**For schools —**

Two vacancies will occur in Plymouth Board of Education on Dec. 31.

Three candidates have filed nominating petitions.

One of them is a young man who wouldn't be a candidate, because he couldn't be, owing to his age, without the enactment of an amendment to the Constitution declaring those citizens 18 years old eligible to vote and to hold office.

It is a splendid commentary on our young people that he has chosen to run. He aspires to a seat to be vacated by his father, who swears (and we believe him) that he in no way influenced the son to run.

Of the other candidates, one is a responsible businessman with a long record of public service elsewhere in Ohio before his business affiliation brought him here. The other is a housewife who has shown considerable interest in school matters.

As we see it, none of them would be a bad choice.

That the young man is a student in a college 30 miles from here need not, and should not, militate against his candidacy. He has maintained a continuing interest in local affairs and his absence save when there are meetings is no worse than a situation when a previous member, who served capably as member and president of the board, was absent because his business kept him away from here.

It is to be hoped that each of them will speak up on what he regards as the pressing issues of this school in this town. The public is tired of pronouncements that blame the state legislature. How much more than 55 per cent of the school operating budget should the state be expected to fund?

From our standpoint, some of the issues that ought to be discussed are:

1. Should the high school continue to be a member of an athletic conference in which it is the smallest school and in which, in an expensive sport, it is not competitive with each other school and cannot hope to be in the foreseeable future?
2. Should the high school be accredited by the North Central Association of Secondary Schools and Colleges, given that in the future enrollment in the state universities will be so large that many of our graduates may simply not wish to attend huge institutions where they are no more than a number or a hole in a computer card?
3. Should the curriculum be reorganized so that pupils who opt for vocational school will have the opportunity to study the American system of government, what it means, what it is doing, and what it is supposed to mean and do, in a heterogeneous class, rather than a homogeneous one? It's pretty hard to teach the Reconstruction amendments in a class where all pupils are children of parents who earn their livelihoods at the same sort of work and more or less the same income.

This list is short but it contains much meat. Other issues ought to be discussed.

We await them with interest.

er problems. The council questioned a bill from John Sawvel, Findlay, who did an electric rate survey for the board of public affairs and set up new rates about six years ago. He claims the council passed two ordinances, 8-85, which would have him do a water and sewer rate survey, pending the receipt of federal funds. Since he had not heard from the village during the intervening years, Sawvel sent his final bill for what he claims to have spent for external statistical data. The bill was tabled until the back records can be searched to see if the village has any responsibility about any work he may have done. Utility committee reported it has been unable to arrange a meeting with Saltzberger Drilling Co. The same members, Councilmen Robert A. McKown and Robert I.

**Richland county farms fewer, revenue up 28 per cent since '63**

Richland county showed a total of 1,475 farms in the 1969 census of agriculture, Department of Commerce's Bureau of the Census reports. In the 1964 census of agriculture the number of farms reported in the county was 1,537. Of the 62 total farms in 1969, 729 are reported as selling \$2,500

or more of agriculture products in the year, as compared with 760 in 1964. The report also shows average farm size in the county was 135.4 acres, and average value of these farms (land and buildings) was \$45,626. Other figures from the report are:

1. Value of all farm products sold in 1969, \$12,078,971; in 1964, \$9,427,150.
2. Value of all crops sold in 1969, \$3,380,721; in 1964, \$3,566,041.
3. Value of all livestock, poultry, and their products sold in 1969, \$8,579,858; in 1964, \$5,656,195.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of farms from which agriculture products totaling \$2,500 and over were sold. Including family farms using this type of business structure, six of the county's \$2,500 and over farms are incorporated.

**What hath Gilligan wrought?**

Plymouth, Cass and Bloomingrove townships would be assigned to Ohio Senate District 26 if Governor John J. Gilligan's decennial apportionment is not upset by the Ohio Supreme Court. The new district would encompass parts of Darke and Miami counties, part of Madison county, all of Marion and Delaware counties, part of Crawford county, and Mansfield and 12 townships in Richland county, having a total population of 323,697. Plymouth township would be assigned to House District 60, essentially the same district as now represented by Richard M. Christensen (D-Mansfield). New Haven township

Bachrach, who serve as the finance committee, said they realize Mrs. William Wheeler, who is serving as village clerk, did a "tremendous amount of work on her clerk's report," but that it did not show a true picture of the village's financial situation. The report, done with the help of the state examiner working here now, does not show a heading for the disaster funds, which are in a deficit of about \$5,000, nor does it reflect a sum of \$3,000 which the general fund borrowed from the electric utility, they said.

