FORMER PLYMOUTH WHITE BREAKS INTO LOS ANGELES NEWS COLUMN

For some reason or other, people generally, are more interested in what a columnist might say than just straight news, so that when you see a familiar name, it is more or less of a thrill.

In looking over the column in a Los Angeles, Calif., paper known as "Leslie" by Lee Shipley, a short squib on "Dunkin' Birds" refers to Edna Sterrett, a native of Plymouth.

The clipping was sent to a Plymouth friend, who in turn brought it to the Advertiser for publication so that others might enjoy it. It is as follows:

"Dunkin' Birds. "No matter what I brag about, someone always tops me. I mentioned the smartness of the birds in Curville and Edna Sterrett sends me this snort: 'Are they intelligent enough to take hard food from the feeding tray to the bird bath, toss it in and then, when it is soaked on one side turn it over so they can know the joy of dunkin'?' Our birds do."

Edna Web Sterrett was born in Plymouth and graduated from the local schools in the class of 1888, at the age of 18 years. She is now 56 years. She is now living at 4617 Welch Place, Los Angeles 27, Calif.

TWO FINED

Driving through Plymouth at a high rate of speed cost Joyce B. Howard of Willard \$8.70 when she appeared in Mayor Wirth's court Tuesday afternoon to answer the charges filed by a state highway patrolman. She agreed to pay the fine.

J. A. Weaver got his car into an awkward position on the Square when he parked it Monday afternoon. Trying to get out of a tight spot he was forced to head against traffic and make an unusual turn which headed him into oncoming traffic. He was called into court and fined \$2.00 for this violation.

Crashing red lights, wrong turns, and irregular parking have been the cause of numerous infractions, and traffic conditions in general aren't improving. Local officials are scrutinizing the situation and a casual warning should be sufficient for motorists who are to observe state and local traffic laws.

Around the Square

(By Phineas Whittlesseed)

THE PINK "unmentionable" situation being what it is, a number of local women are seriously considering ganging up on the thief who has been lifting their clothing from lines hung out to dry. Four distinct instances have been reported, all taken right in broad daylight (no modesty!) Housewives are warned to keep a lookout for the underworld snatches. Several other petty burglaries have also been reported in the community.

LABOR DAY, the last holiday of summer, will be quiet in Plymouth. Most of the business houses will be closed for the day as well as the bank, and post office. Restaurants and confectioneries will be open as usual.

A NUMBER of people are wondering if a week of his own cooking while at Scout Camp is the reason it was necessary for a two weeks' lay-off for Don Einsel at the post office!

BEST WISHES of the entire community go with Mr. and Mrs. Oliver Tilton and family, who leave the first of the week for Denver, Colo., in search of better health for Mr. Tilton. It's a tough proposition to sell off all your personal effects, pack up in a trailer and leave your friends behind, but perhaps as Horace Greeley pointed out years ago, "Go West, young man, go West!" will be the salvation of them all and they will find not only health but bigger and better opportunities.

DOES advertising pay? Readers tell the story. If you are real thrifty you'll find an exceptional soap bargain at Schreck's Market—but you'll have to read the ad. If you are augmented by radio or grocer, you'll find an ad in this issue telling where you can get it done. If you want to buy the youngest a snow suit, read Jump's ad. There are many in-dogs at a low price in this issue, and by saying "I saw your ad in the paper," it makes those who support the columns of this paper feel that they are getting results. Try it this week!

WISHFUL THINKING—It's just natural for people to make a wish on the first star that shines down upon them in the evening—or the wishbone of the fowl we have eaten. But a soldier carries a lucky coin or maybe a four-leaf clover that he found one day. It's not so much for the assurance of good luck as the wish of it.

So maybe you could call it wishful thinking when it comes to wishing the war was over. Lots of ouija boards are being consulted as to when this event will occur. People are predicting the number of weeks until the end of the war.

Robert L. Ward, secretary of the New England Farm Equipment Dealers association, says by the means of "Numerology" that the war will end September 7, 1944 at 2 o'clock.

He listed the war leaders, Churchill, Hitler, Roosevelt, Duane, Stalin, Tojo, and by taking the first letter of each, they spell Christ, the Ruler of all men. Under the name of each leader he puts the year they were born, their age, the number of years in office, and when they took office. Added them together and got the sum of 3888 for each of the leaders. By taking one-half of 3888 he got 1944, the year the war will end. He found the date and time by taking one-half of 1944—7-2 September 7th, 2 o'clock.

"There is an old saying that 'figures never lie' but despite our wishful thinking, we know that a Ruler with Wisdom far greater than man's is guiding our destiny, and the future rests in His hands.

But we can wish, can't we?—M.E.T.

JOE BEVIER, NOW IN CALIFORNIA WRITES OF TRIP ACROSS COUNTRY

This week we are hunting up back issues of the Plymouth Advertiser to send to Joe Bevier, out in Los Angeles, Calif. Joe and the "Missus" recently moved from Milwaukee, Wis., to the west coast city, where he has accepted a new position. Former residents of Plymouth, they like to keep in touch with friends and relatives here, hence the back issues of the paper which they missed while enroute.

