

Local Stores Ready For Holiday Season

Plenty of Christmas Merchandise Now On Display; Ample Parking Space Makes Shopping Very Convenient In Plymouth

Because of present economic conditions the wise shopper will make early purchases. Most merchants in Plymouth have received their holiday merchandise, and very few late shipments are expected. So to avoid disappointment a couple of days before Christmas shopping is advised to start checking your gift list.

While Plymouth cannot compete with dollar volume in the larger cities, you can find a wide selection here, and in many instances the same brand of merchandise. The local stores this year have a big selection to choose from because of the fact that Plymouth serves a wide trading territory. In store sales most Plymouth stores rank with those in communities of several thousand people.

Any shopper will tell you that it's a real "killer" to shop in large cities due mainly to traffic conditions and store jams. So it stands to reason that if you can buy the merchandise at the same price in Plymouth you "save yourself" from a shopping ordeal. Practically every Plymouth store features nationally advertised and well known brands of merchandise, and a visit to any store here will convince you that you can buy at the same if not lower prices than elsewhere. It is advertised on the radio and in magazines. If you want a personal gift item or one for the home, you can find about anything you desire at Curpen's Jewelry and Gift Shop. Many imported gift items have been received here, along with several shipments of fine watches.

Board Rules Out Free Electric Bills

Due to a lack of funds caused by an extensive expansion program this year the Board of Public Affairs passed a resolution at its last meeting to withhold the usual free November electric bills. The village has added more than thirty electric customers and many water meters which entailed extra expense, plus wage increases. Another factor that cut into the electric fund was the purchasing of electric and water supplies.

This is the first time in many years that Plymouth electric customers are failing to receive their November bill. The practice of extending the free bill started during the depression years.

Many other communities some years ago were forced to increase electric and water rates due to increased operating expenses. However, electric rates here have remained the same for a long time.

The Jacksons Visit Old Friends, And See Movie Stars; Children Enjoy Roy Rogers

(Continued from Last Week)

The city hall is 452 ft. high and is the tallest building in southern California. The reason for low buildings is because of earthquakes.

The children were excited over the blue Pacific and the sea gulls that rested on the beaches. We went swimming at Santa Monica beach one day and found swimming very different than in Ohio's lakes.

OLD FRIENDS

In L. A. we looked up a girl friend and former neighbor of mine when I lived at Shiloh: Bernita Nesbitt Goth—daughter of Mr. and Mrs. Harland Nesbitt in Shiloh. We had a nice visit together.

In Glendale we called on a cousin whom I had never seen before and enjoyed meeting and talking with her.

At Costa Mesa lives two cousins of Idén's, former Akron residents, so we spent a week with them. The homes out here are very colorful, most of them being stucco and in pink, green, red, yellow.

blue, brown and grey. Some are illuminated by flood lights, and the largest bakery has flood lights in the eavegates that light up the buildings.

Last Sunday we drove through the world's largest vineyard—5,000 acres of grapes. Most of the country rains and 90% of its wine are produced near here.

To date we have visited the broadcasting stations, Lux Radio Theatre and have seen all of the picture studios—of course no one is allowed in the movie studios but can look from the outside as long as you come to.

TIGGER AND ROY

We went at Republic Studios and noticed Roy Rogers' famous Horse Trigger's truck there. They were shooting a few scenes there on the Studio lot. So we watched self come over to the truck which was parked about 30 ft. away from us. Tommie asked if he could have his picture so Roy came over to the gate and talked about a half hour with us.

He talked about being from Duck-Run, Ohio, which is a short distance from Portsmouth, Ohio. He talked about Dale Evans, his wife, and their new baby.

He asked Monnie Lynne if the California sunshine gave her, her freckles. I don't think I have to tell you this was the happiest day of the children's lives and I guess Tommie's dream came true.

Roy asked them if they were going to the Rodeo on the following Sunday, and told them not to miss it, so we went. Had Box seats. I sat right back of the Judging stand and Jack Dempsey.