As a result, the report was not approved. It will be discussed further at the next meeting. Forquer suggested the council consider purchase of a new Burroughs billing machine, which will cost about \$15,000, with about half that amount being reduced as trade in allowance on the present bookkeeping machine. After a formal adjournment, the council met informally with David Sunucks, the local manager for the company, who explained the workings of the equipment.

**Cars collide**

Minor damage resulted in a collision Sunday evening in Route of south of Route 224 when Mrs. Odessa M. Coy attempted to turn left in the path of an oncoming car driven by Larry Vanderpool. She was summoned by the state patrol for failure to yield the right of way.

# Ontario demoralizes Plymouth, 38 to 0

Ontario demoralized Plymouth with two pass completions in the first half. In the first half, the Warriors scored only 14 yards (it was his poorest of the season) and Ontario took possession at its 40.

In 10 plays the Warriors had scored Yancey gained 12, Shafer 15 and Dick Kober seven before a penalty set Ontario back to the Red 23. From here Randy Gates, one of two Gates boys sharing quarterback duties, passed to the score. Shabby Red defense contributed to the run.

Kober bolted home for the PATs at 8:53 of the second period. Plymouth managed to get into Ontario territory late in the second period on a pass interference penalty that gave Plymouth its initial first down at the Warrior 45. But three pass plays went for naught and Carter was compelled

to punt. PLYMOUTH WAS knocking on the Ontario goal when time ran out, unable to connect with three pass plays from the Warrior 24 after Jim Curright intercepted an Ontario pass. With three seconds remaining, Taylor's throw was intercepted by Bill McClelland.

Ontario clearly had every advantage in the first half and deserved the ball in play 30 times. Ontario scored seven first downs, 98 yards rushing and 53 passing and had lost 50 yards on four penalties. Correspondingly, Plymouth had two first downs, 28 yards rushing, no yards passing, with two penalties for 20 yards.

Bill Van Wagner did not play in the second half, owing to a leg injury. Ontario exploited his absence with its attack after the kickoff, marching 55 yards in seven plays, mainly over the position vacated by Van Wagner, to score its third touchdown. Kober rammed in from five yards away. Mike Riley added the PATs.

Plymouth was to generate the only semblance of an offense in the next three series. The Big Red moved from its 33 to the Ontario 38 before Carter was forced to punt. This he did splendidly, to the Warrior four.

AND ONTARIO WITH equal splendor put on a 96-yard drive to score. Shafer got five, Yancey five in two carries and Riley seven off tackle before Yancey, on a quick hitter off right tackle, broke through the Red secondary and sped 79 yards to score. The place kick for PAT was off

line. Ontario led, 30 to 0. Plymouth took the ensuing kickoff from its 42 to the Ontario 37 before losing nine yards on an ill-advised screen pass play, whereupon Carter punted 37 yards to the Warrior nine.

The Warriors couldn't gain and returned the punt. Carter got 14 yards in two tries and Taylor fumbled the snap from center to lose two before Taylor's pass for Outright was intercepted by Shafer.

Coach Roger Copeland sent his second string onto the field at this point and it responded nobly. A FIVE YARD PENALTY against Plymouth gave the Warriors a first down when they needed it the most. On first down, Dan Wolfe hit the middle of the Red line, wiggled free and ran 57 yards up the middle of the field to score the final TD. The drive covered 78 yards in seven plays. Ron Cooper ran the PATs.

It was a dull game, as is every game in which the mistakes of one team hand the victory to the other. Ontario did not win this one so much as Plymouth lost it. The new defense that Red players boasted about during the week managed to contain the Warrior ground game in the first half but could not cope with an aerial attack. The two scores produced thereby simply demoralized Plymouth.

Without John Conley, Van Wagner (who carried on only one play and fell down) and the semblance of a crisp passer, the offense can't break an egg. The offensive line simply has not been doing its job well enough often enough.

# Why so few frosh?

By THE OLD TIMER  
Another poor football season and already the grandstand quarterbacks are after the coach's hide. He may or may not be at fault.

But it's pretty hard to put the ball on a man whose foot is on the base. Take a look at the squad of junior high footballers whose photograph appears elsewhere today.