We were delighted to receive the following descriptive letter telling of their trip across the country and we are sharing it with our readers, knowing they will enjoy it too:

Los Angeles, Calif.,
Aug. 18, 1944

Dear Tommy:
I realized several weeks ago when Saturday rolled around that something was missing but it did not take long to know what it was. In case you have no idea I would like to enlighten you that it was the absence of the good old home town paper, The Advertiser. Much to my chagrin, surprise and disappointment, in our rush for the West Coast, we failed to notify you of our change in address. Well, here it is and I do hope the next issue will reach us as we have been out of touch with the old town too long.

We left Milwaukee for Sunny California on July 13th and started a very leisure trip, as we planned on seeing all of the beauties of this good old U. S. and then, of course, there was the question of gasoline mileage and also recaptured times. In case I overlook mentioning it later I will say now that we experienced no difficulty whatsoever. We were not so impressed with Iowa and Nebraska, but Colorado is indeed a very scenic state. We stopped in Denver to visit friends and in addition to renewing acquaintances we were given driving for one of the most beautiful drives we have ever taken. The mountains were very colorful and when we reached the Continental Divide we stepped out of the car, walked to the side of the road and made snow balls.

Imagine that in the middle of August! We spent quite some time in Salt Lake City where we visited the Mormon Temple and the Great Salt Lake. It was very warm in Salt Lake and we noticed it considerably after having driven through the mountains. Our route then took us south through Utah and then to Las Vegas, Nevada, where we stopped to check the casinos we had heard about that town. I can only tell you that what they say about Las Vegas is true. While there we visited Boulder City and drove across Boulder Dam. The former is one of the littlest towns I have ever been in. All the land is government-owned and is only leased to the people building a home there.

Enroute through Utah we witnessed the filming of a scene for the forthcoming movie, "Thunderhead." When you see the Alamo horse charge down the hill to fight with the other horses,

which results in the death of the Black horse, you will be seeing the scene we saw shot. We also visited Zion National Park as well as the north rim of Grand Canyon. I am none too good at descriptions but never-the-less if I did have the ability I doubt whether I could do it justice. I can only say it must be seen to be appreciated as words can not describe it.

If you have had the opportunity of seeing the movie, "Buffalo Bill," you have some idea of the coloring and scenery as it was filmed in Knab, Utah, a short distance from the location for the filming of "Thunderhead." On the way to the Grand Canyon we stayed at the most beautiful and restful spot, Kaibab Lodge. It lays in a very fertile valley at an altitude of approximately 9,000 feet. The valley is known as Pleasant Valley and the name is very fitting. The highway runs through the middle of this valley which is boarded on each side with dense virgin forests. This is all government property and no lumber has been logged off. The lodge was, of course, a very large building with a large fire place for with the altitude a fire is welcome. While waiting dinner one evening, in fact, every evening you could count at least twenty to twenty-five deer coming down to the watering places. There are, they tell me, many mountain lions in that section but I did not go out to find one. We also saw much wildlife including fox, coyote, prairie dogs, and believe it or not, white-tailed squirrels.

By this time I believe you are tiring of this story but I can not close without telling you about California. First, let me say that we like it very much. I have, in the three short weeks we have been here, picked oranges and lemons from the trees as well as figs and green English walnuts. There are many other fruits which so far are a mystery to me and then, too, there are the regular fruit trees which are common in Ohio.

The weather could not be more perfect and I have not joined the Chamber of Commerce. In fact, if the weather remains as it has in the past, I do not think it is necessary for California to have such an organization. Los Angeles itself is a large city with an enormous amount of activity both socially and industrially. I have not, as yet, become accustomed to the fact that the buildings are not protected against the elements as in Ohio and Wisconsin. Filling stations and the like are nearly all out in the open and if there is a building there are no doors, just iron grilles which are closed at night. I have not had too much time to see much of the city as yet, but have been to several of the missions, Griffith Park, the Brown Derby, Grauman's Chinese Theatre, Bob Hope's much-mentioned corner, Hollywood and Vine, and have seen a few movie stars as well as their homes.

Well, Tommy, this little note turned out to be quite a rambling letter, so back to the purpose of

With best regards to you and all of our good friends in Plymouth, we wish to remain,

Very truly yours,

Miss Mary Buurma Becomes Bride of John Simmerink, Jr.

A bride of Tuesday evening Aug. 29th, is the former Miss Mary Buurma, daughter of Mr. and Mrs. John Buurma of Celeryville, who was married to Mr. John Simmerink, Sr., of Grand Rapids, Mich.

The double ring ceremony was performed at 8:00 p. m. in the Celeryville Christian Reformed Church by the pastor, Rev. J. C. Scholten, in the presence of a large number of friends and relatives of both families.

