestly by one generation—not even by a score of generations.

President should not ask for more taxes. He should see that the money received from the tax is used for the benefit of the starving people of Europe, and especially the starving children of France, Belgium, Holland and Poland. We are under no obligation to feed the lounge lizard who sits at the end of the bar and refuses to work.

We are taxed \$1,350,000,000 so that the International WPA can give away farm machinery—machinery that our own farmers are asked to do you know. The waste of thousands of tractors, binders, mowers, combines, harrows, etc., are being given to foreign people who do not even know how to use them, while our farmers are compelled to buy second-hand farm implements. No wonder that recent elections show that bureaucracy and waste are definitely on the way out.

## Presbyterian Church

### Reopened Last Sunday

After being closed for five Sundays for redecorating, the Presbyterian church held regular services Sunday. The clerk of the session had the permanent church record there to receive the signatures of all who attended this first Sunday service after the church was reopened. The church was placed on its register and general statement was expressed with the changed appearance of the auditorium.

## MISSING

Mr. and Mrs. E. P. Smith of Shelby have received a telegram from the War Department stating that their son, First Lieutenant Reginald Smith, was missing in action over Denmark on February 10.

Lieut. Smith was a pilot of a Flying Fortress, a B-17, and had been serving overseas since last December. He had received an air service medal and two oak leaf clusters for his services. He was a member of the Polish Air Force of West High Street, Plymouth.

## RECEIVES AWARD

Newport News, Va., March 11—Cpl. Mary H. Dick of Plymouth, Ohio, was honored at WAC Day recently. She was awarded the Good Conduct Ribbon. The ribbon is awarded for exemplary behavior, efficiency and devotion to duty, faithfulness and excellent performance of duty, and conduct worthy of commendation.

In civilian life, Cpl. Dick was a defense worker but as a member of the Transportation Corps at Newport News, she is in the service of the United States.

## School Operetta To Be Given March 23

Tickets are now on sale for the operetta, "H. R. H. Miss Jones," which is to be given by the H. R. H. department under the direction of Mrs. Dorothy Jump, Thursday, March 23, at 8:00 o'clock.

With a cast of over fifty persons, H. R. H. Miss Jones is a delightful play comedy with a light-hearted attractive music which is guaranteed to charm.

The second grade Toy Band will play some instrumental numbers as a prelude.

Ticket sale is under direction of Evelyn Fredmore.

## NEWS FROM OUR BOYS IN SERVICE

In the Navy  
Tom Moore, son of Mr. and Mrs. Philip Moore, James Fetter, son of Mr. and Mrs. L. R. Fetter, Sid Thomas, son of Mr. and Mrs. P. Thomas, and Quentin Ream, son of Mr. and Mrs. Quentin Ream, have all enlisted in the Navy and expect to leave Cleveland on the 28th. All the boys are members of this year's graduation class.

## More Boys Go

Former residents of Plymouth who have been inducted for service include Robert Shaul, Manville, who left for England; Donald Becker, son of Mr. and Mrs. Alton Becker of Plymouth, and Mr. Shaul is a U.S. Marine. Donald Becker is a U.S. Marine. The group arriving for examination. Passing the exam, he chose the navy, while Mr. Tilson selected the army.

## Plymouth Boys Meet Somewhere in Italy

After almost two years overseas, two local boys met in Italy. The last letter received by Mr. and Mrs. Howard Smith from their son, Cpl. Ben Smith, says: "Well, I know you'll be glad to meet that Dick Major and I finally met. After receiving several telephone calls from him, I asked for a pass and then left for the city yesterday (Feb. 18). Once again I was fortunate in securing a ride all the way and back with one of our drivers. Otherwise, I would have had to hitchhike. I finally located him. The trip was a long one, but I finally met and I really enjoyed myself. Likewise, I believe Dick did. I'm happy to report that he is looking after himself and is enjoying the best of health. However, I don't believe he has added a pound in weight since he left. But, of course, that's natural for Dick. For the most part we just sit around reminiscing. He was sent to learn the language and all the other fellows. I'm afraid, however, my information on that score is a little out of date. Before he gave me several copies of Life and the Cleveland Plain Dealer, and last but not least, some copies of the Evening Post. Dick and I hope to meet again soon. At the least, we can usually contact one another via telephone."

In civilian life, Cpl. Dick was a defense worker but as a member of the Transportation Corps at Newport News, she is in the service of the United States.

## Farmers Protest In Columbus

A delegation of 25 farmers from nine Ohio counties, protesting an OPA order requiring farm owners to obtain non-binary gas coupons from local AAA county militemen, are considering future plans.

The delegation appeared Monday at the office of Attorney General Thomas J. Herbert, to protest the new requirement as "another move to provide AAA jobs."

The chief spokesman for the delegation was H. H. Packler, chairman of the Ohio wheat marketing quota protest association and O. L. Hart, president of the Darke County Farmers Union, represented the farm group.

The state advised the farmers, however, that it had no authority in the matter. Packler said the AAA was "incompetent, inefficient and unaccountable." He ordered the AAA to "provide them selves with jobs" and said the AAA never "would go to the A. A. A. for gasoline."

## BUS OVERTURNS

A bus loaded with 33 passengers skidded on the icy pavement of Route 30, three miles west of Crestline Tuesday afternoon, overturning, injuring at least 20 of the passengers.

Thirteen of the passengers were hospitalized at the Emergency Hospital at Crestline. It was not believed their injuries were serious. Other passengers were given first aid and released. There were no fatalities.

The bus was enroute from Bucyrus to the Shelby Air Depot at Crestline when the accident occurred. It had been raining and the road had become icy.

## Lieut. John Fackler Makes Tour of London

Until you see one of those famous fog in London, you just haven't seen London with a fog like, writes Lt. John Fackler, who recently had a pass to London.

After describing his trip he states, "we visited Westminster Abbey. The place reeks with history. People are always coming and going to 600 A. D. There was a guide to take us through and he explained everything to us. They showed us the window of the window fragment had gone through. You could spend a full day in this place. The place is constructed of stone and has dozens of pillars in it. The lighting in it gives it sort of a quiet solemnity. The place is now being used to Buckingham Palace. This is a huge place. It is like a big park with the statue in the center. It is a beautiful white mansion with servants and guards running all over the place. The system we went to see the London Tower and the famous London Bridge. This Tower of London where they used to liquidate the undesirable. It was very dark and dreary and even smelled musty. There were a lot of people in the 10 Downing Street, and then on to Trafalgar Square. It was all very interesting and exciting. I spent a lot more time sight-seeing, but as you can imagine, our time was very limited.

After staying in a very nice hotel just off Piccadilly Circus, our big trouble was to find a decent place to stay where they didn't ask for money. I found a place called The I. I never saw so many different uniforms. Will write again soon.

## DIES IN SHELBY

Mrs. Harry Nelson, 52, Shelby, passed away at the Shelby Memorial hospital Sunday after a week's illness. Services were held Wednesday at the Dye funeral home and burial made in the Shelby cemetery. She is the mother of Mr. Howard Guthrie and is known locally.

## IN CLEVELAND HOSPITAL

Mrs. Park Mosier was removed this week from the Women's hospital to the St. John's hospital in Cleveland where she underwent an operation on Tuesday morning. Mrs. Mosier, who only recently spent the week-end in Plymouth, Mrs. Mosier will be confined to her bed for several months.

## SELL PROPERTY

Mr. and Mrs. John A. Root have sold their Sandusky street property to Mr. and Mrs. Alton Becker, who will take possession at a later date. Mr. and Mrs. George Eby are present tenants.

## Mrs. Doris A. Godding has received a cablegram from her husband, Cpl. Keith Godding, who he had landed safely in England.

Cpl. Godding is with headquarters office of the 44th medical group at the camp at Camp Maxey, Texas. He had been selected to take a special course in medical training. He was returned to the ranks.

## In the Army

Willis Barnett of near Tiro, left March 8 for induction into the army at Ft. Thomas, Ky. A recent card stated he was heading west for a camp.

## Returned to Rank

Pvt. William C. Ross, Jr. son of Mr. and Mrs. W. C. Ross of West Broadway, is now at Camp Maxey, Texas. He had been selected to take a special course in medical training. He was returned to the ranks.

## ENDORSE ALL GAS COUPONS

When you receive your new license plates, do not change your endorsement on a coupon, but draw a line through old license number on outside of book cover and insert new license number.