Consider that about half of them are eighth graders. How many will report for the big team next fall? Taken on past record, perhaps a fourth of them.

WHY SO FEW? Everybody knows that by rule they can't engage in varsity competition, even if one of them is another Jay Berwanger or Red

Grange, or even an Alex Karras. And they're obviously too small to engage in scrimmage with the big team, no matter what its size is now or may be in the future.

An insufficient number of frosh has turned out in seasons past, so much so that the coach assigned to them can't even organize a team.

To solve the problem of the Big Red, if there is a problem that can be solved, figure out why the junior high schoolers don't turn out for freshman play.

And while you're about it, figure out why some 10th and 11th graders, almost big enough to eat hay, won't or don't turn out until they're 12th graders.

Everybody wants to win at least one varsity letter.

Could it be that some 12th graders turn out and stick it out because they are aware of the policy that gives a 12th grader a letter whether he plays the required number of quarters or rides the bench?

Is this what needs changing? WE DOUBT IT.

But some grandstand quarterbacks who never played a game of organized football in their lives are quick to condemn the coach.

Condemnation may be in order. But please, nor until we have the facts, ma'am, just the facts, as Sergeant Friday would say.

## Can you afford not to apply ammonia now?

We've got two big reasons why you can't. First, ammonia will probably cost more next spring. Second, you can apply your ammonia when you plow this fall—with either a moldboard or a chisel plow. Eliminating that trip across the field next spring saves valuable time and money. There are a lot more reasons why it's to your benefit to fall-apply ammonia. Give us a listen when we come your way. You don't have a thing to lose. And we can save you time and money next spring.

**From windmill to hair jewelry, Auntie runs gamut today**

By AUNT LIZ  
Haven't anything to do one of these nice weekends?

Hop in the family chariot and take off for Dearborn and leisurely enjoy Greenfield Village and its museums. This is a good time to go because you will be missing all the summer vacationers and it won't be so crowded.

There is so much to see there that you probably will miss part of it. It has a little of every bit of our country's history, from a Pennsylvania covered bridge built in 18-

32 to President Franklin Roosevelt's 1939 Lincoln.

The nation's oldest windmill is there, too. It was the third to be built by the early colonists on Cape Cod, back in the 1600's.

One of the most fascinating exhibits is that of hair jewelry.  
Today it is a rather lost art, but it may be revived as some of the old forms of handwork are becoming popular again.  
Bits of hair were artfully arranged as designs

for rings, brooches and lockets. They had great meaning too: friendship, broken romances and, probably the most common, as a piece of mourning jewelry in memory of a loved one.

Strands of hair were not simply snipped off and arranged in a design. It was quite a process. A number of strands would be cut of uniform length and the ends tightly bound with thread. It was boiled for 20 minutes in two pints of water with about a tablespoon of soda.

They were then dried

and divided into strands of 20 to 30 hairs. Each end was well knotted. A weight was attached to one end to help straighten it so it would lie absolutely smooth. The other end was waxed or shellacked so it would have a sharpened point to weave with.

Once the hair was prepared, it would be braided or looped and whirled into patterns similar to macramé.

YOU CAN IMAGINE what a delicate job this can be. It would take the patience of a saint. It really gave women some-

thing to do, at a time when they seemed to have all the time in the world. Right now everyone seems to be canning. There wasn't a package of Sure-Jell left on the grocery shelf the other morning, and we have heard that you cannot buy a single jar in the Chagrin valley.

If you haven't been doing what everyone else has and are becoming a little embarrassed because they are all sharing it with you, you can whip up some salad dressing, which is different. A small jar makes a fine little something to give.

This makes a quart and can be doubled easily. In a blender mix a cup of ordinary mayonnaise, half a cup of sour cream, half a teaspoon each of garlic salt and paprika, two tablespoons of minced onion, half a teaspoon of

**HERE NOV. 19 -- OES sets installing of matron**

**UNICEF canvass set here by youth group Oct. 31**

Sunday, Oct. 31, will be UNICEF day. Mayor Hugh W. Washburn issued a proclamation to that effect Monday. Members of Plymouth Youth Group, including both junior and senior high school pupils, will canvass the village for contributions to the United Nations Children's Emergency Fund, winner of a Nobel Peace prize for its contributions to the international community.

