

## Homecoming queen and court

# Big Red to face Crestview in Homecoming game tomorrow

Annual Homecoming of Plymouth High school begins today. Nancy Swind, 12th grade daughter of the Herbert Swinds, will be Homecoming queen. For the first time in modern history, a sister of the queen is part of her court. She is Mary Swind, 10th grader. Others are Vickie Baker, 12th grade, daughter of the Maurice Bakers; Cindy Daup, 11th grade, daughter of the Harold E. Daupes, and Marcella Edgeson, ninth grade, daughter of the Arthur Edgesons.

PLYMOUTH WILL meet winless Crestview in the football contest in the Agry Fate park tomorrow at 8 p. m., favored by two touchdowns.

The game counts in the standings of the Johnny Appleseed conference, but since neither team is going anywhere, it will count mostly in local pride and spirit.

The Big Red is not so bad as it has seemed to be in the last three contests.

Monroeville, conqueror of Plymouth for the first time, is a fine team and is ranked by those who ought to know—but simply can't in the polls conducted by the two press associations.

Loudonville should have been beaten and there are those who say that Crestline should have fallen. The Bulldogs are defending their 1970 IAC crown and, if last week's exhibition is any harbinger, mean to give it up grudgingly.

Crestline's offense simply beat Plymouth's defense.

## Fund started to buy incubator

A fund to purchase a new isolation incubator for the nursery of Willard Area hospital, begun by the members of New Haven United Methodist church, has reached \$468.85.

This project began Sept. 28, profits from a noon buffet luncheon at the New Haven church initiating the fund. Over \$400 was earned for this addition to the nursery as a result of this project.

Since the luncheon, donations from the Golden Circle of Willard and the Rebecca Lodge of New Haven and from several individuals have increased the amount, approximately half cent for the special equipment.

When a physician prescribes a specially conditioned atmosphere and complete isolation for a premature baby, the Ohio-Armstrong isolation incubator will provide it. Temperature, oxygen concentration, filtration of air, humidity and infant position can be externally controlled by a control dial on the hearing unit adjusts the exact temperature with a red warning light and a buzzer if the temperature should vary from that desired.

Two oxygen inlets on the filter assembly permit a variation in the concentration of oxygen. A nebulizer can administer medication automatically while sub-micronic filters prevent penetration by disease causing bacteria.

Homecoming queen and court for tomorrow's game promise to preserve football if Red wins. From left, Vickie Baker, 12th grade; Nancy Swind, queen; Mary Swind, 10th grade; Cindy Daup, 11th grade; and Marcella Edgeson, ninth grade.

## Homecoming queen and court for tomorrow's game promise to preserve football if Red wins.

Completing 15 of his 25 passes, he deserved a better fate. There were five others that should have been caught. Bill Van Wagner scored three touchdowns against Crestline. He has been a disappointment so far but should gain some yardage against the Cougars.

Meiser crawled through a broken window and nabbed Arthur Wright, 19 Sandusky street, where he operates a small shop. Sgt. Robert Seel reported the burglar was summoned to the neighborhood by Eugene Hamman, 45 East High street, who heard broken glass falling. note plus interest to the Peoples National bank from the sewer fund, and to reborrow the same amount on a new note for 90 days. It is to be repaid from the sewer fund.

Solicitor Joseph F. Dush reported he has filed a civil suit in Shelby Municipal court to collect a delinquent sewer bill from Leroy King. The problem of collecting the bill had been taken to the Richland county prosecutor's office, but it declined to take any action.

Village Administrator William A. Forquer said that last week's "water problem" was caused by cleaning equipment in the water plant and that iron-laden water was pumped through the system because well No. 4 did not start up as expected.

This led to a brief discussion about the seriousness of the village water supply. McKown asked that Saltzgeber Co., now engaged in trying to find a new well, meet with him and Councilman Robert L. Bachrach.

