Gas Co. Asks Raise Of \$5.80 Monthly

If you use fuel gas for cooking or heating in Shiloh, it'll cost you more to do so if the supplier, Ohio Fuel Gas Co., has its way.

The company served notice on Shiohl's village council that it wants an average of \$5.80 a month more from the average user after two years.

Currently bound by contract to furnish Shiloh users with fuel gas at a \$1 minmum, and an average of \$18.10 a month for users who heat their homes with gas, the com-pany told the council it will dem-and these increase when the con-tract expires next Jan. 27.

tract expires next Jan. 27.

For users who merely cook with gas, the average bill for the 5,000 cubic feet of fuel gas consumed each month would go up to \$5.15 a month, as compared with the \$4.35 in force at present.

The company's request asks for built-in increase. After the first with the second of the actual costs of the company.

The council will discuss the matter further Wednesday night.

the Omer Burketts of this place is young Gregory Eldon Burkett, son of Mr. and Mrs. Eldon Burkett.

He's a television fan, this character, and

like most men, he likes to eat. He's two-and -a-half, so far the only child in the Burkett menage.

His well-wishers in Trux street are mak-

ing book to determine whether he inherits the "Bumper" nickname owned by his grandfather and his father. Greg doesn't have any live pets, but his teddy bear is an inseparable friend. The

two go to bed together.

With a smile like that, he's competition for Mr. Nixon. Stand aside, Dickie boy, while Greg has a crack at the votes!

Who Says I'm Loafing? **Only Job Hunters** can collect Unemployment **Compensation**

No laid-off worker in Ohio can sit around drawing compensation. First, he must have been laid off through no fault of his own. Second, he must keep beating the pavements looking for a job.

Some decisions have ruled that applying for work at three places each week is not enough. An unemployed worker has to keep hunting for a job—anywhere—everywhere—accept any suitable work avail-able—or lose his compensation.

Don't be fooled by such misleading statements as "workless pay." The only real change in the proposed law is a slight increase in the amount of unemployment compensation to bring the law in line with increased living costs.

This can benefit you and everyone in your community-farmer, storekeeper, school teacher. It means paying for groceries, repairing shoes, protecting family life, providing bare necessities for workers families, but only during an emergency.

NO NEW TAXES

This is not a new tax. It will cost you nothing. Unemployment Compensation insurance is supported by premiums paid by industry according to the amount of payroll. This fund now has a surplus of \$611,000,00.00.

NO PRICE RISES.

You may have been told that Ohio manufacturers must charge higher prices if unemployment benefits are ruled. Instead of 50 cents per \$100 payroll is only half the national everage. This low rules han't been reflected in lower prices by Ohio manufacturer.

Office 500 cents—yet sells its products at the same price as the Ohio manufacturer.

SHALL THE PROPOSED LAW TO INCREASE UNEMPLOYMENT COMPENSATION BENEFITS BE ADOPTED?

Can you spot the jokers

Does the ballot tell you all you want to know? Does posed law? Does it say how much more its being said payments for how long and for whom? Does it say posed law will cost if passed by your wife and put of it does not . . . so here are the facts:

WHOSE PROPOGAL IS THIS?

Number 4 on a separate ballot on Election Day is a bill by the Congress of Industrial Organizations (the CIO) to increase uneimployment payments. The CIO is disprended over regions abet have making body in refusing the serviciant demands for higher payments and is trying now to "sell" its issue to the people. The CIO's demands exceed unemployment payments paid anywhere in the U.S. the CIO constitution of the control of the cont

U. S. A.

If the CIO succeeds in by-passing the legislature this time, it will have the green light for more fantastic initiative proposals in the future.

Stop this self-interest drive now!

HOW MUCH MORE FOR NO WORK?
The new maximum weekly benefit, if enacted into law at the polis, would be \$55,00! That's \$1.48 per hour for a 40-hour week of no work! Compare that with the new Federal Minimum Wage Law which only requires a follow as hour for scenario work.
The CIO asks also that the maximum

jobless pay period be increased from the present 26 weeks to 39 weeks! Think of it! The simple arithmetic st: 39 x \$59 = \$2,30! TAX FREE
It means that persons out of work—many of them abusers of the plan—would get up to \$2,30! for nine long months of idleness! A nice vacation on the award of homes! about

WHO RECEIVES WORKLESS PAYMENTS The CIO claims only willing workers "actively seeking work." as the law re-quires, will be paid compensation. But every citizen knows how badly even the existing set-up is abused.

existing set-up is abused.

In 1954 alone, more than 64,000 persons worked in this state, then went to another state while drawing unemployment benefits from Ohio. They went to Florida, California and elsewhere ... many of them loafing in the sun while others paid the bill.

If these abuses occurred under a lower rate of hand-out, imagine what it will amount to if the CIO is successful!

If the bill is passed, it will cost an offi-fally estimated additional \$47,500,000.00 or past at least.

The CIO is trying to fool the public — and that includes all of us — into think-ing that this increase will not raise taxes and prices.

You hear the GIO's line every day. They say unemployment compensation is not a new or increased tax. This is not even a half-truth. It really means hidden taxes.

hidden taxes.

Ohio employing firms pay into an unemployment compensation fund. The more they pay, the higher their expenses. The higher their expenses, the higher their saking prices for goods and services.

Who says raising unemployment benefits went traise taxes? Those taxes mean higher prices for coverything you buy.
