Plymouth formally bowed out of the Johnny Applessed conference at Ontario Friday hight with a convincing victory over the Warriors. It was the only conference win of the season for the Big Red. The score was 67 to 52. The winners led for most of the contest, although the dead changed hands six mimes during the third period. Ontario is not an outstanding basketball club this season – the Warriors had won just four games prior to eason - the Warriors had you just four games prior to this one, while losing 12 - and before an enthusiastic funcharacteristically small crowd it showed.

Where Plymouth won the game was with superior ebounding and outstanding shooting.

When does size begin to count in athletics?

Those who've argued for so long that some alignments in schoolboy athletic conferences are patently bad because of outrageous differences in numbers of likely participants can now have a field day.

The figures are in. The official data supplied by the Ohio High School Athletic association show male enrollments in the upper three grades (and female, as well) of all member schools in Ohio.

Ohio. Consider the Firelands

conference.

Edison is the largest school. It has 261 boys in grades 10 through 12. It's Class AA.

Next comes Western Reserve at Collins, with 184 boys. Mapleton, at Polk. in Ashland county, is third largest with 177 boys. Then comes New London, with 167.

The four smallest schools are Black River, east of Sullivan, Ashland county, with 160; Monroeville, with 142; South Central, with 117, and St. Paul's, the only private school in the league, with just 113. (St. Paul's is empowered to recruit pupils from all of Huron county and a few townships in Erie

Knox and Danville.

What of their numbers?
Crestview is the biggest school of the lot, the data show. It enrolls 192 boys in grades 10 through 12 (and 177 girls). Plymouth is next, with 145 boys (and 188 girls). Lucas is No. 3, with 111 boys (and 102 females). Assuming East Knox and Danville are admitted, they'll be appreciably smaller. The Blue Devils enrolled 92 boys in grades 10 through 12, exactly 100 fewer than Crestview. There're 96 girls at Danville. East Knox is slightly bigger, with 104 boys and 102 girls. By these lights, Crestview should dominate the Blacknord Valley conference. And Danville should be the habit-und down and the should be the habit-und the should be the

SPECIAL MESSAGE FROM BILLY INMON

Allow me to please take this time to thank all the wonderful people in the Willard-Plymouth area who have made it possible for me and my family to prosper and to be a part of your lives. I believe all any businessman has is his customers. Without his customers he has no business. Our customers have made it possible for us to build one of the finest dealerships in the United States, located on a beautiful 23-acre tract of land on Route 13 near Greenvich. I hope the people of Plymouth will be willing to take a 15-minute drive and still give me an opportunity to serve their automotive needs.

I want to take this time to answer some of the questions that have been asked of me lately. What will happent to Sunshine's BiotosSales? First, let me explain that my brother, Dave Immon, will no longer manage Sunshine's Biotor Sales, because he has bought a business of his own in Greenwich, which will be completely independent from Sunshine's Motor Sales and Billy Inmon Ford. We wish Dave well. As you know I can't be two places at once, so I consider this an opportunity to consolidate. However, many people have expressed disappointment in our moving from Willard. With this in mind. I have a plan under consideration that will work out for my customers and myself. This plan will be to purchase 30 cars and trucks from Billy Immon Ford and bring them to Sunshine's location, the first Thursday, Friday and Saturday of every month. We would only have three days of overhead instead of 30 days. I can sell more cars for much less, because of the lower overhead and I could still personally come to Willard and handle this three day sale. This plan is about 90% sure as of this date. Hope this will show that I still have an interest in Plymouth, and in my customers here.

Let me say again that I think this will work out better for the both of us. All warranties would be taken care of at the new Service Dept. at Billy Inmon Ford on Route 13 near

Let me close by saying again I am committed to my cutomers in the Willard-Plymouth ea. Willard has been good to me and I hope my customers find this plan satisfactory and

I couldn't believe it and actually crossed the street to take a better look.
Going to the "city" is an experience, for me anyway, because we so seldom do. Sounds silly? But as long as we can find what we need in the countryside, why bother with four lanes of bumper to-bumper traffic?

Once a year the two of us do go to Columbus. Way back in the 50s and 60's, it was more fun than now. Downtown Columbus had all sorts of nice things.

Back then I would treat back in the contraint of the contraint

This is a Chinese version of left-overs, and you all know how Chinesey we are becoming. What I cannot quite figure out from what I have read of the great dinner our country had at the White House for the visitors is why they served them an almost French-style dinner. This dish would have been great and they would have liked it. Just like home.

In a skillet or if you are lucky enough to have a wok, heat three tablespons of oil. To this add a half cup of chopped onions which are to be cooked until transparent. An Indian friend once taught me this for making curry: the flavor of the onions comes out, undercook, do not overcook.

You can do this same recipe with chicken and beef if you have the left-overs.
Those Chinese simply do not waste a thing. And you must give them credit that they do come up with something tasty. As Americans we can really enjoy it, but I kind of doubt if they really know how well we are all eating their way.