Inspectors are now in the field checking gas coupons, so your endorsement on a coupon is a warning you to have your license number and state of registration on each gas coupon, or you might lose your gasoline rationing.

## BROTHERHOOD MEETING

The next regular monthly meeting of the Lutheran Brotherhood will be held in the church annex on next Monday evening, March 20 at 7:30 P.M.

We had a fine attendance of 44 men at our last meeting and we invite you all back and ask you to bring a new member.

A good program and good eats will be provided.

## ILL WITH PNEUMONIA

Frank Davis is ill at the family home on West Broadway with an attack of pneumonia.

## IN HOSPITAL

George Griffith of Mansfield is a patient at the Mansfield Memorial hospital for a general check-up. He is the father of Mrs. Phillip Moore.

## CEILING PRICE ON STUMP

Information received from the Ohio Price Administration today that the ceiling price of Grade A or better maple syrup at \$3.50 per gallon. The price of maple syrup at \$2.10 per gallon, directly to domestic users. Further information can be obtained from the local War Price and Rationing board.

## A NEW DAUGHTER

Mr. and Mrs. Chester Ramsey of Mansfield announce the birth of a 7-1/2 lb. daughter, Linda Marie, Sunday morning at the Shelby Memorial hospital. Mrs. Ramsey is the former Ruth Hunter of Plymouth.

## IN HOSPITAL

Mrs. Josephine Bachrach was removed Thursday evening to the Shelby Memorial hospital for treatment in the Miller-McQuate ambulance. Her condition is reported to be improving.

## IRELANDS TO ENTERTAIN STOCKHOLDERS, EMPLOYEES

The Plymouth Electric Light and Power Company are entertaining their stockholders and employees at a theatre party next Monday evening at the Plymouth High school auditorium.

Edward Ramsey, proprietor of the Plymouth Electric Light and Power Company, is planning to stage a picture show. Mr. Ramsey is well equipped for movable movies and has had many such requests.

## UNDERGOES OPERATION

Clayton Clough was removed Saturday evening to the Miller-McQuate ambulance to the Mansfield General hospital for an appendicitis operation.

## UNDERGOES OPERATION

Donas Starks of Mansfield, son of Mr. and Mrs. George Starks of Trux street, Plymouth, underwent an operation for appendicitis Saturday morning at the Mansfield General hospital.

## Miss Nettie Ganong Dies At County Home

Miss Nettie Ganong, former resident of Plymouth, died at the Huron County Home, March 11, 1939, at the age of 84. Her funeral services will be held this afternoon from the Pink Funeral home at Willard, and burial will be made in Greenlawn cemetery, Plymouth.

Miss Ganong was 80 years old and has been gradually failing for several months. She was born at the County Home since March 1, the average of whom was 84, and she was a member of the Church of Christ in Holy Communion. The paper was well received and profitably discussed.

## RETURN TO DEPOT

Maxine Pratt and Helen Wills of Shelby have accepted positions at the Parcel Air Supply depot.

## ATTENDS CONFERENCE

Paul F. Lambertus attended the regular monthly ministerial conference of Lutheran ministers at the Mansfield Memorial hospital.

Rev. Lambertus presented a paper to the conference on the subject of "The Lutheran Church in the United States."

Rev. Lambertus is a member of the Lutheran Church in Holy Communion. The paper was well received and profitably discussed.

## SELL FARM PROPERTY

A deed recorded at the office of the Register of Deeds of Huron County, reveals the sale of a 78-acre farm in Huron town, near the intersection of U.S. 24 and U.S. 10, for \$10,000. This is a value of \$125 an acre. Much of the land, however, represents a large and valuable mineral area.

## Gifts of Books At Library

For the first time in its existence, the Plymouth Library can furnish upon request two volumes of early American paintings. The volume: Great American Paintings, selected and edited by John Walker and MacGill James, National Gallery of Art, Washington, D. C., was recently received by Miss Jessie Trauger, librarian, from Mrs. Amos Searle Whitney, as a gift, and is an autographed copy. The other volume, American Primitive Paintings, by John Lipman, was purchased from the Whitney fund.

Taken together, these two books form an outstanding contribution to the history of art in America. Both are essential volumes for the library of every student and lover of art.

American Primitive Painting is the first book to present the complete story of early American painting and is one of the most interesting chapters in the history of art in America.

The volume of Great American Paintings consists of 104 pictures chosen from among the foremost collections in America and is considered by Walker and James as the greatest in the history of American Painting. Both of the volumes are now open to the public.

## Other New Books

Nineteen new books for young people have arrived which were also purchased from the Whitney fund. The books, well in advance, have been made practically all of them.

Included in this group are Underdog, Undergrowth, Under Ten Commandments; Burna Surgeon, Dragonwyck; Ernie Pyle's Book, America, and others.

There are also some mystery stories by old favorites and several volumes on machines, a medical dictionary in America and a concordance. Attention is also called to the series of new maps showing where our boys are now fighting for victory.

You are invited to the library to share in these treasures.

## CLERKING

Mrs. Phelma Brown has accepted a part time clerkship at Crapline Store.

## FRANK ADELMAN RITES

Norwalk—Funeral services were held here Sunday afternoon for Frank Adelmann, filling station proprietor and former deputy sheriff of Huron county, who died Friday in the hospital at Bellevue.

Mr. Adelmann in connection with his filling station, operated a bus line for the delivery of the abandoned Lincoln car which he had sold that served Norwalk, Willard and Shelby. Mr. Adelmann was well known by many residents of Plymouth.

## STARTS EXTENSION JOB

Wilbur Just of Berlin Heights, left last week for Mahoning county where he will assume the position of county club agent and assistant agricultural extension agent. He is known in Plymouth.

## WAR HITS FREMONT!

Fremont, O.—Bernard J. Hawk, Ohio's youngest mayor, three Ross High school seniors and a city policeman are among the 102 Fremont men who will report for pre-draft training tests March 15. The teachers are John Titsworth, who if accepted, will make the third swimming coach and fifth basketball coach the school has to the services. Gordon Hart and Sylvester Kohr, both in the physical education department.

## GERMANS HOLD SCLILD

Norwalk—Mr. and Mrs. Harry Schild, who live south of Monroe, have been informed that their son, Harry, a member of the German Youth in Germany on Feb. 2 they were notified that he had been reported missing in action over France, on March 1.

He is a graduate of Monroeville High school and was inducted into service a year ago last August.

## DIVORCE GRANTED

Agnes Virginia McFadden and Duane W. McFadden, of Shelby, have been granted a divorce on grounds of neglect and cruelty. Plaintiff given custody of child and the separate building was sold by the court.

## Forest Park Hotel At Green Springs Is Sold

Fremont, O.—The Forest Park Hotel property at Green Springs, including 45 acres of land and a large building, was sold last week at a sheriff's sale to A. R. Taylor of Cincinnati for \$14,000.

The property had been involved in a court litigation since 1931 when the Western Reserve University filed a petition in common law against the Forest Park Hotel. The court ordered a judgment of \$20,000.

The new owner operates a system of health and mineral springs.

## GOES TO GEORGIA

Miss Edna Roberts left Friday for Ft. Benning, Ga., to be the guest of Lt. Charles Rhine.

## REMOVED HOME

Miss Ivy Lybarger was removed from the home of her father, Mr. and Mrs. W. C. Lybarger, at Shelby, to the home of her aunt on Fortner street, Cleveland, for medical attention.

## Jr.-Sr. Banquet Enjoyable Affair

Beneath a canopy of green and white streamers in the High school gymnasium, Saturday evening, the Junior Class arranged a rectangular banquet table as the guests of the Senior Class in the annual event known as the Junior-Senior banquet.

Covers were laid for forty-six guests with lighter tapens used for illumination and appointments carried out in green and white suggestive of St. Patrick's Day. A tempting menu prepared by the mothers of the Junior Class and faultlessly served by the Sophomore girls at 7 o'clock, was greatly enjoyed.

Paul Scott gave the address of welcome for the Juniors and Junior Marvin responded for the Seniors. Mrs. Jump spoke for the Seniors. The banquet was presided of a song by Jim Moore, the class prophecy by Gordon Seaver, and the Class Will by Beverly Neely.

After the tables were cleared away the group danced to Ray Bickel's music. The Juniors and Seniors were the guests of the evening. The affair was one of the highlights of the school year and a most enjoyable one for the Juniors and Seniors. The mothers of the Juniors and Seniors were the guests of the evening.