Forquer said the well diggers have recommended the village obtaining an easement on the property north of the water plant to attempt a six-inch test well. Mayor Hugh W. Washburn hopes they would drill closer in and remain on village property.

The entire council, with the exception of Bachrach, who had been excused from the meeting because he is out of town, took exception to statements that Mrs. A. L. Paddock, Jr., a councilman, made to the cemetery board at its last meeting.

Caudill said one of the witnesses, the plaintiff and one of the defendants, testified before Huron County Common Pleas Judge Robert J. Vetter Sept. 28 to facts in the case of Lonnie Caudill vs. Village of Plymouth.

## Justice remands cause of Caudill for more testimony

Caudill inaction and a judgment of \$1,000 in damages against the village, which terminated water service to his home in Route 61 on Sept. 3.

Caudill said he was told by D. Guy Cunningham, Sr., then president of trustees of public affairs, he could mark out the sewer charge on his utility bill if he did not wish to pay it.

Village Administrator William A. Forquer said if the late Lonnie Caudill's house is situated is a part of the petition for annexation believed to be in process, it would be eligible for sewer connection.

Judge Vetter continued the case, saying he wishes to hear Cunningham and Donald L. Akers, who was a councilman assigned to the utilities committee when Caudill first made application for water service.

meeting, concerning the encroachment of its powers and duties by the council.

## Where, oh where have our little boys -- and girls -- gone?

Who remembers the Class of 1941 of Plymouth High school? When its members were first graders, that is?

John R. Coe, 324 Clink boulevard, Crestline, and Mrs. Wayne Gebert, 89 Plymouth street, know the names of the graduates. And they can identify some of them from the photographs taken during the 1929-30 school year when they were first graders.

But they'd like someone to match names with faces in this photograph.

And there're some problems. Fifteen of the original class received dip-

lomas in May, 1941. There were 29 pupils listed in the class roster and there are 30 faces in this photograph.

Pupils completing first grade in 1930 included James Edward Barber, Warren E. Burkett, John R. Coe, William E. DeWitt, William Fazio, Frederick Ellsworth Ford, Eldon W. Grammiller, Vance C. Hoffman, Jo-

# Last period rally fails, Red beaten by Crestline

Plymouth rallied for three touchdowns in the fourth period here Friday night to obtain its self-respect in a Johnny Appleseed conference game with Crestline, but it never had a chance to win. The score was 32 to 28, but with only 1:59 remaining in the game, Plymouth surrendered possession and never thereafter had an opportunity to score. For nearly 20 minutes, signs were this would be the worst rout in Plymouth's modern history. The Bulldogs scored three times, the first with 8:30 left in the first period when Spencer Adams ran a yard for the TD, climaxing a drive of 61 yards in eight plays with the kickoff. The placekick for PAT was blocked. Crestline picked up on the play a 15-yard penalty for unsportsmanlike conduct, the first of 13 assessments totaling 121 1/2 yards (Plymouth picked up nine penalties totaling 75 yards). With 3:06 left in the first quarter, Tom Etlar bagged the first of three touchdowns by snagging an 11-yard pass from the southpaw quarterback, Brad Bauer, certainly the best Plymouth has seen this season. The place kick was again faulty. The Bulldogs covered 61 yards in nine plays after taking a Red punt. PLYMOUTH PUNTED again early in the second period and Crestline took over at its 25, only to march 75 yards in 13 plays to score on Bauer's 30-yard toss to Etlar. A pass for PAT was incomplete. Plymouth could not move with the ensuing kickoff and Kim Carter booted 40 yards to the Crestline 26. The visitors returning the kick four plays later and Plymouth set out to score. The Red ground game