As the guests assembled a fifteen minute organ recital was played by Miss Marie Ellen Cok, a cousin and another cousin, Miss Senetta Moll, sang "Because." The setting was illuminated by electric candles placed in every window, while the altar was banked with many palms, gladioli and two huge white electric candles placed at either end of the altar, while two seven-branched candelabra cast a pretty glow as the bridal party took their place.

The bridal gown was of white net over satin with a long flowing train; her veil was fingered length and she carried a white Bible with two orchids. Miss Doris Buurma attended her sister as bride's maid and was attired in an aqua taffeta, with a cap of illusion and flowers and carried a bouquet of pink roses. A brother, John Buurma, Jr., was best man. Ushering were Franklin Moll and Frank Wiers, cousins of the bride.

The groom's mother, Mrs. Simmerink, attended her son's wedding in a green and white Bergberg frock and wore a shoulder corsage of pink rose buds. The bride's mother was attired in a black velvet dress and her corsage was of red roses.

The reception that followed was held at the New Haven school auditorium with 180 guests in attendance. A program of music and violin music was given and several readings by Mrs. Hankammer of North Fairfield.

The young couple left for several days' visit in Cleveland and upon their return will reside in Grand Rapids, Mich., where the groom is in the real estate business with his father.

Mrs. Simmerink is a graduate of the New Haven schools and took her nurse's training at Blodgett hospital, Grand Rapids, where she is now assistant supervisor and will continue her work for the present. Best wishes of the community go with the young couple.

WHISTLE WHILE YOU WORK

In Farm Journal a Minnesota reader tells about an eccentric old farmer who would not hire a man who did not whistle at his work.

"I never knew a whistling man to find fault with his food or his bed, or to complain when asked to do extra work. A whistler is always kind to children and animals. He can whistle a chilled lamb into warmth and life and carry a half-dozen eggs from the coop to the house without breaking one of them. He always struts gates, puts up pasture bars and keeps the nuts tight on his plow. He never kicks a cow or drives her on the run into the barn. Sleep gather around him in the yard without fear when he feeds them."

Everyone is building for himself a house to live in. It need not be a building of stone, brick or wood, but it is a house put to gether by the life-work of the builder by the way he thinks, speaks and acts. Such a building may become a strong structure or a weak shanty. It may be a mansion or a hut. It all depends on what your plans are at the start of life. But whatever man builds for himself that's the house he is forced to live in. It may be a place of shelter or a place that brings about his ruin. You are invited to attend the services.

NEW HAVEN P.T.A. HONORS DEPARTING TEACHERS WITH PARTY

Tuesday evening of last week, the New Haven P.T.A. entertained in the High school auditorium as a courtesy to five teachers who did not return to the faculty this year.

An interesting program was presented, including several selections by the Harmonettes of Plymouth, accompanied at the piano by Jack Van Laar and several humorous readings by Miss White.

High light of the evening was the presentation of gifts to the teachers, with Miss Jessie Cole of Plymouth receiving a beautiful Grown wrist watch and bracelet in recognition of her thirty-five years of service. Other members were presented with beautiful woolen blankets.

Teachers leaving the New Haven school are L. Van Brunt, Mrs. Marguerite Wilcox, Mrs. Harriett Miller, Mr. L. A. Basinger and Miss Jessie Cole.

Refreshments concluded a very pleasant evening.

HONOR RALPH STURTS OF U. S. NAVY AND WIFE

A party was held Saturday afternoon and evening at the home of Mr. and Mrs. Will Sturts of Shelby in honor of Ralph Sturts G. M. 3-c and his wife. Ralph has returned on a 21-day leave from the Pacific area where he has served with the U. S. navy for the past 25 months.

Those attending were Mr. and Mrs. George Armstrong and daughter Naomi of Mansfield, Mrs. J. Sturts, Mr. and Mrs. Robert Gilger and Mr. and Mrs. Henry Sturts of Plymouth, Mrs. Dorsey

Drummond, Mrs. Jim Cook and John Gilger of Cleveland, Ruby Gilger of Greenwich, Mr. & Mrs. William Mumau and family of Sandusky, Mrs. Elizabeth Mumau, Miss Geneva Mumau, and Mrs. Grace Schlereth and Miss Janice Schlereth.

'Rommel' and Monty

Of course "Rommel" is just a dog (as who doesn't know that), and he happens to be the pet dog of Gen. Sir Bernard L. Montgomery, who is shown holding his pooch while Prime Minister Winston Churchill strokes the dog's head.

SHARE TEACHER

The state department of vocational agriculture has informed the Monroeville board of education that it must share the services of John E. Everett, vocational teacher of Monroeville, with Willard high school, during the coming school term.

According to the plans of the state department, Mr. Everett would teach classes at Monroeville in the mornings and at Willard in the afternoons. The former Willard voc-ag. teacher has entered the army, it was stated.

Too Much Protein . . .

Like too much gas in your car will either choke the motor or extravagantly waste fuel. So with PROTEIN. Nature has provided and common sense reasons that no body, animal or human, can absorb more of any substance than it will use. Beyond that point waste or injury strikes. Have you ever seen the result in hogs fed too much protein? If not, check up for yourself.
