

Personal Tax Filing Now In Process

Personal tax filing at the Huron County Auditor's office is following closely the pattern of previous years. Only a few more returns have been filed than at the same time last year. After the first week's rush, filing tapers off and then terminates in a tremendous rush the final two weeks.

To eliminate the pressure of the final rush, it is possible to have returns processed now, and left with the County Auditor's office, and the advance payment can be made at any time up until March 1st. Many take advantage of this plan, thus saving themselves considerable waiting time. Each year more tax payers file their return by this date.

While Mr. Kenneth W. Reed, Chief of the personal tax section of the Auditor's office has a statewide reputation for his knowledge of the personal tax laws, Mr. C. C. Finley, of the Ohio Department of Taxation is in Huron County checking returns for conformity with the law and will be available for consultation during the balance of the filing period.

Many mention that the personal tax form is always changing. Basically it is the same form as used for many years, with only minor changes. Because of the personality in calling personal tax, "state tax" this year's form in the margin has this information, "Your School, Libraries, Health, Police and fire services are supported by this tax."

NEW MUSIC DEPARTMENT DEDICATED TO M. DAVIS

The Board of School Directors of Eatonville, Washington, voted unanimously to dedicate the new music department of the Eatonville high school, to the late Maurice Davis, son of Leon Z. Davis. The students of music in the school are to be placed to be put in the room reading:

"In dedication to Maurice Davis, born October 27, 1902, died March 19, 1952, for his outstanding achievements in music and his inspiration to the students of the Eatonville School. This dedication is a tribute to a man who was a true leader in his field."

Highlights Of Trip To West Coast

We are wondering if Mr. and Mrs. Floyd Steele and Mr. and Mrs. C. C. Canavan are finding it a little difficult to get their feet back down on the ground and their minds back on the daily routine, since returning home last week from a fine three week vacation trip to the west coast.

Taking the southern route to Tucson, Arizona, they stopped to say "Hello" to Mr. and Mrs. Arthur Myers, Mr. and Mrs. Fred Crall. Then they drove on to Phoenix to stay three days in the home of Mr. and Mrs. Arch Shultz. While there they took them over the Apache Trail to the Roosevelt Dam, Scoundale, and to other places of interest. Then they went on to Mexico, to Tijuana, where they visited the Mexican food and sampled the wonderful cuisine before driving on to the coast of California and up along the ocean to Los Angeles.

At Long Beach they visited in the home of Mr. and Mrs. Harvey Miller, who took them to some points of interest such as the U. S. Naval yards, and beautiful beaches. Then they went on to San Francisco, where they stayed in the home of Mr. and Mrs. Warren Fox.

The next stop was at the famous Grand Canyon, which they found very interesting. The canyon has been reported, then through the Painted Desert, the Petrified Forest, and headed for home, after about 6500 miles of travel, even a flat tire or any engine trouble. These Ohio folks really appreciated the wonderful weather and the scenic beauty of the West and the Southwest.

METHUEN CIRCLE

List Workers For Red Cross Drive; Goal \$500

If every resident of Plymouth and vicinity takes part in the 1953 Red Cross campaign slogan, "Answer the Call", the goal of \$500 will be reached in record time. The Richmond county quota is \$73,490 and at least 1,000 workers would be needed to reach the goal.

Ralph F. Bisbee, is general campaign chairman for the county, while locally Mrs. Royal Eckstein is chairman and Mrs. Roy Johnson, co-chairman.

One of the services which volunteer workers will have to talk about this month, is the collecting of blood for gamma globulin to protect children from polio paralysis. A Red Cross service, located to it by the Office of Defense Mobilization, being carried out each month in addition to the collection of thousands of pints of blood for Korean veterans and civilian needs here at home.

The \$73,490 which Richmond county will be asked to give this

ORGANIZE FOR MIGRANT WORK

An organizational meeting of the Inter-Church Council for Migrant Work was held at the home of Mr. and Mrs. H. J. Cornett's, with a dinner being served at noon. Following the noon meal, Rev. Felix of the local Presbyterian Church, gave an explanation of the work among the migrants of the Willard marsh area. Churches from Plymouth, Willard and Shady were represented, and committees were organized preparatory to the two weeks of activities among the workers this summer. Churches took charge of churches in this vicinity are participating through financial aid, and a very complete and definite plan is being worked out for this phase of religious education. A list of the committees and the work they have accomplished so far will be announced at a later date.