couldn't produce a nickel — indeed, Plymouth gained only 24 yards on the ground in the first half and only 58 all night — and Larry Taylor went to the air. He hit Bill Van Wagner for four, had Ray Hughes all alone along the north sideline only to see that ball fall uncaught, then connected with two straight. The first was for 12 yards to Hughes, the second for 21 yards to Jim Cutright. With first driving out, Plymouth drove up the middle four times. The last one was a one-yard shot by Van Wagner. The clock read :04. A pass for PATs was incomplete. Crestline kicked off to start the second half. Plymouth got only nine yards on two carries by Van Wagner and was compelled to give up on downs. PATs it failed of first down at its 49. It was the second week in a row that such a crucial play produced poor results, suits. Crestline drove for the fourth score in 12 plays, all but two of them, good for 18 yards, on the ground. Allen Laferty took it in from three yards away. The clock read 3:25 of the third period. Bauer's pass to Etlar for PATs was good and Crestline led, 26 to 6. Plymouth went 59 yards in 14 plays for its next score. TAKING CRESTLINE'S kickoff at its 41, after a good runback by Kelly Clark, the Big Red developed the only successful ground attack of the night. Fifteen of the yards were obtained by the air, the remainder by old-fashioned crunch-it-out. Van Wagner bolted home from two yards away at 9:31 of the fourth period. Hughes' run for PAT was short.

Crestline struck back with the next kickoff, going 55 yards in 10 plays, the last one a three-yard toss to Etlar by Bauer after he had hit Laferty for 20. Laferty broke five Red tackles; it must be said here that Plymouth's tackling, and its defense overall, were unworthy of the name. The pass for PAT was a failure. Behind by 32 to 12, Plymouth struck with a vengeance. It took the next kickoff and drove 66 yards in four plays, all but three of them in the air, for its third score. Taylor threw 19 yards to Cutright, who went in at 4:05. A penalty against the visitors gave Plymouth a second chance and Taylor threw to Cutright for the PATs. A PERSONAL FOUL penalty cost Crestline an opportunity to play ball control in the next series and a poor punt that carried only 15 yards gave Plymouth possession at its 33. The Big Red struck again, covering 67 yards in five plays, all of them through the air. The last play was a nine-yard toss to Van Wagner by Taylor. Taylor passed to Hughes for the PATs. ## Just What Has The Plymouth Council Been Doing?

This week we present for your consideration a review of both Civic and General Improvements. Many of these improvements took much time and effort to complete. Some of the accomplishments required the assistance of outside agencies.

### CIVIC IMPROVEMENTS

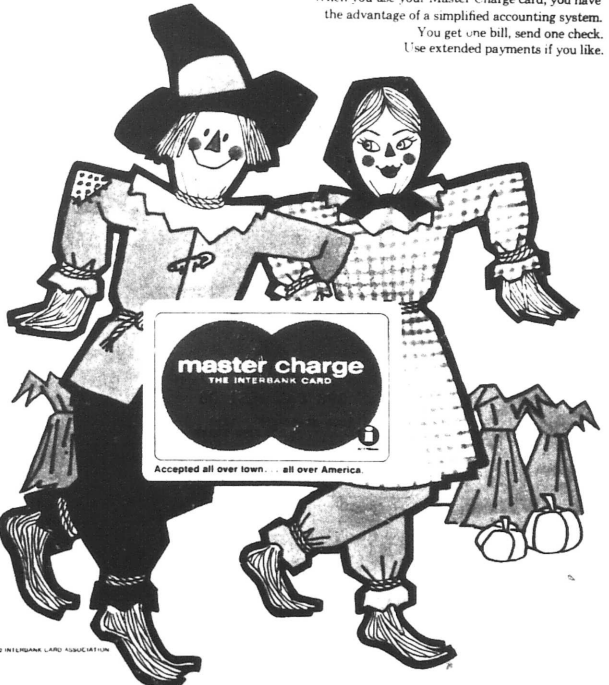

1. We requested the A.C. & Y. and B. & O. Railroads to clean their right-of-ways and repair the bridge on West Broadway. All of the work on the A.C. & Y. right-of-way has been completed, the B. & O. has promised to repair the bridge within a month.
2. We encouraged both Railroads to repair their crossings.
3. We have spent a lot of time and money on the Park. Park lights have been rewired and new lights are being placed.
4. We consolidated all city stocks and supplies stored in various buildings and set up an inventory to control duplication and prevent waste.
5. We installed a time clock to insure a fairer system of payroll control, both for the employees and the city.
6. We held machinery sales to get rid of obsolete machinery and replaced sold equipment with newer, more efficient machines.
7. We installed riprap on Huron River to help prevent erosion.
8. We authorized the cutting of a oval

