Mothers, Fathers

Honored By O. E. S.

The regular meeting of Plymouth chapter No. 23, O. E. S. was held in the Masonic hall Tuesday evening, May 9th.

After the regular meeting of the chapter, a recess was declared and a program honoring the mothers and fathers of the organization was presented. Tribute was paid to them by worthy members. Edith Rose, assisted by Conductress, Janita Fogleson and the Star Points. Corsages were presented to Irene Forquer as the oldest mother present, to Donna Dawson, the youngest mother and Clara Root, the newest mother. Dounionnaires were given to James Root as the oldest father present and Orva Dawson, the youngest father. Orva Dawson was the soloist and sang a beautiful Mothers

Day solo, with Elizabeth Ellis at the piano. Ingeborg Scott read the "Origin of Mother's Day," and James Root, a poem by Edgar Guest, as a tribute to fathers.

Bowls of goodies were sent to Mrs. Eva Smith as the oldest mother in our chapter and to John Root, Sr., as the oldest father.

Delicious refreshments were served and the next regular meeting will be May 23rd.

Tourist Club Holds Last Meeting of Year

Tourist club members were delightfully entertained Monday evening, by Mrs. J. E. Nimmons. A lovely arrangement of spring flowers centered the dining table at the Society Inn, where a delicious dinner was served. Favors were nut baskets, handles decorated with real spring flowers, which added

a special attractiveness. The meeting was held at Mrs. Nimmons' home on North Street, also attractive with spring flowers.

The program in charge of Mrs. Sam Buchach was a very interesting study, entitled Britain tackled the African Bush by W. Robert Moore. Interesting from many view points are: The Topography of the Country with the high mts. and many lakes, the customs of the various tribes, the natural resources and cultivated areas, soda salt, tea, the diamond mines. Kenya produces 13,000,000 lbs. of tea annually. Towns with numerous hospitals, schools and shops, a Farmers' Cooperative Asso., clubs and race courses at Lake Victoria.

—3rd largest lake in the world—a huge dam is being built. Many airplane transportation Co.'s take one over all Africa.

This being the last meeting of the year, the Club adjourned looking forward to a picnic scheduled for the summer with Mrs. Buchach, chairman, date to be announced later.

AN APPRECIATION

Robert MacMichael wishes to express his appreciation to the citizens of Plymouth who cooperated in the recent Scout Paper Collection Drive. Proceeds received were \$57.59 which makes it possible with the funds on hand to send four boys scouts to the national jamboree at Valley Forge.

The boys expecting to go are Danny Eby, James Brown, Bob Fogleson and Royal Eckstein. The group will leave Mansfield on June 27th. A total of 40,000 boys will gather from all parts of the nation for the jamboree. To date 69,000 boys have sent applications, thus approximately 29,000 will serve as alternates. Those in charge were doubtful if the western states would send their quota, but regardless of distance, they were among the first to send in their applications.

PICTURE OF OLD SCHOOL AT LIBRARY

A print of the old Plymouth High and Grade school building, now only a memory, is now in the Public Library.

The print is in gold on a pale green background and was made about the time the building was finished in 1875. The great elm trees which shaded the lawn for many years were not yet planted. No smaller trees or shrubs were there.

The large maple in the east yard, as shown in the picture, has long since disappeared. The entire yard is surrounded by a board fence that was replaced by an iron picket fence with gates (with locks) that protected the front lawn for many years.

This print was kept in the Gebert family Bible for many years, and now is framed and was given to the Library by Wilhelmina Gebert.

Kroger Pups

Kroger
LIVE BETTER FOR LESS

As a final test on the quality of flour that will be used in baking Kroger bread, Kroger Food Foundation scientists actually bake thousands of small test loaves of bread under carefully controlled conditions. The quality of these small loaves called "pups," shows conclusively the results that will be obtained in full scale baking operations. Through constant research and practical tests, a continuing guard is maintained on the quality of Kroger products.

Attend District Demonstration

Mrs. Gladys Stanley and Mrs. Mary White joined twenty-two other ladies from Richmond county and attended the District Home Demonstration Council meeting, held in the U. B. Church in Huron on Tuesday. The district is made up of Erie, Lorain, Ashland, Huron and Richmond counties.

Miss Minnie Price, Home State Demonstration leader of Columbus, acted as moderator in a panel discussion in the morning, the topic of which was "Home—The Foundation of Democracy."

The principal speaker in the afternoon was Mrs. George Peters of Oak Harbor, Ohio, a former State President of the Council. The main point of her talk was showing the difference of being a housewife and being a home maker.

REBUILD OLD LANDMARK

Back in 1895, Dr. Lybarger, practicing physician living in Ganges, built a bird house for the Martins. It was erected on August 31st of that year, with the help of his son Clem Lybarger, and Albert

Weirman, carpenter and neighbor. It was partially destroyed and repaired in about 1925.

Last Thursday, May 4, 1950, it was again taken down, rebuilt, painted and erected on a steel pole set in cement, by some of the public spirited citizens of Ganges.

Ersa Geisinger, grandson of the Doctor, was the instigator of the latest project.

The Martin house stands in the triangle in the center of Ganges, along State Route 178.

Materials were donated by the Shelby Lumber Co., The Ohio Seamless Tube Co., and C. A. Bly and son.

The house contains 124 apartments, stands about 25 ft. above the ground and required six men to get it in place.

GIVE THE PERSON YOU ARE TELEPHONING TIME TO ANSWER

Wait at Least 10 Rings

Very often the person you are telephoning cannot drop everything to answer the telephone. So, when telephoning, it's a wise policy to wait a minute—that's ten rings—before hanging up.

This gives the person you are calling a reasonable time to answer. You'll also be likely to complete a lot more telephone calls this way. And your consideration will help us to serve everyone more efficiently by cutting down the number of "incomplete" calls. So always wait 10 rings—won't you, please?

THE GREAT AMERICAN HABIT

Flipping switches is The Great American Habit. Even children have it. And it's a habit that has given America the world's highest standard of living.

In the home, electricity is just about the smallest item in the family budget, but what else makes life so easy, so healthy, so comfortable?

In industry, electricity lends the employee the strength of giants. Electric motors multiply his muscular strength by dozens or even by thousands—making it possible for him to produce more, better, faster—to earn more.

Electricity is certainly a vital part of our American life yet, oddly, this country spends only 2% of its vast income for electric service. Such a bargain in efficiency didn't happen by accident, of course. Business-managed electric light and power companies pioneered the electric industry—progressed and expanded because of investors with faith and vision, employees with skill and experience.

There are still broad fields of electric living yet to be tapped. Business men see the job better than bureaucrats. That's always been the secret of America's progress.

PUBLIC FORUM

WHY?
 Why are not more Boy Scout
 fathers interested in the Com-
 munity Club? In scanning the
 attendance at the Community Club
 dinner the other evening one won-
 ders why men who have no sons
 in the Scouts are so interested
 in the youth of our community. Any
 father of a Scout should be proud
 to have a part and be a member of
 this organization which is doing so
 much for our boys. The Club is
 sending four boys to Valley Forge
 this summer for a real outing, why
 not more of you fathers take an
 interest in this local organization
 and help promote this good work,
 as well as any other good cause
 that may come up.
