

# On teachers

Seven of 14 North Olmsted residents graduating from Kent State this year took majors in teaching.

Three of five North Royalton residents did the same.

Twenty-five of 41 Parma residents are now prospective teachers.

And so it goes. We haven't been through the whole list that closely, but the proportions seem much the same with every town listed.

The teacher labor market is saturated. Prospects for employment are bleak, especially for the newly graduated.

Why is there a teacher surplus?

Certainly difficulty in funding school programs inhibits hiring of some teachers. Jobless professionals in other fields, some of whom have been engaged in the electronics industry, have helped to glut the market. Economic conditions have deterred many prospective retirees from quitting.

But, as we see it, it boils down to this: no high school graduate should be permitted to take his diploma without a careful warning that the field of education is now, and is likely to be for some time to come, not fertile. School-age population will be smaller. Teachers are the youngest group of workers in the country, so fewer vacancies will occur by death and retirement.

Should not some form of internal control be applied to the number of those admitted to a teaching curriculum? This could be effected by more rigid entrance requirements and higher performance standards. Most students in education will tell you their "education" courses are all but a joke.

And should there not be some way of reexamining graduated teachers to insure that they meet the most rigid standards?

Their union seeks to expand employment by agitating for smaller classes, hence more teachers; for earlier retirement and for employment of only certificated teachers. In Wayne county schools, there were 155 applicants for one vacancy.

Unless the General Assembly is willing to fund the cost -- and we doubt that it is or is likely to be -- and so long as economic conditions and steady inflationary trends prevail, it doesn't appear that methods recommended by the union will succeed.

Aimless college students who regard teaching as a catch-all, or "something I can do if I can't do anything else", must be disbanded. Forcefully.

With greater selectivity by teacher-training colleges, we'll get better teachers and fewer educated, unemployed teachers. With rigid reexamination of graduated teachers, we'll weed out the misfits and establish a professionalism that has been too weak in the past.

## What next?

The following is quoted from page 1, the Somerset Messenger-Gazette, Somerville, N. J., issue of June 10, 1971, under the headline "Smaller Welfare Checks/ Bring Rising Resentment":

"Mrs. Rivers and her 13-month-old daughter share with Mrs. Rivers' mother the \$350-a-month rental on the neat house at 11 Mastogon drive in Somerville where they live together.

"Mrs. Rivers' husband is in Vietnam.

"Her mother, Mrs. Helen Dawson, who supports four other children ages 10 to 17, also receives welfare aid."

We may be guilty of over-simplification, or quoting out of context, the way Spiro T. Agnew accused Columbia Broadcasting Co.

But, so help us, the quotes are exactly as they appeared in our copy of the Messenger-Gazette. You can take it from there.

AT LONG LAST --

## Fire phone hookup ready

Installation of a new 50-line fire bar is nearing completion, Northern Ohio Telephone Co. reports today.

C. J. Turner, commercial manager, Bellevue, says the new alerting system is scheduled to be turned up for service by July 15.

The new fire-alerting system will permit up to 50 firemen's telephones to be connected to the system for receiving information and/or directions when a fire is reported by telephone.

Turner notes a separate telephone ringing machine is being installed with the new fire-reporting system. This precaution will protect the local telephone ringing equipment from becoming overloaded at the same time the telephone fire-alerting system is being used.

The manager adds that with the installation of the new equipment, it will not be necessary to change the present telephone number for reporting a fire.

## Schools submit budget for 1972 with \$38,972 deficit foreseen

It's budget time in Ohio schools.

Plymouth Board of Education will meet Monday after conducting a hearing on a proposed budget of \$926,800, down from \$952,531 for the current year.

All the same, expenditures for 1972 will exceed anticipated income by \$38,971.95 -- unless Supt. John Fazzini and the finance committee can come up with some economies.

At least one of them is already in hand. An additional EMR unit has been approved by the state department of education. Anticipated income is \$13,000 in fresh state support. Anticipated outlay is \$8,000.

Unless the General Assembly changes the school support formula, in itself a likelihood if the governor and the speaker of the House can compromise on an appropriations bill, anticipated revenues during 1972 will be as they were in 1971: \$402,309.05 in general property tax revenues and \$442,307 in state foundation support, plus \$18,200 in miscellaneous revenues.

The clerk, Mrs. Kenneth V. Myers, and Fazzini have programmed expenditures for 1972 thus: Administration, \$47,900; instruction, \$378,500; libraries, \$20,000; transportation of pupils, \$57,000; Playgrounds, \$200; other auxiliary a-

gencies (notably teacher and staff retirement payments) \$113,500; operation of school plant, \$81,000; maintenance of school plant, \$20,500; general outlay, \$8,000; capital fund debt service, \$200, totaling \$926,800.

General fund balance as of Jan. 1, 1972, is forecast at \$7,012, less than one per cent of the total cash outlay.

Registration of Miss Susan Dias, who will go to Tiffin schools, will be acted upon. She taught high school English.

Engagement of a new high school principal to replace E. Steven Rhodes, moving as assistant principal to Fostoria, and an EMR teacher, if one can

be found, will also occupy the board. Public hearing on the budget will be had at 7:30 p. m.

### BETTER THAN ASPIRIN --

## Indians knew their onions!

By AUNT LIZ  
Next to a good cup of coffee, which can cure all sorts of things, aspirin is probably the most popular medication we have.

Miss Powers was attired in a gown of polyester shantung and imported lace that she fashioned herself.

Everyone knows it is actually salicylic acid, but if there were times when you were too busy doing other things besides learning in school, as I was, you may not know what it really is.

