It's just good common sense to want great gas mileage these days. But there are more economies built into these Toyotas than just what you'll save at the gas pump.

Durability. It makes sense to buy a car that'll hold up. Toyotas are built to last. That's why you see so many older Toyotas still on the road.

Reliability. It makes sense to buy a car you can depend on. Toyota built its reputation with reliable cars. For example, you can't buy a new

Toyota that doesn't have a transistorized ignition system for dependable starting. And there are 27 different Toyota models to choose from.

Value. It makes sense to buy a car that'll hold its value. Toyotas have traditionally high resale value. A Toyota is like money in the bank.

*These EPA results are estimates. The actual mileage you get will vary depending on your driving habits and your car's condition and equipment.

YOU ASKED FOR IT. YOU GOT IT.