## SUIT FILED

Norwalk—The Colonial Finance Co. of Ohio corporation filed a foreclosure suit in common pleas court here against Ullie Sherman of Akron and Ruth Sherman, Willard. It is alleged that money due the plaintiff on a chattel mortgage transaction.

## FILES DIVORCE SUIT

Roger C. Homerick has sued Thelma Homerick for divorce. The marriage was contracted in Kniffen street, Greenwich, were married in 1938 at Paris, Ky., and have one child.

## REMOVED HOME

Mrs. Robert Macmillan and infant daughter, the Marjorie, Wednesday morning from the Willard hospital to the home of her parents, Mr. and Mrs. Thord Woodworth.

## ADMITTED TO HOSPITAL

Paul Vogel of Celeryville was admitted Tuesday to the Willard hospital for treatment. He is the brother of Clarence Vogel of Plymouth.

## FRACTURES HIP

Mrs. Daisy Clark and her husband, the misfortune, fell on the slippery sidewalks in front of the Shelby Telephone office Tuesday morning and fractured her hip. She is receiving treatment at the Shelby Memorial hospital.

Mrs. Clark is a niece of Mrs. Josie Bachrach.

## BUY BUILDING

Claude and George Bough of Shelby have purchased the building of Pearl Wade and Jack Morris for an investment. The State theatre and fractured her hip. She is receiving treatment at the Shelby Memorial hospital.

Mrs. Clark is a niece of Mrs. Josie Bachrach.

## GIRL SCOUTS HONOR COURT

The general public is invited to attend the Court of Honor of the Plymouth Girl Scouts next Tuesday evening at the Methodist church. The time is set for 7:30 and a speaker is to be elected. The various awards and merit badges will be presented to the Girl Scouts. The speaker will be Miss Evelyn Cunningham are co-sponsors.

## MORE SIGN UP

Wednesday morning the following young men from Plymouth and the surrounding area are signing up for the Navy: James Crockett, George Shaffer, Dan Kirkpatrick and Pete Ruckman. This group will leave for the Coast of Honor of the 17-year-old class.

## REJECTED

Four weeks after taking his physical examination for the army, David Bachrach received his certificate and was told he had been placed in 4-F.

## Miss Nettie Motley and Mrs. J. W. McIntire were Friday evening the guests of Mrs. Nettie Oates of Shelby.

## REMOVED HOME

Miss Ivy Lybarger was removed from the home of her father, Mr. and Mrs. W. C. Lybarger, at Shelby, to the home of her aunt on Fortner street, Cleveland, for medical attention.

# Immense Task of Soil Rebuilding Faces Managers of Nation's Six Million Farms

## Land Being Mined by Excessive Cropping Will Need Fertilizer

American farmers face the most gigantic soil rebuilding job in all history when World War II is fought to a successful conclusion.

That is the considered opinion of farm economists, soil conservation experts and leading agronomists of state agricultural colleges throughout the country.

What this job will cost, no one knows yet, but it will be considerably above the \$20 to \$30 million dollar expenditure farmers have been making for fertilizer in recent years. Virtually all of the nation's 6,000,000 farms will need serious attention.

Two major reasons are cited by soil experts for this situation:

1—War-time crop goals necessary to produce foodstuffs, meat, dairy products, oil and fiber crops for victory, are eating up the soil's resources of nitrogen, phosphorus and potash much faster than they can be replaced today. Steps to correct this must be taken immediately the war crisis is over.

2—The long-range job of soil conservation must be stepped up. Big-scale operations can be postponed no longer. The "fifth column" attacks of erosion are becoming more menacingly serious. Wasteful farming practices over a century and a half have squandered precious topsoil to a dangerous degree.

Farmers recognize that the present wartime drain on their soils' fertility level is a necessary contribution to victory, but they should bear in mind the imperative fact that wealth borrowed from the soil to help win this war, must be repaid later on.

Dr. George D. Searns, head of the agronomy department of Purdue university, summed things up when he said:

"Farmers in the Middle West and elsewhere throughout the nation are making a sacrifice in the war production program to an extent not fully realized by the world. Soils that have had to produce war crops by fertility exhaustion practices will not have dividends to pay after the war, but will require more costly taxation in the form of fertilizers. In reality, farmers are in the manufacturing business, the same as munitions makers, or steel producers. They are turning out essential products for our armed forces. They are manufacturing foods, fibers and oils out of the raw materials of the soil—the nitrogen, phosphorus, potash and lime.

"Fortunately all our soils are not exhausted of their inherited riches. But exhaustion is on the march with our best soils, and we face a future where these raw materials must be added to the soils as fertilizers to restore them to the past. Unless we do this, the productivity of the soil will sink to a dangerous level.

Concerning the future outlook, he said:

"Our war debt won't be only a matter of taxes and maling bones. Our farmers are and will be in a bind because fertilizer materials are scarce. But crops must be made on the 'fat' of the soils. This means that a farmer of the future will have the handicap of a more expensive soil and smaller crop yields to pay the taxes that will follow this war."

Tremendous Drain.

Just how big a drain on the soil's fertility resources does this extra crop production impose? The answer is plenty! Take one single crop—corn. In 1941, agronomists estimate that the 1941 corn crop in midwestern states removed 2,445,494,780 pounds of nitrogen, phosphorus and potash from the soil. Increasing wartime yields boosted this tax to 3,083,123,334 pounds in 1942 and 3,227,303,770 pounds in 1943.

Large as this removal was, it represents but a portion of the fertility loss from a single grain. Add to it the fertility drain caused by producing huge yields of soybeans, beans, potatoes, alfalfa, clover, oats and other crops and you have some idea of the depreciation of fertility resources. But production is the whole story, either, for the job of producing livestock and dairy products requires heavy amounts of plant food, too.

The plain fact is that every time a crop is harvested and hauled to market, or livestock are shipped to a butcher's yard, some of the farm's fertility goes with them. Those essential elements, nitrogen, phosphorus and potash, have been drawn out of the soil by the plants that grew on it. The bigger the harvest, the more the crop, the more vital minerals are extracted. Ordinarily, much of these elements is replaced by rotation, fallowing or application of fertilizers, but during these war years when every field must be made to yield to the limit, there is an annual loss, also, the scarcity of fertilizers, and shortage of help and machinery have conspired to impoverish the farmer's land.

There is still another important factor in this present soil-exhausting problem. That is the matter of

phosphorus and potassium. In various compounds, have been drawn out of the soil by the plants that grew on it. The bigger the harvest, the more the crop, the more vital minerals are extracted. Ordinarily, much of these elements is replaced by rotation, fallowing or application of fertilizers, but during these war years when every field must be made to yield to the limit, there is an annual loss, also, the scarcity of fertilizers, and shortage of help and machinery have conspired to impoverish the farmer's land.

Harvested crops rank next in depleting the soil and are in normal years expenditures for taking out 20 to 30 pounds of nitrogen, 100,000 pounds of phosphorus and 1,300,000 tons of potash.

Nearly a third of the fertile topsoil of American farms has been lost due to erosion, floods and the damaging effects of overcropping, according to a statement issued by the Middle West Soil Improvement Committee.

Six Inches of Topsoil.

"A century and a half ago," says the statement, "the topsoil spread over an inch of topsoil spread over the entire United States. To-

day this averages only six inches in depth.

"The present war emergency, as well as the future of American agriculture itself calls for a determined fight against the forces of soil depletion. The effectiveness of the individual farmer's soil management plan in wartime as well as in the peace era, to follow, can be aided by the cooperation of agronomists at state agricultural colleges and experiment stations. Through research and experimentation over a long span of years, these experts have developed information concerning fertilizer needs for various crops and soils that is helpful to the farmer who is striving to rebuild his soil's productivity."

In combating the destructive effects of erosion, individual farmers and organized agriculture are confronted by a steady, Pandemonium. Erosion's damage is gradual and in the first stages, barely noticeable. But once it gains headway, wind and rain not only carry away valuable topsoil, but also remove needed fertilizing elements such as nitrogen, phosphorus and potash.

Conservation methods are the surest means of reducing these losses of valuable topsoil and plant nutrients. It has been found that soils having a cover crop suffer only a fraction of the losses from erosion that other farm areas experience. Not only does grass and legumes provide a protective vegetative cover for holding topsoil in place and furnish a balanced ration for farm animals, but they promote nitrogen fixation, improve the soil tilth and help increase crop yields following in the rotation. This is particularly true where adequate fertilization is undertaken.

Fortunately the soil replenishment job is in the hands of virtually every American farmer.

