Nimmons-Erickson Wedding Solemnized at Lorain

At 4:30 p. m. Saturday in the United Brethren Church, Lorain, Dorothy Marie Erickson, daughter of Mr. and Mrs. Paul F. Stang, Lorain, became the bride of Robert Anson Nimmons, son of Fred Nimmons, Plymouth.

The ceremony was preceded by a short recital by Mrs. James May and Harold Clark, soloists, with Mrs. Harley Morath at the organ.

The service was read by Rev. Richard Mitchell before an altar banked with palms and beauty baskets of pink mums and carnations and lighted by four seven-branch candelabra. Sprays

of pink flowers marked the pews. GOWN IN PINK The bride, who was given in marriage by her father, wore a gown of pink lace over satin, fashioned with a square neckline with double ruffle of pink tulle, sequin trimmed; full skirt with French imported metallic satin ribbon at hipline, dipping in the back and falling into a short train.

Lace mitts completed her costume and a rhinestone pin, the gift of the bridegroom, was her only ornament. Sequins and pearls trimmed the pink velvet tulle from which veiling of pink tulle fell to the end of the train. She carried her white Rainbow Bible with two purple-throated orchids with shower attached.

Mrs. Forrest Beckwith, as matron of honor, wore an aqua gown fashioned similar to the bride's aqua net mitts, head-dress of silver bowknots with

How to Handle a Fortune

Some months ago I reported in the *Clarion* how Mel Bates' uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world ... getting a new house or car ... wearing fancy clothes ... or dining on cold pleasant and champagne ...?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting

with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk—that's worth a fortune, after all!

New Books At Local Library

Thursday evening Miss Jessie Trauger, Plymouth Library librarian, was hostess to members of the board, all being present. Orders were made out for many more new books and usual business transacted. A very nice lunch was served. The next meeting will be with Mrs. Belle Bachrach, date to be announced. Books now available and a short sketch of same are as follows:

Non Fiction

ALSOB SUB ROSA—The thrilling adventures of General Donovan's men and their desperate undercover war behind enemy lines. The book reads like a spy story and tells the human tale of the Office of Strategic Services—the greatest undercover operation in history.

JONES SKINNY ANGEL—Thelma Jones entertainingly relates the various problems connected with raising a family in a midwestern community in the early 1900's. A gay human story—the portrait of a fun-loving resourceful woman.

LONGSTREET THE SISTERS LIKE THEM HANDSOME—A book about the world of bustles and Model T's when Mama posed for Charles Dana Gibson; when the Uncles were Harvard heroes with waxed mustaches; and Aunt Fran caused a small scandal by showing four inches of leg above her high button shoes.

JENNINGS SALEM FRIGATE—With the famous Frigate "Essex" for setting, John Jennings dramatizes the lives of four people, beginning with Tom Tidball, a young doctor's apprentice—Ben Price, who won Patience Nowell, before Tom realized that he was in love with her himself. Then are brief interludes on land, but the spell of "Essex" draws Tom and Ben always back to the sea—and the end of their rivalries comes finally on the deck of the "Essex"—amid the thunder of her last great fight.

STEEN BELL TIMSON—Bell Timson alone in the world with two daughters to care for might have remarried—but for her ambition to give her children a better chance than she herself had ever had. She chose the profession of masseuse, and it made her one of the fabulous back stage figures

of prewar London society. Then she met the French doctor who offered her a dangerous opportunity to achieve the even greater security she felt that her daughters deserved. It was a risky, unlawful way, but Belle took it with her eyes open.

WHERE ARE THE DEAD?

By Dalton F. McDougal

Part IV
How will the righteous dead be affected if there were no resurrection? The Bible says in 1 Cor. 15: 16-18. "For if the dead rise not . . . then they also which are fallen asleep in Christ are perished." This makes it clear that the future existence of those who have died as Christians is dependent upon a resurrection. Paul declares that if they are never raised from the grave, they are perished forever. This is positive proof that the righteous do not go to heaven at death; because if each righteous person went to heaven when he died, he could never perish, even if there were no resurrection. But Paul declares that without the resurrection, the righteous dead are perished. This proves that all life after death depends upon the resurrection.