- track at the water tower site for Go carts and Mini bikes.
9. We helped to improve and upgrade the Little League field.
10. We assisted industry in establishing new products to increase employment in town.

### GENERAL Improvements

1. We have upgraded the personnel working for the Village and also have increased their salaries.
2. We have had Village property surveyed to determine boundaries.
3. The sides of all roadways leading into Plymouth have been mowed, cleaned and cleared, (fences and brush) giving it an inviting look.
4. With the co-operation of the Plymouth Area Boy Scouts, we had a village Clean-up Day, the first in the history of Plymouth. We might add that it was highly successful.

## to cook, Auntie suggests blackberry vinegar, pudding

By AUNT LIZ.  
Capturing a couple boxes of blackberries can make a week happy.  
But how come it is so hard to find them? There used to be a time when they grew all over the place, wild.

It really wasn't until about a 100 years ago that people took time to cultivate them and actually sell them. One of the first entrepreneurs of this tasty little fruit was a fellow named William Lawton from New Ro-

chelle, now part of greater New York. In 1853 he brought some to a farmers' meeting and suggested they be named for his village, but his friends thought the berries so beautiful that they said, "Call them Lawton."

There's another variety now called Dorchester. There are probably others, but since I hardly ever see any, it is safer to simply refer to them as what they are: blackberries.

When it comes to real pie crust for, not the package stuff. With any leftover berries, you can sweeten them to taste with fine sugar or powdered sugar and pour over a little orange juice. After they are well chilled, serve with whipped cream.

Have you ever heard of blackberry vinegar? It can be a really special treat with fruit salad. You need two quarts of berries. Clean them up, but do not wash them. Washing can take away from the flavor. Add a quart of ordinary cider vinegar and let it stand at room temperature for 24 hours.

Strain the vinegar, add three cups of sugar to it, bring to a boil and simmer for a half hour. While it is cooking, occasion-

ally stir in a cool, dark wine. THEN THERE'S blackberry pudding, which only takes two cups of berries. For this you wash and drain the berries. Toss them gently with a fourth of a cup of flour.

In another bowl cream a third of a cup of butter with one half cup of sugar. Beat two eggs quite well and gradually beat in a half cup of sugar. Then you add the two mixtures together. Sift together a cup and a half of flour with two teaspoons of baking powder and salt. Mix with the creamed ingredients with a half cup of milk to which a little vanilla has been added. Spread a layer of the batter in a buttered baking dish, cover with a layer of berries, keep making layers until

green for about a half hour. This can also be served with whipped cream if you feel particularly lazy or if you can make a sauce for it by creaming a fourth of a cup of butter with a cup of powdered sugar. When it is creamy, stir in two stiffly beaten egg whites and a fourth of a cup of sherry. The bowl then should be placed in boiling water while you continue to beat the sauce until it is foamy, then rush it to the pudding and serve immediately before it unfoams.

Ordinary vanilla ice cream can become a real party dish if it has blackberry sauce on it. It is easy to make and can be stored for a while. Make a syrup of three fourths of a cup of water and a third of a cup of sugar.

half a lemon. Simmer on low heat until the berries look as though they are falling to bits. Puree it in a blender, cool it, and that is it, unless you have some blackberry brandy handy, then add about a quarter of a cup.

## VANDERVORT FOR MAYOR BE SURE TO VOTE NOV. 2, 1971

This is the second report to electors on results of a continuous opinion poll being conducted by the VANDERVORT FOR MAYOR COMMITTEE.