War bonds now that farm cash income is at the highest level in history and farm debt at the lowest point in many years, can provide the ready cash to pay for the purchase of nitrogen, phosphorus and potash needed to restore the fertility level of the soil.

"It is not too early to begin planning for this agricultural reconstruction job, any more than it is premature to present lay plans for future political and economic peace," a statement by the Middle West Soil Improvement Committee concludes.

For it is becoming increasingly clear that the whole future of the security will rest on the productivity of the soil. While every encouragement will be given to the farmer by the federal government and by state agricultural agencies, the major responsibility for getting the job done will rest on the shoulders of individual farmers.

By earmarking part of present war bond purchases now for peacetime soil rebuilding expenditures, farmers can be ready when the materials and manpower become readily available in the postwar era."

Once William Allen White was attending a Democratic national convention . . . A Senator, smiling, announced: "In looking over the program, I fall to recommending my clearest, and so I shall call upon my good friend, William Allen White, to open the convention with a prayer."

White rose. Stabbing the Senator with a glare, he screamed: "You will have to excuse me, I'm a little out of my element, and the Lord is not in the house!"

Robert Ripley's neighbor reports that Ripley is the researcher on it. Herman, came from a Jewish doctor, Herman Epstein, of Tyrol, Austria . . . Goering's father was Goering's German name. A widower, who couldn't take along his infant son . . . he boarded him with Dr. Epstein . . . The physician raised the boy—sent him through school in Bavaria and paid the tuition until he graduated as a lieutenant . . . Dr. Epstein passed on to 1925 . . . No. 1 Nazi Goering attended the funeral . . . When he entered the synagogue, he paused at the door and asked if he should wear or remove his hat . . . Ripley adds: "In case you didn't know, the name Winchell in German means diving rod, the instrument that detects the truth."

"See, sir," was the reply, "I wish I had your troubles!"

Bigtown Murals: At about 8:30 the other Monday night (during a local rainstorm) a packed Astoria Avenue theatre stopped at 128th Street. The conductor got out—went to a bar and grill—ordered two sandwiches and a beer—while the passengers waited 20 minutes . . . The newswire theater in the Grand Central Station. It features a clock to the right of the screen. The clock is set two minutes fast—so spectators won't miss trains . . . The clock at the near-by Commodore Hotel bar is set three minutes ahead . . . Indicating that you can get away from a newswire sixty seconds sooner than you can part from a drink.

The defacing of St. Patrick's Cathedral and other churches by some crackpot reminds us of what happened in Paris at the Place de la Concorde when the Nazis marched in . . . Ten German army bands held a concert and 8,000 Frenchmen were forced to assemble . . . The clock on the microphone the same place was asked, "Who doesn't speak German?" The whole crowd raised their hands, and a picture was taken . . . What showed up in South America via the Goebbels propaganda machine—with this caption: "French crowds acclaiming the German army in Paris with 'Kaisers' salute." Denies this incident as those worshipping shrines as the job of those desperately trying to cause disunity and trouble.

The Wireless: "The Song of Bernadette," so beautiful to read and see, suffers from the slow and the slow. It comes to the ears as a hymn, which it never is. The west coast comes "loosed" by you dirty with their jibes at California's music . . . What you might call house-organ comedy, strictly for the family . . . One coat announcer got a mouthful of eggs, and it came out "Giddy. Giddy. Giddy. Giddy."

The guttural of the month was uttered by a Berlin radio expert named Von Hammer, who whinnied: "The German Army is using unimmaculate military tactics!"

Fulton Lewis' ball at certain congressional under-the-belters was uttered by John B. Kennedy.

It was also uttered in slugging back at them.

Quotation Marksmanship: Ethel Smith, she lit the light of his life, but it turned into an awful glare.

Amorse Pierce: Woman would be more charming if one could fall into her arms without falling into her hands . . . Eleanor Roosevelt: No one can make you feel inferior without your consent . . . Mame Delany: A coquette is a woman without a heart, who makes a fool of a man who has no head . . . D. R. Henderson: The V for Victory is only half the V for Work . . . Christopher Mandy: There is no answer for me to say, but your eyes keep interrupting me . . . R. Lytton: A stiff man, starved with self-esteem . . . Gerry Moore: He sweeps women off their feet—A Beau Brummel.

664 Question: The President, they say, was asked (by a reporter) to name the member of the United Nations he considered the most important ally . . . "Is it Great Britain, China or Russia?"

"I'll ask you one," FDR said, "Which is the most important leg on a three-legged stool?"

Once William Allen White was attending a Democratic national convention . . . A Senator, smiling, announced: "In looking over the program, I fall to recommending my clearest, and so I shall call upon my good friend, William Allen White, to open the convention with a prayer."

White rose. Stabbing the Senator with a glare, he screamed: "You will have to excuse me, I'm a little out of my element, and the Lord is not in the house!"

## Jitters in Japan

By Joseph Newman

(CWU Feature—Through special arrangement with The American Magazine.)

Japan is getting the jitters. We have it no less an authority than Emperor Hirohito and his No. 1 war lord, General Hideki Tojo. Hirohito has told his pugnacious people the outlook for Japan is now "truly grave," and Tojo underscored the divine insight of the god-emperor by adding that the war situation is "very complicated."

This is the customary Japanese manner of speaking by indirection, is another way of saying: "The Yanks are coming." And the Japanese man in the street, whether he shudders at the war or wears the traditional kimono or his wooden clogs and traditional kimonos and his pinching leather shoes and tight-fitting sack coats copied from his occidental enemies, knows what that means. It means that the despised Yanks are on their way to the heart of the Japanese Empire—and that they're coming with skyfuls of bombs for the industrial nerve center from which the fierce and destructive spread by the Japanese throughout Asia and the Pacific.

The Japanese, far better than their conquerors, know just how vulnerable they are. They know that once their outer rim of defense is cracked, the heart of the empire will be exposed to a devastating blow. That's why the Japanese, in their opening stages of war, pushed as hard and as fast as they could go to the north, south, east, and west, so as to shove the Americans from all bombing bases within reach of the main home islands.

And that's why, now that the outer rim is crumbling, Hirohito, Tojo, and the shuffling Japanese man in the street are very unhappy. They have heard what round-the-clock bombing has done to Berlin, Hamburg, Essen, Frankfurt, and other industrial centers of their retreating German partner. They know, as do Americans who have lived in Japan, for any length of time, that the six big industrial cities of Japan will burn as fast as—if not faster and more furiously than—their Nazi equivalents in Germany.

**Most Vulnerable Country.** The six key centers are Tokyo, Osaka, Nagoya, Kyoto, Yokohama, and Kobe. I have had a good look at all of them—the industrial hub of Japan—and I was often impressed by the thought of how quickly Japan could be snuffed out as a world power by igniting the bombs, spreading fire-traps from the air. A good, stiff wind, which invariably blew over these coastal centers from the sea, strengthened this thought and suggested how nature, combined with feverish, careless construction of these cities served to make Japan the most vulnerable country in the world.

The construction was careless because the Japanese had neither the time nor the money nor the desire to change the basic layout of their cities from a feudal to a modern one.

Thus there was a mishmash of sprawling factories among the slimy, wooden, hostile houses packed tightly together in areas through which there are often only one alley or footpath instead of paved streets. After the devastating earthquake and fire of 1923 some streets were enlarged and some modern innovations were introduced. But this was limited to the business sections of Tokyo and Yokohama.

The layout and structure of the greater part of the Japanese capital and the key eastern port of the country are about as primitive as they were 2,600 years ago.

In Nagoya, Kyoto, Kobe and Osaka conditions are similar to those of Tokyo and Yokohama. The downtown business areas are full of concrete and steel, but the larger sections of the cities, where most of the homes and many of the factories are located, are covered with a forest of wooden boxes, which millions of Japanese live in. So that even the fire-proof structures are trapped in the forests of wood and paper houses which, when touched off by American bombs, will turn into infernos.

The heavy concentration of industry and other military objectives in the six leading cities provides something of a bomber's dream.

**Fifty of Targets.** If he comes from the east and flies westward over the main island of Honshu toward China, as the Douglases did, the first target he will see in his bombights will be Yokohama. Here the principal targets are the harbor, one of the two largest in the country, shipbuilding yards, refineries, metal, machine-tool and chemical plants, textile and rubber mills, and an airport.

Washington, D. C.