\$450,000 Sewage Bond Issue May Be Asked

With Plymouth's state permit for pumping raw sewage into open streams expiring January 1, 1954, Plymouth voters will be faced with a proposed \$450,000 sewage disposal bond issue next fall.

The decision to go ahead and put the issue before the voters was discussed at council meeting, Tuesday night and Mayor West and Councilmen Homer Burkett, Lawrence Cornell, Royal Eckstein, Thomas Root, and Benjamin Smith expressed themselves as being in favor of preparing the necessary legislation and placing the issue on the ballot for the coming election. Village officials are taking this step because of the State Board of Health which has for many years urged the village to do something about the sewage condition here.

A few years ago the government threatened to towns and villages for engineering services on disposal plants, and other utilities. At that time Plymouth took advantage of the threat and caused the village to get the government footed the bill for making the survey and estimate of the sewage plant, until the village had the money to construct such a plant, and then the government is to be repaid for the money spent for engineering.

A representative of Alden &

Stillison and Associates, Columbus engineering firm, and which made the survey some years ago, was present Tuesday night. He recalled that the original estimate for Plymouth's sewage disposal plant made in 1946, totaled \$180,000. A revised estimate for the same plant under present day prices comes to \$450,000.

With Plymouth already heavily burdened with school bonds and even bonds for the light and water department, it is unlikely that the proposed \$450,000 bond issue will receive local support.

Whether the issue gets approved or not, village authorities can have the satisfaction of knowing that they have done everything possible within their power to take care of the situation, and it will then be up to the state authorities to solve the problem.

APPOINTS TREASURER

James Rhine, Sr., was appointed by Mayor West and approved by Council members as the new treasurer of the Plymouth Chamber of Commerce. He will succeed Norman McQuinn, who resigned the post to become custodian at Mary Felt Park. Council also approved Earl McQuinn as a member of the Board of Public Affairs. He succeeded Wm. Miller. He resigned some two weeks ago.

Shortage At The N. Fairfield Bank

No charges have been filed to date, but an investigation is pending a shortage of funds at the North Fairfield branch of the Willard United Bank was reported on Monday. The shortage is said to have been less than \$10,000, and it was indicated that there will be no loss to the bank, its depositors or to security guarantors. Reconstitution will probably be arranged without resort to the insurance protection of the federal deposit insurance corporation. Corwin Leck was the manager of the branch for more than 10 years, and according to the Sandusky Register, has resigned his position.

NEW EMPLOYEES

Mrs. Wanda Lawrence is the new telephone operator at the local exchange. She is the daughter of Mr. and Mrs. Beulah Allen who resided in the same office.

The defeated Hopedale county defeated New Haven in the quarter-final round. Wakemah also was defeated by North Baltimore.

In the final standings for the county league teams, the schools came in this order: — Lexington, 1st; North Baltimore, 2nd; Plymouth, 3rd; Shiloh, 4th; and Roy Hampton, 5th.

There will be refreshments sold for the benefit of the organizations, and there will also be a cake walk.

Mr. and Mrs. Ward Stucky of Bloomville were Sunday dinner guests in the home of Mr. and Mrs. O. Cramer. The Stucky family was also present. The show in Cleveland on Sunday, March 12, will be a most enjoyable evening.

Community Club members and their wives enjoyed a dinner at Don's Grill Tuesday night, and a show at the Plymouth Theatre. The show was given by the Plymouth Community Club. The show in Cleveland on Sunday, March 12, will be a most enjoyable evening.

ARMED THE SQUARE

By Phineas Whitlens

CAN YOU NAME all 10 of the Commandments? When you get to the one — Thou Shalt Not Kill — add this — Main or Destroy, by highway and traffic accidents. Carelessness and speed can kill a person just as dead as if you murdered them with arsenic. You may regret won't make a new arm, or eyesight return overnight to the person from whom you have taken it, even though you "didn't mean" to do so.