June Haver, Joel McCrea, Edgar Bergen, Roy and Cheryl Rogers were all in the parade. Around 500 horses and riders were also in the Grand Entry parade.

MOVIE STARS

Other movie stars we have seen besides that at the Rodeo are Dinah Shore, Donna Evans, Humphrey Bogart and John Derek; Gary Cooper, Eddie Bracken, Chill Wills, Preston Foster, Judy Canova, Barbara Britton and Tim McCoy were all in Glendale which is two and one-half miles from here.

We have seen the homes of Frank Sinatra, Bing Crosby, Jimmy Durante, Loretta Young and the late Wallace Berry.

THE "LADY IN BLACK"

We have visited Hollywood cemetery where Douglas Fairbanks' grave is and also the crypt of Rudolph Valentino. Just a couple of hours before we got there "Lady in Black" placed red roses on his crypt. This she does every year on the anniversary of his death.

We also visited Forest Lawn Memorial park covering 220 beautifully landscaped acres. Forest Lawn is the only undertaking establishment within cemetery grounds. Here undertaking, flowers, church services, Memorial table, all forms of internment can be personally arranged in one visit and at one place.

Around the grounds are fine statuary groups, three famous churches, ponds, fountains and surrounding it all, the "Tower of the Legends" where 50,000 worshippers gather each year for the Easter Sunrise services.

"THE LAST SUPPER"

In the mausoleum at Forest Lawn the original masterpiece of "The Last Supper" lives anew, recreated in vibrant, glowing and indestructible colors of stained glass. Reservations to see this piece of art has to be made in advance. From all parts of the globe people come to stand before its breath-taking beauty and to receive its comforting message of love and hope.

This piece of priceless work was recreated by Rosa Caselli Moretti. The government of Europe allowed this girl to take the original sketches of Leonardo La Vinci to her studio so she might re-create it.

It took six years to make the picture and the figure of Judas was broken five times in the making. Miss Moretti was wondering if God intended that she should not finish the picture or whether she was simply emphasizing the fact that one of His own betrayed Him.

The sunlight is the only light that illumines the figure of Judas (a twice life-size) and consequently each hour the picture is different because of the lighting.

Carrie Jacobs Bond, Wallace Berry and Joe Penner and many other movie stars are buried here at Forest Lawn.

"HOLLYWOOD AND VINE"

We have seen and driven past the famous corner Hollywood & Vine, also the beautiful Wilshire district and "Miracle Mile." The large advertisements on Wilshire Blvd. are very outstanding. In their automobile ad they have a real automobile placed on a huge platform about 30 feet high with their advertising all around it.

In Hollywood we visited Grauman's Chinese Theatre where prints of the hands, feet, pistol, profile and other distinguished trademarks of the Stars are embedded in the cement of the forecourt.

THE TREES

The trees here are very different from Ohio Palms and beautiful pepper trees take the place of Ohio's elms and maples.

Knott's Berry Farm proved to be an interesting place. Here we saw them "pan" gold and the owners have long hair and beards and wear colorful costumes. We saw the "Transfiguration of Christ" in a little church by the lake here.

One Sunday we drove to the top of Mt. Wilson and saw the Observatory—the telescope lens is 100 inches in diameter in the observatory. Through another powerful telescope one can see the distance of 66 miles and read the neon signs in Los Angeles 30 miles away.

COUNTY FAIR

We attended the L. A. County Fair which is held at Pomona. This fair is much larger than Ohio's State Fair. Their exhibits and buildings are very different from Ohio's. Also at Pomona we saw the Shelby Cycle Co., a sub-division of Shelby, O. Bicycle plant.

We had a very nice visit with the Chas. Fox family at San Gabriel—they were former Plymouth residents.

As I am working in Hollywood I have met several interesting people and two whom I am very glad to know, and work with, are notable Rawlinson-Cruse and her daughter Lynn.

ENGLISH FRIENDS

Mrs. Cruse was the first woman in England to open her home to the American soldiers in World War II. She entertained over 1,600 American boys and she calls them all "Her Boys."