These ground rules apply: Canvassers will call from 6 to 7:30 p. m. on Sunday, Oct. 31. Each canvasser will carry an official orange-

**and-black container in which to place contributions, whether in coins or in notes.**

The Revs. Allan Colgan, Plymouth United Methodist church, and Robert Bellingham, First United Presbyterian church, advisers to the group, request canvassers to obtain the approval of a parent or guardian before undertaking the solicitation.

Canvassing will begin promptly and close exactly at 7:30 p. m. Contributors expecting to be absent on Oct. 31 from 6 to 7:30 p. m. may send their contributions to either minister.

**Mansfield OSU sets deadline to register**

Pre-registration for the winter quarter on Mansfield campus, Ohio state university, began Monday.

Students will consult with advisers and register for winter quarter classes which begin Jan. 4, 1972.

Deadline for registration for continuing students is Nov. 15.

Deadline for new and returning students is Dec. 15.

New students will take their placement tests and advise their major service, at the Mansfield campus and will receive their scheduling materials a week later, Dec. 14.

**Shiloh hires Navy veteran, 40, as police chief**

Robert McMillion, 40, Lexington, a Navy veteran of 21 years' service, was named Oct. 15 as full-time police officer at Shiloh by its village council. His salary of \$550 a month will be funded by the Federal Emergency Employment act. Shiloh pays 10 per cent of the salary, the rest a remainder.

McMillion will serve a probationary period of 90 days. Then he will be appointed police chief, at \$800 a month.

He will be allowed \$100 a year for clothing costs, two weeks of vacation a year, 125 days of sick leave for each month of service and \$10,000 public liability coverage.

McMillion is a former Richland county sheriff's deputy. He has completed the required 240 hours of schooling.

The village garage in Pett street will not be sold, the council ruled. It will be used for storage.

Mrs. Robert Boock, the clerk, was instructed to ask the Penn Central railroad to repair the Main street crossing.

William Fry's sidewalk in West Main street must be repaired within two weeks or it will be done by the village, the cost to be affixed to his tax duplicate.

Plymouth Advertiser, R. Eugene Russell assistant treasurer. Mrs. Dean Hamman gave the Kingwood report, announcing the dates for the Kingwood Christmas workshop.

Five members are planning to attend the Regional OZOC meeting at Mansfield Oct. 27. An auction sale of bulbs and plants was conducted. November meeting will be at the home of Mrs. Robert Forsythe.

Wee Wanna Loos TOPS club met Thursday at 7 p. m. with 11 members weighing in. There were six TOPS and two KOPS with weight loss of 9.34 pounds. Miss Lois Crockett was the ballerina, Mrs. LaMarr Phillips the runner-up. Mrs. W. A. Pittenger was hostess to the Thursday Night Bridge club last week. Two tables were in

Oct. 21, 1971, Page 7 play. Miss Elizabeth Kinzel won the high score prize, Mrs. Greta Stroup the low and Mrs. Paul Krantz the traveling prize. Mr. and Mrs. Chester Bell left Oct. 5 for St. Cloud, Fla., to spend the winter. Robert Forsythe received a semi fracture of the right leg Friday, when the ladder he was using at his home slipped. He was fitted with a walking cast. Mr. and Mrs. Glendon Dowds and family are the new occupants of the Marlon Hughes house, West Main street.

## VANDERVORT FOR MAYOR

This is the fourth report to electors on results of a continuous opinion poll being conducted by the VANDERVORT FOR MAYOR COMMITTEE. (Go to the polls and vote Nov. 2, 1971.) The last report will be in Oct. 28 issue of The Plymouth Advertiser.

The cumulative data regarding each candidate tabulated by the VANDERVORT FOR MAYOR COMMITTEE is as follows:

	7/24	8/12	9/2	9/25	10/9	10/23
Brumbach	not dec.	2%	1%	1%	1%	
Paddock	18%	16%	16%	18%	17%	
Vandervort	27%	18%	11%	6%	8%	
Washburn	21%	15%	11%	9%	8%	
Undecided	34%	49%	61%	66%	69%	
% of voters polled	4%	10%	12%	15%	16%	
Not reg.	8	24	31	41	46	

COMMENTS AND ANALYSIS:  
In comparing this week's survey with our last report, it will be noted that the standing of each candidate relative to the other remains the same. Also, a loss of one per cent was sustained by the top three candidates while the fourth remain unchanged.