A NEW TREND in fighting the evil in this old world was shown back East in Vermont, when 500 ministers began preaching from their pulpits the Sixth Commandment, applying it to conduct on the highways. More people have been killed in traffic accidents than in the war in Korea. You and I both have returned home, not the Commies. It isn't a laughing matter. YOU might be the next one.

NOW BACK TO THE War and Glen Burrer. Did you notice the picture of Airman 2/c Clarence Mosley of Patterson, N. J. — a recent Mansfield News-Journal Mosley is a friend and buddy of Glen's, who was sent to Korea. Now he has been returned home, a quadruple amputee, the first such victim of the Air Corps. Mosley was shot down over Communist territory and was led back to friends by the underground. Because of wounds and exposure, both feet, all fingers of both hands were amputated. You folks, around the Square — what was that little grumble about the weather or the mails?

MARCH MARCHED in all right

Turn up your collars and get the long red flannel. She came down in like a lion all right, roaring all Saturday night, but sort of an old lion; at least her hair was flecked with white, or maybe it was snowflakes.

OUT IN Wyoming the editors are

getting a complaint from a state editor who comes from a county named Crook. This is the way a like way his name reads in the newspapers, when the writers follow the usual way of referring to a politician. This is the way always comes out in print: — "Sen. Albert C. Harding, Republican — Crook."

BARNEY ROBINSON, of Steuben,

doesn't have time to read the Advertiser these days, but we'll tell you about him anyway. Barney Robinson, of Steuben, who he opened last week for the 58th year. He opened his first camp with his late father, Aaron, in 1887. Golly, what a lot of maple sugar, and what a stack of pancakes that makes me think about! He has 550 buckets out this year. Season looks good, he says.

OHIO'S Sequenential stamp

went on sale here Tuesday morning at the post office. The stamps are brown, and the design shows an outline of the state, which is the background for the Great Seal of Ohio. Panels on each side have eight stars representing the 16 states admitted to the Union before Ohio was a part of the Union. A Buckeye leaf is in one corner.

CHRISTY WEBER, of C. N.

Sutton, one of the well-known men who made the grade last Saturday and got their pictures in the Mansfield paper. Weber is the only living charter member of the Mansfield Eagles Aerie. Sutton, a nephew of Mr. and Mrs. Charles Barr, is shown presenting copies of the book "Young Rugged Constitution" to representatives of the schools of the Mansfield area. The books are given by the Chamber of Commerce as part of the 1953 American program.

FORMER PARISH PRIEST BURIED AT SANDUSKY

Word has been received in Plymouth of the death of Rev. Francis H. Curtin, a Catholic priest who held pastorates at New London and North Baltimore before he retired a year ago. He had made his home with his mother, Mrs. Elizabeth Kerr Curtin, Sandusky, since he retired.

His first appointment was that at our Lady of Lourdes, in New London, and he also served St.

Joseph's Catholic Church of Plymouth when the local church was still a mission. That was back in 1933 and he will be recalled by many here.

CARD OF THANKS

We wish to thank the Willard Hospital, nurses and aides, and Dr. and Mrs. Faust for kindness and service; all friends who sent cards and plants to the hospital; and to Mrs. Carmean and her aides at the rest home, for their kindness to us during the illness and at the death of our husband and father.

Mrs. Edna Dick and Family.

P.T.A. TO ASSIST IN LIGHTING PROGRAM

The P.T.A. of the Plymouth Schools has voted \$150 toward the purchase of some new lights for the high school. Some of the rooms are very poorly lighted with two outmoded incandescent fixtures. These fixtures are being replaced with modern fluorescent lights, each fixture containing four forty watt fluorescent tubes. The money voted by the P.T.A. will initiate the drive for relighting in the high school, other donations are being hoped for that would complete the lighting program. So far twelve fixtures have been purchased and are being installed. About 20 more fixtures are needed for the classrooms. Mr. Coon and Mr. Vansdale are installing the fixtures in the History Room, the Math Room, the Study Hall, the Sewing Area in the Home Ec. Room, and one fixture in the office.

Many parents have voiced sentiments that the lights should be replaced, because their children complain that they can not see very well on dark days. The project was discussed at board meeting and due to lack of operating funds it was suggested as a project for school organizations. It is hoped that other sources will provide funds to complete the project.