Her English home was known to many service men as "Boswell," Trewhith Road, Penzance, Cornwall. Most of them came from the Lightning 29th, 35th Infantry, 14th Photography Squadron and Sailors from the L. S. F's and L. C. T's.

At this same time she had 28 to 30 evacuees in her home and during a period of three years had a total of 387 evacuees and only 10% in air raids. Our boys were wonderful to her and she has many souvenirs to remember them by, one being a lovely linen tablecloth. One of the boys drew a map of the U. S. on it and each boy entertained in her home photographed his name and home town in the State he was from.

Lynn, whom I spoke of, is a very sweet girl softly spoken and kind to all. She drove an ambulance in the Blitz, and was driving one at the time of the bombing. The explosion killed all others that were in the ambulance, but she was thrown in a hole and lay there twenty-eight hours. She has permanent injury to one eye.

At present she is writing two books under the guidance of Sherman Nagel (Conrad Nagel—the movie star's brother).

CHRISTMAS IS COMING

Lynn also is fixing her Christmas scene up that she displays each year. It is 6 ft. x 7 ft. and over four hundred persons viewed it last year; several from the movie studios, one being Walt Disney. R. K. O. studios took pictures of this wonderful piece of art. Lynn's mother appeared on Tommy Bartlett's first program of "Welcome Travelers" and also on "Double or Nothing." She is proud to be the grandmother of the Model Baby Advertising Getters Baby Food, Ivory Soap and Carnation Milk. She is very cheerful and a wonderful person to know and work with.

SCHOOL IN CALIFORNIA

School here is very different from Ohio's. Everything is furnished including paper, pencil and pen, crayons and books. The schools here operate on the half-year plan. Tommie has been elected vice president of his class and Monnie Lynne "Ball Monitor" of hers.

The weather is just grand now. We had two showers in September but what we call showers the people here call them "Winter Storms." Some folks are planting radishes, carrots, etc. and also flowers for the winter.

Fruits and vegetables are very cheap here, potatoes 1c a lb., head lettuce 2 for 9c, carrots 1c a bunch; bananas 10c a lb. We find bread and eggs higher but the meat prices are just about the same as Ohio's.

A picture is enclosed of family and Roy Rogers.

Sincerely,
Mrs. Idén Jackson

Dairymen Hear Columbus Speaker

Dr. H. G. Geyer, chief of the Department of Animal Industry, Columbus, gave Huron County dairymen the key to a successful dairy herd program free of disease, at the Dairy Service Annual meeting Tuesday evening, November 14. The new Brucellosis law has enabled the state to completely test an average dairy cow in ten to fifteen days, Dr. Geyer stated. The ring test can be used to detect infected herds. Where a herd is found to have Brucellosis a blood test is then taken on all animals. A free herd would not be blood tested.

Dr. Geyer was introduced by John K. Wells, County Agricultural Agent, who stated that dairymen were anxious to comply with the law but needed more information on how to prevent infection, thereby producing better quality milk.

Chairman Wallace Cawse presented Homer Bungard, Technician, who reported that 2405 cows were bred artificially last year. Mr. Bungard requested the support of dairymen in securing daughter records from dams dried artificially. Enos L. Reeve, the newly hired herd tester, was presented by Mr. Cawse. Reeve, a graduate of Ohio State University, major in agriculture and has taken several courses in animal husbandry and dairy production. The Dairy Service Unit Board believes that Mr. Cawse will be a great help in promoting the much needed testing program. Gilbert Dobbins, former tester, was complimented for his work in building up the testing program and given a wish for a speedy return from the United States Armed Forces.

Ralph VanBuren, representative of the Northern Ohio Breeders' Association, gave the future trends in artificial breeding. He explained how air service had increased the value of artificial breeding.

The four retiring directors, Ira W. Lee, New London; Wallace Cawse, New London; Ray Felchner, Willard; and George Skinn Wakeman were reelected for two year terms.

What Do You Know!