To conduct this survey, we wish again to point out that about one-third of local telephone numbers were selected at random from the telephone book. The results will be shown each week. The last report will be in the Oct. 23 issue of The Plymouth Advertiser.

The cumulative data regarding each candidate tabulated by the VANDERVORT FOR MAYOR COMMITTEE is as follows:

	7/24	8/12	9/2	9/25	10/9	10/23
Brumbach not dec.	2%	1%	1%			
Paddock	18%	16%	18%			
Vandervort	27%	18%	11%	6%		
Washburn	21%	15%	11%	9%		
Undecided	34%	49%	61%	66%		
% of voters polled	4%	10%	12%	15%		
Not reg.	8	24	31	41		

NOTE: These percentages are based on estimated total of 420 votes cast. COMMENTS AND ANALYSIS:

We call attention again to results tabulated from the most recent survey, ending Sept. 25. Three candidates -- Paddock, Vandervort and Washburn -- have changed position in the race since the last report on the forthcoming Nov. 2 election. Two hopefuls have lost in popularity to Mrs. Paddock while Brumbach is holding his former position.

It will be noted further that our favorite candidate, Vandervort, lost 5% while Washburn lost only 2% in popularity, giving him the lead over Vandervort for the first time.

Also, the number of non-registered voters increased by 10.

The opinion poll shows Mrs. Paddock with more voter support than all the other candidates combined.

The present status of the candidates is expected to change as the election date draws near.

There is a direct mathematical corollation of the percentages between gain and loss for each candidate as compared with the undecided voters. This is to direct attention to the 2% increase in popularity of Mrs. Paddock and a corresponding loss by Washburn, and also the 5% loss by Vandervort. These are reflected in the 3% gain in the number of undecided voters.

The task of this committee is pointed up by this survey. We must gather strength from the undecided voter by stepping up the intensity of our campaign. To do this we are adding another feature: **KNOW YOUR CANDIDATE.**

As explained in our report last week, you can enhance the position of your candidate by calling 687-6061 or 687-6344. All opinions expressed are kept confidential, you may be sure.

**SECOND PLANK, CAMPAIGN PLATFORM:** To broaden the health, education and welfare duties of the council and, if requested, to give field services to the senior citizens and assist them in their applications for Medicare and other benefits. Many of our citizens cannot keep up with all the claims correspondence and hundreds of dollars are lost by them. This service would work in cooperation with the local American Legion service officer and welfare committees.

**THE RUMOR MILL:** "Do not vote for Vandervort! He doesn't use alcoholic beverages and would close down the local pubs."

**COMMENT:** Those who believe such a rumor would probably be too busy to vote. However, it would not be to the best interests of the community to drive business away. "Try Plymouth First" is a good slogan. I learned more than 25 years ago that a rumor is a good thing for shortchanging barkeeps so they could buy silk shirts and new cars, while my attire was of very poor quality and my transportation a \$10 coupe.

**THE QUESTION BOX:** How many of our present village officials were burdened with the disaster and maintenance contract workload since July 4, 1969?

**COMMENT:** Although one is not supposed to believe everything he reads in the papers, I noticed the report of council accomplishments last week omitted the name of one councilman. Why anyone would vote for a do-nothing official (they are all out of step but me!) for mayor is an unsolved mystery. What is your opinion? Call either of the telephone numbers listed.

**KNOW YOUR CANDIDATE:** I was born at the close of the Spanish-American war in Blanchester, O., the fifth of nine children of Benjamin F. and E. Cornelia Willis Vandervort. In 1903 we moved to Hamden, O., where my father installed a steam boiler and electrical generating plant for the village. I entered grade school in the fall of 1904.

This photo was taken in Jackson, O., in 1902. The little man is dressed in the latest fashion of the day. The photo not being a very plain copy, I will describe his attire.