The Bible doctrine of the resurrection and the human tradition of the immortality of the soul cannot exist together. In answering the objection, "How are the dead raised up?" Paul declares, "That which thou sowest is not quickened, except it die." (Cor. 15:36) If the soul—the real man—never dies, there is no such thing as ever raising that man from the dead. Hence if there be an immortal soul, there is no need of a resurrection; and if there be a resurrection, there is no need of an immortal soul. God's truth destroys error. The true doctrine of the resurrection destroys the false doctrine of the immortality of the soul.

Part V will tell when every man will receive his reward.

VISIT IN VIRGINIA

Mr. and Mrs. John VanderBilt and Mr. and Mrs. Bernard VanderBilt and son of Grand Rapids, Mich., and Maase VanderBilt motored to Fredericksburg, Virginia the past week where they visited with Mr. and Mrs. Berl Verburg. Mr. Verburg recently returned from a trip to Holland and reports that his relations are O. K.

Duncan is out of the dog-house!

Mrs. DUNCAN has just finished her Fall housecleaning, and Duncan is welcome in his own home again.

Curtains, crisply ironed, hang at the windows. Rugs are bright and clean. Blankets, sweetened by sun and suds, loll contentedly on the beds. Everything's fresh and shining. Mrs. Duncan is tired, but happy. Mr. Duncan is happier. The dog is happiest of all.

Once housecleaning was the housewife's horror. Now, with modern electric gadgets, the semi-annual cyclone is finished in half the time, with half the effort.

And not only housecleaning—but all household chores—are easier, simpler, when electricity lends a willing hand. This versatile servant cooks, cleans, washes and irons, brightens the home, guards health, scoops entertainment from the very air—and all for the cost of a bar of soap daily.

This greatest of household bargains comes to you through the practical experience of your friends and neighbors in this company, under sound business management.

Work has begun on the Scout Hut, and will proceed until the Hut is ready for occupancy. Signalling is the test for the month, with history and respect due the flag for new scouts. There were sixteen Scouts present at the regular meeting on Monday night. Next regular meeting will be held on Monday, November 18th at 7:30 p. m. at which time test passing will be the main event.

NAME OMITTED FROM THE HONOR ROLL
The name of Mary K. Ratcliff,

second grade student, was inadvertently omitted from the Honor Roll published last week. Mary K. was an honor student and her name should have been listed.

BITE 'EM, BITE 'EM, BITE 'EM MONDAY EVE., NOV. 18, 7:00

All Lions are especially urged to attend the next regular meeting. Dinner will be served by Ladies of the Shiloh Community Grange at the High School, and we can bet on Bob Boock having a fine program lined up.

Final plans and arrangements for the Hotpoint Electric Range Drawing will be made proceeds from which will go to benefit local Boy Scouts. On display at Page's Shiloh Hatchery in a few days. This will be the first organized effort in several years to get the Local Troops back in such form that they will be an inspiration to all the youngsters. Our Boys need and deserve the influence provided by capable Scout Masters but they can't and won't get it if community spirit and interest fails. Boys love the educational activities of Scouts—a mighty influence in dis-

couraging juvenile delinquency—and wear their uniforms with a lot of pride. What greater responsibility has any community than its stewardship of youth? Vernon Moser, Mayor Glenn Swanger and Rev. Henry Boehm all deserve high commendation for their efforts in behalf of the Scout movement—here's a product that justifies more than just their splendid example of interest and cooperation in the operation of their schools, by so overwhelmingly supporting the 5 mill levy. Continued alertness, cooperation and constructive criticism will make a good school for the children.

Lions, please call Bob Boock at 2181 early and make your reservation.

THANKS VOTERS

The members of the Board of Education wish to express their appreciation to the Voters of the Shiloh Village School District for their splendid example of interest and cooperation in the operation of their schools, by so overwhelmingly supporting the 5 mill levy. Continued alertness, cooperation and constructive criticism will make a good school for the children.