An increase of three per cent in the undecided group accounted for the net loss to the three leading candidates. The undecided factor will not alter the final tally to any great degree. By using the total number of opinions expressed and converting the standings percentage-wise, each candidate will receive a popularity vote as follows: Brumbach, 2%; Paddock, 55%; Vandervort, 16%; Washburn, 27%. The summation of the current ratings in voter terminology: Paddock will win by a landslide with 55% of the votes cast. Call in your opinion today to 687-6141. It will be recorded.

FOURTH PLANK, CAMPAIGN PLATFORM:  
To codify village ordinances and work with the solicitor to bring them up to date, revise or cancel those that are not enforced; to call the council's attention to duplicate or overlapping provisions therein. To improve public relations with village hall and ask the clerk to publish from time to time items of general interest from the minutes of each council meeting.

THE RUMOR MILL:  
"If Vandervort were elected, he would do away with the village administrator position."

COMMENT:  
The duties of all village employees should be compiled and job descriptions written for each position. This would prevent overlap in job assignments to each employee. However, a cross training program would be initiated to insure a smooth village operation during any employee's period of annual or sick leave. This problem would include the village administrator position.

THE QUESTION BOX:  
How would the presently elected and/or appointed village officials work with a woman as mayor?

COMMENT:  
In view of the fact that so much has been accomplished by our officials in the past two years, further comment is not in order.

KNOW YOUR CANDIDATE:  
This photo of our favorite candidate was taken in Cleveland before a successful bid for councilman in Fairview Park in 1929. He was employed by the Ohio Bell Telephone Co. in January, 1922, soon after that company had purchased the Ohio State Telephone Co.

Because of the experience of general and plant accounting, he will appear before the Public Utilities Commission of Ohio when rate increases for the Northern Ohio Telephone Co. are filed by it.

As a councilman, he served as chairman of the police and fire committee and budget committee.

He also served the community as a Scoutmaster with two troops and acted as church school superintendent and as teacher of a boys' class.

Issued by VANDERVORT FOR MAYOR COMMITTEE  
Gladyse Vandervort, Chairman

## Protection...

We once had a subscriber who had never lived in the town, did not know anyone in the town and had only lived in the town several times in his life. He was interested in our town because an aunt had died and left him her home. He wanted to receive the paper to read the legal notices so that he could comply when his property was involved.

Yet some people living in the community completely ignore the only legal source of information on laws, which affect their lives, their pocketbook, their actions, and literally change their life in some respects from the cradle to the grave. This newspaper is the only legal source you have for obtaining that legal information which you can use to protect yourself.

State laws may be enforced by local police but an ordinance establishing a new village law cannot be enforced unless that ordinance has been published twice in this newspaper. A new tax levy or a renewal tax levy may not be placed on the ballot for your vote unless the amount of the tax, the length on time of enforcement and the use of the tax money are published in this newspaper. A township zoning ordinance or a village zoning ordinance cannot legally be enforced unless that complete ordinance, including a map, have been published in this paper. Often legal notice of hearings and public meetings must be published in this paper before actions at those meetings are legal. The village, township and school district are all required by law to publish their notices in this newspaper.

A newspaper must comply with numerous restrictions set forth in the Ohio Revised Code before it can meet the requirements for legal publications. For example a newspaper must publish editorials or it does not meet the requirements defining a newspaper and cannot be permitted to print legal notices. Even the charges to be made for publication are set by the State of Ohio.

Ignorance of the law is no excuse. That's why you should protect your interests by studying the legal notices which appear in this newspaper—they affect your life.

IT IS TIME TO SPEAK UP!

- There are some important issues in this campaign.
1. RIGHT OF THE PEOPLE TO BE REPRESENTED BY THEIR ELECTED OFFICIAL.
I am one of only two councilmen elected by the people. Yet I am consistently ignored or put down by the council, excluded from their private caucuses, even conspicuously eliminated from the roster of councilmen in the six paid political advertisements boasting of the council's accomplishments. Whatever the council did that was or is good, I take credit for. Whatever it did that was or is bad, and that I opposed, I take no responsibility for.
2. RIGHT OF THE PEOPLE TO HAVE THEIR PUBLIC AFFAIRS DEBATED AND DECIDED IN PUBLIC.
It is no secret that, in its desire to "find out where the power is", the council took it from an insurance office and put it in the kitchen of a restaurant. The council has its course of action all out and dried and decided upon before it comes to the council chamber. And when it gets there, it systematically shuts off debate. The last councilman to be appointed has, to his great credit, already complained that accepted rules and procedures are breached when the council shuts off discussion after a measure has been moved and seconded.
3. RIGHT OF THE PEOPLE TO HAVE THEIR