**LATEST ON CIVILIAN GOODS.** The Truman committee is about to issue a report which will be good news to manufacturers, to say nothing of the housewife who has been struggling along with a worn-out refrigerator, no washing machine and an electric iron that blows out fuses.

The Truman committee will recommend that the War Production board go much further than the army has been willing in restoring production of civilian goods. The committee will not urge anything near unlimited production, but it will point out the following important facts:

(1) War contracts are being cancelled at an increasing rate. The war department cancelled 193 millions in contracts as of January 31, while the navy cancelled 2½ billions up to February 1. This means more factories and more men available for civilian production.

(2) Tremendous stockpiles of steel and other materials have been accumulated—far more than can be used for the war. Already aluminum plants with a capacity of a half-billion pounds a year have been closed because the supply of aluminum is so great.

(3) The military was slow in curtailing civilian production. Now it is slow in letting the country get back to civilian production.

Therefore, the Truman committee recommends that while we cannot "soon resume full-scale civilian production," we can produce limited quantities of a few scarce additional items classified as essential.

**SOME REVEALING FIGURES.** The impending Truman committee report will reveal that 199 big corporations have 70 per cent of all the war orders; furthermore, these 100 first companies of the nation had only 30 per cent of the country's business before the war—and the Roosevelt administration was supposed to help the little fellow!

Nozman Littell, hard-hitting assistant attorney general, will get a boost from the Truman committee by hurrying up government payments to the farmers and others whose land was seized by the army and navy. The committee will recommend that all government purchase of land be handled by Littell.

American labor doesn't look so bad when contrasted with British labor. The Truman committee will find, despite the national service act, long operating in England, there were 1,638 English strikes involving a manpower loss of 1,576,000 man-days. Taking into account the larger population of this country, U. S. strikes were only .025 per cent worse than England—even without a national service act.

President Roosevelt didn't know it, but the Truman committee had prepared some devastating evidence supporting him on one of the most controversial phases of the tax bill—renegotiations of war contracts to recapture excess war profits.

Nevertheless, all the members of the committee except Mead of New York, Kilgore of West Virginia and Walgren of Washington voted to override his tax bill veto.

**LOUIS BROMFIELD, THE PROPHECY.** Secretary of Agriculture Claude Wickard is shaking over a letter he has received from the Reader's Digest, signed by William Hard Jr., associate editor. It is the last, peevish note of a correspondence begun last summer when the Digest published the Louis Bromfield article, "We Aren't Going to Have Enough to Eat."

At the time, Wickard wrote to the Digest, refuting Novelist Bromfield, offering to write an article to tell the other side of the story and saying we would have plenty to eat. But the Digest declined to hear the other side.

They confided privately to Bromfield that they were embarrassed by reactions to his story, but publicly they stood on his gloomy forecast. He had said: "I would rather not think about next February. By then, most of our people will be living on a diet well below the nutrition level."

February has now come and gone. People are eating well despite Bromfield. American farmers have written the refutation. Actually, we have a greater accumulation of stored foodstuffs than at any time in his- tory.

Wickard couldn't resist the temptation to rib the Digest, and recently sent to Editor Dewitt Wallace a few satirical lines about the overflowing granary. In reply, he received merely a short note from William Hard Jr., saying, "Mr. Wallace is home, fighting off a cold."

## PATTERNS SEWING CIRCLE

1947

A BIG pink appliqued flower on a dark blue cross-bar cotton frock trimmed with contrasting ric-rac sounds pretty, doesn't it? It is—and can be made in so many lovely color combinations!

Barbara Bell Pattern No. 1947 is in sizes 11, 12, 13, 14, 15, 16 and 18. Size 12 short sleeves, requires 3½ yards of 36-inch material; 8 yards ric-rac trim.

Barbara Bell Pattern No. 1943 is in sizes 4, 4½, 5, 6, 7, 8 and 9. Size 4 requires 2½ yards of 36 or 38-inch material.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

SEWING CIRCLE PATTERN DEPT. 536 South Wells St. Chicago

Enclose 30 cents in coins for each pattern desired.

Pattern No. .... Size .....

## ASK ME ANOTHER?

A General Quiz

The Questions

1. How far is the Panama canal from the equator?
2. By what name is Vissarovich Daugavpils now known?
3. In the First World war it was "zero hour." What is it now called?
4. A standard 24-foot parachute has an area of how many square yards?
5. The power of a number is what?
6. Where was the first real bicycle made?
7. When the pilot of a torpedo plane speaks of "feathers," to what does he refer?
8. Peter II, young king of Yugoslavia, is the son of former Princess Mary of what country?
9. What is the present name of Siam?
10. Who was commander-in-chief of the United States army and navy during the Spanish-American war?

The Answers

1. It is 600 miles.
2. Stalin.
3. "H" hour.
4. Seventy.
5. The product that results from multiplying a number by itself.
6. Scotland.
7. To the wakes made by submarine periscopes.
8. Rumania.
9. Thailand.
10. William McKinley.

Colossus of Rhodes

The Colossus of Rhodes, Greece, was an immense bronze statue of Apollo, the sun god, called the most perfect model of a human form ever built. It was so large that few men were big enough to clasp its huge thumb in their arms. Topped over by an earthquake, it lay for centuries and in 672 A. D. was sold by the conquering Arabs for junk.

**Today as Always...**  
**MORE FARM TRACTORS ARE EQUIPPED with Firestone**  
**GROUND GRIP TIRES**  
**THAN WITH ANY OTHER MAKE**

**WHEN** a product wins and holds customer-preference year in and year out you know its leadership is established on merit. On every score, by every yardstick of value, it has met and passed the test of critical public appraisal.

Since Firestone developed the first practical pneumatic tractor tire 12 years ago and put the farm on rubber, farmers have shown an ever-increasing preference for Firestone Ground Grip Tires. Their point-for-point superiority is known wherever farm tractors roll. That's why farmers, today as always, use more Firestone Ground Grip Tractor Tires than any other make.

**GREATER TRACTION**  
**BETTER CLEANING**  
**LONGER WEAR**

Listen to the Voice of Firestone with Richard Crooks and the Firestone Symphony Orchestra, under the direction of Howard Barlow, Monday evenings, over N. B. C.

Mr. and Mrs. L. J. Vansdale of

Newark were Sunday guests in the home of Mr. and Mrs. Guy Vansdale.  
Sunday guests at the home of Mr. and Mrs. F. J. Heller and family were Mr. and Mrs. Jay Hartman of Mansfield and Mr. and Mrs. A. F. Hull of Bucyrus.

## Shiloh School News

The seniors closed their magazine sale for Curtis Co. Friday. We wish to thank everyone who helped us during our drive.  
Friday, the Senior State Scholarship tests were given. Six seniors took the test. These were Sally Clark, Janice Black, Joan Hall, Charlotte Seaton, Betty Seaman and Joan Washburn.

**Eighth Grade News**  
The eighth graders are glad to see Donna Carpenter back in school. Seems like Donna got in a fight with the measles. Guess who won!

**Seventh Grade News**  
The seventh and eighth grade played basketball Friday. The final score was 7-1 in favor of the seventh grade.

**7th and 8th Gym**  
On Wednesday, March 8 in the activity period we began our tournament in basketball by having the seventh and eighth grade girls play against each other. The score was 20-3 in favor of the 8th grade. Although the 7th hasn't had the practice, the 8th has, they are doing quite well.

The captain of the 7th grade was Donna Iolan and the captain of the 8th grade was Jeanette Forger.

We want to congratulate the 7th grade on their fine sportsmanship.

**Girl Reserve News**  
On Friday evening, March 31st, the G. R. is having an April Fools Dance, at the school auditorium. There will be both round and square dancing.

Prices are 30c a piece, 50c a couple. No tickets will be sold at the door. Tickets can be bought from any junior or senior girl.

The is the first dance of the season, so we'll be looking for

ward to seeing you. Things we'd like to know:

If Jim ever got out of detention hall?

If Seaman, Hall and Black are still the "dancers" of physics?

What Raymond is always going to do for

If Don and Don are still a two some?

If Mr. Milley ever loses his tem-

If Dick is still carrying a torch for "Abe"?

If Seaman still has contact with "overseas"?

If Brooks will ever realize her ambition—30 words a minute.

**The Snapper!**  
I hear Audrey and Martha are still on good relations with Madison. Who was it who said Shiloh didn't like Madison?

Correction: Don's newest is Don Cleave. That was a misprint in last week's paper. Extra P. S. We just couldn't read it, Honey Chair—and we've had our glasses changed, too!