PSYCHOLOGICAL TESTS

The Ohio State University Psychological Tests were given to the Senior Class Monday morning. Miriam Kless and Tom Rhine had the highest scores in the class, with Lanny Gooding third, Joe Farrar fourth, and Joe Bettac fifth. Sue Farrar, Jessie Steele, Miriam Kless, and Lanny Gooding represented the school in the General Scholarship Tests at Madison. Sue Farrar placed first among the Plymouth students. The Psychological Tests were given to over 3000 pupils in Ohio. Many colleges use the test for entrance requirements. About the top 20% of the Plymouth seniors had high enough scores to be recommended for college.

STUDENT COUNCIL

The Student Council has voted to sponsor a series of Lenten services. Each denomination has been invited to participate. The students

will be in complete charge of the program, with local ministers providing a short talk on a Lenten theme.

The Student Council has suggested that since many schools display a United Nations Flag, that we should display one with our American Flag and our State Flag. The students voted to purchase the flag with student council funds.

TEACHERS MEETING

The following teachers attended the regular meeting of the County Teachers Association, Thursday, Feb. 26 at Union: Mrs. Port, Mrs. Farrar, Mrs. Anderson, Mr. Strine, Mrs. Buzzard, Mr. Bodnarovich, Miss Trimmer, Mr. Coon and Mrs. Myers, the school secretary. The main part of the program centered around the exchange teacher from England that is teaching at the Union School.

Miss Avril Gurney explained the English school system. It was extremely interesting that in England children are not failed, but are moved along in preparing for the examinations of the eleven year old children. If they receive a high enough score they go to a college preparatory school, if not, they go to a secondary school until they are sixteen.

She also pointed out that teachers are not under contract as they are in the USA. Once they accept a job, they can remain there as long as they desire, but they are free to move if they choose.

BOARDS OF EDUCATION MEET

The boards of education from all of the county schools met in their annual meeting at Union Wednesday, Feb. 25. The main speaker of the program was Mr. Neil Robinson of the Ohio Legislature. Mr. Robinson talked of problems that the Legislature was facing. It was interesting to note that Mr. Robinson, did not definitely commit himself to better education in Ohio. The way he spoke, it sounded as if he would follow the lead of his party in supporting the Manahan - Mosher bill.

Many members of boards of education asked him why there was no more support in the legislature. On occasion the questioning was

pretty hot and heavy. Mr. Mosher was also invited but did not put in an appearance. It seems, at this point, that the legislature is trying to force the school people in asking for more real per jury taxes, by refusing further aid.

WE HEAR from our subscribers

Bradenton, Fla.

Dear Friends:
Will write a few lines this a.m. requesting a change of address for our welcome visitor, "The Advertiser". While we are greatly enjoying our winter here among lovely people, the beautiful flowers, and sunshine — we still look forward to hearing from the home town via "Old Faithful", the Advertiser.
The reason for change of address is that we have purchased a 1952, 37 foot trailer with new, attached 12x12 foot cyprus cabana

and also the trailer is under roof, and we also have septic tank hook-up. Our location is in "The Friendly City" trailer park on the Tamiami Trail, about one mile south of downtown Bradenton. As I presume you have already surmised, we hope and expect to make this our annual winter camping ground. We are moving in today, having sub-rented our duplex to two ladies for our unexpired rented period vis April 1st.

I have seen and chatted with Frank Bevier several times, always find him seated on a rustic bench in front of the court house. I asked him a few days ago if he had one reserved and he said "no", that was his office, "maybe a matrimonial bureau."

A few days ago we called on Carl Lofland's uncle, on his 87th birthday. He is Andy Montiel, formerly from Plymouth, having come here in 1882 and after much traveling around, tramping, to use his own expression, he located in Cleveland for many years, before coming here for his retiring years. He is a grand old man to meet and visit with and remarkably well preserved for his years. He returned our call only a few days ago and as he was driving over to Sarasota invited us to go with him, but as we had our "For Rent" card out, we had to decline.

Well, I think this has been a rather lengthy preamble to a change of address request, and if you care to use this for filler, ask us hello to our friends and neighbors, and come and see Florida before it gets too late. We love it.

