World Day of Prayer was the first interdenominational project of church women. It began very simply back in 1887 when Mrs. Darwin James called all her Presportana women together in their communities to pray for their missionary work. Then, in the early inineties. Christian women interested in foreign missions, were

I GOT ALL EXCITED last Fri-day morning when Bob Echel-berry came in and handed me a ci-gar, saying "It's twins." I couldn't believe it at first, but before I go gar, saying "It's twins." I couldn's believe it at first, but before I got settled down from excitement, he told me it was "twin kids." which momentarily didn't relieve my blood pressure. But when he said GOATS, then I came to. We'll admit the right kind of twins would lighten the tax load.

### Silhouettes Are Easy to Make

FOR a good many years every time someone spoke of a silhoutet, the first thing I thought of was the pictures of George and Martha Washington and people of the No. I photoflood in a reflect property of the property of the No. I photoflood in a reflect p

their era which have always enjoyed a certain popularity as wall decorations.

The second thing I thought of someone cutting something resembles are the subject of the someone cutting something out of white paper.

However, the silhouettes that are the subject of today's column are the kind that you make at home with your own camera and with people you know as your subjects. You can have a lot of the subject of today's column are the kind that you make at home with your own camera and with people you know as your subjects. The light behind the sheet can be a No. I photoflood in a reflector be a No. I photoflood in a reflector possible will be a no. 2 photoflood in a reflector possible will run about one second at US, using a fast panchromate diffin. With a non-adjustable camerater a reposure of about two seconds. If you have ordinary film in your camera, double the exception of the film.

If you wish, you can even use an ordinary 100-wast household light bulb. If it is in a reflector and your film is the fast pan type, the exposure will be about three camera or about eight seconds with the box type camera.

If you are doing the silhouettes as a party stunt, you can be sure that you'll have some pictures that are different and are fundary or the silhouettes you made at the last one.