How many physics students escaped detention this week? And all cause someone said: "Are you kidding"?

Rumor has it that Mr. Milley was detained after putting the bus away that morning. 'Shut true, Prof?

Is it really true that Joan has lost interest in Plymouth? I never thought that would happen. Why?

Has anyone noticed how happy Miss Pettis has been the last couple of weeks? Know why? Bet Wood could tell you!

The seniors are having trouble finding a place to stay, when to go to Cleveland on their trip? Anyone wanta rent a telephone booth?

Anyone ever notice how the coach is attracted to student nurses? What happened to Pittsburgh, Coach?

**Bus In Accident**  
An automobile, driven by an employee of the Mansfield News-Journal and used to distribute copies of the News-Journal in this area of the county, collided with a Shiloh school bus, operated by W. W. Pittenger. The accident occurred at the junction of Gula-

rie and Kester roads, south of town. The News-Journal car was badly damaged, and the school bus will need considerable repair before it can be used again for hauling pupils. The mishap occurred Monday afternoon.

**Honor Society**  
The Shiloh high school is inaugurating an Honor Society, with initiations being held some time next week for those students

who are eligible. To achieve the honor of belonging to this society, a student must earn at least the equivalent of a B-average in class work. In addition, students must also display an active leadership in extra-curricular activities in the school. A total of 18 points are needed for membership. All of these may be earned in studies. Or a minimum of twelve may be earned in studies and the remainder in outside activities. Students

qualifying this semester for the society are: Marcelle Clark, Joan Hall, Joan Washburn, Janice Black, Harold Dugg, Betty Seaman, Raymond Wolf, Janice Black, Dean Wolford, Martha Lofland, Dorothy Guthrie, Jeanne Wialer, Betty Rose, Doris Garrett, Joan Guthrie, Kenneth Adams, Helen Whitcomb, Laura Rhodes, Robert Pockmeyer. The organization is in charge of Mrs. Huston, Miss Mayne, and Mr. Milley.

## A Letter From Jay Arnold

A Jay Arnold, SC, 2/c, is now an integral member of the amphibious forces of the United States Navy.

At the completion of his preliminary LST training at the amphibious training base, Camp Bradford, N. O., B. Norfolk, Va., he has been assigned to the crew of an LST for active service.

The LST is especially constructed for the transporting of troops and heavy equipment. It has a bow that can be opened when it comes into the beach, which enables men and equipment to land ready for action. This type of amphibious craft is as large as a destroyer, and is the largest of the amphibious ships capable of making landings on the beach.

Like the naval air force and the submarine service, the physical requirements of the amphibious forces are greater than those of other branches of the navy service. To qualify for assignment to any of the amphibious craft, a candidate must successfully complete a thorough and varied curriculum.

The amphibious force is one of the branches of the navy which is now playing an important role in carrying the attack to the enemy. In every landing that has been made to date, the amphibious force has carried the men and material into the beach, such is the quality of the training given to both officers and enlisted men, and the sturdiness of the craft which they operate.

Change of Address:  
Delphos A. Arnold, S. C. 2/c  
LST Crew 486  
ATB, Camp Bradford,  
Norfolk, Va.

Owing to censorship restrictions addresses of service men on duty in foreign countries, have to be omitted.

New Address:  
Harry H. Guthrie, AMM 3/c,  
VC, 94, Care Fleet P. M. C.,  
San Francisco, Calif.

Howard Mellick and son of Santa Monica, Calif. were overnight guests of Mr. and Mrs. E. H. Mellick, Monday.

**CLASS PARTY**  
The Royal Daughters Class will meet Friday evening, March 17th, at the home of Mrs. W. Pittenger.

**HIGHLY REPECTED CITIZEN CALLED**  
Mrs. Lettie Steubie Guthrie, widow of Frank Guthrie, died Monday evening at the Nebitt Rest home, after several years' illness.

She spent most of her life in this community. Mrs. Guthrie was born in Willard, March 22nd, 1868, and is the last member of the family.

Surviving are two sons, Harry and Charles Guthrie, both of Shiloh, and five grand-children. She was active as long as her health permitted. She was also a member of the WSCS, and one of its loyal supporters.

Funeral services will be held Thursday at 2:30, War Time, at the McQuate funeral home. Her pastor, Rev. E. H. Haines, will officiate. Burial will be made in Mt. Hope cemetery.

**DATE OF CLINIC**  
All ladies are requested to remember the Sewing Machine clinic which will be held in the town ship hall in Shiloh on Tuesday, March 21, beginning at 10 o'clock. There will be six machines, all

of which will be taken apart, cleaned and adjusted, and the parts replaced, at your honor. All are invited, whether you have a machine or none for demonstration.

The work will be under the supervision of Home Demonstration Extension Agents, Miss Mable Spray and C. B. Vanzant, Mansfield. Please bring a sack lunch and one cup. Coffee will be served.

**FAMILY HONOR SOLDIER**  
A family party for Hubert J. Hamman was held Saturday evening at the home of Mr. and Mrs. Dewey Hamman. Twenty-three members of the family, including his father, Charles Hamman, were present. Hubert left Sunday for Paris Island, S. C.

**NEW RESIDENTS**  
Ray Fauber and family have moved to the farm southwest of town, familiarly known as the Melick farm.

**MOVE NEAR MANSFIELD**  
Clifford Addins and family have moved from the farm of Mrs. Sylvia Bedick to a place near Mansfield. They left here Friday.

**RELATIVES AND FRIENDS AT DINNER**

A dinner at the home of Mr. & Mrs. Russell Dietz Sunday, was in honor of Russell, who left Monday forenoon for Ft. Knox, Ky. Those present were Mr. and Mrs. John Mathews and Bobbie Mathews of Elyria, Mr. Ethel Mathews of Wellington, Mr. & Mrs. Leonard Charles of Plymouth, Mr. and Mrs. Roy Heifner and daughter, Ruth Ellen, and Mr. and Mrs. W. Ford and two sons of this place.

**MRS. ARTZ DIED AT HOME IN THE EAST**  
Mrs. M. S. Moser received word of the death of Mrs. Jennie Artz at her home in Camden, N. J., on Saturday, March 11. She was the widow of Dr. J. L. Artz.

Dr. and Mrs. Artz maintained a summer home on Pettit street, where they spent many vacations until his death. They made many friends here, by entering into the community interests.

One sister survives. Funeral services were held at her home Wednesday, and burial was at Camden, N. J.

**SERVICES CLOSED THIS WEEK**  
Evangelistic services at the Christian church closed Wednesday evening of this week, after ten days of service. Rev. Kirby Smith of Science Hill, Ky., an evangelist, conducted the services. Each evening Christian churches and kind, surrounding communities were invited as guests. Union schools and Shiloh high school contributed music.

On Friday evening among those from Shiloh were Mr. and Mrs. W. Pittenger, Supt. W. H. Miley and eight high school pupils. Time providing music from this place were Betty Hammett, Charlotte Seaton, Avis Miller, Naomi Walford, Dean Wolford, Raymond Wolf, Wade Kinsell and Supt. W. H. Miley.

Churches represented were Congregational, Olivetree, Adario, Shelby, Franklin, Pleasant Valley, Greenview, Clearcreek and Mansfield. A good attendance for each evening was reported.

**PREPARING FOR VICTORY YEAR**  
John Swartz and Robert Wagner made a business trip to Hunt, N. Y., the first of this week. They went with a truck load of corn and returned with a load of seed potatoes.

**LEFT FOR ARMY**  
Clyde Miller was one of the boys that left on Monday for the army service. His mother, Mrs.

Hazel Myers, gave a dinner in his honor, Sunday. A number of relatives and friends were present.

**RECOVERING NICELY**  
The many friends of Mrs. Emma Champion will be pleased to learn that she is recovering from an attack of shingles, from which she has been suffering for the past ten days.

**BIRTHDAY PARTY**  
Mrs. E. P. Elliott entertained on Thursday afternoon in honor of her daughter, Miss Sylvia Bedick, sixteen little schoolmates and friends were made happy on the occasion. The children enjoyed the games and the lunch with appointments all in pink.

**DINNER PARTY**  
Mrs. E. J. Stevenson was one of thirty-five officers of the White Shrine which gave a dinner party for their High Priests, Thomas Hartman at Mansfield, Monday.

**IN HOSPITAL**  
Friends at this place received word that Mrs. Roy Bell of Ridgeport, had been admitted to Grace hospital, Columbus. She is suffering from a serious attack of arthritis in her shoulder. The Bell family were recent residents of Shiloh. Mrs. Bell is a sister of E. P. Elliott.