GOVERNMENT ADMINISTERED FOR THE COMMON GOOD.
Nine months after high water allegedly caused \$60,000 in damage to the village, the council declared an "emergency" and gave the contract to make the "repairs" to the blood relative of a councilman without any public bids. One councilman who has for years tried to get the council to "clean out my creek" got it cleaned out, although those downstream don't approve. Another councilman got a storm sewer in front of his house that needed replacing for a whole generation. A third councilman got a police call station established in his place of business outside the corporation.
4. RIGHT OF THE PEOPLE TO HAVE THEIR AFFAIRS CONDUCTED IN A DIGNIFIED, ORDERLY AND LAWFUL MANNER.
A blind man can see how the council has acted with consummate rudeness and abuse toward one of its members. This conduct is a direct slur against every woman in Plymouth; one councilman even said, "You're just the spokesman for the women of Plymouth," implying that to be so is bad.
The council chose to flagellate the police chief with the letter of the law, to embarrass and slander him, even though I recommended the whole matter could be worked out by discussion. He swallowed his pride and "apologized". It cost him money to do so. The council claimed a victory, but it was a hollow one, if one at all. Plymouth is the

laughingstock of the county because its council has sought to whip the police chief and a councilman by resort to the law, only to find it didn't have a leg to stand on, as Attorney-General Brown forcefully told the council in its conflict of interest claim against me. And the police chief is still in command of the police force.
I have steadfastly sought to keep the council from engaging in conflict of interest otherwise, I even paid \$40 out of my own pocket to one councilman who presented a bill for clearing of snow, to prevent a conflict of interest finding. (And I have Robert Bachrach's name on my check to prove it!) Now a state examiner is finding numerous instances of conflict of interest, which we shall have to answer for.
The current litigation on the question of whether the village can terminate water services for non-payment of sewer bills arose because the council ignored the advice of its competent solicitor, who begged the council in writing not to take any action until negotiations could be completed with the litigant's attorney. I opposed the action of the council.
I opposed the change to the village administrator system, which everyone can see has had poor success. The first appointee, one of my opponents, was a disaster. The second appointee was only a surrogate, until the council could install

its hand-picked man.
The request for issue of funds of almost a quarter of a million dollars to channel traffic coming from the north into Brazilian and North streets, thence into New and Partner streets, was taken without debate and without resolution. Nobody has explained where the traffic will be dumped after it reaches the laundromat corner of the R&O bridge. Nor has anybody explained how much conflict of interest there is or may be if the project in fact is undertaken in Brazilian and New streets. Two councilmen own substantial land holdings there.
5. RIGHT OF THE PEOPLE TO HAVE THE LAW ENFORCED EVENLY, FAIRLY, RESPECTFULLY TO EVERYBODY AND IN ACCORDANCE WITH ESTABLISHED PROCEDURES.
The arrest and detention by order of the mayor of a young Fremont man on Aug. 6, 1971, without a sworn warrant, on trumped up charges that in the sober, cold light of day were recognized to be flimsy, placed the whole village in deep jeopardy. Legal action by the accused for false arrest would probably be sustained. But what is far worse, it could have been you or me. Probably me, considering the attitude of the powers that be.
This is not the only instance of such high handed, untoward and unlawful conduct, but it is the only one I can now document.

**The Bible Answer To:**  
**HOW CAN A GOD OF LOVE SEND A PERSON TO HELL?**

The Bible tells us that hell was never prepared for man but as it says in Matt. 25: it was prepared for the Devil and his angels. God is a God of love and has made the necessary provision so that man need never go there. The Bible says, "In this was manifested the love of God toward us, because that God sent his only begotten Son into the world, that we might live through Him."  
Now God is also a God of justice. Sin must be punished and if man will not receive Jesus Christ as his own personal Savior he must pay for his own sins in hell. In John 3:36 we read, "He that believeth in the Son hath everlasting life; and he that believeth not in the Son shall not see life; but the wrath of God abideth on him."

If a person goes to hell they will go there because they choose to go there by refusing God's way of salvation.