THE SHILOH VILLAGE BOARD OF EDUCATION

P. S. Just a word to explain the misunderstanding relative to the "On-the-Job Training" for Veterans. The Board of Education will be reimbursed by the Federal Government for all expenses incurred which include Instructional Salaries, instructional supplies, depreciation on equipment, rental, cost of heat, light, power, janitor service, building maintenance, insurance and an administrative allowance. The only relation that the 5 mill levy has to the above action is that money will be available to carry the program until the Government can make the reimbursement. We feel that we owe this help to the Veterans of our Community. Every precaution will be exercised that no operating funds of the District will be permanently issued for this purpose.

THE QUALITY OF MERCY

Henry Ward Beecher, the well-known New York preacher, was famous for his gentle, understanding ways. A man who hated Beecher bitterly said openly in a public gathering one day that he would not go across the street to hear Beecher speak. Later, this same

man became Beecher's deeply devoted friend and when he was asked how, he replied: "Whenever anyone does Beecher an ill turn, Beecher does not rest until he has done him a good turn. It's a common saying in Brooklyn 'If you want Beecher to do you a favor, kick him!'"

TO AMERICAN CITIZENS

You have suffered almost five years of short rationing. How would you like a sugar shortage for five more years? You may have it!

Why?
Your government has completely controlled every phase of the sugar business since Pearl Harbor—production, processing, distribution, and rationing. This is still true. We are no longer a "free" people in so far as sugar is concerned.

Because of heavy shipments of sugar to foreign nations, Americans this year will receive only 73 pounds of refined sugar per person as compared with their prewar consumption of 98 pounds. Yugoslavia, whose belligerence towards Americans is all too well known, secured tens of thousands of tons of sugar thru the UNRRA this year with the approval and aid of our government.

Plans are proposed to continue the American people on a sugar shortage for years to come. How, and R. Tolley, formerly of the U. S. Department of Agriculture, now Director of the Division of Economics and Statistics of the Food and Agricultural Organization of the UN, has just proposed a program for sharing our sugar supply with other nations for years to come.

The Tolley program is not a famine relief program. It is a plan to raise normal consumption of sugar in other countries at the expense, and through the sacrifice,

fix, of the people of the United States.

Specifically Tolley proposes that by the year 1950 the total American supply of sugar (and syrups) should be decreased by 12 to 16 per cent under the pre-war consumption. And this despite the fact that our population in 1950 is expected to be 135,000,000 more than in 1940.

The Tolley plan would keep you on a wartime basis after the peace. How would you like that?

Sugar is indispensable for a well balanced American diet. Without it you would not have most of the canned foods and preserves, a large amount of canned milk, ice cream, candy, soft drinks, cakes and pies, and many other foods. Most cereals and fresh fruits are unpalatable without sugar. Millions of Americans today are obliged to use saccharine as a sugar substitute (having no food value) in their coffee.

Millions of dollars worth of fruits in the United States have gone to waste because of the sugar shortage. Farming communities have suffered not only the loss of fruit but the food value that the canned or preserved fruit would have given.

Housewives cannot prepare satisfactory meals or do their baking without an adequate supply of sugar.

Labor in the food processing industry has been thrown out of work because of the sugar shortage.

Sugar has been dished out liberally by our Government to foreign nations who normally do not secure their supplies in the Western Hemisphere. In many cases you are paying the bill for the sugar you did not get but which went elsewhere.

This year the United States Government approved the allocation of hundreds of thousands of sugar from our sources of supply for movement abroad. Some of the sugar went to countries behind the so-called "Iron Curtain." Although we pray most fervently to the contrary, shipping sugar to other materials in countries behind the "Iron Curtain" could be the same thing as sending scrap iron and oil to Japan in the days before World War II.

Relief for famine is one thing. But appeasement never succeeds where the appeased is friend or foe.

The total production of sugar in 1947 in those areas normally supplying the United States will be tremendous—over 9,000,000 tons. How much of it will you get? And how much will our Washington bureaucrats send to other shores?

The question before the American people today is whether our sugar supplies should be given out in an openhanded way by a few Government officials or

whether we should keep America strong. That is a question that should be decided by the American People and not by a handful of bureaucrats.