Now we must let California give her side of the sunshine story, and we do like to hear from every corner of the globe. We'd like to get some mail from Maine, and then from Texas, so some more of you subscribers get busy with the pencil and postage stamps.

Hollywood 28, Calif.

Dear Mr. and Mrs. Thomas:
For the past two weeks I have daily promised myself to drop you a few lines and include my subscription to the Advertiser, but how easy it is to procrastinate. However, you will find inclosed my \$3.00 for another year of Home Town News, which reaches me every Monday morning — 52 times a year regardless of the "unusual" California weather conditions.

The current weather consists of high winds with great velocity, doing all kinds of damage to our fair city. Our street is strewn with palm fronds from the high trees that line both sides of the street. With all this wind the temperature has been that of summer.

On Feb. 1st, the Jackson family drove over from Burbank, picked me up and headed for Knott's Berry Farm, one of the show places of Southern California, as well as known for their famous dinners. It includes Ghost Town, which attracts thousands of sightseers. The day was one to boast about, very warm. I know, for I sought the shade as often as possible. "Old Sol" has just a little too generous with his shine and warmth.

The Jackson kiddies had their first train ride, and that on the Ghost Town and Calico Railroad, a narrow gauge train of Denver and Rio Grande fame.

We have had so many lovely trips together, to the mountains, beaches, desert, and many inland resorts. When we are not sight-seeing, we are discussing — guess what? You have it — Home Town and of course The Advertiser News. Hope this finds you both enjoying good health even if it is a little too warm here. That cold — "You can have it, we don't want it, it's too cold for us." Under separate cover I am sending descriptive booklets for you to read, describing some places where we have been. Wishing you the best of luck always, and anticipating another year of Home Town News. I am sincerely yours,

Mrs. Mary Lerch Fenton.
P. S. — Just to mention Jimmy Durante. I offered to sing with his pals from Radio Center, in the Du-Pars Restaurant, at Hollywood and Vine St. They occupy a booth for six — and believe me, they have a glorious time. Often Percy Kilbride of Pa and Ma Kettle, Jack West and Jack London are in the group. They sing long over their cigars and coffee. Pa Kettle's cigar is almost as famous as Churchill's cigar. Never without it. He and Jimmy are two naturals, at Actors.

We sure enjoy hearing all about this wonderful weather, even if it's windy, and we've been having high winds here too, but without the sunshine.

Now let's get Kentucky on the line.
Crosshill Road,
Louisville, Kentucky.

"No winter so far. Lowest temperature 20 degrees. Tulips and daffodils up about 3 in. Scattered blooms on Forsythia and Japonica. Friends back from the South say it's warmer here than in Miami and New Orleans!"

"Dr. A. E. Cole."
And along with this weather report came Dr. Cole's renewal for the Advertiser, too, so that he could read about the kind of reading we're having on our thermometer this next year.

No weather notes, but a nice note anyway, from Lois Berberich in Phoenix, Arizona. Says she — "Will you please send a copy of above date as soon as possible, as we certainly hate to miss out on any of the happenings around Plymouth. Thanking you in advance, I am very truly yours,
Lois Berberich."

Then from Ohio towns come renewals from Mrs. W. Ulmer in New Washington, G. W. Pickens over in Carey and Bertha Muma in Shelby, who says she "would be lost without it," meaning the Advertiser, of course.

Miss Jessie Cole is visiting her brother C. V. Cole and family in Akron for several weeks.

SILLIMAN'S SUGAR Bush was opened Tuesday, Feb. 24th, and this makes about the 75th year that it has been in operation. The say started running very good and everything looks favorable for a good year. Walter Silliman is opening the bush this year, as his Dad, Harry S., is down in Florida yet. Those who have been helping are Estel Watts, Kenneth Ford, Warren Ford, Don Ford and his son Elsworth, and Harris Postema. Sounds like mighty sweet stuff again, folks, so get your order in early.

FRIDAY, THE 13th, may mean bad luck to some, but to Rev. F. B. Heibert of Akron, a former pastor of the Plymouth Lutheran Church, it only means another birthday — his 90th.