The fez-like straw hat complete with tassel holds unruly bangs in place. The serious expression is partly of fear of the man under a black shroud behind a big vox with a big glass eye while another person stands poised with a powder flash ready for my bravest moment. Get a load of the full blouse with overlaid lace vestment, the mutton-type sleeves crowned at the shoulders with white lace epaulets. The shoulder finery by the designer of the outfit (my mother) was no doubt influenced by the officers' uniforms of the recent Boer war. The full pleated skirt and long black stockings and buttoned shoes completed the outfit.

I am sure many persons will remember the studious of the times: a cane chair, spring footback bedstead and bear rug, at no extra cost.

The dresses of boys induced better child behavior patterns when at play, it helped the babysitter and there was no "I hate girls" complex. It eliminated the problem of so many early marriages and high divorce rates of our young people today.

## HONORS

Sunshine's Motor Sales has not only had the recommendation of the Better Business Bureau, but is proud to announce we are now a member of the Better Business Bureau.

Standing above is Dick Barbree from Columbus, Ohio, handing "Sunshine" Billy Inmon, his membership certificate to Ohio and National Independent Automobile Dealers' association, a high honor. This organization is made up of high standing automobile dealers that have representatives in Columbus and Washington who promote better and higher standards for independent dealers.

Not any of this 50% for me  
and 50% for you, BUT

## 100% GUARANTEE IN WRITING

Yes, we guarantee the complete Drive-Train of your car, engine transmission and rear end. Yes, this is where the big expense is, and we feel that if something happens to one of these items, you don't want a happy customer to pay 50% of what can be a big expense. This guarantee is good for 30 days or 1,000 miles. We feel this is just another reason we have sold 300 cars. Just ask around and you'll find out that we back up what we **SELL**.

## ANNOUNCEMENT

We are very proud to have **Kenny Inmon** better known as **Sunshine No. 3** with us. **Kenny** is manager of maintenance and reconditioning.

We work hard to keep nice cars and keep them clean. We also have hours which are convenient for the customer, six days a week from 9 a. m. to 9 p. m. We also have real down to earth personal touch with every sale. We will never get too big to take time and make friends. You don't have to buy a car in order to stop in and talk to us. We are thankful to be a business in Willard and intend to be here for a long time -- and we intend to sell more and more cars as time goes on. For we have established a good reputation, and by having a bigger and better inventory, we are going to sell cars cheaper and cheaper. Yes, as you heard, we are growing up by keeping prices down -- we're the fastest growing dealer in Northern Ohio. We say to you, the people, a great big **Thank you!**

## NEW FROM THE HOME FRONT

The Lord has blessed our home with another Little One. Her name is **Lora Lynn**. We are thankful for her. This could mean we might have to sell more cars.

People have asked the question:  
"Where do you get so many clean cars?"

1. Surprisingly enough we are able to buy a lot of cars locally just from people bringing them in to sell.
2. I buy cars from new car dealers in this area, especially in the Mansfield area.
3. I also go to a sale in Columbus and buy cars from dealers in that area. I work just as hard buying good clean cars as I do selling them.

Below is an Index on subjects and questions we feel the people want to ask and we want to answer:

### SECTION I: GUARANTEE

### II: ANNOUNCEMENT

### III: WHERE DO WE REALLY GET OUR CARS FROM?

**Duane Stockmaster** says to Sunshine No. 2, "I got the best deal under the Sun." He thought that we sold cars at such good deals that he wanted to have a part in selling them. So he is now a field representative for us and would like all his friends to contact him if they need a car.

**Art Kennard** says, "Savings are really shining your way at **SUNSHINE'S**, and I like the way he stands behind his cars."

## FINANCING

If you have any questions about financing a car, we have the answer. We are happy to say that we have had the full cooperation of our local banks and finance companies. So if you have any questions as to the value factor or how to finance it, **PLEASE SEE US.**

## OFFICES

Come down and see our new and modern offices. They will offer privacy for us to discuss business and you will be in a clean and comfortable atmosphere.