The name comes from 'salix', which is willow. Moons ago the Indians discovered that if they brewed tea from willow bark, they could cure headaches, fevers and help aches and pains generally.

The same substance is also found in wintergreen leaves. A minister back in the colonial period had heard about it and tried it out on friends who complained of rheumatic pains. And it worked.

Another thing the Indians knew about and passed on to the pioneers was the use of onions. If your nose is stuffy from a cold, sniff onion juice, or cut up an onion, put it in the oven and sniff the steamy odor. That is also considered a good way to even prevent a cold. Eating raw onions can help you get to sleep. They didn't have all the fancy pills we have now.

Onion soup has really just become a chic thing to serve in the last 20 years or so, but for centuries it has been a standby in the Indians' diet. It simply perked them up and made them feel good.

worked very well. There is an old saying, "How can a man die who has sage in his garden?" That little herb took care of all sorts of upset stomachs,

worms, sore throats and was even used for shampooing. The Indian ladies used it to keep their dark hair truly dark.

Last year, all John Benson saved was \$54.32.

This year, he joined the Payroll Savings Plan.

Poor John. Money just seemed to slip right through his fingers. Every time he planned to stash something away, there wasn't anything left.

Then John decided to join the Payroll Savings Plan where he works. Now, an amount he specifies is automatically set aside from his check before he gets it. And invested in U.S. Savings Bonds.

Because John has become such a systematic saver, he's almost forgotten about it. When he gets around to remembering, he's going to have quite a nest egg laid away.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2% payable

as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

If you keep forgetting to save something out of your check, join the Payroll Savings Plan and let somebody else do the remembering for you.

Take stock in America. Now Bonds pay a bonus at maturity.

# One game in limbo for Red

Financial problems of South Central school district may have an effect on Plymouth's varsity football schedule, but it's too early to tell.

South Central's Board of Education asked last week for a formal audit as the first step in verification of lack of funds with which to conduct classes. If the audit proves what the board says it will prove, South Central schools' may close by Nov. 1.

If this occurs, there will be no adverse effect on Plymouth's varsity football schedule, which opens the season Sept. 10 with a game at Greenwich.

But if the board should opt for a later opening date so that classes would not close between Nov. 1 and Jan. 1, the Trojans naturally could not field a football team in time to play the game.

## 'Bus Stop' next at Huron

"Bus Stop," the vigorous Broadway comedy hit about the tempestuous courtship of a boisterous, inexperienced cowboy and a scrappy Ozark girl turned night club cutie, will be the second offering of the 23rd season of the Huron Playhouse.

This production, at Ohio's oldest continuing summer theatre, will play a five-night run, July 13-17, in the air-conditioned McCormick school auditorium in Ohio Street. Written by William Inge, author of such well-known hits as "Picnic" and "Dark at the Top of the Stairs," this play ran for 60 weeks in New York, delighting playgoers with its heart-warming portrayal of a band of travelers stranded in an all-night diner during a blinding snow storm. The movie version was released in 1956 with Marilyn Monroe in the role of the night club singer.

"Bus Stop" relates the poignant story of a group of unsophisticated, salt-of-the-earth people who come to know themselves and each other better after their westbound bus is delayed in a small town near Kansas City.

The deceptively simple plot revolves around the stormy romance of Bo Decker, a champion bronco buster who treats women like prize cattle and Cherie, the slightly-tarnished chanteuse, who has been physically abducted from her job in a Kansas City bistro and tries to escape from Bo's blundering signs of affection.

Another passenger on the bus, Dr. Gerald Lyman, a highly-educated alcoholic who has lost an uncounted number of

faculty positions, comes under the spell of a starry-eyed, innocent high school girl working as a waitress in the diner.

Brian Marsh, Turner Falls, Mass., will portray the exuberant, aggressive cowboy. Margie Cronewett, Norwalk, will appear as Cherie, the put-upon Ozark girl.

Dr. Lyman, the itinerant tippy professor will be played by Donald F. Kardux, Bowling Green, and Barbara Callender, Silver Springs, Md., will portray Elma Duckworth, the native but poetic young waitress.

Kitty Ratchford, New Albany, will be seen as Grace, the hard-boiled, lonely proprietress of the diner who reaches an understanding with Carl,

the verbose bus driver, played by Bill Bell. Dayton, Samuel J. Zachary, Shavertown, Pa., plays the firm small town sheriff who calms down the excitable cowboy with his fists. James R. Bianchi, Lakewood, appears as the easy-going Virgil, who is both hired hand on Bo's ranch and father figure of the callow cowboy.

Certain time at the Huron Playhouse is 8 p. m., Tuesday through Saturday. Reserved seats may be obtained at the regular admission price of \$2 for adults and 75 cents for children under 12. Money-saving bargain books and group rates are also available. Reservations may be made by mail or by calling Huron (419) 433-4744.

## TIME OUT FOR MEDITATION

Hm, there's Jim that I just ran into down on the factory lot. Seems but yesterday that we were in school together, and then side by side in church each week-end. We were inseparable until he had to quit school, go to work to support his widowed mother and the family. Now I am president of this concern and he is an employee. I would there were some way I could renew our comradeship. But that, I guess, is impossible—different stations in life, different interests, our families do not move in the same circles and would perhaps have nothing in common. But wait! Jim belongs to and still attends the same church. It seems to sustain him wonderfully while I, well, I seem to have been just too busy. Too busy for what? Too busy to attend services and share a glorious church fellowship with an old friend like Jim? I'm going to change that right now by asking Jim to let me share in this fellowship and I know that he will be happy in doing just that. Here I go! And I surmise my family is going to like this too. They will all "love" that pastor of Jim's.