A nicely typed note from Rev. Heibert this week says "Why all this anxiety about the THREE 'Friday the 13th' days this year? It is all a mistake. You did not, of course, know that I have removed one of them from the calendar, for my own personal and exclusive use."

Plans are all completed to use every minute of one of them for the celebration of my ninetieth birthday. Was born in Sulphur Springs on FRIDAY, March 13th, 1863, and that means that I will begin my second childhood on FRIDAY, March 13, 1953. Phineas, do you think, at least some of the elderly ladies, will be in to kiss the new baby? They did it ninety years ago."

For those who may wish to send a Kiss or a Card to Rev. Heibert, here's the address. Who knows, maybe he will get ninety. Rev. F. B. Heibert
209 Merriman Road,
Akron, Ohio.

JUNIOR MARVIN will brighten the columns of The Advertiser beginning next week with up-to-the-minute news of baseball. Junior is an ardent fan, leaning mostly toward the Cleveland Indians, and from views expressed over at the post office, Marvin will have plenty to write about during the coming season. We aren't going to be responsible for any predictions he may make, but you may be sure of one thing — the ball fans in this area will find them interesting.

Time For A Change ---

Much thoughtfulness can be accredited to our Richland County State Representative, Neil S. Robinson, who last week, introduced a bill in the state legislature to ban fast time within the state.

This change in time business has been headache for the state in more ways than one, and it's about time our lawmakers forget about taxes and highways and give some attention to getting the state back on a unified time schedule. Changing the time each year brings confusion to business and agriculture in no small way. For years and years farmers have operated more or less on sun time, and anyone knows that especially when harvest season is open a farmer isn't going to leave his crop with the sun two hours up, even if the clock says it's 7:00 p. m. So he stays in the field until about dark. And if it's on a Saturday, about the time he gets ready to come to town to do his shopping, he will find the stores closed, if the community is on "fast time." There are some very good arguments against the farmer getting up three hours before daybreak to get into the fields, and we believe most members of our legislature understand the hours suitable for a farmer to work.

In the introductory of his bill last week before the Legislature some opposition was voiced from the large cities in northern and northeastern Ohio. This was brought about due to business relationship with cities in the East which operate on fast time. Well, what about Chicago and the cities to the West? They are generally behind us an

hour or so, and no one squawks. And yet, our volume of business throughout the state from the West will no doubt equal that of the eastern cities.

We are not putting up an argument for or against fast time, but we do believe that Ohioans are getting pretty well fed up on all the disruptions caused by two different clock hands, and it's about time for our legislative body to do something about getting the state back on one unified time basis, whether it's fast, slow or sun time.

Representative Robinson, who hails from both an industrial and agricultural area of the state, realizes that the annual mixup in time is the cause of a lot of headaches and misunderstandings, and his bill should be given serious consideration by the lawmakers in Columbus. Robinson's joint resolution would submit to the people of Ohio at next November's election a proposed constitutional amendment which would provide one uniform time throughout the state, and would bar any city from instituting "daylight saving" time.

It is regrettable that we face the coming summer season with two times confronting us, and the solution is through the adoption of Robinson's proposal.

Representative Robinson is to be commended on his effort and a few letters from the people in this area to him will no doubt be of much aid in getting action on his proposal. It's going to take time and work to get the time question before the voters, but it should be worth the effort.

On Sunday, March 1, 1953, Sandra Huzovich celebrated her eighth birthday at a festive party at her home, which had been arranged by her parents, Mr. and Mrs. Joseph Huzovich, and with the assistance of her sister, Miss Dasher.

Twenty-seven little school friends were invited to the afternoon party from two to four o'clock: Dorothy Stodts, Susan Shaver, Linda Pitzen, Marcia MacMichael, Sharon Baker, Judy Mariner, Judy Lewis, Janice Coon.

For more, it was decided today by Neil McCross, local manager of Ohio Fuel.

Emil J. Tressmer, Columbus, Treasurer and one of the original seven members, said each man put in \$10 in 1935 to get the credit union started. Born in a depression, the savings and loan group also survived World War II.

During the last three years, the Gas Company Employees Credit Union more than doubled its assets. Secretary-manager William C. Duff said he believes the assets will increase to \$1,500,000 in the near future.
