Can Red start season with win over Trojans?

Odds are even it can!

Plymouth's Big Red football team has an even chance to open its 1972 season with a victory in Mary Fete park tomorrow at 8 p.m.
 Its opposition is South Central, spilling for a win over Plymouth.
 Coach Ron Minard has a contingent of 12 letterman back from last season's Trojan eleven. Guyson and a seasoned quarterback although he is only an 11th grader, leads the South Central offense.
 Minard scouted Plymouth's controlled scrimmage with Buckeye Central here Aug. 30 and at Western Reserve Saturday.

Plymouth did not do well against the Bucks, partly because some of its key players were out of action. Sid Ream, who is looked upon to give maturity and poise to the offense and, more importantly, to anchor the line-backing corps, was out with a cast on his arm.
 And Mike Hamman did not suit up.
 THE BUCKS SCORED two touchdowns on long runs around the rightside of the Red line and one after a pass play, also in the right secondary. Schoolboys are generally right-handed and prefer to go to their right. It is axiomatic that plays that aim for the left side,

especially in Class A ranks, tend to start out, at least, with better odds of success.
 Coach Larry Root said at the beginning of the season last month that "we'll be all right if we can stay healthy."
 How prophetic his statement was is shown by the events of the past week: injuries to key players debilitate the Red offensively and defensively because there is no depth. Some Red fans watching the Buckeye Central scrimmage remarked that a larger squad, by number, anyway, was fielded by a substantially smaller school, although the number of bodies on the Plymouth side was depleted by some injuries.
 South Central is understood to have 42 players unformed. If this is so, that's 11 more than Plymouth can use.
 BUT THEY DON'T PAY off in Class A ball on numbers (leave on the scoreboard). What count are skill - perhaps 25 per cent of the issue depends on it -- and emotion - certainly 65 per cent of it. The rest is pure luck.
 The Big Red marching band, directed by a woman for the first time since it was organized, will perform during the half-time.

Ontario favored in JAC

Ontario is the favorite to win another Johnny Appleseed conference football crown.
 Clear Fork will be tough. Clear Fork will be tough - the Colts swamped Wellington, 5 to 1, in a pre-season scrimmage and will open against Galton - and Fredericktown is on the way up.
 Coach Jerry Harris, new on the job at Fredericktown, laments the failure of the passing game. In a scrimmage with Cardington, the Freddie won, 26 to 8. But the first eleven scored only eight points.
 Intestinal influenza has gripped at least two starters.
 Fredericktown scrimmaged New London Saturday night.
 Lexington and Loudonville look to be first-flight contenders.
 Crestline, Crestview and Plymouth rate no more than second flight chances.
 These forecasts are based on first hand observation of some of the teams and interviews with coaches in other instances.
 The Warriors are loaded for bear.
 Crepusculum in this will be "another Ontario outfit, which is doubly tough because it plays a single wing offense and every other team has to work a new defense in a week's time.

 Lot 166, Shiloh, was sold to Hazel D. Haverfield Scherer by R. Veard Scherer, Richland county recorder reports.

Chlorinate effluent, Shiloh told

Chlorination of its sewer effluent by May 1, 1973, and connection of all commercial and residential places to the sanitary sewer by July 1, 1973, were ordered by the Ohio Water Pollution Control board against the Village of Shiloh last week.
 The OWPCB has set Nov. 1 as the deadline by which plans for chlorination facilities and connection of all sewers shall be submitted.
 Shiloh has also been ordered to separate storm waters from sewer drainage and to file periodic reports of progress since these lines on Oct. 1, 1972, Feb. 1, June 1, and Aug. 1, 1973.

 A copy of the complete policy statement is available in the superintendent's office and may be examined by the public during working hours.

Freeholders to be exempt from \$50 deposit for utilities

Property owners are to be exempt from paying a security deposit for utilities.
 Village council agreed by motion Tuesday night to instruct Solicitor Robert A. McConic to rewrite Ordinance 15-71. The words "new landlord" are to be deleted.
 Councilman Donald E. Akers said property owners should not be required to pay the deposit, since there is little likelihood they would go off leaving a bill, but that renters should be required to pay it.
 The deposit was increased from \$30 to \$50 last November.
 A meeting is set Monday night with Robert Garrett, head of the Civilian Defense unit; the police and fire committee. Councilmen Frank R. Garber and James L. Jacobs, Sr., Fire Chief J. A. Morrisson, Assistant Fire Chief Woodrow Smith and Mayor Elizabeth G. Paddock to discuss the possibility of merging the CD with the fire department.
 Councilmen Toy Patton and Garber said a well-

trained man is needed to head the department when Meiser resigns.
 The mayor said any replacement should be chosen by testing and upon the advice of the sheriffs of Huron and Richland counties.
 Plymouth will again refile the Ohio Municipal Electric league. The council approved a payment of \$50 for a life membership and authorized Village Administrator Kenneth Amburgey to attend a meeting of the league near Medina next week.
 The mayor urged the council to rejoin the league, since in the past the village has profited by the work done by the member villages and cities in regularizing electrical rates and in contracts with the power companies.
 Amburgey presented a bill from Fenor Development in the amount of \$9,329.50, which is claimed for the installation of its water line. The developers, Leonard Fenner and Harry Forquer, say the village accepted the plan for development several years before the lines were installed so that the cost is the village's responsibility.
 The council did not agree.
 Donald E. Akers, the administrator at the meeting or met last week with Department of Highway engineers from Columbus and Ashland to consider

Chief counsels what to do about heating

Fire Chief E. A. Morrison today urged residents to check home heating equipment now to assure safe, trouble-free operation in the coming winter.

"Whenever combustion takes place without sufficient oxygen, dangerous carbon monoxide is produced," Morrison warned. "Making certain that all appliances and heating equipment are in proper working order could save your life," he said.

He also cautioned that a qualified serviceman should be called in to make repairs if do-it-yourself inspections reveal something is wrong.

"The few dollars you spend will save you money in lower fuel costs and help assure your family's safety," he said.

When buying new heating equipment, Morrison suggested a four-point checklist:

- (1) Be sure it has a place for a vent pipe connection.
- (2) Arrange installation by a qualified installer.
- (3) Be sure it is inspected and approved.
- (4) Get clear and complete instructions for safe operation of the unit.

For inspecting existing heating equipment, the following "do and don't" precautionary measures were outlined:

DO:

- see that heating equipment is vented to a good chimney.
- make sure that the chimney is clean. Blow smoke into the chimney opening to see if it is drawing well.
- be sure the vent pipe goes up hill from heating equipment to chimney.
- use a safety thimble to keep the vent pipe from going too far into the chimney. Seal thimble into chimney with cement.
- be sure the chimney has a cleanout opening under the vent pipe and be sure the opening is covered with a cap.
- allow some outside fresh air into the space where the heating equipment is located;

BUT DON'T:

- put a damper in the vent pipe.
- try to get more heat out of your equipment than it is built to produce. If your rooms don't heat properly, you may need a larger heater.
- seal furnace room

windows and doors with tape and rags. Your heating equipment needs fresh air to burn properly without creating fumes.

-- hesitate to get everyone out of the house if you smell fumes or a

-- use your caking range top or oven for heating your home.