Minute Sermon

By Rev. L. E. Smith

(Continued from last article)

The Christian faith is also a laying hold upon resources outside and beyond oneself. Without finding strength in God Christianity becomes an anemic, powerless, and insipid set of moral platitudes. It lacks power to produce life for it has not found life. At one end of the porch on our cottage in Lake-side there grows a thrifty "Dutchman's Pipe" vine that every summer sends out its tentacles, which look like arms reaching out to grasp some support, and one year those aspiring vines reached over to a maple tree a few feet away and fastened upon it; but one morning, followed a storm, there it lay a pathetic thing with its vines in its grasp. The tree had broken and let it down! But the tree really had not what had happened was that the vine had fastened itself to a dead limb on the side of the tree and that had broken. Had the vine fastened upon the central trunk, the storm could not have torn it loose.

The mind and soul of man aspires to fasten itself upon some support just as did the tentacles of the "Dutchman's Pipe," but too often fasten upon some dead branch of religion and hold to that. They stop at a good resolution and cling to that, but no mere resolution can hold one up in the storms of life. Others join themselves to an institution, but that is not sufficient to fasten life upon. Nor will a mere rite or ceremony do, they must find in the crises of life. Some fasten upon a favorite minister and pin their hopes on him but no man is good enough to be the center of the universe. He'll fall sooner or later. Others cling to ideas about God instead of having God Himself with them by faith. God clear to the central trunk. God! Anything short of that will mean disaster.

Rural Youth Members To Conduct Radio Forum

Six members of the Huron Co. Rural Youth Study Club will conduct a radio forum on Highway Safety over Radio Station WWSL, Columbus, on Friday, November 24 at 12:00 noon. This discussion by the Huron County Young People will be the second in a series of radio forums given by Young Men and Women's groups from all over the state. These forums are generally broadcast on the last Friday in the month.

The youth group radio forums are broadcast by the Ohio State Extension Service on their Ohio Farm and Home Hour program to allow the young people of Ohio to express their opinions on current problems and to enable the young people to gain some radio experience on that day.

Associate County Agent, Fred C. Wise, announced that the program to be presented by the Rural Youth Study Club will be recorded in Norwalk on Tuesday, November 21, by Maurice E. White, Radio Editor of the Extension Service, who is in charge of the Ohio Farm and Home Hour. Mr. White will also act as moderator for the forum.

NOW AS THEN

Today, as our forefathers did, we celebrate Thanksgiving with a deep appreciation for His generosity. But now, as then, we are faced with the necessity of carrying arms to protect ourselves from forces of darkness that threaten to smother the light of liberty. Yet, with faith in Him we are certain that liberty will conquer, as it did then.

THANK GOODNESS THANKING

Thanksgiving is a hole knocked in the end of November and stuffed with football and turkey. Both of these are distinctly American institutions. So is the tradition of a national day of Thanksgiving. This day is observed on the last Thursday of Nov. or fixed by proclamation of the president and governors of states. The festival owes its origin to the Pilgrims.

Help Fight TB

Buy Christmas Seals

HOW THE CHRISTMAS TUBERCULOSIS

Sir William Osler (One of the world's greatest teachers of medicine) said: "The battle against tuberculosis is not a doctor's affair, it belongs to the entire public." That is why all of us are asked to buy Christmas Seals each year. When you buy the Christmas Seal you may help someone in your family or in the community.

The first Christmas Seal Sale was used in 1907 to help eight tuberculosis patients in Delaware. A Danish pastor clerk originated the idea of a Christmas Seal in 1904 to build a sanatorium for children in Denmark with tuberculosis. This man's name is Einar Høvelle. He is now P. B. Bissell, the story of the Danish Seal by Jacob Rusk and tried out Høvelle's idea. So in 1907 the first American Christmas Seal was designed and sold.

The Christmas Seal supports the work of tuberculosis in every state of the United States of America and many other countries. These countries are using the seal to fight tuberculosis.

In the United States ninety-five cents of every dollar from the Christmas Seal stays in the state where it is raised to build sanitariums and many other things. The other five cents goes to the National Tuberculosis Association.