**CLUB ENTERTAINED**  
Mrs. Schuyler Zuckman and Mrs. Dwight Briggs entertained the Past Matron's Club at the Zuckman home Friday evening. The president, Mrs. E. J. Stevenson, was in charge. The club gave \$10 for a new ballot box for Angelus Chapter. The box will be white enamel and will match the large and small Bibles used in the chapter work.

A donation of \$2.50 was made for the purchase of a book for the Soldiers' hospital at Cambridge. Games were the social features, and St. Patrick's Day appointments were used in the luncheon.

Mr. and Mrs. Forest Marling & son of Crestline, and Mr. and Mrs. Leo Marling and son of Newark, were callers of Mrs. H. S. Marling on Tuesday.

**PROGRAM OF INTEREST**  
An interesting meeting was held by the WSCS of the Methodist church, when Miss Frances Shaffer, Mrs. S. L. Sibbett & Mrs. Carl Smith entertained at the church, Thursday. After the covered dish dinner at noon, the time was given for business and a program. The vice president, Mrs. P. D. Doughty, was in charge of routine business. Devotions were conducted by Mrs. E. R. Haines.

The society voted \$10 for the Red Cross and \$5.00 to the Holloway Deaconess home at Bridgeport, Ohio. Mrs. H. W. Huddleston gave a review of the third chapter of the mission study book, "Who Are Americans?" Mrs. Jesse Dickerson gave a talk on the subject, "The 76th Anniversary of the Founding of the Women's Foreign Missionary Society in the Methodist Church."

**CHURCH SERVICE**  
Supt. W. H. Miley conducted services at Pulaskyville Church Sunday forenoon. Mrs. Miley and children, Charles and Sandra, accompanied him. After the services they were dinner guests of the parents, Mr. and Mrs. J. F. Miley of Waldo.

**WELL KNOWN MAN AT HOSPITAL**  
Mr. and Mrs. John Lettner & son will live in the J. S. Shultz farm this summer. Mrs. Lettner and son moved from their home in Shelby to the farm on Tuesday.

Mrs. Lettner was seriously burned while employed at the Tube Works in Shelby four weeks ago. He has been a patient in the Shelby Memorial hospital since then and will probably remain for another four weeks.

**SHILOH METHODIST CHURCH**  
E. R. Haines, Minister  
Special services each evening at 8:00 o'clock (allow time) except Saturday.  
Sundays, 9:45 a. m. (allow time) Worship. Rev. Adams will speak. 10:45 a. m. (allow time) Church School. 8:00 p. m. Special service.

March 26 will change to War Time.

**LUTHERAN CHURCH**  
Sunday school at 10. Mrs. E. J. Stevenson, Supt.  
Public worship at 11:00. Choir practice Thurs. evening. Congregational meeting after church service.

**WHITE HALL CHURCH OF GOD**  
Rev. John Miller, Pastor  
Sunday school at 10. Chester Van Scoy, Supt.  
No preaching next Sunday. Prayer service Saturday eve.

Mrs. A. J. Miller is visiting relatives this week at Cleveland. Her grandson, Tom Saa, is spending a few days furlough at his home there.

Mrs. C. H. Long is ill at the Lakeside hospital at Cleveland.

Premier Phenol Resin Bonded Plywood is a number of layers of wood, on which the grains run at right angles to those layers above and below. These layers are bonded together with the plastic, Phenol Resin, which makes the "glue line" the strongest point. It's the new wood alloy used in Mosquito Bombardier and Assault Bombs. This will not warp, shrink or swell. It is unaffected by water, mud, ordinary hammer blows and is bacteria and vermin proof.

**It cannot be delaminated!**  
Phenol Resin Bonded Plywood (by laboratory tests) is light but 14 times more rigid and 8 times stronger than glued and nailed to rafters and studding (as our factory does it) than ordinary nailed sheathing. This construction with Premier glued-laminated rafters and studding, gives you the strongest, most rigid, storm proof and tightest building in large factory-made units that are light enough for boys and girls to handle at hand and place of uncrating and erecting. Don't judge by weight: study the construction.

See the Premier Streamlined Brooder Houses at our store now.

DON'T JUDGE BY WEIGHT! STUDY THE CONSTRUCTION

**OLD JUDGE SAYS...**

"Sorry Judge, my shipment of suspenders still hasn't come in. Some articles are mighty scarce these days. I don't get anywhere near as much as I could sell."

"With the war going on, Frank, we've got to expect those things. It's true of luxuries just as it is of necessities. Take whiskey, for example. There's a real shortage in that. It's to be expected when you realize there hasn't been a drop of it distilled in this country since way back in October, 1942."

"The only thing distillers have been making during that time is war alcohol for the Government. So, I wasn't surprised to find out bootlegging and black markets have sprung up around the country as a result of the dwindling supply. Our 13 years of prohibition proved that if folks can't get legal whiskey, they'll get black whiskey. Sure hope the shortage doesn't last too long. I'd hate to see this country turned over to the bootleggers again."

## PEAKING OF PORTS

By G. M. H. H.

Released by Western Newspaper Union.

THE interest shown by the armed services in almost every branch of sport is good evidence that Sgt. Joe Louis' exhibition tour to theaters of operation will prove to be one of the most popular shows yet staged by the army's special services division.

Sergeant Louis, king of the heavyweights, boxed before at least 1,000,000 soldiers during his recent five-month, 29,000-mile tour of more than 100 army posts. He was accompanied by his trusted coterie of five boxers and a trainer.

In addition to Joe, the group included Corp. Walker Edgar, better known as "Sugar" Ray Robinson, welterweight, to boxing Sam; Private George ("Jackie") Wilson,

HELPS REAL MOROLINE  
SCALDS  
PETROLEUM JELLY 80¢

SOUNDS say, happy, carefree and spring-like, doesn't it? A little red bird, big green leaves and nice, fat red cherries are all combined in a famous old quilt design. Make 30 blocks, each 16 inches square. Put big leaves of

THE hack saw will prove to be a handy tool in the modernizing of an old iron bed. With the aid of such a saw the cage-like bars at the foot may be cut off close to the cross bar at the top of the legs.

The head may also be lowered and crooks and projections also may be cut off.

When the bed has been cut down the head may be padded with cotton basted to muslin or with an old quilt. A slip cover may then be made to match the bedspread.

NOTE—This illustration is from BOOK 2, which also contains many other clearly illustrated ways to give your house a fresh start (in spirit) by using things you already have combined with ingenuity and a few inexpensive new materials. To get a copy of BOOK 2 send 15 cents direct to:

India's Sacred Cows  
Dairying in India hardly can be called efficient, with the average cow producing only 67½ gallons of milk per year. The average cow in Holland produces just 10 times as much, or 675 gallons a year. The United States average is 550 gallons per cow.

## Beware Coughs from common colds That Hang On

Cremolulson relieves promptly because it goes right to the seat of the trouble to help loosen and expel germs, soothe inflamed mucous membranes, and soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your doctor to sell you a bottle of Cremolulson with the understanding you must like the way it quickly silences the cough or you are to have your money back.

## CREMOLULSON

for Coughs, Chest Colds, Bronchitis

## GEE—SHE LOOKS OLD TODAY

YOU BET you show it when those cruel pains shoot through arms, neck, back or legs. Do something. Rub on Soretone Lintment. Get the instant relief of Soretone's cold heat action. Quickly Soretone acts to:

1. Dilate surface capillary blood vessels.
2. Check muscular cramps.
3. Enhance local circulation.
4. Help reduce local swelling.

Developed by the famous McKesson Laboratories, Soretone is a unique formula. Soretone contains methyl salicylate, a most effective pain-relieving agent. For fastest action, let dry, rub in again. There's only one Soretone—insist on it for Soretone results. 50¢. Big, long-lasting bottle, \$1.

**Enters Huron County**  
**Commissioner's Race**

A. E. Linsendoff of Norwalk has  
announced his candidacy for  
election to be held May 9th for  
nomination as Huron County Com-  
missioner on the Republican ticket  
and was recently filed by Mr. Lin-  
sendoff.

Residing at 8 Corwin St., Nor-  
walk, Mr. Linsendoff has lived in  
Norwalk for the past twenty-two  
years. A retired industrial engineer,  
well educated and of long  
practical experience, he is well  
known in business circles as pres-  
ident of the Linsendoff Manu-  
facturing Co. of Norwalk and as  
vice president of the Linsendoff  
Corporation of Chicago, until his  
retirement.