As a result of the war, registration we have fallen into the habit of accepting anything put before us, be it an empty sugar bowl or empty meat platter. This has presented a perfect opportunity to a few men in Washington to tell us what we shall eat, what we shall wear, and how in general we shall conduct every detail of our lives. As a free people, we should throw off the horse collar so firmly fixed around our neck.

The production of the United States and that which it belongs to the American people and not to a handful of bureaucrats. The great masses in America earn what they get by sweat and toil.

Americans should stop acting like slaves.

Americans must speak their mind and express their will to their elected Washington representatives including the President.

The American people, by stating in writing what they think and believe to their elected representatives in Washington and the President, can control the amount of sugar that is to be retained by us at home and the amount that is to be distributed abroad.

Here, we have a situation where 140,000,000 people want

and need more sugar and have a right to demand more sugar. Consequently, an outraged public should demand of their elected representatives that steps be taken now to put an end to this shameful sugar shortage in 1947, and then in 1948 we should have a full sugar bowl.

If every American will make his desires known to his representative in Washington, more sugar will be available for him in 1947 and then in 1948 we should have a full sugar bowl.

The power under which our sugar has been disposed of arbitrarily should be taken back by the people, and away from the small group of men in Washington who, on the whole, have done a very poor job for them.

Take off that horse collar. Write to your elected representatives.

SPOTLIGHT ON THE AMERICAN WAY

The community-operated, independently-owned telephone company is typical of the American way. It is private enterprise devoted to public service—the service it provides reflects American inventive genius and how American "know how" works for the public good. As an independent telephone company, we are proud of our responsibility to you. We pledge to meet it to your satisfaction.

Northern Ohio Telephone Co.

TO THE EMPLOYEES -OF- The Fate-Root-Heath Co.

On November 20th you will have an opportunity to vote in an election to be conducted by the National Labor Relations Board to determine which of three unions you wish to represent you. The election will be by secret ballot.

This is your opportunity to be represented by a powerful democratic union that can protect your rights and get real results for you.

About the first of May, your local committee was negotiating with Fate-Root-Heath and had settled for a wage increase of 10 cents per hour, in fact the application for the approval of the Wage Stabilization Board of the 10 cent increase had been signed by the committee. A representative of the United Steelworkers of America was called in for advice and the next day the company decided to grant a wage increase of 18½ cents per hour. Can you guess why?

The members of the local committee were doubtless very sincere and honest, however, they did not have the facts at their disposal that were necessary to get the

18½ cents increase that you were entitled to receive.

Why did you receive a vacation for the first time this year? Don't you think the fact that a majority of your fellow workers had signed Steelworkers cards had something to do with it?

In the coming months you will have greater need than ever before for a strong union to represent you. The days of easy gains for labor are over and when slack times come, as they surely will, you will need a powerful union to protect your rights and to prevent your wages from being reduced.

The members of the United Steelworkers of America in Shelby, Ohio, have received enough in back wages alone to pay their union dues for many years. In addition they received 1 and 2 weeks vacation, extra pay for night work and as high as 29½ cents per hour increase in wages.

Ask the man who belongs to the United Steelworkers, and then place your X over the United Steelworkers of America on the right hand side of the ballot on November 20th.

CHURCH NOTES

ST. JOSEPH'S CHURCH Rev. Anthony Wortmann Instructions Sundays from 9:15-10:15

Friday, Nov. 15th—High Mass at 7:30.

Sunday, Nov. 17th—High Mass at 8 o'clock. Confessions before Mass.

Prayer "A Word from the Lord:" I am thinking of you, not to destroy you, but to save you. If

you seek me, you will find me. Yes, if you seek me with all your hearts, I will let you find me. I, the Lord, say it. And I will turn your fortune and gather you from out the Nations and places where I had driven you—I, the Lord, say it—and lead you back whence you were taken. Forgive, O Lord, we pray, the sins of each one of your people, so that your fatherly kindness may set us free of all those bonds in which we have become entangled through the sins of our frailty.