1. Prepares the patient for a job in which he can earn a living and retain his health and self-respect.
2. Find tuberculosis in apparently healthy groups of people by chest x-ray.
3. Provides sufficient beds and treatment for tuberculosis patients.
4. Helps to build sanitariums.
5. Buys x-ray machines.

These are just a few of the things that the Christmas Seal does to fight tuberculosis. Nancy Barbour, Grade 8

JUNIORS RECEIVE RINGS

The day of all days has come at last that is at least for the Juniors for on Friday afternoon, Nov. 10, the Juniors received their class rings.

THE OPINION POLL

Since there is the important holiday of Thanksgiving near, we decided to ask this question, "What is your favorite holiday and why?" Everyone may think that Christmas would be everybody's favorite so read the answers and find out for yourself.

Marilyn Cheeseman said Christmas because Christ was born on that day. Gordon Riggles—Christmas because he gets presents then. Neil Kennedy—Thanksgiving because it is a day of thanking God for all our blessings. Helen Fox—Easter because it is the most beautiful holiday to me. Marie Mumma—Thanksgiving because that is the day set aside to give thanks.

Wilma Eichelberry—Easter because the pretty flowers, clothing, and bonnets you see in church.

Larry Hampton—Christmas because you get the longest time out of school.

Emily Ford—Thanksgiving because it stands for a good thing. Elaine Rooks—Christmas because Santa comes then.

So stuff yourselves with turkey, have a merry Christmas, and go to church on Easter.

BOOK REVIEW

OF THE WEEK
A story that would interest almost anyone who likes to read at all is Practically Seventeen by Duldard. It is the story of Toey, who is going on seventeen. She has all the difficulties that any girl going on seventeen does. An interesting sequence in the book is when the biggest dance of the year is coming. Toey, has to take her coat to the tailor, so she tells her 8 year old sister that is where she is going, but when Brose, her boy friend comes over her sister tells him she went with some boy named Taylor. Brose is furious so he does ask her to the dance. She is heartbroken and cannot tell the rest of the kids what has happened so the dreams up who she is going to take her to the dance. She doesn't tell her parents that she isn't going so they buy her a new formal. That night she dresses

just as if she was going. The door bell rings and she goes to answer it and finds a handsome looking gentleman standing in front of her. In the end she finds out her married sister read her diary and had it fixed with her brother-in-law to take Toey. She goes with him and the next day Brose and her are back together.

DID YOU KNOW

Did you know that Oklahoma was admitted to the union on November 16, 1907. Oklahoma is often called "The Sooner State," because many of the first homesteaders were so eager to claim the rich land that they entered the territory "sooner" than it was opened for settlement.

It was also called the "Boomer State," after men who "boomed," or promoted, the opening of its lands.

"The population of Oklahoma in 1949 was 2,336,434."

That 87 years ago today free mail delivery to cities with the population of 50,000 or more began. In May of 1947 the first law for proper management of the postal service was passed. During this time a letter of a single sheet of paper cost from eight to twenty-five cents to send according to distance. Later it was changed to a rate of cents for delivery from 1 to 30 miles, ten cents from thirty to eighty miles and if it was over four hundred miles it cost twenty-four cents. In 1925 Congress also said pamphlets and newspaper would be delivered for 1/2 cent each. Twenty-seven years later (in 1963) Postmaster General Blair introduced the free delivery system with cities of a population of 50,000 or over. Receiving boxes were also put up and deliveries were made as often as public convenience would permit.

ORGANIST IS HONORED

Miss Mabel Zehner, who gave an organ recital in Plymouth the first of the year, was honored on Sunday afternoon in Mansfield by a concert marking her tenth anniversary as organist of the First Presbyterian Church. Miss Zehner was organ soloist of the afternoon and was assisted by the cappella choir of Mansfield Senior high school, and a 26 piece orchestra composed of musicians from Mansfield and Cleveland, under the direction of Dr. Louis Pete of Ashland. 800 attended the concert and applauded enthusiastically for this popular and well-known organist. Leonard Smith and Charles Hamum, Jr., of Plymouth, have been organ pupils of Miss Zehner this year.