Prior to establishing his own  
successful manufacturing business  
in Norwalk, Mr. Linsendoff served  
in a responsible executive capacity  
for twelve years with one of the  
country's largest automobile  
wheel and axle manufacturing  
companies.

Since his retirement from busi-  
ness five years ago, Mr. Linsendoff  
has been active in civic and com-  
munity affairs. One outstanding  
phase of this activity is his work  
in William Defense, as commander  
of the Norwalk Citizens De-  
fense Corps, one of the finest  
groups of its kind in the state.

**PERSONALS**

**THE SHELBY BUILDING & LOAN CO.**  
SHELBY, OHIO

Mr. and Mrs. Dave Scrafield  
were business visitors in Attica  
Monday. Enroute home they called  
at the home of Joe Rallinger.  
Mrs. Mary Hul of Churubusco,  
Ind., is visiting her daughter, Mrs.  
B. R. Scott and family.

Mr. and Mrs. Robert Moore of  
Barberton were Sunday guests of  
the former's parents, Mr. and  
Mrs. Phillip Moore.

Karl Gleason of Cleveland visited  
the week-end with his mother,  
Mrs. Iva Gleason.  
Mrs. Helen Hoffman and daughters,  
Janice and Sue, were Mans-  
field visitors Saturday.

Tom Root returned to Colum-  
bus after spending several days  
between semesters. He is a stu-  
dent at Ohio State University.

**SOCIAL CIRCLE**  
**ENTERTAINED**  
Mrs. Ruth Ruckman entertain-  
ed the members of the Stella So-  
cial Circle at her home on Mul-  
berry street, Thursday afternoon.  
March 9. She was assisted by Mrs.  
Ingaborg Scott. There were 15 mem-  
bers present. The business meet-  
ing was directed by the vice presi-  
dent, Mrs. Lanier. The after-  
noon's entertainment was cards &  
refreshments. Delicious refreshments  
were served by the hostess.

The next meeting will be April  
13 at the home of Mrs. Margaret  
Pitzen, with Mrs. Laverda Trauger  
as her assistant.

**ALPHA GUILD**  
**MEETING**  
The Lutheran Alpha Guild will  
meet next Tuesday with Mrs.  
Bruce Myers of Franklin St., as  
hostess. Mrs. Jennie Hills and  
Mrs. Nellie Bevier.

**OBSERVES BIRTHDAY**  
Mrs. Alberta Hoffman was the  
guest of honor Sunday when she  
was entertained at dinner in the  
home of her daughter, Mrs. Helen  
Hoffman and family. The occasion  
marked her 76th birthday.

**GARDEN CLUB NOTICE**  
Members of the Plymouth Gar-  
den Club will meet Friday, Mar.  
23, at the home of Mrs. A. W.  
Bartholomew. Topic is: "Import-  
ance of plants" to be discussed by  
Rev. H. L. Bethel. Roll call is  
"Tid Bits."

**AT CLUB MEETING**  
Mrs. George Mittenbuhler at-  
tended the Triple Four Bridge  
Club meeting last Wednesday at  
the home of Mrs. Leonard Mor-  
ton of Shelby. Mrs. Mittenbuhler  
will be hostess at the next meet-  
ing.

**NONPAREIL**  
**CLASS MEETING**  
Members of the Nonpareil Class  
of the Methodist church will gath-  
er Monday for the March meet-  
ing at the home of Mrs. P. W.  
Thomson. Mrs. Lowery is the as-  
sisting hostess.

**TO ORGANIZE 4-H**  
**CLUB MEETING**  
Friday evening, March 24th at  
8:00 o'clock a meeting to organize  
a 4-H Club will be held at the  
home of Betty Ann Sam and Da-  
vid Hutchinson, west of town.  
Anyone interested in joining the

club is invited to attend the meet-  
ing.

**BIRTHDAY DINNER**  
A dinner, marking the 83rd  
birthday of Mrs. George Hatch,  
Monday evening at the home of  
her daughter, Mrs. Carl Hough  
and family. Mrs. Hatch's birthday  
fell on Saturday the evening of  
March 22. Mrs. Hatch was born  
March 22, 1855. Mrs. Hatch was  
observed Sunday. Miss Florence  
Danner was a dinner guest,  
while callers in the afternoon in-  
cluded Mr. and Mrs. Herbert Hat-  
ton and family of Willard, and  
Mrs. Harold Sams of Plymouth.

**BIRTHDAY DINNER**  
Mr. and Mrs. Halse Heath, Har-  
ry Pepp and Miss Leona Taylor  
motored to Columbus Sunday  
where they enjoyed a birthday  
dinner and the day in the home  
of Mrs. Grace Heath and family.  
Birthdays observed were those  
of Halse, Harry Kemp, Rene Cruz  
of Ohio State University, and a  
former classmate of Halse's, Miss  
Angela, Ind. Prof. Cur's home is  
in Honduras.

**LEGION AUXILIARY**  
**GIVE CONTRIBUTIONS**  
When the American Legion  
Auxiliary met Friday evening the  
group voted to contribute to the  
Red Cross, the Boy Scouts and  
the Presbyterian church, who are  
serving at the Crestline Canteen  
on the 29th.

They also announced that the  
Auxiliary will serve on the 18th,  
at the Crestline Canteen.

**FRIENDSHIP CLASS**  
**MEETING**  
The Methodist Friendship Class  
will meet Tuesday evening at the  
parsonage. Mrs. Haines, Mrs. Rose  
Weaver and Miss May Fleming are  
the hostesses. Devotions will  
be conducted by Mrs. H. Brooks  
and the entertainment committee  
is Mrs. Markley and Mrs. McFadden.

**FHA HOLD**  
**MARCH MEETING**  
Miss Milton June Johnson was  
hostess Monday evening for the  
March social meeting of the FHA  
club. The president, Verna Rae  
Smith, had charge and plans were  
made and discussed for the Moth-  
er-Daughter Tea in May and also  
the P. A. chapel at the school.  
Bingo and several other games  
were enjoyed. The next meeting  
will be held at the school house.  
Miss Johnson served a very nice  
lunch at the close of the meeting.

**KATHLEEN COLE WEDS**  
**WILLIS VANASDALE**  
Miss Kathleen Cole, daughter  
of Mr. and Mrs. George Cole of  
Tiro, and Willis Vanasdale, 3, 34,  
3/c, son of Mr. Guy Vanasdale,  
were united in marriage on Sat-  
urday evening, March 4, at 6:30  
o'clock.

The double ring ceremony was  
performed by Rev. P. C. Young,  
unit of the bride and the couple  
exchanged vows in a candle light  
ceremony.  
The groom has been serving in  
the United States Navy the past  
three years, having seen service  
in the Aleutian campaign as well  
as elsewhere in the Pacific. Mr.  
Vanasdale is employed at the Par-  
sel Depot and will make her home  
with her parents for the duration.

**MISS PEARL ELDER**  
**HONORS TO TOURIST CLUB**  
Tourist Club met with Miss  
Pearl Elder on Monday evening,  
March 13, for their ninth session  
of the year 43-44. The table, set  
for ten guests, had a sweet pea  
flower arrangement for a center-  
piece and a salad supper was  
served.

The Club voted to pay \$5 to the  
American Red Cross War Drive.  
Helen Hoffman led the study pe-  
riod, choosing "Home Poles  
Around Historic Cumberland  
Gap" for her topic. With educa-  
tional opportunities and TVA  
bringing electricity to these re-  
mote mountain homes, conditions  
are changing, and there is evi-  
dence of a progressive spirit. In  
another decade they will have ad-  
vanced till they are on an oppor-  
tunity level equal with residents  
of more favored regions. They are  
referred to by urbanites, as hill-  
billies, but they are "true Amer-  
icans."

Helen Hoffman will entertain  
the Club in two weeks with An-  
ona Root leading the lesson.

**CARD OF THANKS**  
I wish to express my sincere  
thanks to the Presbyterian church  
and its various organizations,  
friends, neighbors and relatives,  
who remembered me on my 83rd  
birthday with cards and messages.  
Mrs. George Hatch.

**CARD OF THANKS**  
I wish to sincerely thank all  
my neighbors and friends, the  
Plymouth Grange, the Kroger  
Store, and all who sent me fruit  
and the many cheering cards,  
during my illness.  
Mrs. Proctor Fox
