The Smart Way

for a high school senior or graduate to join the Marines.

Be quick. Act fast. Join now. We have good jobs for high school graduates. But remember, there are several million of you, and only a few thousand openings in the Corps. So now is the time to act. If you've got the qualifications, you can even sign up for a guaranteed program today, and not begin training for up to nine months.

Go Regular. If you qualify, we can guarantee you training in exciting fields like aviation technology, aircraft maintenance/ordnance, mechanical/electrical, motor transport, radio communications, and more.

Go Reserve. You could get the same kind of exciting training, and then return to hometown service one weekend a month and summer duty two weeks each year. It's a great part-time job with full-time pride.

Whichever way you go, get to us early, before our quotas fill up.

And remember this! It won't be easy. We are the Marines. An elite force. Our ranks are small, and we intend to stay that way. We're not looking for everybody. Just a few good men with ambition, energy, determination. And brains. Men who'll make good Marines.
